## U.N. May Act to Rebrin Case

The United Nations may intervene in the case of Irene Rebrin, the University of Lavish Columb a teacher who is being held in Vancouver for deportation. Miss Rebrin wrote to Dag Hammarskjold, United Nations' secretary-general, asking for help. Originally Miss Rebrin who came to Canada on a visitor's visa in 1958, was ordered deported because she is a stateless person. Later she was said to be a security risk.

# ANNOUNCING

the BANK OF MONTREAL

# canada centennial scholarships

A SEVEN-YEAR PLAN

124 SCHOLARSHIPS of $750 to $5,000 in VALUE

. . . Every Starter Eligible for Final Awards

To commemorate the Centenary of Canada's Confederation and the 150th anniversary of Canada's First Bank . . . in 1967

*If you are a high-school student* — well up in your studies and confident of graduating next month — here is a great opportunity for you.

*If you are a parent*, with a son or daughter ready for university this year, here is important news.

We are searching for 50 top high-school students graduating this June . . . young men and women ready for intensive university training in the Arts or Sciences.

From these 50 students, we hope to find eight outstanding young scholars for Canada's Centennial in 1967. They will be young Canadians of exceptional scholastic attainment — well-equipped and anxious to blaze new trails for the benefit of Canada . . . in scientific research, in the social sciences or in the humanities.

One of the winners could be you . . . or your son or daughter.

**50 SCHOLARSHIPS of $750 . . .**

In a nation-wide competition opening this week, 50 of the most promising young Canadian men and women, graduating from high-school this June, will be awarded Bank of Montreal Scholarships, valued at $750 each, for entrance to first-year University next autumn.

These young Canadians will be drawn from all of the ten provinces according to population, with a minimum of two scholarship students from each province.

They will be judged by independent University Selection Committees on the basis of academic standing and character. They will enter a Canadian university of their choice as Bank of Montreal Scholarship Students to pursue studies in Arts or Science. Professional courses, such as law, medicine and engineering, are not included. *B of M Scholarship Students may hold other monetary scholarships for the first year only.*

**48 SCHOLARSHIPS of $1,500 . . .**

*In the Spring of 1961*, the top 16 of these 50 students will each be awarded a B of M Scholarship of $1,500 for second-year university training.

*In 1962 and 1963*, provided at least good second-class grades have been maintained, these same students will each be awarded a B of M Scholarship of $1,500 per annum . . . leading to graduation in 1964.

**24 FELLOWSHIPS OF $3,000 . . .**

*In the Spring of 1964*, the top eight of these 16 students will each be awarded a B of M Scholarship of $3,000 for one year's study anywhere in Canada or abroad.

*In 1965 and 1966*, provided a satisfactory standard of work has been maintained, these same students will each be awarded a B of M Scholarship of $3,000 per annum for further study leading to their Doctorate.

**2 BANK OF MONTREAL CANADA CENTENNIAL AWARDS OF $5,000 . . .**

*In 1967*, to culminate this seven-year plan, the two top students — one in Arts and one in Science — will be chosen, from all 50 participants in the plan, to receive the Bank of Montreal Canada Centennial Awards of $5,000 each for a further year of study anywhere in Canada or abroad.

Thus, to each of these two winners — if they have been participants throughout the plan — the Bank will have provided financial assistance amounting to $19,250.

**HOW SCHOLARSHIP STUDENTS ARE CHOSEN . . .**

Scholarship students are chosen on merits alone — academic standing and character — by independent Selection Committees of faculty members of Canadian universities. *The Bank will have no part whatever in the decisions taken by the Committees.*

In developing the plan, the Bank of Montreal is in no way seeking personnel for its own staff — but men and women who — through scientific research and pursuits in the public service — will contribute in some notable way to the common good of the nation in the years ahead.

**HOW STUDENTS IN ALBERTA (and Mackenzie) SHOULD APPLY . . .**

Interested Albertan students, graduating from Grade XII this June with High School Diploma, should visit their neighbourhood B of M branch and ask for the "Handbook for Candidates" for the Bank of Montreal Canada Centennial Scholarships. This booklet explains the Scholarship Plan in detail and outlines the simple steps required to register your application for consideration by the Selection Committee of Alberta for one of the four scholarships available in 1960 to students in this province.

If there is no branch of the Bank in your district, then — and only then — you should address your request to The Superintendent, Bank of Montreal, 140 Eighth Ave. W., CALGARY, Alta.

*Yours for the asking . . .* this booklet contains your application form

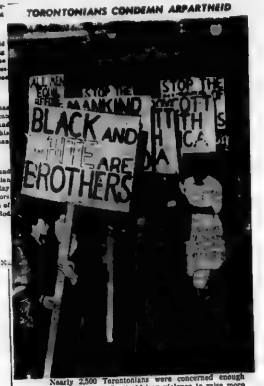
## TORONTONIANS CONDEMN APARTHEID



Nearly 2,500 Torontonians were concerned enough about the racism of South African violence to raise more that $4,000 and pass a motion condemning apartheid. The group attending the rally called on the African government to restore basic freedoms and stop apartheid or withdraw from the British Commonwealth. Pictured above is a scene at the rally where placards were paraded.

## THE Homemakers

**NEW HOPE FOR AUDIENCES:**

We are not getting the most out of our men and women who make up the vast membership of our many adult organizations. The young is not to prevent boredom among audiences but to find ways by which all the members of our organizations can contribute, through experience and intelligence to human advancement.

The following methods which organizations may apply to their own situations with respect to new ways of holding meetings may be familiar to some and new to others.

(a) GROUP DISCUSSIONS: The chairman of a meeting asks three persons sitting in one row to turn around and face the three persons immediately behind them. This group selects their own chairman and a secretary-spokesman. When the time allotted to over each secretary-spokesman reports on behalf of their groups. This type of discussion enables all the members to express their opinions, both timid and otherwise and also makes the audience feel they have contributed in some way.

(b) BRAIN STORMING: Is best suited to small groups. A problem proposed and for a period of ten or fifteen minutes the members of the group are to write down their most ridiculous ideas. These are recorded without comment or criticism. This type of method works best when it is applied to really difficult problems, problems that are ordinarily discussed. What we lack most is means of getting sharply and directly at the spontaneous ideas on peoples minds. The advantage here too is that each person is likely to be willing to stand up and put forth his idea for fear of being ridiculed.

(c) CIRCULAR RESPONSE: By using this method the audience is seated in a circle, size of circle depends on attendance. The chairman then puts forth the question to be discussed. The discussion begins with any volunteer expressing his views. The person at his right has a chance to talk, and so on until the discussion has gone around the circle. No one is allowed to speak a second time until his turn comes up again; in addition any member in the circle may express his own opinion, but with the opinions expressed by people who have spoken before. Advantages here are that this method remedies bad manners, monopolizers and is more suitable for mixed age groups. The timid person speaks more freely, once he knows it is his natural right.

In all there cases two people can be appointed — one to summarize the results and the other to act as an observer.

(d) SYMPOSIUMS: are like panels except that the several speakers give short talks on various aspects of a topic. If, for example, Adolescence was the topic chosen, one would talk about emotional development; the second social development; the third on physical. These talks should be short. Open discussion may follow after each speaker has completed, or general question period at the end.

These are just a few of the methods that can be used; the additional ones will be included in next week's newsvolumn.

## Banquet held Friday night for Ryley grade 12 Graduating Class

A banquet in honour of the ten members of the Ryley High School graduating Class was held in the Catholic Parish Hall on Friday, May 6th. Present besides the members of the graduating class were they parents, teachers and representatives of the County of Beaver School Board.

Preceding the banquet, which was catered to by the members of the Catholic Ladies AM, the members of the graduands and the girls of the graduating class gave presentation corsages while the boys received carnation boutonieres. Master of Ceremonies for the banquet was Bert Pedersen. The main address was given by Mr. Aldridge of the Department of Education.

Following the banquet everyone returned to the school gymnasium for the graduation exercises. The graduation address was given by Father Purcell of Tofield. Valedictorian was Miss Margaret Jensen. Gordon Whitson gave the salutory address.

Mr. Ed Magnuson Reeve of the County of Beaver, presenting the school with a complete set of the encyclopaedia Britannica and also had the pleasant task of presenting, on behalf of the County, a statuette trophy to the Ryley Junior Basketball team who won the basketball championship in the County this year. Captain of the team, Dianne Cavanaugh received the trophy for the team.

A pen and pencil set was presented to Gary Chomik by Herman Pratt, Noble Grand Master of the Ryley IOOF. Gary received this honor for making the highest marks of the Ryley Grade Nine class last year.

Included on the program was a duet, "Moments to Remember" by Dianne Hunka & Eileen Bootsgar.

School Principal, Mr. J.D. MacDonald presented each of the graduands with a photograph of the graduating class.

To close the program a quartet composed of Daryl Albrecht, Bert Podratzky, Dianne Hunka and Eileen Bootzgar rendered "God Be With You Till We Meet Again."

A dance followed, with music by the Combottes.

Members of the graduating class are Margaret Jensen, Betty Wilkes, Gail Lasher, Myrna Ons, Gail Wayne, Gloria Kosak, Gloria Bootzgar, Pat Cavanaugh, Gordon Whitson and Gary Verguste.

### WEED-KILLING CHEMICALS THEIR PROPER AND SAFE USE

The importance western farmers now attach to the use of chemicals for controlling weeds is emphasized by the fact that no less than 15,000,000 acres of field crops in the Prairie Provinces were treated with the 2,4-D and MCPA types of herbicides in 1959. Proper and timely application of such selective chemicals as 2,4-D and MCPA can increase yields and reduce the cost of producing grain crops.

*Early Treatment Essential.* There are impressive advantages of timely and early treatment of grain crops with 2,4-D, MCPA, and similar herbicides. They are very practical ones too for it means that farmers can: (1) Kill broad-leaved annual weeds when they are most susceptible, and before they enter into competition to the crop plants. (2) Take full advantage of favorable weather for spraying. (3) Get better weed kills with less chemical. (4) Minimize the extent of crop damage. (5) Obtain maximum crop yields.

*The Herbicides Safely.* Whenever systemic herbicides such as 2,4-D are used there is danger of spray, dust, or vapour drift. Every possible care should be taken to prevent drift when these chemicals are used in the vicinity of susceptible crops, gardens and shrub or tree plantations. Spray equipment used for applying these herbicides should not be used for the application of other agricultural chemicals (insecticides, etc.) on susceptible crops. The warnings and cautions as well as the instructions given on the label should be followed carefully. They are there, by government approval, for your protection.

*Amiden and Carbyne.* Concerning the use in 1960 of Avadex and Carbyne—the new chemicals for the control of wild oats. Farmers in Western Canada should remember that Avadex—a "pre-planting treatment" is officially recommended for *general farm use* on one crop only in 1960. This crop is flax. The other new chemical —Carbyne, which is a "post-emergence treatment", is not officially recommended for *general farm use* on any small grain crop. Under no circumstances should a flax crop be treated with Carbyne.

## Alberta Wheat Pool declares dividend

Alberta farmers are in for sharing in a $3,000,000 distribution being made by the Alberta Wheat Pool. This represents the patronage dividend on grain and seed delivered to Alberta Wheat Pool elevators during the 1959-60 crop season.

Cheques amounting in approximately $700,000 have been mailed out to Pool elevator agents who will make the distribution to some 30,000 members. The balance of the payment, amounting to $2,316,000, will be credited to the accounts of member patrons in the form of reserves.

On a per bushel basis, the patronage dividend is believed by Pool officials to be the largest ever distributed in this province. On wheat and flax it works out at six and one-third cents a bushel, and for coarse grains three cents a bushel. Above one-quarter is to mark.

There is no cash dividend on seed deliveries, but $19,000 is being credited in reserves to members who marketing seed through the Pool. This represents a dividend of from one-half to 3 percent of the gross value of seed delivered, depending on the kind marketed.

The reserves represent the members' ownership in the organization. At present, reserves in the members' hands total $15,169,000.

This patronage dividend brings the total distributed by the Alberta Wheat Pool since its beginning in 1923 to $74,179,000. Of this amount $9,258,072 has been in cash and $16,851,014 in reserves. A substantial amount of these reserves has already been redeemed in cash as part of the Pool's plan of revolving the reserves so that at all times they will remain in the hands of operating farmers.

Last season the Alberta Wheat Pool handled 61,504,000 bushels of wheat and 15 million pounds of acreage seed. Net earnings totalling $3,500,591.

Mr. and Mrs. Bill Davison and family visited at the home of Mr and Mrs Charlie Sears on Sunday evening.

Miss Doreen Lee of Edmonton spent the weekend at the home of her parents Mr. and Mrs. Ray Lee.

Sunday visitors at the Ray Lee home were Mr. and Mrs. Dave Nichols of Edmonton.

Deepest sympathy goes to Mrs. Lorne Lee on the passing of her mother Mrs. Ed Stanlaus, who passed away at the Home for the Aged at Wetaskiwin on Tuesday.

Measles are going the rounds in our district. Barry Williams, Floyd McIlmitz and Ricky Carbulls are the unfortunate victims this week

## Tofield Town Council holds Mill Rate at 57 for 1960

The Tofield Town Council held a special meeting on Wednesday evening, May 18 for the purpose of establishing the mill rate for 1960.

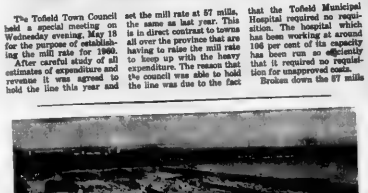
After careful study of all estimates of expenditure and revenue it was agreed to hold the line this year and set the mill rate at 57 mills, the same as last year. This is in direct contrast to towns all over the provinces that are having to raise the mill rate to keep up with the heavy expenditures. The reason that the council was able to hold the line was due to the fact that the Tofield Municipal Hospital required no requisition. The hospital which has been working at around 106 per cent of its capacity has been run so efficiently that it required no requisition for unapproved costs.

Broken down the 57 mills will be divided as follows: Municipal 18; School 40 and Hospital Benefits Act 4. The mill rate last year was broken down as follows: Municipal 12; School 37; Hospital Benefits Act 8 and Tofield Municipal Hospital 5.

The school divisions requisition is up almost $5,000.00 over 1959.

The town's assessment is $910,000.00 a rise of almost $70,000.00 in the past year.

What the new budget means is that instead of having to dip into their public works funds to meet the rising school costs as was done last year the council will have an extra mill to work on in the general government of the town.



### BEWARE OF GRASS FIRES

Fire losses in the Province as a result of grass and stubble fires burning out of control have totalled several thousand dollars in recent months, according to Mr. H. Bridges, Alberta Fire Commissioner.

A rural church valued at $10,000 was destroyed by a stubble blaze at Linaria. The noon fire became uncontrollable and raged a quarter mile in one hour, to consume the building.

The day previous a grass fire burned the Grace Children's Home at Dimsdale near Grande Prairie.

In 1959 a grass fire touched off by a spark from a shaving burner threatened a large lumber yard and mill at Rocky Mountain House and resulted in loss of $92,000.00.

Mr. Bridges commends the fire departments throughout the Province who have developed a safe and sure program of spring cleanup and trash disposal. This co-operation of the public, however, is the greatest deterrent to the annual loss. The grass fire started on a calm day may suddenly become a threat if the wind should change, or if proper fire break and extinguishing equipment is not available. Commissioner Bridges recommends that all persons intending to burn grass or stubble to check with the local fire authorities before starting, to keep plenty of water and wet sacks handy, and to provide an adequate fire break. The evening is the best time for burning grass as there is less chance of wind. The Fire Commissioner's Office cautions citizens from leaving grass or stubble fires which are not properly extinguished.

Shown above are the remains of a church recently consumed by an uncontrolled stubble fire.

### FIRST OF JULY FLASHES

(by Grace Phillips)

One of our local churches has already decided to enter a float in the First of July Parade. How about yours?

A feature added to the "Action on Youth" theme is being planned for July First, Dr. Cal Annis, High School Physical Education teacher is planning to present a display of gymnastics executed by pupils from our local high school.

"There's something about the home-town band," says a popular song and how right it is! This year we hope to have our local band, under the baton of bandmaster Ron Burton, augmented by the pupils of Mr. G.S. Linklater of Edmonton in our parade. The junior members of the band would again point up the contribution of youth to our community.

How is a band going to be written up in co-Tofieldean to tell them how welcome they will be here on July First, and that provision for the comfort of senior citizens will be made in the "Golden Age Club" tent.

As well as the Tofield band, our parade will boast the Holden band and the Majorettes. These girls make a very attractive addition to the parade. Be there to see them.

### Pathfinder club organized at Ryley

A Pathfinder Club was organizing at Ryley Sunday evening when a number of young people of 9 to 16 years gathered at the home of Mr. and Mrs. Gunner Cutrand. The purpose of the Club is to provide healthy, wholesome activities for young people, with adult ownership.

After a short worship period, Director Cliff Patterson of Tofield chaired the meeting while these activities the young people would most enjoy were presented.

Members of the Club are to select a name for the Club at the next meeting which will be held at the Cliff Patterson home, when a kite making session will be held. An outing to fly on the kites is to the planning.

Another feature of the Club will be the study of a number of subjects for which badge tokens are available for each members who passes an examination on the completion of the course. In all there are well over 100 honor subjects from which the members will choose. These range from birds, trees, flowers, farm animals, mammals to music, astronomy, first aid, swimming, wood work, and a host of others.

For their first study the members have chosen Trees, To study a number of trees in their vicinity, name and recognize them and be able to identify buildings by each most collect cones and mount a collection of fifteen different leaves and cones. They must know what woods are used for what purposes, and be able to classify the various leaf shapes.

It is planning to have an activity meeting every other Sunday evening and every alternate Saturday morning to take a hike, ride, or work on specimens already collected.

After the business session, a campfire was built and everyone enjoyed tonight marshmallows and games.

### Elk Island Park Golf Course Fees take jump upwards this year

After more than ten years of holding the line the cost of living has caught up with recreation facilities in National Parks.

This summer it will cost a bit more to play golf and tennis and to dock a boat. But even the prices increases will keep the fees under those charged for comparable facilities outside the National Parks.

The new fee schedule now in effect for all recreational facilities in the National Parks have been under study for some time," Resources Minister Alvin Hamilton said. "Despite rising costs of development and operation many fees have remained unchanged for years and consequently are no longer producing sufficient revenue to maintain facilities to the standards required of the National Parks."

Fees for the use of all recreational facilities in the Parks, Mr. Hamilton stressed, will be kept under review to ensure an equitable balance between revenue and operating costs. The fees, even after revision, will not meet any part of capital costs.

Over the years many improvements have been made in the Parks' golf courses with no corresponding rise in green fees. The new scale starts at $1.50 for 9 holes (9 hole courses only) on week-days. $3.00 on weekends and holidays. Fees for 18 holes are now $3.50 and $7.00. Seasonal rates have been raised proportionately ladies now paying $60 and men $75, with the family rate costing $100.00 for eight-year spring and shallow water sewage ... Tofield Municipal Hospital ... Baptist congregation cancelled their evening service and united en masse. The CGIT formed the choir and the Explorer group sat in the front pews. The latter held a short graduation service for one of their members, Miss Carol Watson who had completed six years in CGIT, had attended Leaders' Camp at Kootenay Beach, Sylvan Lake, and helped in many ways in the group. She received her graduation certificate and a red rose from the minister, Mr. Bell.

Mr. and Mrs. Earl Rose had their infant daughter baptized at the morning service on Sunday.

### POLICE COURT

One young man of an Edmonton address appeared in Court to answer to the charges of operating a motor vehicle without a number ... one license plate missing. He pleaded Not Guilty, but when asked for his defence, he did not seem to have any. He for some when disturbed by the children going home for dinner

Mr. and Mrs. Friesen live on 6th avenue.

It appeared to the J.P. that the Constable had been very lenient with him in giving him only one ticket for two offences, each one of which carried an equal penalty. He was fined $10.00 and costs or in default 5 days in jail. He asked for and was granted seven days to pay the fine.

Court was held again on Monday evening at 8:00 to accommodate a man of Tofield address who had been arrested the day before on a charge of being intoxicated in a public place, the Police Court decree. ... to be placed in jail to await his trial before the J.P. Court he received back $8.00 of his original $20.00. He is not going to drink any more, he says.

### Wild Duck brings whole family to town lawn

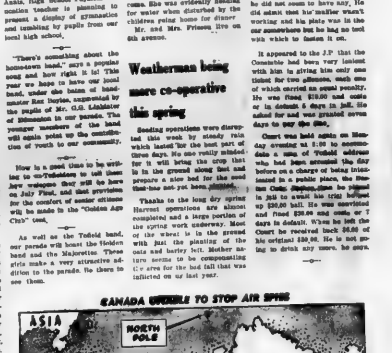
Thursday noon Mr. and Mrs. Bill Friesen looked out their window and beheld a female mallard duck and twelve little ducklings waddling down across their garden. The mother duck, evidently startled by the school children on the next lot cuddled herself down with her brood next to the garage where she blended in nicely with her surroundings. She stayed there for about half an hour before taking her family back in the direction from which she had come. She was evidently headed for water when disturbed by the children going home for dinner.

### Weatherman being more co-operative this spring

Seeding operations were disrupted this week by steady rain which lasted for the best part of three days. No one really minded for it will bring the crop that is in the ground along fast and prepare a nice bed for the seed that has not yet been planted.

Thanks to the long dry spring of March operations are almost completed and a large portion of the spring work underway. Most of the wheat is in the ground with just the planting of the oats and barley left. Another rain storm seems to be compensating if it were for the bad fall that was inflicted on us last year.

### CANADA UNRIBLE TO STOP AIR SPIES



There isn't an anti-aircraft missile in the whole of Canada capable of engaging a Soviet spy-plane or bomber if Russia decided to send one. The best that could be done over Canada would be to despatch U.S. fighters armed with rockets. In the U.S. there is a continuous protection blanket of air defences coverage. Pi- ... a map of defence lines and ... may down spy planes.

## RAISING A JUVENILE DELINQUENT

Houston, Texas gives to the Mission with much about the law twelve [illegible] a juvenile delinquent:

1. Give the child anything he wants. [illegible] he will grow up believing the world owes him a living.

2. When he picks up "bad words" or "dirty" words, laugh at him. Then he will think he's cute. He will run off and pick up some others that will blow the top off your head.

3. Never give him any spiritual training until he's twenty-one, and let him decide for himself. By this same logic he never teach him the English language. Maybe when he is old enough he will want to speak Basic.

4. Praise him in his presence to all the neighbours; show how much smarter he is than the neighbour's children.

5. Avoid the use of the word "wrong." It may develop in the child a "guilt complex". This will prepare him to believe that when he is punished later for stealing cars or assaulting women that society is "against him" and that he is being persecuted.

6. Pick up everything after him: his shoes, his books, his clothes. Do everything for him, so that he will be experienced in throwing burdens on others.

7. Let him read anything he wants. Have no concern whatever for what goes into his mind. Provide him with Lily cups for his lips, but let his brain drink out of any dirty container for words and ideas.

8. Quarrel frequently in the presence of your children. In this way they will be prepared for broken homes later on.

9. Give him all the spending money he wants; never let him earn his own.

10. Satisfy every craving of the child for food, drinks, and everything that has to do with the sense of taste and touch, gratifying every sensual desire.

11. Take his part against policemen, teachers and neighbours. They are all "prejudiced" against your child.

12. When he gets in real trouble, always defend yourself and say, "I never could do anything with him."

## OF MANY THINGS

[illegible] who are associated in one way [illegible] tion, and I was [illegible] plain that they [illegible] [illegible] the [illegible] [illegible] demonstration than [illegible] in any political action.

That interested me. I got hold of reports from the World Council of Churches and studied them. And then I obtained a book published by The Church League of America. This book, called Collectivism in the Church, written by Dr. Edgar Bundy, is extremely alarming.

Dr. Bundy's assertion is that many things being done by [illegible] Church organizations are far removed from what many local ministers and their parishioners have ever intended. Bundy claims and he seems to have plenty of documentation for his claims that there is a conspiracy to dominate the Council and use its machinery to promote socialism and communism. Hundreds of ministers are alarmed at the situation but can not seem to do anything about it, according to this Church League of America publication.

The very suggestion that communists, who deny God, are able to make use of the avenues of communication set up by Christian churches is so shocking it is difficult for me to credit. Yet Dr. Bundy quotes in page after page of his book, statements of officials of the Council, which appear to deny the deity of Christ. Indeed, the book claims that two communists were on the Central Committee of the Council when it met at Evanston, and that two more were added. No means less!

I know that many local ministers read this column. Many of them get wonderful sympathy from the Council. I would dearly like to hear from them about this matter. Do they find, in the literature from the many departments of the Council, any indications that Dr. Bundy's fears are justified? Are traditional Christian doctrines being sacrificed for the ecumenical movement

## Record Season Predicted for CNS "Prince George"

VANCOUVER — Canadian National Steamships luxury steamer, the "Prince George," which, since 1949, has carried nearly 60,000 tourists from all parts of the world on summer cruises between British Columbia and Alaska, will enjoy a record season this year, according to CNS officials here.

The 1,500-ton ship begins its regular cruise schedule May 24 and will operate on seven and one-day voyages, leaving Vancouver, September 16, by steps with the increasingly heavy demand for space.

Most of the vessel's additional cruises are booked to capacity. However, due to berths here unavailable, limited accommodation is still available on the first three sailings, May 24, June 3 and 13.

## Men attempting to contact life on other planets

Four sciences, astronomy, chemistry, physics and biology, have now united in suggesting that intelligent beings may exist on other planets. At the same time, man's command of electronics is enabling him to try to make contact with this life, reports the Jane Reader's Digest. In fact, an attempt is even now being made.

Dr Frank Drake and Dr T. K. Menon of the U.S. National Radio Observatory have set up monitoring equipment for "Project Ozma," a systematic search for signals from life in outer space. They listen for any artificial pattern mixed in with natural radio noise.

So far they are only listening. If radio contact should be established with superior intelligence elsewhere in the universe, a common "language" would have to be worked out. Dr. Drake and Prof. Giuseppe G. Sbacchi, mathematician and astronomer, believe that communication barriers are overcome but surmountable. Whatever "language" is adopted must be [illegible] [illegible] will be a long [illegible] [illegible] Dutch chickens invented.

There are some scientists who turn on those of surprising acumen if they should describe any. But others feel the risks of a reply may be terrible: to specimens, we may be the finest beef animals ever!

Ryley Mannville District

### MANYS DRESS

With graduations, weddings & numerous other functions scheduled for this summer here are a few pointers for you home-makers to help you when shopping with your son or husband for clothes.

From the point of view of color, line or pattern, there is no basic difference in selecting clothing for men or women. In other words the same principles apply in both cases. Men know, for example that lines and colors can be manipulated so that they will add or detract from apparent height or width and that plaids or other large patterns have the effect of increasing the impression of size in any figure. Many men limit their wardrobe to one type of suit, and if they are to feel well dressed for every occasion such suits should be conservative in line and inconspicuous in color.

As a reminder of some of the devices a man may use to bring out his best points through his choices in clothing, the following suggestions are listed:

FABRICS: Narrow stripes, such as herring-bone patterns, make a man look taller and more slender. Details, plaids make him seem shorter and broader. Bulky materials like heavy tweeds, give an impression of added weight.

COLOR and DESIGN: Dark suits are as a rule give the illusion of added height, whereas lighter colors [illegible] the opposite effect. Tall men can afford to wear a contrasting color for a jacket, whereas, the short heavy individual should avoid doing so. Tall men are to an advantage in that they can wear coordinates and separates very well, such as striped jacket with dark trousers. If your suit is striped, shirts and ties should be plain without any distinct design on them, however if the suit is plain (without any distinct design) one can wear design in shirts. An individual has more variety in the latter.

COATS: A light coat worn with dark trousers adds breadth to the upper part of the body and shortens the entire figure. The shorter than hip length coat gives height to the figure. A close fitting coat calls attention to the silhouette and would be unbecoming to a stout person. A coat with a long narrow lapel makes a man look taller than one with a short, wide lapel. Since all details should be in scale with the figure, a stout or very large man should wear lapels of medium width or slightly wider.

TROUSERS: The longer the trousers, the greater will be the impression of height. Wide trousers add bulk and so make a man look heavier.

HATS: High crowns add height to the figure and length to the face. Broad brims widen the face and shoulders, whereas, the very narrow brims make a large face and figure seem larger by their contrast. Turned up brims are good for a short stature and a short neck. Rolled brims are becoming to a small face.

OVERCOATS: Single - breasted overcoats with narrow lapels add height. Double breasted overcoats with wide lapels add width and decrease height.

If your budget is limited, choose conservative lines and colors, avoid conspicuous lines and stripes. Black, dark blue, and dark grey overcoats can be worn with almost any suit. Brown is more limited in its use except for the man who uses brown as a basic color. It is also wise to plan your wardrobe with respect to the basic color chosen.

Foremost among many nationalities whose colorful history and significant accomplishment has added lustre and character to the tapestry of Alberta's development are the Scots. Proud, rugged, fearless, these men brought the advance guard of civilization to the land at the foot of the mountains as early as the 1700's, as explorers and fur traders.
Beside the river highways on which they penetrated the wilderness, they established their trading posts: Fort Edmonton, Rocky Mountain House, Fort Dunvegan, Quagmire House, Vermilion, Assiniboine, White Earth, Jasper House, and a dozen others. Here, proudly retaining the dress, language and customs of their native Scotland, they worked—alone and lonely—in the new North West to build the beginning of a way of life we enjoy today.
The Calgary Brewing and Malting Co. Ltd.—itself a pioneer in Alberta—is proud to salute the four Alberta pioneers, the Scottish explorers and fur traders.

## BARDO NEWS

(Last week's news)

BARDO — Mrs Harold Benning of Pasadena, Calif telephoned home on Sunday to wish her mother Mrs Ingh Nora a happy Mother's Day and her sister Gladys a happy birthday.

Tommy Strehlau was able to come home from the hospital on Thursday having entered on Monday and suffering from bronchitis. We are glad to report he is feeling much better

Mrs Alma Foshaug and Mrs. Axel Kindley took the bus to Edmonton on Tuesday and attended the funeral of Mr Tomie Harold Kindley brought the ladies home in the evening. Old timers will remember Mr Tomie who taught school in the old log house in 1912. This school house is still standing on the Reeves farm.

Mr. and Mrs Dennis Plumb visited Grandma Foshaug Thursday afternoon and visitors in the evening were Mr and Mrs George Foshaug, Gerald and Glenda & Mr. and Mrs Leif Foshaug, Lorry and Robert

Mrs Inga Nora and Gladys Severson spent Thursday at the John Nora home in Camrose. John has sold his home and the ladies were there to help him pack in preparation for moving.

The regular meeting of the W. C. T. U. was held at the Axel Kindley home on Wednesday afternoon Mrs. Alma Foshaug read from Psalms for devotion and Mrs Robert Burwatch and Mrs. Carl Nelson gave very interesting reports on the Edmonton district convention. We were informed that the provincial convention dates had been changed to June 16, 17, and 18. The meeting closed with the Motto and Table Prayer Mrs. Kindley served a lovely lunch to 14 members and 2 visitors.

The Press report from Edmonton district WCTU convention showing that six contestants took part in the starting silver medal contest and Judy Bell of Ritchie United Church, Edmonton was the winner.

Seven contestants took part in the Gold Medal contest and Debbie Cornish of Pentecostal Tabernacle was the winner.

The following officers were elected: President, Mrs. H. Short of Edmonton, First Vice-President, Mrs. E.S. Ferguson of Camrose. Second Vice-President, Mrs. Bill Thompson of Edmonton; Corresponding Secretary, Mrs S. P. Brimacombe of Tofield. Recording Secretary, Mrs. M. Nagstad of Grand Prairie; Treasurer, Mrs. H. Lowery of Armena. Y.T.C., Mrs. E. Kennedy of Edmonton, L.T.L., Mrs. Carl Nelson, Round Hill

Combining is winding up and wheat is needed. Today it is raining so farmers are more hopeful for a crop this year.

## Town Of Tofield
## NOTICE OF PROPOSED LOCAL IMPROVEMENTS

NOTICE is hereby given by the Council of the Town of Tofield pursuant to the provisions of The Town and Village Act that the Council intends to construct and install as local improvements watermains and sewer mains on the streets listed hereunder and that the council intends to charge part of the cost thereof by way of special frontage assessment for local improvement against all lands abutting on that portion of the streets whereon or wherein the said water and sewer mains are to be laid, at an original annual unit rate per front foot of 28 cents per front foot for water mains and 16 cents per front foot for sewers such annual assessments to be paid for a period of twenty-five years.

AND NOTICE is further given that unless a majority of the owners of the lands that may be assessed therefor, owning at least one-half in value thereof, petition the Council against it within two weeks after the last publication of this notice, the said local improvements will be undertaken and a portion of the cost thereof assessed by the system of assessment hereinbefore mentioned.

Any owner so specially assessed may at any time commute the amount of balance remaining unpaid in respect thereof by paying the amount of the original assessment charged against the land together with interest and penalties chargeable in respect thereof less any amounts previously paid on account thereof.

DATED at the Town of Tofield in the Province of Alberta, this 10th day of May 1960.

### TIMMINS AREA FLOOD DISASTER

A state of emergency was declared in Mountjoy township, near Timmins, Ont., as the rampaging Matagami river remained uncontrolled. More than 1,000 residents have been evacuated, many by boat as land vehicles were all but useless. The river has been rising an inch an hour and officials fear the drinking water supply will be contaminated. Shown above is the main street in South Porcupine a neighboring town.

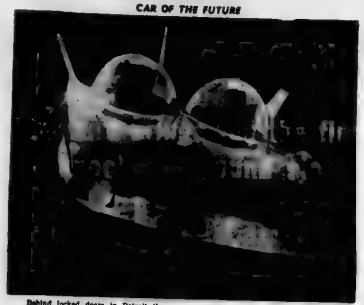
### CAR OF THE FUTURE



Behind locked doors in Detroit these days, skilled auto designing teams are working on the car in your future, not tomorrow's models, but those of a decade or more away. The double bubble beauty shown above bursting around the General Motors proving ground outside Detroit is the Firebird III. It is powered by a gas turbine engine. Styling experts say cars are about as low as they can get and they believe steel will continue to be the best material for the mass-produced vehicle.

## Garden Graph

By DEAN HALLIDAY

### SELECTING GLAD BULBS

Gladiolus are grown in every state in the United States and Canada, so it really is an obligate plant and growing is so many different types of soil and climate. It does require sun, and should be planted where it can receive full sunshine all day.

The importance of purchasing good glad bulbs cannot be stressed enough. They should be healthy, disease free and of medium size. Do not be misled by size when purchasing gladiolus bulbs. A high crowned bulb, such as shown in the accompanying Garden Graph, is a much better buy than a large, but flat or concave bulb, also illustrated. The large, flat bulbs are usually older. Younger bulbs will shoot into bloom earlier and will grow with more vigor.

A progression of blooms can be had by planting the bulbs at intervals of about two weeks. Another method calls for planting all the bulbs at one time, setting some two inches deep in the soil; others three inches deep, and so on down to a maximum depth of six inches. They will bloom in this order. All gladiolus corms should be treated before planting to control thrip. The best control is to dust the corms with five per cent DDT cort.

SOUTHERN ONTARIO PROTECTED BY NIAGARA A-MISSILES

At a U.S. army base on Grand Island, near Niagara Falls, ready-to-go nuclear missiles could hurl a Soviet plane from the sky in 12 quickly as it is metal that the Soviet Union could launch one. The Nike-Ajax and the Nike-Hercules. Pictured at left is the Nike-Zeus anti-aircraft missile on its launching pad. It is still under development, but in the future may offer the ultimate in some means of protection from "incoming" jets.

# Jackie Parker to be Guest Speaker at Sportsmen's Banquet June 1

Under the auspices of the Tofield Community League everything is all set for the Father and Son Sportsmens Banquet, Wednesday, evening, June 1st.

Guest speaker for the evening will be Johnny Bright of football fame. He is a Saskatchewan award winner and top ground gainer in the W. I. F. U. Accompanying Johnny Bright will be another Schebler's star athlete, runner and football star Eskimo quarterback Jackie Parker.

Other big name sportsmen who will be in attendance at the banquet will be Matt Baldin, Brier Curling Champ & popular Edmonton sports figure. Steve Hendryk, present coach of the University of Alberta Golden Bears Basketball team, and a former basketball and football star.

Invitations have also been extended to Jerry Melnyk, Detroit Red Wings Hockey player and Glenn Hall Chicago Black Hawkes goal tender. Both former players of the Edmonton flyers. The list is being expanded and promises to be the largest group of well known sportsmen ever gathered in Tofield at one time.

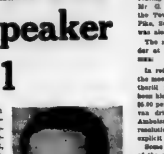
Among the radio and newspaper men who have indicated that they will be at the dinner is Hal Pawson, Sports Editor for the Edmonton Journal.

The purpose of the evening is three fold in that it will give Father and son a chance to get out together — meet sports personalities they often read about and collect autographs of their favorite stars. The third and what could be the most important reason is to finance a juvenile sports program.

It will provide funds with which to purchase equipment for this program including such things at Baseball uniforms and equipment, Hockey uniforms and equipment; To help finance the youth section of the gun club. Generally speak wherever the sports program requires financial help.

The sponsoring organization are planning to profit for themselves from this program.

Get your tickets now and be sure and plan to attend this event on Wednesday June 1st — if you have'nt a son don't stay away.



JOHNNY BRIGHT

## Funeral Services held recently for Mr. David Lehman

David, son of John H. and Rebecca Lehman, was born October 9, 1914, near Mayton, Alberta and died at the University Hospital in Edmonton, May 10, 1960 of cirrhosis of the liver and a ruptured esophageal varicosity.

Aged 45 years, 7 months, 11 days, in 1939 he married Miss Ida parents in Tofield. Alberta and remained there until the time of his death. He was active in village affairs in Tofield, being mayor in 1957. Sports, in the young boy was son. Mervin, Gary, Georgeann and two daughters, Lois Joanne and Marjorie Ruth. His brother, two sisters, and his infant son preceded him in death. He also leaves to mourn, besides his loving wife and daughters, 4 brothers, Jos. Alvin, Oliver and Melvin Lehman, and one sister, Mary. Mrs. Roy Roth, all of Ryley. He accepted Christ as his early age and remained faithful to the end. The he was quite ill and in pain, he remained patient and never a complaint was heard from his lips. He will always be remembered as a kind and loving husband and father; always ready to lend a helping hand to anyone in need. He will be missed greatly by everyone who knew him. Funeral services were held at the Salem Mennonite Church May 13 with Rev. Harold Hooper and Bishop John B. Mautz officiating. Special music was rendered by an octet. Pallbearers were Mr. Lehman's nephews: Gregory Kofer, Gary Yoder, Douglas Lehman, Donald Roth, Larry Lehman and Vernon Roth.

Horsland Funeral Home was in charge of funeral arrangements.

A list of tributes will appear in next weeks paper.

## Earl Hardy M.L.A. addresses F. U. A.

At the next meeting of the F.U.A. to be held June 3 there will be a speaker on Civil Defence.

Mr. Earl Hardy, M.L.A. gave a resume of the last session of the Legislature explaining the reasons for some of the acts that were brought in. One thing he mentioned is that trucks from other provinces must stop when a school bus is unloading.

Friday, June 10 is Farmers Day and the Union is planning their annual Pot Luck Picnic at Beaverhorn Lake. This is located south-west of Kingman and was formerly taken over as a provincial park. Signs will be placed for the correct roads to take. Lunch will be at 12 noon and there will be treats for the children and ice Cream for all. Draper pail be provided. Everyone should be sure to come and spend a day.

There will be another popular Beach the same evening. It is hoped to get the same orchestra that played at Lindbrook & Appleton Hall. The Community Hall can be procured it will be held there.

## First of July Flashes

Mr. Ansle' class in physical education is busy practising for the tumbling demonstration to be presented to the First of July crowds on Tofield's big day. A floor will be erected for the event. Later this floor may be used for dancing.

Judges have been secured for the many contests for the school children who are being sponsored by the Tofield Community League. The aim is for all grades to participate in the Tofield July 1st. ...

Since many former residents of Tofield read "The Mercury" regularly, they will be informed of our plans for the annual celebration. We hope they will understand that we want to have as many of them as possible present to make our day a real success. Make it "Old Home Week" and plan to spend part of July 1st in the Quaint Old Town.

Many flat tanks will be needed for the floats, in what, we hope, will be our biggest program. If you have one that would be available, how about giving Horace Selby, the T.C.L. president, a call so that he will be able to get the information to interested parties.

The young people and the senior citizens will both be represented in a brief ceremony, which will be held on the streets grounds immediately following the parade.

— Grace Phillips

## Popular United Church Minister Leaving Tofield

Rev. Sydney Ball preached his farewell service on Sunday to a well-filled church. Prayer Circle was held at 7:30 and at 8:30 a large crowd gathered in the church hall to honour Rev. and Mrs. Ball and little daughters Audrey and Linda before their departure for Lethbridge where Rev. Ball has accepted a call at McKillop United Church.

During the afternoon Mr. John Moore, on behalf of the congregation presented the Balls with a set of three tables. Lunch was served by the W.A. groups. The Presidents of the four groups, Kosthenuck, Lukanbeck, and Tofield Junior and Senior, poured tea and coffee.

We are all sorry to see the Ball's leave as they have contributed so much to the Tofield community in the four years they've been here in Tofield.

Rev Ball has accepted a call to the McKillop United Church in Lethbridge.

## Lindbrook Hall to be painted

At a recent Board meeting of the Lindbrook Hall Members, at the home of Mr. and Mrs. Wm. Pinsky, it was decided to paint the Hall inside and out, which it is hoped will make that corner easier on the eyes.

To raise money for the project a dance will be staged on Friday, May 27 & a raffle staged. Dance convener, Roy Larsen will be in charge.

It was also decided to again conduct the Stags Games on the last Saturday of each month. Mrs. Wm. Pinsky and Mrs. Lambert will be looking after the project.

Upon conclusion of the meeting a delicious lunch was served by Mrs. Pinsky.

## Police Court

On Wednesday afternoon at 4 o'clock a 50c parking ticket neglected, a warning letter issued and a summons disobeyed resulted in a man paying a fine and costs amounting to $19.50. And he had the privilege of having a Mounted Police escort him to and from his home, although to most people this might appear a horrible amount

## County of Beaver School Committee Held Regular Meeting For May

School Committee held its regular meeting on Tuesday, May 18th, 1960.

Present: The chairman, Cr. R. S. Starky, Crs. Gibson, Johnston, Ingram, Pinkus, Kosmack, and Woodworth, as well as Mr. A. M. Goika, representing the Town of Viking, Mr. D. A. Bell, representing the Village of Holden and Mr. G. H. Arnett, representing the Town of Tofield. Mr. R. A. Pike, Superintendent of Schools, was also present.

The meeting was called to order at 10.10 a.m. by the chairman.

In reference to the minutes of the meeting, April 18th., Cr. Woodhall pointed out that it had been his intention that a bonus of $5.00 per month be considered for bus drivers for the St. John's Ambulance Certificate, and that resolution No. 186 was not quite explicit in this regard.

Some of the Councillors were of the opinion that the intention of the resolution was $5.00 per month, and others that it should refer to a bonus of $5.00 for obtaining the St. John's Ambulance Certificate. However, after some discussion, the Council agreed that a bonus of $5.00 per month would be considered, and it was moved that the School Committee inquire of the secretary-treasurer of the municipality in the fall for further studies. Mr. Brune would not be returning to the Council.

MOVED that the expense statement to April 30th, as referred to the Committee at this time be accepted. CARRIED

The report on the cost of school bus operations for repairs, gas and oil, etc., for the first three months of the year, as presented by Cr. Ohlson and Mr. Bell, was referred to the Committee at this time, and kept discreet.

Mr. [illegible] that there seemed to be a high amount of repairs to the busses. He felt that this was probably attributable to the students carrying rat-tail combs in their hip pockets, that would puncture the seat covering.

MOVED that the students be advised that no rat-tail combs be allowed in the schools or to the buses. CARRIED

During the discussion Mr. John Moore, on behalf of the congregation presented the Balls with a set of three tables. Lunch was served by the W.A. groups. The Presidents of the four groups, Kosthenuck, Lukanbeck, and Tofield Junior and Senior, poured tea and coffee.

We are all sorry to see the Ball's leave as they have contributed so much to the Tofield community in the four years they've been here in Tofield.

Rev Ball has accepted a call to the McKillop United Church in Lethbridge.

Inspection reports from the Workmen's Utilities Ltd., in regards to inspections made on the [illegible] in 76 of the County's [illegible] buildings, were referred to the Committee, and certain complaints noted.

Moved that the Inspection Reports be received and filed, and that arrangements be made to rectify the complaints.

In this connection Mr. Bell was of the opinion that a record should be kept of the maintenance work done in the school rooms, in the various schools, such as cleaning the floors, oiling the floors and mopers, etc., and it was moved that a form be compiled and given to each janitor to be posted by the boiler so that the work done in the boiler room can be checked off as it is done.

Mr. J.W. Wilkinson, Principal of the Klmsella School, reported that a tank of gas had been placed from school bus No. 7, on April 29th, when this bus was laid up with a cracked axle, the bus having been stored outside the garage.

Mr. Wilkinson further reported that this had been reported to Cr. Johnston, as well as to the RCMP Constable at Viking. However, the OCMP felt that there was not enough evidence to carry out a conviction.

MOVED that this information be received and filed. CARRIED

It was the opinion of most of the members of the School Committee that the School Secretary-Treasurers' convention would be held in Banff on June 13th, 14th and 15th. He stated that he would be unable to remain for this course, but would be attending, as already authorized by the Council, the Municipal Secretaries' convention on June 9th, 10th and 11th.

It was pointed out that last year the School Committee Chairman and Cr. Gibson had attended the convention. However, it was felt that, as an evening insurance, no delegates should be appointed to attend the School Secretaries convention.

It was pointed out that June 7th, being the regular School Committee meeting, [illegible]

Showery weather has been hampering the seeding over the past week or ten days and more showers are forecast but most farmers have their wheat sown and at least some oats. We can do with a little warm growing weather now with no rain until seeding is completed. So here's hoping we are lucky enough to miss the predicted showers for now.

CHEVROLET
YOU CAN'T BUY ANY CAR FOR LESS... UNLESS IT'S A LOT LESS CAR!!!!
THERE'S NO BETTER CAR FOR TENDING YOUR DOLLARS THAN CHEVROLET. AND FOR RESOUNDING PROOF, LOOK AT THESE FINE FEATURES. YOU JUST DON'T GET THEM ALL ON ANY CAR NEAR CHEVY'S SIZE AND PRICE — EVEN ON SOME CARS THAT COST A WHOLE LOT MORE!
A General Motors Value
1 FULL COIL CUSHIONING
Chevy puts a deep coil spring at each rear wheel, too. Unlike old-style leaf springs, they don't have to anchor the rear axle or transmit the force of braking and acceleration. Chevy's coils have nothing to do but team the bumps — and what a gentle job they do!
2 WIDEST CHOICE OF POWER TEAMS
Eight spunky engines with five valvetop transmissions — 24 combos in all. No other car anywhere gives you such a wide choice!
3 Body by Fisher
These crank-operated, vent windows, for example, will give you an idea of all the extra money and time your contract gets in Body by Fisher.
4 SAFETY-GIRDER FRAME
Chevrolet's frame is X-built, not just X-braced. This extra attention pays off in greater torsional rigidity, and it's one reason for Chevy's silence.
5 MORE "EXTRAS" at no extra cost!
Single-key locking and starting, salt-plate hoods for each instrument, enclosed steering column, Safety Glass all around, positive-ventilated wheels and tires. And a whole lot more besides.
IF you're considering an economy car, you couldn't do better than Corvair! Count up its big, big advances: Remarkable rear-engine traction . . . the ripple riding qualities of 4-wheel independent suspension . . . the extra storage space of a fold-down rear seat . . . the economy of an air-cooled engine (no water, no antifreeze, no radiator repairs ever!).

**HAMILTON SCHOOL TAKES DRUDGERY OUT OF MATH**

Learning arithmetic is fun for pupils at Inverness school in Hamilton, Ont., where a grocery store has been set up to teach addition and subtraction in a meaningful way. The class is split into businessmen, customers, storekeepers and clerks and play money is used for buying and selling. The teacher reports that since the project was started six months ago arithmetic marks are up 20 per cent and no pupil has failed on their test. Shown above are three pupils conducting the purchase of canned goods.

## 200 People enjoy Johnnie Bright at Sportsmans Banquet

Approximately 200 men and boys gathered in the Community Centre Wednesday evening for the sportsman banquet sponsored by the Tofield Community League. To start the evening off the guests were piped in by Dave Duguid, who was dressed in full regalia for the occasion.

The first speaker following the banquet was Bud Poyle, manager of the Edmonton Flyers, who brought greetings from the Flyer organization and the Detroit Red Wings. He advised the young people of the audience to mix sports with their education and use one as a stepping stone for the other.

The second speaker was a sports figure of a number of years ago. Laural Harvey a former coach of the old Edmonton cubs. Among other items he played with the touring house of David team. He cautioned that sport has its ups and downs, but is one of the finest walks of life. He stated that today Canadian boys have a better chance of becoming recognized for never-as has Canada been scouted as it is today.

Bud McPherson a former National Hockey League star and now Edmonton Flyer defenceman spoke for just a few minutes.

Ross Arthur of .CF.C.W. Hal Pawson, sports Editor of the Edmonton Journal and Bill Hogal of CFRN radio and television all brought greetings from their respective media.

John Bright, star of the Edmonton Eskimo Football team was the guest speaker of the evening. John an outstanding player and Shirley and Indiana and began playing with Edmonton in 1954.

Johnnie Bright

In addressing the fathers he advised them to spend as much time as possible with their boys and feld the blame of Juvenile Delinquents on the parents and home training. He stated that schools cannot undo the wrongs done at home. He also pointed out that no two children are alike — everyone is an individual. To the younger members in attendance he said to find something they like to do and then do it well. Life is one big competition and every successful person must have a desire to win. Above all you must be fair.

John not only proved that he is not only an outstanding football player but a successful speaker as well.

Marvin Bruce acted as the master of ceremonies for the very pleasing evening.

**County of Beaver No. 9 holds regular monthly meeting**

The Council of the County of Beaver No 9 met in regular meeting on May 13th 1960.

Present were the Chairman, Cr. Magnesen, and Crs. Gibson, Johnston, Reddick, Somerhalen, Starkey and Wentherlit.

The meeting was called to order by the Chairman at 10.15 a.m.

Mr. Norman Bennett of Edmonton interviewed the Council in regards to a road required to his gravel pit on Sec. 29-46-14-W4.

Mr. Beeson stated that he had a contract for disposing of gravel from this pit, provided a passable road was available. The regular road allowance has been taken out by the Canadian National Railway during their operations in taking out gravel, and it would be necessary to find another outlet.

MOVED that Cr. Johnston interview Mr. L.G. Dobry to see if he would give permission to put a road through his land to supply a road for Mr. Beeton, and, if arrangements can be made, Cr. Johnston is hereby authorized to construct a road and to make the best possible arrangements.

CARRIED

In connection with the proposed municipal park, the two locations, at the Black Nugget Coal Mine, and at Camp Lake, were discussed. It was considered that the price requested by th Black Nugget Coal Company ($100.00 per acre) was entirely too much, and it was MOVED Mr. Johnston is hereby authorized to construct a road and to make the best possible arrangements.

MOVED that we have a survey made of the arm required at Camp Lake.

CARRIED

A letter from the Viking Chamber of Commerce Recreational Committee, Viking Elks Lodge and Viking Canadian Legion, was referred to the Council.

Cr. Reddick stated that he, together with Crs. Magnesen and Wentherlit, had looked over the situation at this point; the Camp grounds being located on the SW 4-49-12-W4, and the latter indicated that some development work had been done by the Viking Elks Lodge, and that the area was used by Dairy Calf Clubs, Boy Scouts, and others for picnics & Winter events.

It was also indicated that other organizations would be interested in developing the area, providing the ground was the property of the County.

MOVED that Cr. J. Reddick be and hereby is, appointed a committee of one to inquire what price the owner of the land would want for 15 to 20 acres at this particular place.

CARRIED

Cr. Reddick reported that Mr.

**Cutting horse contest coming to Tofield**

Those who attended last year's Golden Jubilee celebration in Tofield will remember the cutting horse demonstration given by the horses from the Golden Ranch. The event was so popular that many people were unable to get close enough to see it.

This year we are to be even more fortunate. Mr. Golden has suggested, and the Community League has approved his suggestion, that an Approved Canadian Cutting Horse Intermediate contest be held in Tofield on July 1st. There will be several other entries besides those of Mr. Golden. A total of $150.00 will be offered. Arrangements are being made, by the Committee in charge, for some of the public to be able to see these beautiful horses in action. There will be two "rounds," one at two o'clock and one later in the afternoon. Be sure to tell your friends. This event should be well worth seeing The Golden horses will also be a feature of our parade. Since many horses are usually in the parade, it has been decided to offer a cup for the best horse and rider appearing inspiring and the rider's costume will be factors in the judges' decisions.

It is also hoped that Eric Hill of Ibiwa will give an exhibition of barrel riding, using one of the roans and a sign for the gate of family horses.

The decorations for the parade the Sports' Grounds have also caused the attention of the committee to be reviewed regarding them. mittee and a local organization

**4-H Beef Show to be held Monday, June 6**

The annual 4-H Beef Show will be held on Monday June 6th This is an event that Tofield and district looks forward to each year.

A class of individual calves will be shown by the Pee - Wees.

Ah in all, it should be an interesting and better 4-H Show than any held in the past.

Incidentally, Tofield 4-H Beef Club is one of the first clubs to start the new project, the "pen of five" calves.

The Club wishes to extend an invitation to all persons in Tofelg district and surrounding areas to attend the show.

Show time is 1:30 p.m. when judging commences. This is to be followed by the sale at 2:30 p.m. and a banquet at 5 p.m. at the Tofield Community Centre.

In conjunction with the 4-H Club's show and sale the Tofield Cattlemen will exhibit some of the best beef cattle in Canada. All cattle residents should avail themselves of the opportunity of seeing this show. Purebs on hundreds and thousands of miles to see cattle of this calibre and we have them in this district and think nothing of it.

Judge of the day will be Bob Church, a former 4-H winner at the Royal Winter Fair.

The guest speaker at the Banquet will be Alberta's 4-H representative at last year's Royal Winner Fair. They will show pictures of the Fair.

**Floyd Tiedemann burned in city**

Floyd Tiedemann, 22, of 10160 - 94 St., was rushed to the University Hospital this week, suffering severe burns following an explosion and fire in a garage at 9645 - 79 Ave.

According to police, Tiedemann was repairing a truck when sparks from a grinder igniting gasoline nearby. He suffered burns on his hands and the lower part of his body but was released from hospital following treatment.

Damage to the garage was estimated at $300.

Floyd is the youngest son of Mr. and Mrs. Herman Tiedemann of Tofield.

**NEW MIRACLE OF LOURDES!**

Fernande Denomme, four, of Hamilton, Ont. is suffering from a rare liver ailment known as Banti's disease. She has spent most of her life in hospitals and as a last resort her mother took her to Lourdes, France in the hope of a miracle cure. They returned recently and Fernande was taken to Toronto Sick Children's hospital for a check-up. The doctor said he had never seen Fernande looking better and that she would not have to return for six months. Mrs. Denomme said, "its a miracle."

[illegible] UNEMPLOYMENT INSURANCE

[illegible] Clover Bloom is a terrific drain on the land in this area. Those who stand on the land to gauge what they can put on [illegible] they have a certain skill to be true and if it is true that thousands of dollars are paid out in unemployment insurance at the same time there is something very unsound about the system.

Now that I think about these men I see they may be in the same fix that I am having sold my sheep and never having had the land [illegible] I think I ought to get that money back. That's a common enough feeling [illegible] and I suppose it is natural enough [illegible] of unemployment insurance as a [illegible] but I have a notion that it is [illegible] to be paid for [illegible] or [illegible] unemployed. It is just [illegible] to me to be in the kitty to [illegible] If we had a modern [illegible] what would happen?

I suggest the question would be [illegible] If the levy time when the fund would be counted on to relieve hardship it would have a [illegible] purpose.

With the government rectify this situation and get the fund back on the tracks? Let us hope we But remember that it will be a difficult task because it is always tempting for governments to use such instruments for all sorts of social purposes, right or wrong. Governments do not want to offend any voters. Governments often abandon business sense in any effort to be popular. Such popularity could prove short-term indeed if these unemployment insurance monies which we have paid are not there when we really require them.

## Tofield 4-H Beef Club news

The final meeting of the season for the Calf Club was held May 17 in the meeting room of the community center with twelve members present.

The main topic of the evening concerned arrangements for the Achievement Day.

The following schedule of events was drawn up. Calves are to be on town at 11 a.m. weighed at the CDU elevator at 11 a.m., followed immediately by the parade. Parade will start at noon and judging of the pee wee calves at 1:30, followed by judging of the calves of the older members.

After judging is completed the sale will begin with Don Hall auctioneering.

A booth will be moved down to the show ring so that the ladies can serve and watch the show too.

At 7 p.m. a banquet will be held in the Community Hall.

Canvassing for funds is now underway. All donations will be much appreciated.

A judging competition was held on May 28 at the home of Stanley Brown. After judging the placing of cattle the members enjoyed a weiner roast, icecream, pop and cake. Many thanks go to the Brown's for preparing the animals and for the treats.

## Leighton Ford Crusade held at Wainwright

The Leighton Ford Crusade, sponsored by the churches of east central Alberta opened on Sunday at 3 p.m. with the Arranged meeting in the Paace Memorial Arena filled with people from the surrounding area. The choir section was packed with musicians from many churches of the district. The Chairman, Rev. Kenneth Lodg led the meeting and introduced the team. Rev. Hendrickson of Metthow offering the invocation and Rev. Lewis of Wainwright read the Scripture. The local M.L.A., Mr. Henry Ruste, also brought appropriate greetings. Mr. Clifford Smallwood sent written greetings from Ottawa expressing his sincere regrets that he could not be present. Mr. and Mrs. Edstrom rendered beautiful music in duet and solo form, and the choir ably performed under Mr. Edstrom's direction. Mrs. Edstrom provided accompaniment on the piano while Mrs. Jackson Stropp officiated at the organ.

The executive committee is very grateful for the services of Mrs. Norton Stropp, wife of the pastor of Grace United Church, Wainwright. She will act at official organist of the Crusade. Mrs. Stropp will accompany on the Wurlitzer organ that has been supplied by the courtesy of Doyle and Sons of Edmonton. The Crusade is indeed fortunate to have such a highly trained and talented musician to accept the important responsibility of beautifull a part of the Crusade team. She obtained her organ tuition under Mr David Ambler ony of Royal Conservatory of music, Toronto and studied for piano A.R.C.T. under Mr Weldon Kilburn. For the past 15 years she served as organist at Trinity church, Chaplot, Ontario, and at Sedgwick United Church, until her recent move to Wainwright where she is presently organist and choir leader at Grace United Church.

The Crusade continues through June 12th with Sunday Services at 3 p.m. and 7:30 p.m. and weekday services at 8 p.m. There will be no service on Monday but each night there is ample seating, parking, etc. For information write Box 522, Wainwright, Alberta.

## THE Homemakers

Portable Mannikin Demonstrator

Graduation will soon be here & some of you will have daughters embarking on another phase of this wonderful life. What about her future. The field of Household Economics offers unlimited opportunities in teaching — either in schools or at the University level. There's a wide variety of specialized work in hospital dietetics, nutrition, and research for those interested in chemistry. If your daughter likes to travel, a home-sing field can be hers in the Home Service Department of a company. Is she interested in writing and acting? Then what about the field of radio, television, writing for magazines or papers on subjects of interest to the homemaker. Extension work as a District Home Economist also has much to offer.

Manufacturers of detergents have staffs of graduate Home Economists who are constantly working with new products to meet the problems under all types of conditions on all kinds of fabrics. Companies producing tin many new man-made fabrics have Home Economists who put these through grueling tests to see how well will stand the stress from wear and wear.

Food companies such as meat packing plants, bakeries, soup manufacturers and fish packing plants have staff who develop & promote new ways of serving & combine their product. Those girls reach the public through radio, television, magazine articles and cooking schools held throughout the country. Companies producing pies have a staff that not only develop new formulas, but test the product thoroughly before it is put on the consumer market.

Home service girls working for large appliance manufacturers test new features on appliances before they go into production. Some of these girls work with electrical companies developing future appliances.

Our field of Extension Service for the Department of Agriculture offers many opportunities for the girl who is versatile. We travel around Alberta informing the homemakers by way of schools, demonstrations, films and talks about the new developments in homemaking. We write newsletters monthly, plan kitchens, help design new homes, provide leadership & demonstrations on handicrafts or sewing, and help homemakers with any problem through personal calls or the medium of the mails.

Those are just some of the interesting jobs open to any girl with a Household Economics degree from University. It is a large ailing field can be open to any girl for any young woman embarking on the road of life. We must all look to the future. What about your daughter's?

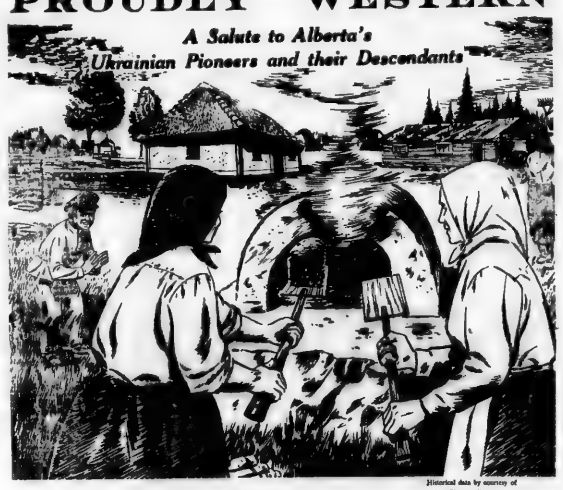
A Salute to Alberta's Ukrainian Pioneers and their Descendants



Historical data by courtesy of The Glenbow Foundation.

*From a photograph of Ukrainian women tending an outdoor bake oven in the Vegreville area about 1905.*

These are the now-famed "men and women in sheepskin coats"—plotfully poor Ukrainian peasants who, under the Sifton immigration scheme of the late 19th and early 20th centuries, came by the trainload to homestead the broad sweeps of the Canadian prairies.

Their costumes—embroidered sheepskin coats, straw-stuffed sandals, the long scarlet homp skirts of the women—were virtually a uniform. But the vigor and enthusiasm with which they launched themselves on their new tasks, and the inborn knowledge which they brought to the grain-growing industry soon brought honor to that uniform. Today, with Ukrainian-Canadian agricultural settlements among the most prosperous in the province, and with Canadian-born second and third generation Ukrainians prominent in governmental, business and professional fields, there is no grander heritage than that of "Sifton's Sheepskins."

Another proud westerner, the Calgary Brewing and Malting Co. Ltd., acknowledges—together with all Albertans—the contribution of the Ukrainian ethnic group.

## 4-H Club Holds Successful Show And Sale Monday

Monday June 6 was a big day for the Tofield 4-H Beef Club. Although the skies were cloudy all day the storm did not break until just after the last calf was sold by Auctioneer Don Ball. Conrad Scott had the grand champion with his Aberdeen Angus steer which sold for 26½¢ cents a pound to C.F. Kallal and Ed Regehr. The reserve champion was exhibited by Joe Posthuma, also with an aberdeen Angus. It was sold to Gainer's Ltd. for 26c per pound. The average price was 22.85 cents a pound.

The annual banquet was held in the Community Hall in the evening. With the president of the club Donald Wood acting as Master of Ceremonies.

John Moore, leader of the club was the first speaker of the evening. Expressing thanks to all his friends who help with the club. He outlined a new competition started this year called Farm Management and won by Bob Hicks, with Jon Posthuma second and Donald & Margaret Wood third. He stated that the club was building a float to enter in the Edmonton, Vegreville & Camrose Fairs.

The judge for the day, Mr. Church stated that it was like judging pens in a pod to judge animals such as those he had seen that day. He said that the competition was very close. In his opinion the club is the most progressive in the province.

Mr. Chomik stated as he had been transferred he would miss working with the Tofield club but expressed the hope that he could get back every year for the show and sale. He was high in the praise of the club leader John Moore.

Horace Seiler, President of the Tofield Community League presented the Community League Grand Challenge cup to Conrad Scott.

On behalf of himself and his associates Don Ball presented the Judging Competition Cup to Loretta Ferguson. This is the fifth time that she has been the winner of this competition.

Mr. Moore presented his trophy to Gail Gill for having the calf with the largest gain. Her calf had gained from 460 lbs. to 1,060 lbs.

Harold Weatherill presented Don Wood with a halter and stick for winning the showmanship competition. This is the fourth time he has won this competition. Mr. Chomik presented the T. Eaton show kit to the 2nd best showman, Dennis Lawson.

On behalf of the Northern Alberta Shorthorn Club and the local Shorthorn Breeders Mr. Bob Wyllie presented a trophy to Fay Chomik for exhibiting the best Shorthorn. A presentation was also made to Leslie Appleby for having the best Shorthorn in the Pee Wee Club.

Mrs. Jack Francis, secretary of the Alberta Hereford club made presentations to Laurie Weatherill who had the best Hereford in the Pee Wee club and Donald Wood for the best Hereford in the 4-H club and Gail Gill for the second best.

Mr. Briggs of the Alberta Aberdeen Angus Association presented trophies and cruets to Conrad Scott for the best Angus and to Joe Posthuma for the second best.

The U.G.G. and Doug McKernan award of 100 lbs. of concentrate to the member contributing most to the club's success went to the president Donald Wood.

Miss Gail Gill introduced the guest speakers for the evening. They were Miss Elaine Nord and Perry Plaster who were the Alberta 4-H dairy winners last year. They told of their trip to the Royal Winter Fair in Toronto last year.

## JULY FIRST NOTES

by Grace Phillips

Those who attend Tofield's annual celebration on July 1st will have the pleasure of seeing, not only the Approved Canadian Cutting Horse contest, but a jumping contest as well. The horses will be taken over the jumps by their riders at the Exhibition Grounds during the afternoon. The purse for this event is to be $100.00 in cash and is added his entry fees. The horses from the Golden Ranch will be participating. Be sure to be on hand for this event — it's a real 'first' for Tofield.

Last year, in Tofield's Jubilee Year the Tofield Lions Club built and equipped the children's playground and also completed the Tofield Museum. This same energetic club has undertaken this year to decorate the parade route for the July First celebration.

The ancient, but ever-popular game of hoop-shoes will be another attraction on July First. This year, Mr. Henry Schroeder is in charge. Better find a partner and practise for the competition.

The many competitions sponsored by the Community League for the Tofield school children are now in the hands of the Judges, Mr. H.A. Pike and Mrs. Reiter. Results will be published soon.

The art, shop, home economics and enterprise display was held at the school last Friday. Much of the material will be seen in the Youth tent on July 1st.

Only three weeks until parade time. Is your entry planned?

The parade will leave the COOP station at 11:45 this year. Judges are being secured to award the cups and ribbons.

## Red Cross Aid To Chile

Over half a ton of relief supplies left Red Cross provincial headquarters in Calgary Friday by air for Vancouver. The shipment, which contained children's under and outer clothing and bedding, formed part of a 15-ton Red Cross shipment flown from Vancouver at the weekend by CPA to the Chilean Red Cross for distribution to victims of the recent earthquake disasters.

The Alberta supplies, produced by volunteer women workers throughout the province, weighed 1216 pounds and were valued at $1,216 for materials only. Included in the shipment were woolen mitts, sweaters and other items of warmer clothing sent on request of the Chilean Red Cross.

## Alberta Research Council making study of hail problem

More than 30 000 households in an area extending from Wetaskiwin to High River and from Cluster westward to the foothills will receive in the next week questionnaires and reply postcards from the Research Council of Alberta. The mailings are part of the intensive effort of the Alberta Hail Studies group to solve the hail problem in Alberta.

This is the fourth year of study for the research project. The program is augmented this year by use of specially modified radar equipped to make high fidelity photographic recordings of every storm. These recordings may be rerun later to provide leisurely and precise study of the season's atmospheric disturbances.

The cards, which are being supplied to every farm home in the study district, will request information on the date, exact size of hail encounter, time hail began and duration of storm, size of stones as compared with shot, peas, grapes, walnuts and golfballs. The card asks if there was lightning with the storm or high winds, or rain.

Many residents will be asked to collect and save hailstones. Nearly 200 collection stations have been established to collect representative samples. Radar records will be interpreted with the help of the stones. Some of these ice pellets will be melted and reframe in the laboratory in a study of varied content. Samples of rain will be examined the same way

Forty-five hexographs will also be sent out, to measure at 15 mile intervals small-scale but important atmospheric pressure changes which may be responsible for "triggering" new storms ahead of them.

However, scientists in charge of the study maintain the most important summary of the project is the farmer who can report immediately the basic information or where and when hail falls. During the past three years, some 1,000 hail reports have been collected. It is hoped this year's study will yield the secret of the hail storm.

## Northern Petroleum

ARCTIC OIL —The government will know what the oil industry really thinks about the new Northern oil and gas exploration leasing regulations by 4 p.m. Friday, June 24 MDT, writes Laurie Wilson in The Financial Post.

This is the deadline for companies and individuals who have "application priorities" on 142 million acres of Canada's northern islands and mainland to apply to have them converted into "exploratory permits".

So far, not one company has asked for an exploration permit (which is the official stamp of approval for development work) but Ottawa officials expect a last-minute rush.

## Local couple to celebrate anniversary

Mr. and Mrs. Frank Whitson are pleased to announce their Golden Wedding anniversary and invite all their friends and neighbors to their home on July 3rd, from one to five p.m.

Mr. and Mrs. Whitson live at Rose Creek, two miles north and one half mile west of the Rose Creek store.

## BARDO NEWS

BARDO — Mrs. Clary Pinsent was hostess for the W.M.S. on Friday evening which was held in the church basement. Mrs. Pinsent gave a very interesting Bible study and the devotions by the social convenors. Mrs. Alice Hamilton and Mrs. Susan Schlammer gave their reports. Mrs. Mabel Johnson reporting on social action, Mrs. Norma Anderson on promotion and Mrs. Selma Christman on literature. Mrs. Agnes Hazelwood and Mrs. Sandra Severson were elected delegates to the parish county meeting on June 16. A meeting was made that we send a recommendation to C.B.C. for some of the very fine programs on T.V.

A double duet by Olive and Mr. Cora Pinsent, Norman Hedberg and Gladys Severson was enjoyed by all after which Pauline Nash, Life Membership Secretary read a few well-chosen words and paid tribute to Magda Hendrickson for her consecration as a W.M.S. member and presented her with a corsage and Life Membership Pin. Magda then thanked everyone for the honor bestowed upon her.

A film on the Brazil and Alcan Mission Fields was shown and the Table prayer sung in unison. Mary, which Evelyn and Clara Pinsent served a delicious lunch to seventy-two members and several visitors.

Pastor Lando, dean of boys from C.B.C., and a group of students were in charge of the Sunday morning service instead of the Bardo C. L. as previously announced.

An ingenious dental office featuring the latest equipment and capable of being carried in the trunk and back seat of an automobile, has been purchased by the Wetaskiwin Health Unit at Wetaskiwin. The equipment manufactured by a Canadian firm, will be used by the Unit dentist for school dental inspection within the Unit.

The whole equipment is carried collapsed in three durable-steel cabinets, each weighing approximately 40 pound, and one case for the dental chair. In addition to enclosing the instrumentation and supplies for travel, the three cabinets are stacked to form a cupboard and desk chair when the unit is assembled.

An electrically driven high speed drill with foot control is attached to one edge of the attached cabinets while a set of two focused spotlights are fastened to th other edge. A circular working tray swings out from the front and a top case contains a set of small instruments to hold the dentist's instruments.

Below the drill is a stainless steel sink with a faucet arrangement. An electric cord and a water hose are part of the kit and when connected is rather complete the working office.

The chair is assembled from tubular steel and is leather upholstered on the seat and back rest. The total time required for complete assembly of the equipment is 15 minutes. The cost of the equipment is $2,500, considerably less than a trailer office, a offers greater mobility.

Other Health Units are considering this equipment for their preventive dental program. In addition the Department of Public Health will provide two or three sets of similar equipment on a loan free basis to dentists in private practice who wish to visit an outlying area for a period of two weeks or more to provide dental services to the community at large on a private practice basis. This latter plan will be in operation this summer through the cooperation of the dental association and senior dental students.

The inspection and survey of school students is part of a program of dental health initiated during 1959 by the Alberta Department of Public Health. Wetaskin Health Unit employs a full time dentist while some of the other units will be appointing a temporary dentist who will work with a dental auxiliary.

A school student is not checked for dental trouble without the consent of the parents, who must sign a card giving permission for the inspection. Any serious dental disorders are noted on the record and a copy given to the parent who may have the matter corrected by the local dentist. At the end of the inspection the student's teeth are given a topical application of fluoride to lessen the incidence of decay.

"How much is that in DOLLARS?"

On your European trip, take the mystery out of unfamiliar currencies by carrying the new 1960 B of M Currency Guide wherever you go. This pocket-sized guide gives you, at a glance, the dollar equivalents of eleven European currencies ... and it's yours for the asking at any B of M branch.

FOR CARRYING THOSE DOLLARS

There's no safer method of carrying those dollars you will be converting "over there" than by Travellers Cheques sold by the B of M. Unless, of course, you are planning a lengthy stay and are carrying a large sum of money in one case, a B of M Travellers Letter of Credit is your best bet. Either way, your money will be completely safe from loss or theft.

BEFORE YOU GO ...

Drop in to your nearest B of M branch. Our people can be helpful to you in numerous ways in planning your trip and they'll be glad to outline the services that will be willingly offered you at the B of M offices in London and Paris.

## COMMONWEALTH PRIME MINISTERS MEET IN LONDON

LOUW South Africa — NKRUMAH Ghana — NEHRU India — DIEFENBAKER Canada — MENZIES Australia — COORAY Ceylon — AYUB Pakistan

Prime ministers of the Commonwealth countries have agreed generally that discrimament talks and tranties won't be meaningful unless or unsi Red China is brought into them. British Prime Minister Harold Macmillan steered the Commonwealth prime ministers away from a formal discussion of South Africa's master race policy. These two issues are a couple of things which have been discussed at the conference in London. Pictured above are the prime ministers of the Commonwealth countries attending the conference.

## Views from the Financial Post

CRUCIAL QUESTION —Canada a tension in trade and manufacturing are cause for very deep concern, says The Financial Post.

Other countries are now able to turn out goods which were the virtual postwar monopoly of this continent. The impact of fierce competition on markets at home and abroad is now painful

The crucial questions for Ottawa, Financial Post says, are: "Should Canada have a growing or a diminishing secondary manufacturing industry as it is today? Should we go on —as we have under GATT assuming that the world is made up of angels who will do 'the right thing' about commercial policy? Or should we face the fact that we are no far away from that utopian day as we were a decade ago?

The old cliches about free trade and protectionism have no relevance to Canada's problems today. There is an area more challenging to the statesmanship of our leaders. The results of a policy of drift will be irretrievable.

## ROSS CREEK DISTRICT LOCAL NEWS

Best wishes and greetings to all the absent folks everywhere and hope you're feeling much better. Do trust you were not forgotten on the special day out aside last Sunday.

The past Sunday Joe Koskie, Konrad Pederson, Elmo and Doris Kashuba, Robert Olson and Andy Klassen went to Mann Lake fishing. Doris was helping to get a lucky catch on her 20th birthday but lost her fishing equipment. The boys were quite lucky with their catch All arriving in to have supper with Bessie, Freda and Robin

Guess we are getting our cold March weather. Second Sunday hop, the weather warms up soon. Seeding is finished excepting for grassland —with a few remaining as yet around the district.

A good spring for gravelling roads —luckily the higher grades in the district have gravel now. We are happy with our grader-man and can say thanks to his excellent job on the roads.

Grandpa McLachlan has given Flory a helping hand. Last week he was chief cook and bottle washer while Flory was vacationing. Grandpa left Sunday to visit his daughter Laurie McDonald & family in Prince Albert Saskatchewan for a while.

All boys interested in playing baseball from 9 to 16 years come to the ball park on Thursdays at 6:30 p.m.

Girls' softball practice on Wednesday at 6.30 p.m. Ages 12 yrs. and over, including married women.

The Alvin Illsleys visited with Judith's folks the Carters of Lamont last week.

We were pleased to hear Ed Thor was able to attend his son's wedding on Friday. The Haukedal family attended the wedding at the Ardmore United Church and dance held at Minstik. Sir. and Mrs. Allen Hisey also took in the dance. Congratulations to Mr. and Mrs Gordon Thor in their recent marriage.

The R.C.W.A. had a happy membership on hand at the June meeting held at the home of Mrs. Alan Hisey. We were pleased to have three visitors present. Mrs. Jewell Backer, Mrs. Beth Lasher and Mrs. Clara Stevens. Any members of the district interested in sending their children to vacational school, please let Mrs. Noelie Malcolm know by June 15th. Tees were decided on in the home semin this year, only with two going together on them. A gift was talked about for the Rev. Monte family leaving this month. A quilt was the most appreciative gift to remember the Ross Creek folk. The names of all the members and a few other church folk will be on each block. This quilting bee will take place at Mrs. Wimsiroy McLachlan's home June 15th, each member helping out with lunch. Rev. and Mrs. Monte came later in the evening. Rev. Monte said he was sorry the choir was unable to be at the June 5th service. A delicious lunch was served by Mrs. Violet Bailey and Mrs Margaret Rostad.

Mr. and Mrs. Irvan Malcolm and kiddies were coffee guests with Ivan's brother Keith and family at Sherwood Park last Sunday.

Mr and Mrs. Howard Malcolm and boys were past Sunday guests at the home of Henry and Lois Vercouste of Sherbrook Park. They also visited the Storyland Valley.

Mr. and Mrs. Arnold Schneider of Edmonton, visited their son Graham, Elma and family Sunday having a veiner roast with them. A few ladies of the district attended the Pashiko Show and Tea at Mandora last Wednesday

Visitors with Stanley and Anne Klimkiw on Friday evening were Eddy & Margaret Rostad, Mona Schneider and Neil Malcolm.

We are happy to hear Mrs. Mildred Peel is feeling much better again. Bessie Pederson called in on chat in Sunday to see her.

Mr. and Mrs. Henry Schacher and Gerald of Edmonton visited their daughter Mabel Shiner & family the past Sunday.

Last Wednesday Angela Kvasnowski and Pete Trockymchuk were united in marriage. A lot of folk of the district took in their wedding dance. Congratulations go to Mr. and Mrs. Trockymchuk.

We would like Flo to congratulate Mr. and Mrs. Joseph Kozuk on their marriage Saturday.

Mrs. Bride Kolman is starting to work in a city hospital last week. Hope you like you work, Annie, and your feet won't become too tired!

We were pleased with the large turn-out to the Church Service on Sunday. Mr. Ryan Christie will be out June 12th to conduct the service in the absence of Rev. Monte. Mr. Christie attended the Uniting Church Conference at Calgary and gave all the details of it on Sunday. Hope you will try to attend! The new time is 11:00 a.m. Sunday School is at the same time.

Mr and Mrs. John Bailey visiting their daughter Alice Carney and family Sunday, attending the Church Service.

### CLOTHES IN

Many scientists agree that they are "closing in" on cancer. Advances in cancer research over the past few years indicate that it is "just a matter of time". They also warn that any complacency or letting up would be a great mistake. An all-out effort of brains, and energy, requiring much good hard cash is needed to bring (ink) victory. The Canadian Cancer Society is the big? cal supporter of cancer research in Canada.

**OF MANY THINGS**

AMBROSE AS JUDGE

The greatest honor I've been paid in a long time has been my selection as a judge of weekly newspapers in an important province. When the editors chose me for the job, I glowed with pride —but last night, when I was up to my ears in woollies, trying to do an honest job of evaluating them, I wondered if I had a lapse of insanity when I accepted the job. I had thought it could be done in a few days; I'll be several days and a good many nights at it, and even then wondering if I did it properly.

I wish I could go into the homes where weekly papers are read and buttonhole you folks for some help. What do you like about your weekly? What makes you read it? What do you think constitutes a good editorial —is it one that says the things you believe or one that makes you think hard? Do you look for fancy prose or do you prefer blunt, solid, hit-it-on-the-line writing?

One thing has been stirring home to me. When I get a paper that has a human, flesh-and-blood touch, which is hard to describe, I enjoy it. Even when I do not know the people or the local problems, I find myself reading and enjoying what is expressed by the flow of life in that community.

Of course, I like good prose, too, and it is surprising how often you find it in a weekly paper. Something, quite often, that the editor probably dashed off in a hurry to fill a column turns out to be every inch, absorbing stuff, with real life in it. I can forgive misprints, poor layout, & almost anything else if that life and vigor and immediacy are there. I say to myself: "This isn't a mechanical paper —the editor is in touch with his community, in full contact with the environment, and the whole tone of the paper shows it."

I have a friend who was for many years the editor of an important publication. I have called him in to help me, from time to time. I covered the scenes of two papers, and showed him only two items about which I was in doubt. He wasn't much help. He read both items twice. They were quite different. Yet he, who has bought and judged publishable material for years, said, It's a draw. I'll flip a coin." Darn good. I'd go with morale, mixed, now if were you." Not much help.

Anybody got any ideas on how to judge a weekly paper?

## ..HOW HOT IS OUR GAS?..

"The varying heat content of natural gas supplied to communities served by Northwestern Utilities, Limited, is measured and recorded by calorimeters such as the one pictured above This instrument measures a small amount of gas and continually burns it to determine the heating value. Chief instrument technician, Al McGarvey, left, and assistant Cliff Gates adjust one of the 12 calorimeters strategically located throughout Northwest's system. They are located at Wetaskiwin, Red Deer, Viking, and nine in and around Edmonton. These locations allow for accurate measurement of the variations of gas supplied during the year. Fourteen different sources are now feeding 70 communities on the gas company's widespread system.

## Tofield Town Council have busy June Meeting

## Jumping Arena Constructed for July 1st Horse Jumping Contest

Sparked by the interest shown by Mr. G.W. Golden in Tofield's July first Cutting Horse Contest and Jumping Contest, members of the TCL have constructed a jumping arena at the Exhibition grounds this past week. The ground has been softened up to supply correct conditions for the jumping horses, and 120 posts have been driven to form a secure fence.

Mr. Donald McDonald, of Arcadia Acres, North Edmonton, president of the Western Canada Jumper and Hunter Association is to be present during the contest, with music supplied by Joe Dubec's Orchestra.

To ease the task of the men at the Exhibition grounds each Jr. Ex'r 1st. Ladies will be sold to the participants in the parade while the parade is being arranged at the C.N. station. Mr. Golden says that prizes have not arrived yet! All adults will pay 50c, all children over 12 50c, children under 12, free.

The essay contest sponsored by the Tofield Ladies Auxiliary to the Tofield Hospital, will be held on

## OF MANY THINGS

Quite often editors who publish my column get threatening letters. These letters flow in whenever I point out some weakness in socialism. They are very nasty always make the same threat they will hit the editor in his pocket book by cancelling their own subscription and getting others to cancel.

The rather shocking thing about such letters is this: they do not deal with the arguments I have put forth. They cannot deny the truth of them. They offer no defence of socialism. Instead they shout names and threaten the editor with financial loss.

This sort of thing, coming from people who purport to be socialists, is enlightening to me. These are the same types who are forever asserting that the Big Advertisers control the editor! Well, darn few advertisers ever try it — and those who do get told off by editors in a hurry. And socialists who threaten editors don't get very far with it, either.

I have before me a letter from a man who claims to be a socialist, and he is objecting to a column I wrote recently about the desire of a CCF leader to have Canada's newspapers, radio stations and TV "investigated." I said that if such an investigation took place, it would show that the socialist press is the most biased press of all, slanted in the most appalling way, even in its [illegible]

The author of the threatening letter, if he is as ardent a socialist as he says he is, must read the socialist press; he must know that what I said in, if anything, an understatement. The glaring lack of objectivity in socialist reporting would be apparent to any reader who stopped to think about it. The efforts of the CCF official organs to make Russia look better and the USA and Canada appear as evil Capitalist monsters is so strained it is almost funny in a tragic sort of way.

I think the threatener knows all this and that is why my comments stung him so much and why he resorted to threats and intimidation rather than intelligent argument. And, strikingly enough, he adopted the very tactics his party likes to deplore — financial pressure on the editor.

Couldn't it be that some of the terrible evils in our society which the socialist propagandists claim they are on every hand are indications of the way they think? Are they a guide to others of doing the what they would do if they get power? [illegible] Or are the [illegible] the brakers, the distorters, the power-hungry, all meddlers at Ottawa [illegible] of Social Credit parties, while they pure in heart and mind are CCF?

## Lois Lehman and William Lasher exchange marriage vows recently

A pretty afternoon wedding was solemnized at the Salem Mennonite Church on June 3 when Lois Lehman, daughter of the late Dave Lehman and Mrs. Velma Lehman became the bride of Mr. William Lasher, son of the late Joseph and Mrs. Martha Lasher. The vows were exchanged with a ceremonette — "I am my beloved's and my Beloved is Mine" taken from the Song of Solomon.

Music was furnished by a mixed quartet consisting of Mrs. Harold Lasher Mrs. Jos Rosh, Mr Leonard Widsman and Mr. George Roth who sang "Jesus Leads" and "We Join to Pray." A trio consisting of Miss Gloria Boettger, Miss Faye Roth and Miss Evelyn Roth sang "A Wedding Prayer."

The bride was radiant in a dress of silk organza and lace. It featured a sweetheart neckline fitted bodice, long fitty-point sleeves and a full waist-length shirt, fine slippers were of white leather. She carried a bridal bouquet of pink carnations, roses and lily-of-the-valley. She entered the church on the arm of her sister Marilyn who was the maid of honor.

Miss Phyllis Lasher, sister of the groom was bridesmaid. Phyllis and Marilyn were identical dresses of nylon chiffon over rayon taffeta in pink and blue respectively. They featured large ballerina skirts and fitted bodices. Their corsages were of pink and yellow roses with lily-of-the-valley. They carried lace handkerchiefs.

Attending the groom were his brother, Mr. Ben Lasher and Mr Gene Yoder, cousin of the bride. Mr. Gary Yoder, cousin of the bride and Mr. Dale Lasher, cousin of the groom acted as ushers. They all wore boutonnieres of white carnations.

Mrs. Lehman, the bride's mother, wore an afternoon dress of black crepe and a corsage of yellow roses. The mother of the groom chose a blue figured afternoon frock of cotton satin. Her corsage was of red roses.

A reception for 200 guests was held in the church basement. The bride's table was laid in white linen and centered with a three-tiered cake, beautifully decorated for Mrs. Norman Stauffer. Mysteria of roses and white net graced the table.

Mary Ita, lovely zipper there was a short program with Paul Voegtlin in charge. The ladies' trio sang "Since Jesus Freely Did Appear" and "O God of Wisdom." Miss Phoebe Zook read an appropriate poem and Miss Shirman gave a few well-chosen words. A quartet consisting of Mr. Lee Lasher, Mr. Ben Lasher, Mr Calvin Lasher and Mr. Murray Lasher, all brothers of the groom sang "O That We All Could Quit, Pshtt." The groom gave a short speech.

For going away the bride chose a beige all-wool suit with a small mink collar, and brown accessories. After a honeymoon trip to Banff, Jasper and Grande Prairie, the happy couple will be at home on a farm near Tofield.

## Alberta Safety Council holds re-organizational meeting

J.C. Jefferson, President of the Alberta Safety Council, Wednesday announced plans designed to strengthen the Safety Council movement in the province. Changes in staff designation also were announced.

Mr. Jefferson said the group plans to divide the province in zones and to have one safety council in each zone, together with subsidiary committees throughout the zone. Such a system now is being used in the Lethbridge area, he explained. There, the Lethbridge and District Safety Council serves a region bounded by Fort Macleod on the west, Taber on the east, Picture Butte on the north and Cardston on the south.

A concerted drive is planned to establish several such systems in Alberta this year, he said.

At a meeting in Calgary last weekend, at which the plans were endorsed, the executive of the council named RM Nunns of Calgary and William Postins of Edmonton as Field Service Manager. Mr. Jefferson said, that will be instrumental in organizing new councils. Mr. Nunns will serve Southern Alberta and Mr. Perkins, Northern Alberta. Mr. Nunns was formerly the council's assistant manager in Calgary while Mr. Perkins has been the Council's farm safety director.

In addition, the council's secretary, Mrs. Mabel Bate, has been named Coordinator of Ladies' Activities. Paul Lawrence, manager of the Alberta Safety Council, will become General Manager. Mr. Jefferson said that the appointment of a Coordinator of Women's Activities is in keeping with a recommendation of the Canadian Highway Safety Conference, which met last month in Vancouver. He said the new post emphasizes the importance of women's groups in the promotion of safety.

THE SECOND LINE OF DEFENCE

The tremendous strides that have been made by scientists in the development of suitable chemicals have revolutionized weed control and have done much to aid in the battle against weeds.

It would be a mistake, however, to rely upon chemicals alone. Tried and tested cultural methods, the use of clean seed and the prevention of the spread of weeds will continue to be important as the farmers' second line of defence. Those constitute good farming practice for which there can be no substitute

## THE BEAUTY AROUND US

Last weekend we spent two days with a couple of friends who have become genuine birdwatchers and we learned just how much we have missed in our travelling around. Seeing a flock of ducks didn't bring forth a comment because all the ducks, instead it was mallards, pintails, canvasback ducks, shovellers, etc. The sparrows we saw in the trees were English sparrows, Tree sparrows, etc. The ordinary gulls flying overhead were Franklin gulls, Herring gulls. The bluebirds were yellowbreasts, tri-coloured, and redwings.

Many is the cartoon that has been drawn poking fun at bird watchers but little do we realize that these people get much more out of life than we do. There are so many things in this great wide wonderful world for us to enjoy; if we will only slow down long enough to notice them. In this age when everything is artificial, including our entertainment, we have lost sight of the beauty of Nature. It is our opinion that if more people would take up this pastime there would be a lot less problems in the world.

Next time you are out of doors, take a little time to notice the things around you and we are sure you will agree that Nature has many beautiful surprises you have never noticed before.

## 2, 4-D and DANDELIONS

It's dandelion time — and in most of the lawns and gardens in town, the little yellow flowers are sunning themselves as they get ready for a rapid switch into fluffy grey seed to multiply their kind a hundredfold.

Real gardeners tell us, of course, that there is no longer any need to be bothered with dandelions. These hardy plants, we are informed, can be controlled with ease by the proper use of 2,4-D. This useful weed killer has even worked for us with remarkable effectiveness. We have dand pansies and columbines, wilted snapdragons and daisies as positive proof that 2,4-D works.

Somehow or other, though, the dandelion seems to be made of sterner stuff than our hot-house born, carefully nurtured flowers. Where a mere wisp of 2,4-D spray will wipe out a complete flower bed (excepting the quack grass), well-established dandelions can take their poison straight, with little more than a curled leaf or so to show any visible effect of the treatment. Heavier and stronger portions of 2,4-D might do the trick, but grass turns brown, whitheds and dies if the solution is too hefty.

The secret in the use of 2,4-D, like the secret of the successful bartender, seems to be in the proportions of the mixture. Too weak a solution only spurs the dandelion on to greater growth, and the flowers wink knowingly as they tick themselves away for the night. Too strong a solution will stop the wink, but kill the grass where the dandelion has made itself an unwelcome guest.

We have finally reached the conclusion that the proper use of 2,4-D lies merely in the proper translation of the directions on the 2,4-D bottle. Next time we use the stuff we're going to know exactly how many square feet of lawn is to be treated. Then we will mix the exact proportions to cover this area.

When we run out of the solution before more than half the lawn is covered, we can quit with the realization that those dandelions, at least, have had the course. We can also hope that the grass will recover from the effects of the overdose.

## ROSS CREEK DISTRICT LOCAL NEWS

ROSS CREEK — The weather was most co-operative for the farmers on their day, and we hope they were busy on the land or enjoying the out. Surely a pretty setting, at least!

Would like to wish all the fathers a very happy Father's Day on Sunday.

Mr. Alec Duncan of Waterhen is visiting with his daughters Isabel and Winnie McLachlan for a few weeks. We hope you enjoy your visit and will feel much better after your holiday, Mr. Duncan.

Examination time is creeping around only too fast for the hard studying students. Here's very best of luck in your grades this year students.

A very pleasant day was had Saturday by the district school children. Three busloads from Grodes Five to Twelve made a trip to Edmonton visiting Beaver Park, Storyland Valley and the Al Oeming farm, Cooking Lake, having a wiener roast out there.

Joseph McLachlan visited Mr Thor Friday at the Sanatorium. We are glad to hear he is coming along very well.

On Saturday Eleanor and Jean Farrel visited with Ruth Farrel time at the Sanatorium.

The measles have been making their rounds in the district lately. Do hope they will soon clear up again.

The Brain Farrel family went fishing at Moss Lake over the weekend.

Mrs. Smith and John Tomlinson spent the weekend at Mrs.E. Hays you had a nice holiday boys.

Bessie and Eugenia Dickerson took Grandma McLachlan to Charlie Garrett's at Lamont Tuesday morning.

Howard and Mell Malcolm, Jon and Iris Bijou, Georgy and Winnie McLachlan spent Saturday evening bowling at Chipman.

Friday Joseph and Isabel Mc Lachlan and Mr. Duncan were in the city, bringing Grandma McLachlan back with them. Grandma is visiting with relatives and staying with her daughter Duncan for a few days.

Love gives us memories — so we can have roses in December.

Keep in mind the special Father's Day service on Sunday at Rev. Mantz will be here for only two more Sundays. It is hoped we will have a full church for Sunday. The last Sunday of this month a family get-together will be held after church when a dinner will be held and the quilt presented to the Mantz family. We would like to say a special thank you to the service committee for their extra work and time getting the quilt ready for quilting on Wednesday. Frances McLachlan did an excellent job of writing the names on each block.

Church and Sunday School will resume at 11:45 a.m.

## Northern Alberta Hereford Club tour

The Annual Tour of the Northern Alberta Hereford Club will take place on Saturday, June 25th in the Fort-burg-Lester area. Guests are to meet at the B.C Walker Farm 5 miles north of Killam on Highway 36. The time of meeting has been set at 9:30 a.m. but it is hoped that everyone will arrive a little before that time in order to see the Walker herd. From there the tour will proceed to the farms of W.G. Leslie and Norman Wild before stopping at Art Link's at Forestburg to eat a picnic lunch.

In the afternoon the herds of Gordon Haller, Eddy Fiscon, C. Khan and Reuben Hanna will be visited. The climax of the tour will be a Barbecue Supper at John Hinzer's Ranch —the home of the Wabash Herefords. Entertainment in the form of a cutting horse demonstration will close the evening.

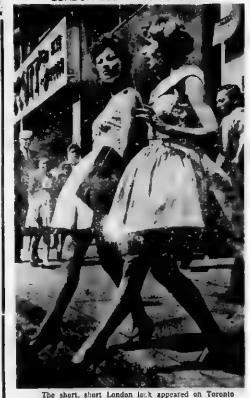
### LONDON LOOK HITS TORONTO



The short, short London look appeared on Toronto streets for the first time recently. Alice Hensal and Cynthia Desprette, take an eyeblow-raising stroll in their knee-revers-skimming skirts. The new skirts drew wolf whistles galore and one observer quipped "They'll have to get longer nylons, now."

SEEDTIME and HARVEST
ORGANIC MATTER THE LIFE BLOOD OF THE SOIL
Probably the most appreciated component of our prairie soils is the organic matter or humus content. There is no doubt due to the fact that, initially, most of our prairie soils were fairly well supplied with this material. The organic matter which was present in the virgin soils of Western Canada, accumulated over the centuries through the decomposition of dead plant and animal material. Each crop we have grown has used up some of this material and we have not given enough attention to cultural practices which would maintain the supply. Furthermore, we have failed to realize the tremendous loss of organic matter that has occurred through wind and water erosion.
Organic Matter Vital. Let's face facts. Without organic matter no soil can produce satisfactory crops. Organic matter is the life-blood of the soil. What does it do? Very briefly, organic matter (1) Improves and structures soils. (2) Helps prevent wind and water erosion. (3) Supplies nutrients to plants. (4) Absorbs heat from the sun and "warms up" the soil more quickly in the spring. (5) Changes certain chemical elements in the soil from an inert form into nutrients which the plant can use. (6) Maintains the growth of beneficial soil micro-organisms.
The role of organic matter in the soil is indeed varied and useful. Without it the soil would be a sure lifeless mixture of sand and clay. Without it crops would not grow. Without it even heavy rates of fertilizer applications would be of little value. To conserve it we must prevent erosion and return every scrap of straw, stubble and barnyard manure to the soil. And we can also add organic matter by growing forage crops. The nitrogen produced by legume forage crops feed the bacteria in the soil and assists in rotting down raw organic matter.
Organic matter is indeed the life-blood of the soil. Guard it carefully! It plays a vital part in the successful production of grain crops.

MINISTER — The Ladies' Aid meeting was held on Wednesday afternoon were made for the strawberry Tea which was on Saturday.

The Strawberry Tea once a year was a huge success It might be interesting to know that in the attendance from Ft Saskatchewan, Edmonton, Hastings Lake, South Cooking Lake, Looma Vista and of course Bitumth, Our treasurer, Mrs Andrew Ferguson appreciated the help received from all the ladies and the ladies of the club organized thanks to all those who turned out to make the tea such a success Oh yes I must not forget the gentlemen, and they were many, who also came along for a cup of tea and strawberry shortcake.

Mrs C B Loach visited her sister Mrs Florence Seeley in an Edmonton hospital. Others who visited Mrs. Seeley were her grandson Ben and Mrs. Gumley Hewson.

Mr and Mrs. G A Wallace of Coronation, Alberta were weekend visitors of Mr. and Mrs. Tom Bowerman.

On Farmers Day Mr and Mrs. Joe Davenport and wife and Mr and Mrs William Davenport had a picnic at Elk Island Park We are glad to know Mrs. Davenport is feeling her old self again.

Mr. and Mrs. Albert Horichn and boys spent the weekend at Miette Hot Springs.

Mrs Ellie Roderick is spending a few days again at the farm with Michael and Violet.

The ball club was almost victorious on Friday p.m. against Salisbury. They led the score with 7 runs until the last inning when Salisbury came out in front and won the game by a score of 8 to 7

Mr and Mrs. Otto Mosher and family spent Sunday at the home of Mr and Mrs. Tom Jones and boys Mr. and Mrs. James are the proud grandparents of their first granddaughter.

Mr and Mrs Gordon Thor have returned from their honeymoon to Montana and will take up residence in Edmonton.

Bobby Roderick of Edmonton was a dinner guest of Dolly and Jim Roderick He visited with the Bill Roderick in the afternoon.

Mrs. Paul Poppanow is staying with her parents Mr. and Mrs. Tom Jones while waiting to move into her new home up north.

There was a wonderful turnout at church on Sunday it being Communion Sunday. It was nice to see so many of the older folks whom we haven't seen at church for a long time. Rev. James Hallett of Edmonton took the service. He was accompanied by Mrs. Hallett. Mr. Howard Munro assisted with the service.

Mr. and Mrs. Douglas George and family were Wednesday evening supper guests of Dolly and Jim Roddick and girls.

Mr. Happy Holmes has been helping a number of his neighbours with their seeding.

Mrs. Happy Holmes gave the Rolls of Honour from the Hall a "new look" when she had glass put over them and gilted the frames. A big thank you to Mrs. Holmes.

We'd like to pay a special tribute to All Dads on Sunday, June 19th, your Dad and mine.

## TOTEM POLE CARVER

Totem pole carving has been taken up by Arthur Shilling, a Chippewa on the Rama reserve near Orillia, Ont. Examples of his skill are touched up by Arthur above. At the back is a 9½-foot pole he worked on for nine months. Interest in B.C. Indians attracted him to carving poles. He also sketches and paints.

## Special TV Program

Yale Bryaner makes one of his rare television appearances Sunday, June 19, when CBC TV presents his MISSION TO NO-MAN'S LAND. The program will replace The 20th Century on that day

The program is a report on the refugees of Europe who linger and wait, and whose children know only a camp as a home

For this report, filmed by an international team under the direction of Hollywood's Anatole Litvak, Bryaner went to Salzburg, the city of Mozart. Not far from its beautiful old buildings is the refugee camp where the 21 camps made —one of many 'No-Man's Lands' in the district. He interviewed a variety of people, including a young girl who was born in Dachenwald & who has spent her entire life in refugee camps.

"Her aim," Mr Bryaner said, "was not so much to make a film as to reflect a situation that has existed all too long. One of the worst crimes one can commit against humanity is to let the hope of these people die.

It is a shocking state of affairs that third - generation camp-dwelling are being born right now Can we stand before history if we allow a fourth generation to be born in these camps?

It is a challenging thought, as the World Refugee Year nears its half way mark.

## Farmers' Union gets insurance

EDMONTON — The Farmers' Union of Alberta announce that they have negotiating with the Co-op Life Insurance Company to offer group life insurance to their members.

The annual premium will be $85.00 and will provide coverage of $10,000 00 if death occurs from ages 15 to 57 decreasing to $1000 00 coverage at age 65. This protection is of particular value to the young farmer with family responsibilities.

This insurance will be available through agents of the F.U.A. Car Insurance Pool.

This is another in the increasing number of services being provided by the Farmers' Union of Alberta.

### HOT WEATHER "GREENS"

Tampala or Fordhook pleasant change from all spinach is especially worthwhile as "greens" since it can take hot weather without getting bitter or tough. It is ready to use within six weeks of sowing the seeds.

The leaves of the tampala plant are cooked, like spinach in many ways. Tampala can also be used raw in a salad The stems can also be cooked much in the manner of asparagus and have a flavor something like that of artichokes.

Tampala retains its tender-ness for a long time and has a flavor all its own, and more food value than either spinach or chard. It produces edible foliage all summer, and gardeners will find it a frozen other greens.

The seeds of tampala can be sown outdoors about the same time you plant beans, or any time after the ground becomes warm.

Where the plants are grown they should be spaced two feet apart, as shown in the accompanying Garden Graph The leaves will be ready to eat in from six to eight weeks after sowing the seeds. When mature, tampala makes a large, round plant 1½ feet and more across and two feet high, as illustrated.

If the four or five-inch tips of each branch are used, repeat cuttings may be made as new leaves and stems grow. It can be canned or

## Lady from Norway visits friends at Ryley

Mrs. Kirsten Bjerkli of Lillehammer, Norway, spent a busy week in Ryley recently. She visited her former neighbors, Mr. and Mrs. Alf Anderson, Mr. and Mrs. Odd Orbeck and others; also her brother-in-law, Andrew Finseth. She was especially pleased to have a chance to meet so many dear friends of her late sister. The Lutheran Ladies Aid arranged for a delightful reception for Mrs. Bjerkli while she was here.

Our Norwegian visitor was delighted to have Hon. Anders O. Aalborg call on her. For over an hour they chatted in their native language, and Mrs. Bjerkli became convinced that her countrymen are very welcome in Canada.

From here she went to Tofield and Edmonton to see her cousins, Mrs. Hankedal, Mrs. Flotten and Mrs Sund and their respective families, and on to Grande Prairie for a visit with her sister, Mrs Tuley Finally she plans to go to Vancouver to call on her niece, Mrs. Low By that time she is afraid her time will be up and she will have to return to Norway

# PROUDLY WESTERN

*From a photograph of American settlers arriving by covered wagon near Red Deer during the 1890's.*

*A Salute to Alberta's American-Born Pioneer Citizens*

New towns are springing up where railway lines have sowed the prairie and parkland, beyond them new furrows are to be ploughed, and here are the pioneers who will turn them deep and straight.

They are Americans, mostly from the midwest states, farm people wise enough in the ways of pioneering to temper enthusiasm with caution. When Canadian land agents visited them at their established communities in the States they elected to send representatives north to see if the promoters' promises of "free land" were accurate and practical.

Now, encouraged by reports, they strike out confidently — sometimes a few families together, often an entire community — loading cherished family treasures in covered wagons, hitching patient milk cows to the tail gate, and proudly tucking into the whip socket the staff from which flutters the Stars and Stripes.

The first which pioneered Alberta at about the same era — 1892 — proudly salutes the American "covered wagon" pioneers for their faith in the province they helped make great.

A WEEKLY PAPER SERVING TOFIELD, RYLEY, LINDBROOK, CHIPMAN, COOKING LAKE, KINGMAN

Vol. 8 — No. 38 TOFIELD MERCURY, TOFIELD, ALBERTA Thursday, June 23, 1960

Sixty-five magistrates from 54 Alberta centres attended the fourth annual Magistrates' Conference held in the Northern Alberta Jubilee Auditorium recently. Panel and group discussions highlighted the weekly conferences, and magistrates studied such topics as uniformity in procedure and sentencing, new traffic regulations governing the suspension of operator's licenses at the time of conviction on a third offense for certain moving violations, infractions of the Liquor Act, and magistrates' responsibility in handling small debts cases.

Shown in a study group at the conference are, left to right: J.W. Bissell, High Prairie; L. Willans, Ryley; R.E. Barnes, Grande Prairie; R.N. Russell, Athabasca; N.H. Edgecombe, Fort Vermilion, and A.J. Terry, Amisk.

## FIRST OF JULY FLASHES

Not enough money to get ready for Tofield's big Dominion Day celebration! Mrs Guy Pinson has been committee all last year's participants in the parade. She is anxious to have the entry list of floats as complete as possible if you have been inadvertently missed, or if you are entering a float for the first time, please phone Mrs. Pinson at 12 to list your entry. A complete list will help parade marshall Art Francis to do his usual smooth job in organizing the parade.

The Women's Auxiliary to the Community League will welcome donations of pies to their booth on the Exhibition Grounds on July 1.

It will be interesting to see which rural district wins the cup for the best District Float this year Will Ketchamont win it three years in a row or will some other district wrest it from them? Come around on July 1st to see.

The tumbling demonstration by Mr Amisk' high school class will take place about 1 p.m immediately following the awarding of the parade prizes.

Baseball will be, as always, a major attraction Senior teams from Bardo, Tofield, Round Hill, and Holden will participate as will Pee-Wee teams from Holden Bardo and Tofield So on hand to cheer your favorite team!

What with the Parade the Baseball, display of school work, tumbling children's races, rides, cutting horse and jumping contests, horseshoe tournaments, the bowls, matinee and evening shows and the Community Ball in the evening, July 1st promises to be an event that will give Tofield a great send-off into its second half-century.

## Funeral Services held recently for Amos Henry Wideman

Amos Henry, the son of the late William of and Sarah (Brubaker) Wideman was born at Mayton, Alberta, May 1, 1918. He died June 14, 1960. Age 44 years 1 month 13 days.

Amos had a weak heart from birth and was mentally affected, which gradually increased. He was at home until 13 years ago when he was taken to the St. Joseph's Hospital in Edmonton. A year ago he was transferred to the Oliver Institute. From there he was moved to Dewdrome, Red Deer, where he passed away a few weeks later, of a heart attack.

His father predeceased Amos on Jan. 19, 1938. He leaves to mourn his passing, his mother, 4 brothers and 5 sisters. The brothers are John and Willie of Tofield, Norman of Dodds, Noah of Ryley, Leonard of Kingman, and Sam of Mile 200, Alaska Highway. The sisters are Martha Lapper of Tofield, Eva (Mrs. T.M Brenneman) of Stanton, Kansas; Lydia of Edmonton, Esther (Mrs S.A. Hansen) of North Surrey, B.C.; Naomi (Mrs. Louis Yoder) Tofield, Edith at home, Rose (Mrs. Sanford Mantiq) Tofield, and Ella Mae (Mrs. George Roth) of Tofield. Also there are 43 nephews and nieces, and 12 great nephews and nieces.

As a boy, Amos attended Sun day School and church services, until the age of seventeen, his mental health began to fall more rapidly. His chief enjoyment was music; playing the mouth organ or singing the song. "When the Roll is Called Up Yonder, I'll Be There"

Funeral services were held at the Evan Mennonite Church on June 16, in charge of Rev. Hilo Stutzman and Rev. Harold Baetiger. Interment in the cemetery nearby.

We want to thank each and everyone for the kindness shown to us in sympathy cards, gifts after the passing of our son and brother Amos Henry.

Thank you Mr. Stinson, Andrews McLaughlin, Ministerial brothers and pallbearers.

Mrs. Sarah Wiedeman and family.

## Officers to be installed at next Lions meeting

An executive meeting of the Tofield Lions Club was held Tuesday night at which time plans for the installation of officers were completed. It was felt that the ladies should be invited to attend. A committee consisting of the past presidents was appointed to take care of the arrangements. Tickets were distributed for the play house which is to be raffled the First of July.

Ed Reznek stated he thought it would be a nice gesture on the part of the Lion's Club to offer to take over the construction of the new skating rink from the Curling Club.

He and Allen Warner were instructed to meet with the Curling Club and find out if they are interested in having the Lions take over the skating rink.

The next regular meeting of the Club will be on Tuesday evening at which time the new officers will be installed. All members and their wives are urged to attend.

## Local couple to holiday in Europe

Mr. and Mrs. George McFadzean are leaving today by VIA from Edmonton for a five-week tour of the British Isles and the continent. The itinerary calls for one week in Ireland, one week in Scotland, two in England and one week on the continent. Mr. McFadzean will be in charge of the Drug Store during their absence.

—M—

A uniform for the office? In Melbourne, Sydney and Brisbane the girls of one large company have already adopted one. Their dark blue dresses of "Terylene" will vary in style from the slender sheath to smart designs with flared or pleated skirts. "Pretty practical and they are no pre-breakfast decisions!" is the opinion of the girls.

## Ministerial staff changes in Tofield churches

Changes in the Ministerial staff of four Tofield churches will take place this summer.

The Rev. G.F. Winchester, Vicar of Holy Trinity Anglican Church at Tofield, has accepted a call to Kinsmoy where he will have five churches under his charge Rev. and Mrs. Winchester, who came to Tofield in January will move to their new parish in July.

Replacing them at Holy Trinity will be the Rev and Mrs. W.L. Hammer of Edmonton. Rev. Hammer was employed at the Synod office in Edmonton prior to his ordination on June 14th. Rev. G.F Winchester was ordained at the same serving at All Saints' Cathedral.

At present Rev. and Mrs. Hammer are in England but will take up residence in Tofield in September. During the intervening weeks lay readers will hold regular services at Holy Trinity

Father Joe Lozukyshki who has been assisting Father Purcell in the duties of St. Francis of Assisi Roman Catholic Church and Missions for the past couple of weeks left last week to begin temporary duties at Holy Rosary Polish Parish in Edmonton whose pastor is in Europe for the summer.

For the next six weeks Father Purcell will be assisted by Father John Shih of China, Professor of Canon Law at St. Joseph's Seminary, Edmonton.

Members of the Tofield Baptist Church regret to have their minister Mr. Dwane Norton leave them. Mr Norton will visit at his home in Southern Alberta for a short time before accepting a call to another church. At present arrangements are being made to obtain a replacement for the local church.

Rev. Sydney Bell, minister of the United Church at Tofield, and Mrs. Bell and family moved recently to take up new duties at Lethbridge.

The Church Board recently received acceptance of a call from Mr. G R. McNeil, B.A., of Aylsham, Sask. Rev. and Mrs McNeil and three small children will move to Tofield and hold their first service the last Sunday in July.

Mr. John Davidson of Edmonton will officiate at United Church Services for the month of June.

These members or our community leave with our best wishes for happiness in their future endeavours and to the newcomers we extend a hand of welcome.

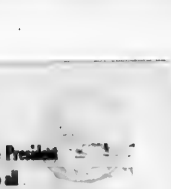
## Tofield Swine Club holds meeting

A congratulation meeting of the Tofield Swine Club was held on June 13. The following officers were elected.

President — Rev Yurkowski; Vice President Rudy Hubert; Secretary — Daly McDonald. Club Reporter — Donald Wyrlie; Club Delegate to Clifford Ferguson; Adult Committee — Earl Ross, Russel Ferguson, Mel Wood.

The club project decided upon is a pair of feeder pigs for each member. The regular meetings are to be held on the second Wednesday of each month.

## Community League President extends welcome to all



HORACE SELLER

Horace Seller, President of the Tofield Community League this week on behalf of the executive extended a cordial welcome to all to attend the July First Sports Day He stated that July First belongs to the community and it is his hope that everyone would come and enjoy the fellowship of friends in Tofield on that day.

This year's executive will really come up with something new and different with the Jamboree Pageantine and Cutting Horse Demonstration. The parade also promises to be the best ever. A letter this week from Edmonton supported the wish of the REA&C to send their unit band to Tofield to take part in the parade. So call up all your friends and relatives and enjoy yourself in Tofield on July 1st.

Vince Bates spends a small quantity of dry wood for the 1st of July barbecue His only request is that it be accessible to a road where he can pick it up easily If you have a little wood that Vince could have for such a purpose give him a call at 312W2, Tofield

## Make telephone call to Germany.

Mr and Mrs. Ernst Budde of Hagen-Haspe, Germany were pleasantly surprised on the morning of Mrs Budde's 52rd birthday this week when they received a telephone call from their daughter and son-in-law, Christel and Walter Kraber of Tofield.

Mr. and Mrs Kraber placed the call at 10:30 p.m on Tuesday evening, June 21, and had a three-hour wait before connections were made in Germany. It was 8:30 a.m., June 22nd.

Conversation with Mr and Mrs. Budde and Christel's sister, Mrs. Lies Nicholas, who happened to be spending the night with her parents, was clear and distinct with no line troubles They hope to call again at Christmas time.

## LUCKY WINNERS

Mr Lopatich was the winner of the card table and chairs raffled at the Strawberry Tea held by the CWL on Saturday, June 18. The draw was made by little Joyce Gould.

Mrs. Jim Fisher was the lucky winner of $10.00 from radio station CFCW this week. She was in Watson Hardware at the time and name was drawn thereby making her eligible for the jackpot.

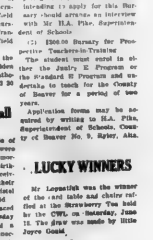
## Diefenbaker asks for safer driving

Prime Minister Diefenbaker has called on all Canadians to co-operate in Canada's nation-wide summer vacation campaign to control the "hit-and-carry" drivers who risk their lives and the lives of others to get where they're going as fast as they can.

Called "Slow Down and Live", the drive operates through June, July and August, sponsored in Canada by the Canadian Highway Safety Council simultaneously with the United States and Puerto Rico.

Returning to Canada's 1959 traffic toll of more than 5,200 lives, the Prime Minister writes "Everything must be done to combat this senseless loss of life." He urges motorists, to obey traffic laws and drive carefully at all times.

## STORM SMASHES LABATT'S AREA



Southwestern Ontario had a reminder of a 1953 tornado disaster when fierce storms ripped into the area a few days ago and did $1,000,000 damage. Winds up to 110 mph smashed airports and ripped roofs from homes, torrential rain and hailstones caused heavy damage to rich farmland. Here we see a complete of the storm's work with this Barnia, Ont. plane which was thrown 200 feet against a hanger and cemented to the door.

## A QUESTIONABLE DESTINATION

*EDITORS NOTE - The following essay was written by Linnie Thiessen, Grade 10 B Class, and placed first in the Community League's Essay contest. The second and third papers will be printed in the weeks to come.*

Will the town of Tofield have expanded as much in fifty years time as it has in the previous fifty years? Indications are that there will be an even greater expansion. The ever-increasing population is demanding better and more modernly equipped homes and as a result, old deserted lots are taking on a new appearance and streets are being made where, until now, there has only been brush and weeds. Stores, garages, the hospital, and various other businesses are being built or enlarged and remodeled to supply the people of Tofield and district with the necessaries of life.

Recreational facilities are being improved and will continue to expand as long as the younger generation is sports-minded. Several years ago sports were limited to a few types; others have now been added, such as badminton, golf and gun clubs and basketball. Not only are there new additions, but the facilities for the previous ones are being ameliorated, for instance, the building of a new curling rink which is promised in the near future. We can therefore see that people nowadays and especially in the days to come will have a much better chance in competition with other centres.

I predict a great improvement in the school system. A wider selection of subjects will be an asset to the High School curriculum. There will also be a better method of teaching various subjects and special study rooms. The playground will be made more efficient by the addition of sports equipment.

A most important feature of Tofield a few years from now will be the paved streets and cement sidewalks for all parts of the town.

With Tofield producing people who will want to improve the town to their satisfaction, we can see that the future is bright and promising.

## CANADIAN ARMY NEW TRAVELS IN LUXURY

Travelling today for the Canadian soldier is a far cry from what it used to be. Today he travels like a gentleman in a luxuriously appointed drawing room with his family. All the facilities aboard the ships are thrown open for their use. To cope with the large number of children new nurseries and playrooms have been added. Above at left here d'ouevres for two add luxury to the move overseas, while at right a nurse attends the children while parents enjoy life afloat.

## Mrs. Cross holds piano recital

The pupils of Mrs. Bob Cross performed in their annual piano recital in the United Church on Thursday evening, June 16. Forty pupils took part," two of them playing piano accordians. It was a most enjoyable evening with the pupils doing well and many of them exceptionally well.

Mrs. William Ruddy acted as Mistress of Ceremonies and before opening the program paid a few words of appreciation for Mrs. Cross' excellent work with her pupils, and regret that she would not be here to hold classes next season.

Immediately after the last number on the program Carol Weiss on behalf of the pupil presented Mrs. Cross with a basket as a thank you & Jean Wall gift piece Mrs. Cross with the rest of her family will be leaving Ryley to live in Beverly. Mrs. Cross thanked everyone sincerely and expressed her regret to be leaving Ryley and her music students. The audience and pupils rose and sang "Auld Lang Syne" with Carol Weiss accompanying on the piano.

Following the recital a delicious lunch prepared by the mothers, was served in the church parlour.

SUNDAY SCHOOL PICNICS

Beth Calvin United and Bethel Lutheran Sunday Schools held their annual picnics on Sunday, June 19. The United held theirs at the Amisk Creek campsite and the Lutherans at the Ryley Sports Grounds.

## TIPS ON TOURING

Going mountain climbing this summer?

If you do it the easy way — in your car — you can use these tips from Shell automotive experts. They will help you get safely to your mountain retreat cousin view or trout stream, and back again.

Make sure your car is in perfect mechanical condition before starting out.

When coming into the hilly areas, check at a service station to see if the carburetor needs adjustment for high altitudes. The adjustment, if any, is the same as for very hot weather: a leaner fuel mixture to deliver full power is verified air.

Don't expect to make your usual mileage. If you do 200 miles a day, straight driving, figure on 150 in the mountains.

Keep on your side of the road — especially on curves. Don't run in from the outside lane or swing wide from the inside. This means extra slow driving: don't attempt it in "high."

Keep the driver's seat as high and as far forward as you can, while still being comfortable, to improve close-up vision.

If there are wide "pull-off" spots, stop, get out and enjoy the view — and give the engine time to cool off. Always leave the car in gear, with the hand brake on, front wheels turned.

When going down steep grades never coast in neutral! Your momentum can easily outrun the car maximum. Shift into second — or even first gear. ("Low" on automatic shift.)

Don't ride your brakes. Their power can "fade" them — make them so hot from friction that they become slippery. Let the gears and engine do the work

## Close pool account for wheat

OTTAWA — In the absence of the Hon. Gordon Churchill, it was announced recently by the Hon. D.S. Harkness, Minister of Agriculture, that the 1958-59 Pool Account for wheat was closed on May 31, and the final accounting had been completed.

Producers delivered 307 million bushels of wheat to the 1958-59 Pool, compared with 276.9 million bushels of wheat to the 1957 Pool. An interim payment was made last March in respect to the 1958-59 Pool, involving the distribution of $54,000,418.35.

After providing for payment costs and the Prairie Farm Assistance Act levy, the final payment will amount to $51,919,520.34. The average final payment will be 1.2435 cents per bushel, basic producers' delivery.

The total prices realized by the producers were slightly less than those received for the preceding final.

Mr. Churchill stated he was informed by the Canadian Wheat Board that cheques would be issued to producers commencing this week, and that payments would be completed during the first week of July.

### WAYS WITH VEGETABLES

Play your collection of quick tricks with vegetables here are a few favorite ones:

If your short on time, the simplest way of serving vegetables which look and taste good serve piping hot, topped with several pats of butter and a generous dash of paprika or minced parsley.

To serve carrots a different way try heating them about five minutes in a few tablespoons each of butter and mint jelly or butter and chopped fresh mint. Have you tried adding nutmeg or a dash of curry powder, before buttering up?

Dry beets a popular vegetable at your home? While your beets are cooking, make a medium white sauce with butter, flour, and orange juice instead of milk. Add a dash of vinegar and serve hot over beet slices and raw onion rings.

There are so many quick touches we can give these vegetables that we should never worry about: Hils, Bobby or Janet saying "Oh no, not peas again!" Here are a variety of ways to choose from. After buttering them up well, peas or green beans are delicious mixed with toasted almonds, chopped chives, sliced mushrooms browning in butter, cheese, onion, or any of several herbs and spices the savvy or summer.

Frozen green beans are available all year round so the next time, while they're cooking, slice up some mushrooms, sauté them in plenty of butter, and mix them with the beans just before serving.

What about the almighty onion? While the onions are cooking, make a creamy - white sauce made of the usual butter - flour - milk mixture. Slice crumbled blue-veined cheese for extra tang —serve this on top of the onions and be prepared for compliments.

### New traffic laws are in effect

Continued from page 5

sons whose record indicates difficulty in driving within the law will be called out by the Department and notified by letter, and if improvement does not result the driver's license will be suspended. In addition, the courts will be suspending licenses for infractions as heretofore

The Minister made reference to a second conviction for the following offences:
(a) Speeding.
(b) Driving to the left of the centre line;
(c) Failing to stop before entering a main highway or arterial street.

A second conviction for any of these offences will mean that the Magistrate will suspend the driver's license immediately and return it to the Department.

All of this is being done in an attempt to reduce the terrific loss of human life that is taking place on our highways and streets 2. Persons desiring to learn how to drive under the tutelage of a driver who holds a valid driver's license must secure a learner's permit from the driver examiners of the Department of Highways. There will be no charge made for this permit and it will be valid unless otherwise cancelled up to a maximum period of ninety-days' months.

3. The Minister stated that regulations were being prepared by the Department to deal particularly with the splatter, composed of protruding silver pikes that are flung on the wheels of a few of our vehicles.

The regulation will also out law any decorations that interfere with the vision of the driver in any way.

The above regulations are presently being prepared and person with vehicles containing the silver spikes on the hubs of their vehicles should have them removed immediately. Prosecutions will take place after the regulation has been properly made.

THE FIGHTIN' SIXTY-FIRST

Officially it's 61 Aircraft Control and Warning Squadron, stationed on NATO duty at Metz, France, but to the rest of the RCAF in Europe it is known affectionately as "The Fightin' Sixty-First." It's the only RCAF radar squadron outside of Canada and members of the unit go all out to be the best radar squad serving with NATO.

Movements of aircraft over Western Europe are plotted on plexiglass screen by Leading Aircrewman Jo Viaplana of Sarnia, Ont. at left. At right Radar Technician Sgt. Gilles Bagin of Quebec adjusts equipment in the complex business of keeping radar unit operational 24 hours a day. The crack team has saved up to $5,500,000 in lost aircraft alone, according to the RCAF.

### Bank of Montreal Review Discusses money exchange problem

MONTREAL — Sharply reduced borrowing in the United States in recent months by Canadian provincial municipalities and corporations has been a major factor in the decline of the premium on the Canadian dollar since March, according to the Bank of Montreal's Business Review for June, just issued.

"By the same token, the few large issues made in recent weeks may go far to explain current relative confidence in the rate," the bank says.

Tracing developments in the Canadian - U.S. exchange picture —with the Canadian dollar currently at a premium between one and two per cent — the B of M says the situation has produced both advantages and disadvantages for Canadians.

"Canadian exporters, other recipients of foreign funds and visitors to Canada welcome the change, while importers Canadians travelling abroad and those who must meet foreign currency obligations find themselves at a financial disadvantage compared with a few months ago.

"Indeed, most Canadians are directly aware of the altered exchange rate and discussion of its causes and effects has been widespread."

TWO TO FIVE PER CENT

Reviewing events in 1956 to 1959, the bank recalls, the massive volume of foreign capital flowing into Canada. The volume was so large that it not only provided "the means of settling Canada's large deficits on merchandise and other current account transactions but resulted in demand for the Canadian dollar that kept the premium in a range broadly between two per cent and five per cent."

This pattern continued into the early part of 1960 But after March the trade deficit widened and, even more important, Canadian borrowing in the U.S. declined. These factors combined to squeeze the premium on the Canadian dollar to less than two per cent and this situation has continued more or less without change until the present.

"Market psychology" can, for short periods, accentuate movements in exchange rates the review says But, in the longer run, "the rate is bound to be determined by the underlying ebb and flow of real international transactions on both current and capital account, which both on large in the functioning of the Canadian economy and which themselves are always changing," the B of M review concludes.

### Sunshine Needed

After almost a week of cloudy and cold weather some need sunshine and warm weather now to dry up the roads and make the gardens and crops grow, so here's hoping the rain and hail is over for now and that we can enjoy nice warm weather for a change again.

### Thugs Caught After dark chase In Tofield

Three burglars found the going tough in Tofield Wednesday night as they attempted to break into the IGA Store. Having been watching the suspects for a few days and realizing they had raised Tofield an RCMP officer and the town policeman John Wall had hidden themselves in Watson Hardware and Variety Store.

About 2.30 a.m. they surprised the expected intruders who in turn ran to take cover in the bushes.

Warning shots were fired, but to no avail. RCMP from all around descended on the town and the man hunt was on.

Shortly after eight o'clock on Thursday morning the last of the three intruders was apprehended and taken into custody. The car used by the would-be thugs was found in the residential section of town.

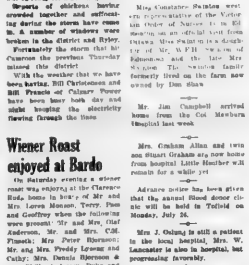
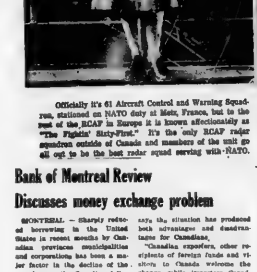
### . . . AND UNDER WE GO



Diver Ed Hudson of Dardue Sudan was popular spot at a local ford racing parts for the local church. All he did was pay your 25 cents for four 3-Ds and five 1 1-2 at the top of an attempt to tip him into the barrel of water. And they did too, three times.



SHIPBOARD VET, YET!

Many ships transporting thousands — everybody from Calcutta millionaires to performe-packed poodles that get tucked away in their own ship blanket in a different pile of palmas every night. This might be carrying pet pampering to an extreme, and while scarcely routine, it is just the kind of chore undertaken regularly by the Kennel master aboard the trans-Atlantic luxury liner S.S. America. Here we see just one of our pet passengers, Oscar the Rooster with Salvador Dali.

## TOFIELD IN THE FUTURE

[illegible] I read in the local papers, may become a thriving, [illegible] city. It may become a suburb of Edmonton.

Tofield could become known as one of Alberta's largest gas fields [illegible] natural gas which have already been drilled in this district were developed. Another industry which could be developed to a higher degree is the Tofield coal industry. Although coal is not used greatly in the present day [illegible] such as a polyethelene plant, which uses coal as a raw material, could be established in Tofield, thus making a success of two industries.

Another industry we have is agriculture. The farming district which surrounds Tofield is a small industry in its own way. Tofield is already well known for the many prizes which local farmers have won because of the quality of their cattle. In the future, we hope that the farming district of Tofield will extend its production of grain and beef cattle which help to feed the people of Alberta, Canada and the world.

The population of Tofield is steadily increasing and will continue to do so in the years to come. This would be even more true if an industry were to be established in Tofield. Such plants or factories, as already mentioned, would employ many non-local workers. All these workers, in addition to our present citizens, would be available to help improve the facilities for Tofield's cultural activities.

Thus, our present library would be extended; various [illegible] would have a larger field from which to choose. There would be people available to help lead youth groups. [illegible] would be pressure on the [illegible] to provide more [illegible] [illegible] would be [illegible] [illegible] [illegible]

# Garden Graph

By DEAN HALLIDAY

### PESTS OF RHUBARB

Rhubarb is one of the most permanent of the garden crops. Once planted, it will grow and thrive for many years. Sometimes the plants may be attacked by insects and disease, but precautions and control can prevent any serious damage.

If the plants are attacked by leaf spot, which shows up in the form of small, reddish brown spots on the foliage, remove and burn any affected leaves.

Rhubarb is sometimes attacked by the rhubarb curculio, which punctures the stems and lays eggs in the punctures. As shown in the accompanying Garden-Graph it is one of the largest of the insect beetles, being about an inch long. It is blackish and covered with a rusty powder. These curculio can easily be hand picked. Do destroy any dock plants growing in or near the garden as larvae of this insect develop and feed in the dock.

The common stalk borer frequently attacks rhubarb as well as corn. It is dark brown, worm-like and about two inches long. It has a white stripe down the middle of the back and on the sides. It eats irregular shaped holes in the leaves. It is noticeable usually in July. The plants often look runly. Holes can be found in the stem with excrement from the borers coming from the hole. If the stems are split open the borers can be seen tunnelling, as shown, eating and destroying the plant.

Gather and burn any infected stalks, or split the infested stem very carefully lengthwise, remove the borer and bind the stem together again. Another method is to inject borer paste into the stem.

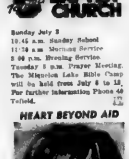
## HEART BEYOND AID



Death awaits pretty little five-year-old Patricia Navarro from quite, Ecuador. After a week of examinations by several heart specialists in Toronto, Ont., her father, Jofre Navarro, was told there was nothing they could do for her. Young Patricia has enlarged glands in her heart that are choking off the blood stream, and the condition is beyond the skill of even the finest heart surgeons at the Hospital for Sick Children.

## BRIDES FOR SALE

A couple of gypsy girls in their early teens have been appealing to the Chicago police to help keep them from being sold. Gypsies being what they are, the girls aren't getting much help. It is an ancient gypsy custom to sell one's daughters. The going price today for a girl of average fortune-telling ability is $1,500. Unpromising girls may go for as little as $500.

## HER SURREY IS IN NO HURRY

The quiet whistling of horses' hoofs is a restful sound to Mrs. Donald Chisholm of Pembroke, Ont. who uses this 78-year-old Surrey to get around after she lost her driving points. "I'm not taking my chances on losing the other three," she says. Her daughter Betsy prefers the surrey to "my old car."

## Lillian Bruce and Daniel Reum exchange vows at Tofield Baptist Church

Bouquets of spring flowers and ferns graced the altar of the Tofield Baptist Church for the marriage ceremony which united Lillian Louise Bruce, youngest daughter of Mr. and Mrs. Reason Bruce of Tofield and Daniel Leif Reum son of Mrs. Martin Reum and the late Mr. Reum of Ryley on Monday July 4th. Walter Kobes or Kingman officiated at the double ring ceremony.

For her wedding, Bruce it was a doubly happy occasion for they were celebrating their 45th wedding anniversary on that day.

Entering the church on the arm of her father to the strains of "Lohengrin's Wedding March" the bride wore a gown of brocaded satin with Mandarin neckline and matching sleeves. Her lacy waistline was emphasized with a flowing peplum over the encrusted gown. Her fingertip-length veil of lace - trimmed net was entheroned on a pearl encrusted tiara. She carried a white bible and pink roses with white streamers and rosebuds.

As matron of honour, Mrs. Ruby Patterson wore a gown of blue nylon chiffon net and taffeta with a matching flowered headband and carried a colonial nosegay of blue and yellow.

Attending the groom was Mr. Dwayne Norton, student pastor of the Tofield Baptist Church. Mr. Cliff Patterson acted as usher.

During the signing of the register, Mrs. Walter Kobes sang "O Promise Me," with the accompaniment of Miss Sharon Pyrch at the piano.

Following the ceremony a reception was held at the home of Mr. and Mrs. George Francis where Mr. Norton proposed the toast to the bride. The reception table was centered with a three-tier wedding cake flanked by white candles.

For her daughter's wedding Mrs. Bruce chose a dress of grey flowered rayon with pink accessories and pink roses as corsage. Mrs. Reum, mother of the groom wore grey brocaded taffeta with a corsage of pink roses.

Before the bride and groom left on their honeymoon the wedding party drove to Camrose for portraits.

For the trip the bride donned a royal blue absorbi dress with white colar and matching accessories. She wore pink roses as corsage.

Following their honeymoon the newlyweds will reside on the groom's farm south of Ryly.

## Tofield Barbecue big success

The Barbecue Committee extend their thanks to those who helped on its behalf. A special thanks to Doug McKernan for the sheet metal from which the tray was made.

Anyone having sound, used willow or tamarack fence posts for which they have no particular use, are invited to bring them to the grounds at any time, or, if they are piled, tell us as to their whereabouts.

## Local man burned in gasoline fire

Just as we were almost ready to go to press the fire [illegible] blew this morning (Thursday).

The fire brigade was called to the John Deere shop to extinguish a fire in a gas tank. The gas tank had caught fire [illegible] inside the door and the mechanic, Harry Carr picked it up and threw it out. He received skin burns on his right leg and arm.

He was given first aid on the spot and then taken over to the hospital for further treatment. No damage was done by the fire.

## Tofield Creamery wins butter prize

Meron Manchak, manager of the local creamery this week announced that their butter had been awarded first prize at the Brandon Exhibition on July 4. He stated that they have entered butter in the Canadian National Exhibition, the Royal Winter Fair and the Ontario Dairymen's [illegible].

Mr. Manchak praised his butter maker Pete Swiniuski and the farmers of the district for turning out such high-quality cream.

## "The small woman" to speak in Tofield

Gladys Aylward, who rose from the position of a London parlourmaid to become a legend in her own life-time through heroic service in war-ravaged China, will speak Monday, July 11 at Tofield Community Hall at 8:00 p.m.

Miss Aylward, "The Small Woman" of the best-seller under that title and whose story was condensed in the Reader's Digest and portrayed on the screen in "The Inn of the Sixth Happiness," is now on a speaking tour of Canada. She is the guest of World Vision, Inc., a service agency giving emergency aid to more than 76 missionary organizations.

She dressed of going to China as a missionary, but was denied entry permission by the communist regime. She stopped a prison riot alone by calmly facing an axe-wielding inmate, rescued a child from a slave-dealer, led the district's enslaved Mandarin to accept Christianity. When war with Japan broke out, her dangers increased, for loyalty to Nationalist China caused her to spy on the invader. She was cruelly beaten. Then, as a fugitive without money or food, she led 100 homeless children to safety in the epic journey across wild mountains which has been chronicled in both her biography and the Hollywood film.

Sinner forced her return to England for a time after more than 20 years of service in China, but now she has returned to Formosa for more work among the Nationalist Chinese. The 140 children in an orphanage she directs there are among the more than 12,000 supported through World Vision. "We are honored," says Dr Bob Pierce, President of World Vision, "to have this part in the work of 'The Small Woman one. We are glad to make her available to the churches of Canada as part of our organization's ministry of missionary challenge."

## Correction of interest to farmers

In last week's Mercury a paragraph was omitted regarding the higher rates of 5-4-D and MCP to be used on crops 4 and 5 weeds.

All rates per acre above 2 ounces will cause slight to moderate damage on grain and care should be taken if these rates are used.

When checking last week's table consider that the following [illegible] applies: to all acre rates of 5 to 20. The rates are higher than those considered safe for these crops and should be reduced if weeds belonging to group 4 or 5 are present. Although these rates are likely to cause a reduction in crop yield this frequently is offset by obtaining a higher yield from a less weedy crop. Note the safe spraying period mentioned above."

Field Supervisor.

## Dominion Day Parade draws large crowd

## Sports Day rained out

Over three thousand people gathered in Tofield for the [illegible] Saturday 1st of July activities. Following the parade in a short program on the Fair Grounds President of the Tofield Community League, Jerry Hoover welcomed everyone to enjoy the activities for the theme of the day was "Youth" a torch was passed from four of the old timers of the district in front of the crowds with the presidents. Out the next 100 years to keep the youth. Theme, hidden part were: Mrs. Peter Stauffer, Mrs. Armanda Mitchell, Mark Ferguson and Jack Francis, representing the early settlers of the district and Glenda Patterson, Lee Watson, Gail Sears and Donald McKernan representing the youth.

With the middle of the afternoon brought proceedings to a stop and the barbecue was moved to the Community Centre.

## Tofield teen-agers to form club

A Tofield Teen Club is now in the making and plans are now underway to have an organization completed as soon as possible. The Tofield Branch of the Canadian Legion has been kind enough to let the Teens use their hall.

The Director of the Club will be Al Girard, a member of the Rock-A-Teens, a young fellow who has had wide experience with teen clubs throughout the province

As yet the date hasn't been set, but it will be very soon, so contact Shirley Cornwall, Al Girard or Bill Clover for information. A Teen Club can't be a success without enthusiastic members, and that is up to YOU!

## POLICE COURT

In last Monday's Court a young man with South Cooking Lake address was accused of illegal possession of liquor. He had a friend appear for him and plead guilty to the charge. No fine[illegible] being made he was fined $25.00 and costs. Again, Court was held on Wednesday to accommodate a Tofield man charged with illegal possession and also with supplying liquor to three youths under 21 years of age.

He pleaded guilty and when informed that in liquor cases if a fine is imposed it must be paid "forthwith" or the jail sentence will automatically be commenced. He was asked he didn't have enough money and asked the Court for an adjournment. This was granted and he will appear on Monday, July 18. As he left the Court Judge J.F. mused, Previous to 1 p.m. it certainly [illegible]

## OF MANY THINGS

the Alberta Hotel PROPAGANDA STEAMED UP

One of the first things the labor union bosses got across at the recent conference was an okay from delegating for a tremendous propaganda campaign in newspapers, radio and TV. There is not much doubt about the form and propaganda will take. Everyone knows that the CLC officials intend to back the New Party, even though it is not likely to call any names in public.

Why are they ready to spend so much money on a party which is really the old CCF Party and can be expected to fail. Just as CCF has failed to gain power in Ottawa?

The answer, secret, is that many of the leaders in the labor movement are career socialists first, and union workers next. And if they can make it almost compulsory for all union members to pay fees into the coffers of the New Party, they will have a pile of money to push leftist propaganda.

What do I mean by almost compulsory? I mean that a union member who must pay to support the New Party unless he goes in the trouble and possibly the embarrassment of "contracting out" is really being pressured. It is much like the old gag, in a meeting, where the chairman says, "If there is anybody in the hall so tight with money that he is against this progressive step your executive has taken, he need only stand up and his fifty cents will be refunded."

In this sort of left-handed way, many a rank-and-file union worker will be in the position of financing socialist ideas which he does not believe in, and undermining a system which has given him a higher standard of living than most of the world's workers. His money will be used to do in Canada what Socialists did to the UK, and to Australia.

Will followers of the Conservative, Liberal or Social Credit parties, who are also rank-and-file union members, stand still for this sort of arrangement? Will they pay fees to pay for leftist attacks on the principles of the Social Credit, Conservative, or Liberal parties? Not willingly, they won't. There are bad times ahead for Canadian unionism, and an almost certain shakeup in leadership. Rank-and-file members have refused raids and again to vote at the polls, in secret, like their leaders have wanted them to vote; and unless the laboring man has completely lost his independence he's going to do a lot of squawking before he lets out his money to promote principles he is dead set against.

## Highway safety makes driving fun

OTTAWA — Thousands of motorists about to start boastful vacation trips are being warned against taking the fun out of driving with unnecessary risks.

This friendly warning comes from Arch W. Bryce, general manager of the Canadian Highway Safety Council.

Hasty on the highway is waste most of the time and may mean the pleasures of a good holiday destroyed, the highway officials [illegible]

You will enjoy your trip much more, and it will be much safer for you, when you take road conditions into account; and you adjust your speed to weather conditions. It's also advisable to get out of your car every 100 miles, or so, and stretch cramped muscles and to relieve alertness with a cup of coffee," he added.

"Remember," Mr Bryce continued, "speeding long consecutive hours behind the wheel to pile up large mileage in one day invites exhaustion and exposes drivers to becoming victims of highway hypnosis".

For this reason the practice of regular coffee-breaks by professional truck drivers at large fleet operators is particularly sound, he suggested.

There was no fun in holiday driving for some 750 people who lose their lives last year on Canadian highways between Dominion Day and Labor Day, Mr Bryce recalled. "Most of them would still be alive if they or someone else had slowed down."

Mr and Mrs Leif Pedseng and Bobby and Darrel Kroeen were Sunday evening visitors at the Philip Anderson home.

The Luther League will hold a Strawberry Social on July 15 at 8 o'clock at the Bardo Community Centre. Everybody is welcome.

## LIBERALS WIN QUEBEC

After 16 years in power, Quebec's Union Nationale government came crashing down as 43-year-old Jean Lesage, left, led his Liberal party to a narrow but stunning victory. Premier Barrette, right, who took over from Paul Sauve six months ago is expected to hand in his resignation within the next few days.

## ROSS CREEK NEWS ITEMS

ROSS CREEK — Greetings to you all. Hope you are enjoying this nice warm spell or weather —after all the rain lately.

Tough luck, Tofield on your big July 1st Sports Day. A large turn-out from the district took it in —also the show and dance. Let's hope the weather is more co-operative another year.

Let us not look so far in the future and start thinking of today.

Would like to extend our kind wishes for another happy anniversary of 51 years of married life to Mr and Mrs. Sid Cleary on the 11th. Many more, Sid!

Gerald Schacher of Edmonton is now holidaying with relatives at the Beaver Lake Store

Miss Genevieve Kosha of Edmonton spent the week end holiday with her parents the Nick Koshas.

Like to wish you one and all a happy vacation this summer —make it safe —and slow down. The old saying goes —You will never see 75 by looking for it on the speedometer.

Mr. and Mrs. Orate McDonald and Grandpa McLachlan arrived from Prince Albert and took the Dominion Day holiday in at Tofield. Spending the week end visiting relatives of the district & Edmonton.

You are welcome to come to a tea held for the W.A.by Mrs. Francis McLachlan and Mrs. Beede Pederson at Beede's home July 13th. Will be happy to have specially you!

Rev. Musto took his two weeks holidays so as to help out while replacing a new minister. He will be at Ross Creek this Sunday. The new minister will take charge after that to the end of July. The August Sunday School and the Church Services will remain closed. Time Sunday is at 11:45 a.m.

## Fashions

THE traveller in search of a good, all-round coat is wise to bypass the more fussy numbers in favor of the type shown here. The fabric is lightweight wool in a suede finish and available in white, beige, or medium blue.

A simple collar, and dropped shoulders with seaming that terminates at the roomy, flapped, patch pockets are good details.

## Elected to Hall of Fame

Anne Heggtveit, 21, of Ottawa, Ontario has been elected to Canada's sports hall of fame at the Canadian National Exhibition. She was the first Canadian ever to win an Olympic ski gold medal.

## MEET THE FAMILY—ALL 700 OF THEM

More than 700 members of the family attended the reunion at Markham, Ont. They are all direct descendants or relatives by marriage of Christian Ressor, who came to Markham township from Pennsylvania, with his wife, four sons and two daughters in 1804. Some members of the family believe their reunion is the biggest ever held in Canada. The oldest delegate was 91 and the youngest five weeks.

## Municipal Council of Town of Tofield holds regular meeting on July 4th

The regular meeting of the Municipal Council of the Town of Tofield was held on Monday, July 4, 1960 at 8 p.m.

Members present: Mayor Dr W.H. Prudhomy, Councillors Patterson, Allan Jefferson, Swift, Sendal and Hawken.

Minutes of the last meeting were rang and approved.

COMMUNICATIONS

Civil Defence concerning booklets for the building Shelters for fallout and to the effect that a supply of these would be arriving in Alberta soon, also enrollment of Volunteers and instructions for same for Civil Defence Volunteers.

Department of Highways enclosing one copy of Agreement for construction of concrete sidewalks, stating that it was in order to call for tenders, and to conform with necessary instructions for approval

Department of Provincial Secretary enclosing cheque for $4,282 being 50 per cent of the grant for which the Town of Tofield is eligible under the Pro Rec Plan for acquiring Recreational facilities. The remainder of the grant would be forthcoming upon receipt of evidence that the amount has been expended for the purpose of acquiring recreational facilities that has been approved by the Provincial Secretary. A copy of the agreement previously signed was enclosed.

Department of Agriculture, Field Crops Branch asking for an appointment of a Pest Control Officer. Councillor John Wall was asking to this responsibility.

Provincial Parks, Calgary asking the generosity of the Town of Tofield. No action taken to make a grant or donation.

Department of Transport, Ottawa, concerning crossings at Mile 63.7 and 64.2 and to the effect that it has been suggested that advance warning signs be relocated on each side of those crossings to give vehicular traffic sufficient warning of the crossing which they are approaching. The Dept. req. to be advised that this suggestion has now been complied with.

Department of Transport, Ottawa, concerning the crossing at mile 64.63, and that the visibility in the northwest angle could be improved by removing small trees and brush, and that they would be agreeable for the issuance of an Order to the extent of $500.00 to $750.00 for cost of having this work done. The Board would be responsible for 20 per cent, the Town 12 1-2 per cent, and the CNR 7 1-2 per cent. The CNR would improve the approach grades immediately adjacent to the crossing. The offer was accepted by the Council, and the Secretary to be advised. The work has already been done.

Town of Viking saying they have not booked up their mains on the Hotel in Viking as yet, and that there would be no service without a meter, the minimum for which would be $4.50 for water only.

Royal Alex Hotel expressing appreciation of the reduction approved in the water rate to the Hotel in response to a request at the previous meeting of the Council. A further reduction would also be appreciated, after the Town decides to put in meters.

Land Titles Office saying that Lot 12 Block 23 is registered in the name of Annie Gray.

## Anna Baergen and Cornelius Hildebrandt wed at Tofield Mennonite Church

Baskets of gladioli and posies were the setting of a lovely summer wedding in the Tofield Mennonite Church When Miss Anna Baergen and Mr. Cornelius Hildebrandt exchanged marriage vows The bride is a daughter of Mr and Mrs John G. Baergen of Tofield and the groom is the son of Mr. and Mrs. William Hildebrandt of Didsbury

The bride wore a floor length gown of nylon lace over white satin The fingertip veil was caught to a coronet of sequins and pearls The bride carried a bouquet of red roses.

The bride was attended by her sister Miss Louise Baergen and Miss Margaret Hildebrandt, sister of the groom; the former wearing a pink nylon chiffon gown and carrying a spray of pink roses, the latter wearing a blue nylon chiffon gown and carrying a spray of blue roses. The little flower girl, Susan Hildebrandt, was dressed in blue nylon and carried pink flowers.

The groom was attended by Mr. Ernest Epp of Didsbury and Mr. John Baergen, brother of the bride.

Rev. C.G. Neufeld of Didsbury officiated at the ceremony, Mr. Abe Baergen uncle of the bride was special speaker, Mr. George Wiens sang "The Wedding Prayer" and the choir served with two selections, Mrs. John Penner of Calgary, sister of the groom was the pianist.

A three-tier wedding cake adorned the reception table. A large number of guests attended the reception in the church basement following the ceremony.

For the honeymoon the bride chose an aqua ensemble with white accessories.

Miss Rita Baergen, R.N., returned to her home from Mexico for a two week holiday in time to attend the wedding of her sister.

The young couple will reside in Didsbury where they will build a home.

## Carson & Barnes Circus coming to Tofield

Mr. Floyd B. Hill, special agent for the Carson and Barnes Big Three Ring Wild Animal Circus was in Tofield recently to complete the arrangements for the circus to show here on Tuesday, July 26.

The Carson and Barnes name is one of the oldest and most honored in the circus business, and Mr. Hill reported in a visit to the Tofield Mercury office the show this year is right abreast of the times, with the most elaborate features and equipment that it has ever carried. One of the many features will be the personal appearance of Col. Tim McCoy the famous Cowboy and Western movie star and his congress of cowboys and Indians. In addition to the many performing animals which includes elephants, bears, lions, tigers, llamas, camels, beautiful matched Liberty and high school horses and Darling trained Shetland Ponies

The Carson and Barnes Circus boasts a long menagerie which includes lots of jungle animals that are ordinarily seen in only the large zoos.

In addition the show carries a well-balanced assortment of trapeze, tight wire, flexible aerialists, clowns and aerial acts all competing in a well-rounded performance that is guaranteed to entertain children of all ages.

There will be two shows at 2 and 7 p.m.

## Lake holidayers to get Mercury

Again this year the Mercury welcomes the holidayers at Lakeview and Cooking Lake as our readers. Last year through the courtesy of Watson Hardware and Variety Store in supplying the delivery service the Mercury was delivered to each cabin at the lake — the program is being repeated again this year

## Celebrate Golden Wedding Anniversary

Mr. and Mrs. Frank Wiltzen

## Mecca Construction awarded contract for sidewalks

The Tofield Town Council last week let the contract for the town's sidewalk building program to Mecca Construction of Edmonton for $98,236.72.

Other tenders submitted were Square McCuiman ($94,284.46; * Andy's Concrete Service — $15,716.80, Watson (Tofield) Ltd $94,478.18; Soter Construction Ltd $99,066.12; Odin Construction Ltd. $92,466.60. A. A. Voice $23,787.80.

*Although Andy's Concrete Service was the lowest tender it could not be considered because no certified cheque or bid bond was submitted.

Engineers are in town this week making surveys and construction is expected to start shortly.

## Car collides with horse

Tuesday night, local mailman Henry Hansman had the misfortune of having a horse jump in front of his car as he was on the way to Kingman. He said he was watching another horse and had slowed down and did not see the second horse until it jumped in front of him Damage to the car was not heavy although the windshield was knocked completely out. When he looked for the horse it had taken off promptly none the worse for the encounter. The horse evidently hadn't been hit as it was not to leave the scene of an accident.

WHAT, AGAIN? —Lots of jokes have been passed down about watering the elephants from Grandpa's day. Although a modern show like the Carson and Barnes Wild Animal Circus has enlightened the work on the small boy with tank trucks, it takes a lot of water for their herd of elephants. The show will be here Tuesday, July 26

## HAPPY HOLIDAY & WATER SAFETY

This is holiday time and throughout Canada [illegible] are taking off on their annual vacations. Many will spend several days at lakes, and enjoy the bathing, swimming, fishing and just lolling in the sun. In this area, Cooking Lake becomes a mecca for weekend campers and vacationists alike.

But over the happy holiday mood lies the spectre of disaster when the simple rules of water safety are not enforced. For years, various organizations have urged the employment of a full-time lifeguard on the beaches at the lake. But it must be borne in mind that all the lifeguards in Canada would be of little help on the beaches if the people who use the facilities do not themselves use caution and should know what to do in any emergency—

The Canadian Red Cross Society, in its water safety manual, carried this message:

"What is water safety knowledge? Many people will merely shrug and tell you it is common sense. And yet, in Canada, hundreds of these people drown every year. Is this, then, merely common sense? The answer is easy. Water safety is that simple, but people must learn to use their common sense and to realize the importance of practicing even the simplest water safety rule at all times.

"It is easy to understand how the persons classed as non-swimmers may get themselves into trouble, but statistics show that a good many supposedly good swimmers drown as well. Being able to swim is important, since a swimmer will have a greater chance of saving himself in an emergency. But it is by no means the complete answer. Ignorance and stupidity cause most deaths, and out of ignorance comes our worst enemy, panic.

"Every Canadian should be able to recognize and to avoid the hazards of water. He should know what to do in any emergency —to save himself or to help someone else.

Some day a human life may depend on you!"

We urge our readers to conscientiously learn and follow the rules of water safety. Take the advice of your Red Cross to heart, and make this the safest summer we've ever known.

## Local delegates attend convention at Regina

"Thursday, July 7, will go down in Canadian church history as a historic date," wrote Tom Jarvis columnist for the Regina Leader-Post, in covering the constituting convention of The Evangelical Lutheran Church of Canada last week.

Rev. [illegible] and Mrs. Cox [illegible] and Mr. and Mrs. Andy [illegible] were among the approximately 500 clerical and lay delegates who voted unanimously to adopt by-laws setting up the new body into motion beginning July 1, 1960. They were to attend the new Lutheran body, which previously drew together three the American Evangelical and United Evangelical synods. The new church would include more than 600,000 members in more than 1,500 congregations in Canada, the U.S. and Puerto Rico, and would be the largest Lutheran body in western Canada. Its headquarters will be at Saskatoon where its Luther Theological Seminary is located.

We are still enjoying good showers of rain which is most wonderful for the crops but hinders working summer fallows that have good stands of weeds. Then too, haying is coming up so we hope the sun will shine brightly so the abundant hay crop can be taken off in good condition.

Hope all folks can take in the Service at Hasting Lake Bible Camp the next two Sundays.

KEEPING UP-TO-DATE ON VARIETIES
Farmers today follow with interest any new varieties of grain that hold promise of something better in it way at yield, resistance to disease and early maturity. Our "Cooperative Plan" demonstration plots, where different varieties are grown side by side, offer the opportunity for farmers interested to pop a visit and to see for himself how different varieties compare under local conditions.
Every Seeds Agent has a list of the location of these plots which farmers can observe to their profit.

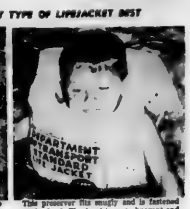
WARN SWIMMERS WHAT TYPE OF LIFEJACKET BEST

Non-swimmers and swimmers alike who venture out in boats are subject to a constant barrage of well-meant advice—Always wear a lifejacket. But the advice seldom tells them what type of lifejacket to wear. They All demonstrates the type of jacket recommended by most sportsmen in picture at left.


This preserver fits snugly and is fastened at the front. The front is more buoyant and keeps his head above the water. At right Tony wears a less desirable type of jacket. The jacket sits high on the body and can catch under the jaw causing the head to dip down into the water.

**PROUDLY WESTERN**

*From a photograph of American settlers arriving by covered wagon near Red Deer during the 1890's.*

*A Salute to Alberta's American-Born Pioneer Citizens*

New towns are springing up where railway lines have scored the prairie and parkland, beyond them new furrows are to be ploughed, and here are the pioneers who will turn them deep and straight.

They are Americans, mostly from the midwest states, farm people wise enough in the ways of pioneering to temper enthusiasm with caution. When Canadian land agents visited them at their established communities in the States they elected to send representatives north to see if the promoters' promises of "free land" were accurate and practical.

Now, encouraged by reports, they strike out confidently — sometimes a few families together, often an entire community—loading cherished family possessions in covered wagons, hitching patent milk cows to the tail gate, and proudly tacking into the whip socket the staff from which flutters the Stars and Stripes.

The firm which pioneered Alberta at about the same era — 1892 — proudly salutes the American "covered wagon" pioneers for their faith in the province they helped make great.

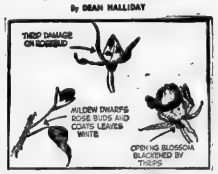
## Garden Graph

By DEAN HALLIDAY



### BE KIND TO YOUR ROSES

Just a little attention and care will remedy the diseases and insects which attack your rose plants. Years ago the gardener had a much more difficult time, as there would be a different spray for each disease and insect, but today it is possible to use one material, a combination of insecticide and fungicide.

Phaltan is effective in controlling black-spot and powdery mildew. Malathion kills many of the most important insect enemies. Aramite gives control of mites including red spider. So try to obtain a spray containing all these materials. If you are not successful, write to this department, including a self-addressed, stamped envelope, and we will advise you.

The effect of mildew on roses is shown in the Garden Graph. Dust your roses in the early evening, before dark, so the material will be on the leaves during the cool of the night when thrips are likely to be active in the dew which gathers on the foliage.

If you find buds infested with thrips, cut them off and dispose of them. This will help to reduce the thrip population present in your garden. Do not throw damaged buds on the ground, because the insects will quickly desert such blooms and travel to unopened buds on nearby plants. Spray plants every two weeks as there are several generations a summer.

DISEASE MAY WIPE OUT CANADA'S ELM TREES

Dutch elm disease, a tree-killer, is attacking North American elms at a rate which becomes more and more alarming to foresters. Some experts think it will eventually cause the complete extinction of Canada's most stately shade tree. Provincial foresters urge all private owners of elm trees to have their trees sprayed or run a risk of losing them. Shown above at left is the native elm bark beetle which carries the disease. While at right elm leaves, an early sign of the disease.

## S.D.A.'s hold assembly at Lacombe

Up to 8,000 people attended on week ends for the Seventh-day Adventist 10-day camp meeting and conference which got underway at Hamilton Union College in Lacombe last Thursday night.

Dr. Wilfred Kuhnley, director of the national television series the American Religious Town Hall Meeting, is expected to address a meeting on "The Coming Crisis and How to Meet It," Sunday afternoon at 2:00 p.m.

The American Religious Town Hall, an interfaith organization of Roman Catholics Protestants and Jews, began television over one station seven years ago and today it is being aired from coast to coast in the United States with all thirty of ministers, priests, Rabbies, educators, and statesmen participating routinely

"It is an historical fact," declares Bishop A.J. Leiske, "that all denominations have been religiously trained by their early Protestant, Catholic and Jewish church fathers, to go their different ways and shun spiritual cooperation with others in the community who fail to respect the same beliefs.

"Now at last we find that although the churches strongly differ in their religious conception of God and salvation yet on this national interwitness television panel each denomination finds that there is and must be a common ground of understanding, good will and tolerance toward each other though they may differ in their religious convictions."

Those attending from this area were Mr and Mrs. D.A Patterson, Mr and Mrs. Cliff Patterson and family and Mrs Gunnor Osland of Ryley

## Around the Town

## RADIO NEWS

RADIO — Mr. and Mrs. Sam Chalmers and Sharon returned home from their holiday on Monday evening

The W.M.S. will hold their regular meeting at the Leif Foshaug home on Thursday July 28

The following folks helped Mrs. Leif Foshaug celebrate her birthday on Monday: Mr. and Mrs. Leonard Stauffer and Kenny, the George Foshaug family; Arnold Johnson family; Ivan Foshaug family; Olaf Skaldum family; Emil Rude family and Clarence Rude family.

The Axel Kindber and Wilfred Fisher families spent Sunday at Lakeview.

Diana Foshaug spent a few days camping with friends at Cooking Lake. On Wednesday evening several of the young people spent the evening at the Lake.

Mr. Chester Freebairne is a visitor at the Leonard Stauffer home.

Seven men from here went to Hastings Lake on Thursday to clean up the basking beach. Some of them have been very uncomfortable ever since as the water gives swimmers a miserable itch.

There was a good crowd out to the strawberry social on Friday evening. The Luther League wish to thank everyone who helped to make it a success.

Mrs. Emil Rude took the bus to Edmonton on Sunday morning where she met her sisters Mrs. Maria Johnson and Mrs. Selmer Johnson both from the Peace River country. The three sisters then went on to Saskatchewan to see their sister Mrs. Carrie Kvern who is very ill in hospital.

Quite a number of folks from the community attend services at Bible Camp Sunday morning and afternoon. Walter Jorgenson remained to spend the week at Junior Camp.

Mr. and Mrs. Leonard Stauffer and Kenny were Sunday afternoon coffee guests at the Leif Foshaug home

Mrs. Inga Voss was a dinner guest at the Ingolf Brekhan home on Sunday. The Ivan Foshaug family were Sunday afternoon visitors.

Mr. and Mrs. Lester Severson, Pat and David spent Sunday at the Otis Sorgenson home at Ryley where the Severson families had a family gathering.

Mr. and Mrs. Lars Rude and family; Grandma Foshaug; the George and Leif Foshaug families; Rude visited at the Clarence and Jim Johnson and Lawrence Rude home on Sunday evening and also helped Mrs. Rude celebrate her birthday. Mr. and Mrs. Raymond Brooks and Sicky were weekend visitors.

Mr and Mrs. Elmer Hiller and Harold and Mr. and Mrs. Sam Chalmers and Sharon spent Sunday at Ilsley Mission Lake with the other members of the Stevenson family.

The weather has been extremely hot this last week and we have had nice showers of rain. The fields are heading fast and there is a beautiful stand this year. The farmers are now busy haying an abundant crop. So far is no that have been spared hail it looks good.

Services at Hastings Lake Bible Camp Sunday forenoon and afternoon. Plan to attend.

CHEESE

How much do you know about cheese? Here are a few questions and answers that might interest you.

Q. How is the whey of milk removed most of the work solids?

A. Most of the solids are found in the curd which is separated from the whey during the making of the cheese.

Q. Can cream cheese be successfully frozen in your home freezer?

A. No because cream cheese along with several other kinds become watery and mealy when [illegible]

Q. How much milk is needed to make one pound of American "Cheddar Cheese"

A. About five quarts are needed which makes this cheese a good source of protein calcium, phosphorus and Vitamin A

Q. Does the flavour and texture of process cheese vary unchanged as long as the cheese keeping for the ripening process stays cooled in the air-tight package?

A. There is no change because the bacteria and enzymes are halted during pasteurization. Once a package is opened the cheese, more bacteria to come in

Q. What is a process cheese food?

A. A process cheese f od is a natural cheese blended with an edible emulsifier and pasteurized. It contains more moisture and less fat than a process cheese

Q. Which is the correct spelling of this cheese dish — Welsh Rabbit or Welsh Rarebit?

A. Welsh Rabbit. This dish was originally originated by a Welsh chieftain who, when called upon to entertain a few hundred companions, guests at dinner, had to substitute a cheese dish for meat, the upon customarily served.

Q. How are cheeses classified?

A. They are classified usually according to texture:

(a) Hard cheeses such as Parmesan and Romani

(d) Soft, unripened cheeses such as cottage and cream.

(b) Semi-hard cheeses such as Camembert and Roquefort.

(c) Soft ripened cheeses such cheddey and Swiss

Q. What is the best refrigerator temperature for storing cheese?

A. A normal refrigerator temperature of 32 to 40 degrees [illegible]

Q. Is cheese a good source of protein?

A. Yes, about one quarter of the weight of cheddar cheese is high quality protein.

Q. What is the nutritional value of cheese?

A. Cheese is an excellent source of protein, butterfat, minerals, and vitamins. A breakdown of American cheddar cheese shows that it contains:

25 per cent protein, 33 per cent butterfat, 20mg of calcium per ounce of cheese, 14% mg phosphorus per ounce of cheese.

Those are a few questions that may occur to you when you are working with cheese. Watch for next weeks news column which will give you a list of some of the common cheeses used today and ch descriptions

## Tips on Touring

By Carol Lynn
Woman's Travel Authority

Like picnics? Here are some of the items and gets that will make your next outing easier for you and more fun for your family.

Get off the grass with the smallest camp stool ever made. The whole thing folds flat and compact enough to fit into your purse, coat pocket or car's glove compartment. With a steel frame and canvas seat, it's plenty sturdy.

How about a heavy aluminum griddle 16" across? It holds steaks or fish to feed six hungry picnickers. It has a wooden handle that guarantees cool fingers and folds over for easy storage.

Like coffee on route? Then pick up an eight-cup coffee pot that has pleas for both ear lighter socket and house current. It comes in a kit with cups saucers, spoons carrying case. The pot has a bracket so you can hang it on the car window.

If you picnic far from the car, you might like a 2-cup coffee maker that burns propane. The fast tank fits right under the heater. It makes coffee in about ten minutes.

Your children will have fun for they! A leak-proof, two and a half gallon water tank that comes complete with a shallow

both, brush, soap, and towels.

And finally, if you camp out for any length of time you may want a two burner stove that carries six pounds of propane fuel in a refillable tank. It holds enough fuel for over a week of cooking and the tanks can be filled again for about one dollar at any propane station

## OF MANY THINGS

HOW MANY UNEMPLOYED?

The unemployment picture is a deceptive one

For example, a married woman, whose husband may be making from $5,000 to $9,000 a year, can be classed as "unemployed" if she is temporarily out of a job because her husband was transferred and she had to resign her own position in move with him. Fishermen, and other seasonal workers, are now classed as unemployed when they register for employment insurance at the end of a season in which they might have earned $5,000

It seems obvious that the present unemployment situation is not much different to that which existed some fifteen years ago — it appears worse only because a change in rules has made more men and women eligible for unemployment insurance.

However, although not nearly as bleak as it is painted, unemployment worries us all Strangely though, the thing that may help us both it is automation Labor Minister Mike Starr has pointed out that automation might help

us cut costs enough to price our-selves back into the foreign market so we have been losing

I can see where automation would help, but not unless we take other means to reduce costs. Machining are not entirely self-operating. The men who operate them must be productive too and do everything in their power to

get the most out of them. Workers who do not understand our foreign trade difficulties are not always inclined to welcome automation and make it work. Governments, too, have a responsibility to help industry price it self back into foreign markets Practically every cost govern ments spend is eventually added into the cost of goods and services that Canadians sell For example in Saskatoon, who buys a car from Canada must pay his share of our government spending because a portion of that spending is added to the cost, in wages, overhead, etc., etc. The same applies in our farm produce — so every single thing we sell. It is clearly impossible for us to maintain a high - cost economy without also having high - cost products . . . and then losing out in the markets of the world.

Yet some of the people who de-plore unemployment most loudly are the first to call for government measures sure to create more unemployment.

## Fashions

What a boon they are, these useful, pretty shorts-and-shirt sets fashioned of drip-dry cotton!

This set sports a sleeveless white shirt. The Jamaica shorts are of blue and white check, and this patterned fabric is repeated as trim on the collar and pocket of the shirt.

The blue leather belt shown in the sketch is optional, but it gives a good finishing touch to the outfit.

These lines are a vital part of our service – the highways along which the power generated on the Bow River reaches homes, farms and industry hundreds of miles away. The Browns are looking at a sub-station at our Ghost hydro plant – one of the hundreds of sub-stations throughout our system which control the voltage that flows through the nearly 4,900 miles of main transmission lines – longer than the Trans Canada Highway from coast to coast. The first transmission lines built by the Company in 1911 served only Cochrane, Exshaw and part of the City of Calgary. Now transmission lines carry electricity to our customers throughout 75,000 square miles of Alberta.

## IN TRIBUTE TO MY UNKNOWN BENEFACTOR

To You, or You or You

I know not who you are or what part you played but of my indebtedness to you I am deeply conscious. From busy street or country lane you came when called upon, you spared the time and effort to roll up your sleeve and give of that most precious commodity, BLOOD You gave of your blood that I might live"

An unseen hero you could you are legion; but no less a hero, nevertheless, took your place forgave when an impulse and without premeditation and involving great personal risk, plunges into icy water or other hazardous situation to save a life His act receives loud acclaim and public recognition. The rescue be effected is, perhaps, more spectacular but less dramatic and no less certain than the one you performed in a sterile room where, perhaps on — in a hitherto, while you approach the donor's room again and again His is only too rarely a hero's recognition, a medallion inbag with ourstring or metallic medal, frequently bestowed amid fanfare and in abundance Not may I suggest that it is actually no more hard no less significant than the simple record of your act when you receive without presentation or ceremony of any kind

Both acts, I believe are prompted by the same human urge, namely an innate desire to be of service to your fellow man And both acts accomplish the same purpose, that of prolonging the life of another

To you I am deeply grateful!

—Your UNKNOWN BENEFICIARY.

Editor's Note The above completely unsolicited letter is particularly timely with a blood donor clinic coming to Tofield on July 28

## Garden Graph

By DEAN HALLIDAY

**TWO CROPS IN THE SPACE FOR ONE**

Why let weeds grow where stages of their growth is a late crop of vegetables could be growing instead?

A practical method of growing late crop vegetables is to plant them between the rows of sweet corn after cultivating for the last time.

As shown in the accompanying Garden - Graph, squashes lend themselves to inter-row planting.

Turnips also can be planted for a late crop between corn rows. Before severe frosts come, lift the turnip roots and store for the winter.

Early peas are sometimes grown with late sweet corn as an inter-row crop. Such shade as the growing corn may give the peas in the last few radishes.

beneficial.

Lettuce and mustard greens are likely to bolt in mid-quickly in hot weather; therefore, it is good practice to sow these crops in August. They will be ready to mature as the weather becomes ... cressingly cooler

The cabbage group provides excellent crops for fall gardens and winter storage. Young plants set out about the middle of July will produce mature plants before frost. When fully mature, however, the members of the cabbage group are highly resistant to frost

Late crops of celery and endive may still be planted in the middle of July; also winter spinach.

## Former local man dies at Agassiz, B.C.

Residents of Armena and district learned with regret of the sudden death on Monday, July 18 of John Thomas Brown. During the past twelve years since he came to Agassiz, Mr Brown has taken part in many community projects. He was an elder of the United Church, leader of the 4-H Swine Club president of the Agassiz-Harrison Jersey Cattle Club and a director of the Agricultural Association

Keenly interested in boys' welfare work with respect of the sudden death on Monday, July 18 of John Thomas Brown. During the past twelve years since he came to Agassiz, Mr Brown has taken part in many community projects. He was an elder of the United Church, leader of the 4-H Swine Club president of the Agassiz-Harrison Jersey Cattle Club and a director of the Agricultural Association

Keenly interested in boys' welfare work Mr Brown worked hard to establish "Boy's Town" B.C. With Mrs. Brown he has given a foster home to 9 boys in B.C. and several in Alberta.

He was born in Bolton, Manland in 1905 and came to Canada in 1912. He farmed at Tofield, Alta before coming to B.C. He is survived by his loving wife Augusta a daughter Mrs. Max (Janice Ellis) Dalton of Long Beach California, a son Merlin of Agassiz, his mother Mrs. R.A. Brown of Holden Alta.; three sisters, Mrs. L. McIlmitie and Mrs. H. Lawson of Tofield and Miss Ethel Brown of Holden; and two brothers Joseph and Stanley of Tofield

## OF MANY THINGS

...MIL & SAT...RDAY N...HT

...ing the night well ask at this point why Time does as it does. The answer is simple money — that money which Hotchobbler has put back into Lace's coffers.

This blunt assessment of the motives of another publisher was shocking to me. I have had a very high regard for Saturday Night, over a long period of years. It has been one of this country's only truly influential magazines. Maclean's has always been highly readable, but inclined to go off half cocked, whereas Saturday Night, while sometimes dull, usually appears thoughtful and objective. But what must one think of it when it says, bluntly that another publisher studies his political coverage for financial reasons? Does it indicate that this is the way they think in the editorial offices of Saturday Night?

The article then goes on to tell how the former Liberal government ...

Does this indicate that the Liberals, by imposing the tax won for themselves a good promotion machine in Saturday Night and other Canadian magazines?

Saturday Night and other Canadian magazines like to take Jabs from time to time at the futility of certain newspapers and broadcasting stations. But if our memories are so clearly devoted to the theory that good publicity in the magazines depends on one simple thing, namely money, how in the world can they have the audience to criticize newspaper and broadcasting people for theirs, which, to start with, are far less serious?

Saturday Night's view of politicians is also a very clouded one. Words like "crisis" "any politician could get his image to consistently before these people at the mere cost of expending a special, it not too widely understood, advertising tax, who would not do it?"

Why? Well, though I have no special ove for politicians, I do not think many of them would resort, to that thing of botbery. I don't think John Diefenbaker would or did resort to it. I wish I could feel as sure about Saturday Night's integrity. This article, by its top editor, makes me wonder what motives prompt its editorial outpourings in which I used to place such faith.

### Don't be afraid to face change

Change is inevitable and to try to prevent it is to try to shut out life itself, reports the July issue of Reader's Digest. We could spare ourselves much regret if we regarded change as a chance to grow. It is when we fail to change that we fall behind in living and our spirits age.

The best way to face changes is to welcome them. Don't waste time hunting for the happiness of the past. It is possible for us to prepare for change by refreshing our minds and keeping our spirits young. Then, as we can make new adjustments, we keep our flexible attitudes and experience with them. Our daily routine will become more interesting and our days will become useful long after we stop keeping up with life rather than living it more fully.

PROUDLY WESTERN

*Railway construction gang of Jewish laborers in the early 1880's.*

The transcontinental railway—a spiderweb of steel linking a nation together—was built by the labor of many men, among them—friendless and perhaps fearful—were the occasional work gangs of Jews, immigrants newly arrived from Eastern Europe. Still dressed in their dark garb, still bearded as Jewish fashion, and commanded in their own tongue by a bilingual overseer, they worked with pick axe, shovel and sledge hammer.

The railway finished, they realized they could become a part of the nation which it served. So they stayed—to become the storekeepers of the whistle-stop railway towns, and the itinerant salesmen of the homesteaders' communities. Their sons became the merchants of the bright new cities of the West; their grandsons are among the business and professional men serving the West's great, growing population. And, today, the contribution made by the Jewish labourer who helped to build the railway, now shines like a bright thread in the tapestry of Alberta's development.

The Jewish people—like other ethnic groups in Alberta—are an integral part of the province, recognized by another "proud Westerner."

Josephine Duffy

I've just week's term, I considered some of the problems that might arise from storage and some of choose. This week I would like to consider some of the common kinds of cheeses used throughout the world, where they originated and what they look like.

1. CHEDDAR – Originated in England. It has either yellow or white appearance on the inside. Cheddar is a state over surface with a light yellow interior. It hardens to the soft class of cheeses.

2. BRICK – Originated in Wisconsin, U.S.A. It has a yellow-brown surface when aged. The interior is a creamy yellow and is filled with tiny holes. This cheese belongs to the semi-soft.

3. EDAM — Originating in France and has a waxed brown surface. It has a creamy yellow interior and belongs to the soft class. There is some mold when ripened.

4. CAMMEMBERT — Originated in France. The surface is a grey white and while the interior is a creamy yellow. This one belongs to the soft class and has a mold when ripened.

5. COTTAGE — Everybody is familiar with this type. It has no hard outer crust and is white curds of varying size in composition.

6. CREAM — Originated in New York, U.S.A. It is white, smooth textured and has a minimum of 33 percent milkfat.

7. EDAM — originated in the Netherlands. It is a red paraffin coated cheese and is white inside of varying size in composition.

8. LIMBURGER — originated in Belgium. It is soft with a ripened and wrinkled rind. The interior is a creamy color with strong odor.

9. SWISS (Emmenthaler) — originated in Switzerland and has eyes or holes in the rich even.

10. BRICK — originated in Switzerland. It has a soft rind and is white to yellow in color, hard [illegible]

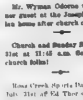
## Tips on Touring

By Carol Lane
Women's Travel Authority



Collect all you want, but be sure you want all you collect. This is a good maxim for every memento-minded motorist about to take that long-awaited summer holiday.

It's a natural tendency to bring home souvenirs of memorable vacation spots, so you must withstand the temptation to collect useless items from famous places When you see some knick-knack typical of a locale, just ask yourself, "Where am I going to put that when I get home?" The question should keep you clear of junk and help you build a collection of useful and decorative items to dress up your home

A friend of mine has a collection of demitasse cups she's picked up around the country Another collects antique spoons another authentic trivets As an avid friend has a collection of prints and original water colours of places she's visited Another has decorated her western ranch home with Indian art objects.

The paper weight on my own desk is a beautiful, diamond rock I found in the Rockies and polished myself I keep my pen nib in an ante American celery dish purchased in New England and two sea shells for ash trays. All these items are useful and attractive reminders of my travels.

The children in one family I know collect postcards from places they visit, later filing them in a shoe box. On the wall in their room is a map of Canada, with colored pins marking the spots where they've traveled. The children in another family collect match books, the covers of which they rush on a framed pad in the family recreation room.

Your travel souvenirs don't have to be a clutter destined for the attic or basement. They can constitute a useful and decorative collection which you are proud to display in your home.

## KENNEDY WINS NOMINATION

Senator John Fitzgerald Kennedy, left, 43, was named the Democratic candidate for president on the first ballot at the convention in Los Angeles. It was an easy win for the millionaire who's put

three years and a million dollars into his hunt for the presidency. Kennedy's presidential opponent to be selected at the Republican convention in Chicago, July 28, is expected to be Vice-President Richard Nixon, right.

The year will see a real battle of the giants in the Canadian automotive industry predicts Ralph Young in The Financial Post

Sharp by success of the Imports which last year took more than 26 per cent of new car sales in the best year the industry has seen in this country, the big automobile manufacturers are rushing in the production and model plans aimed at cutting down the imports — particularly the lower-priced ones not affiliated with a U.S manufacturer

Compact cars currently represent almost 26 per cent of total Canadian production

Mrs. Mary Lasker, widow of pioneer advertising man Albert D Lasker decided a few years ago that the downtown streets of cities should be made more attractive and livable — with flowers, reports the July issue of Readers' Digest. She began her crusade by working with four block blocks on New York's Park Avenue Any city that wants to beautify itself will find that it has to work hard. "You need some problems to get it going" says Lasker

## Industrial Arts program discussed by County School Committee

Meeting Elizabeth School.

Moved that applications for bursaries, Jr. H and Standard X assignment for the purchase, the Secretary-Treasurer arrange for a five-year loan from the Provincial Treasury Branch at Ryley and that the Committee be given authority to make a deal with the buyer of the house Carried

Moved, that we advertise Ion No. 11 for sale in the local papers. Carried.

Moved, at 5.40 p.m. that the meeting be adjourn to the call of the Chair. Carried.

Moved that if the above committee can make satisfactory arrangement for the purchase, the to investigate the possible purchase of the house in Viking.

Moved that applications for bursaries, Jr. H and Standard X Programs, from the following be approved Miss Miss Meiklam; Miss Pimlotta Cutcheon; Miss Louise Bennett and Miss Nancy Nowrot. Carried.

The question of looking after the new Carrick shrubs planted at various schools was brought up by the Superintendent who suggested that possibly it would be necessary to supply each school with a power mower and other necessary equipment. The Committee felt that possibly the offices janitor, J. Kinsella, could look after the lawns for watering and mowing as well as the shrubs after Mr. McCutcheon turns the work over to the County. This was agreed upon and it was moved that the office janitor, John Kinsella, be asked to look after the maintaining of the landscaping at the various schools when necessary. Carried.

The Secretary advised that Walter Sowinski had requested that he be supplied with a larger bolt for his work on the school house at Kinsella.

Moved, that a three to five-ton jack be obtained for Walter Sowinski. Carried.

The Secretary brought to the attention of the Committee that, when it was raining, large amounts of water seeped into the box garage, flooding the floor and the toilet pit.

The Committee agreed that some measures should be taken to remedy the situation and it was moved that Mr. Bell and Jim Magnuson and Gibson be appointed a committee to investigate the matter with power to act. Carried

Moved that, as requested by the Superintendent, we purchase three small desks and one dozen extra large desks to be used in the various schools. Carried.

The Superintendent informed the Committee that Mr. G.M. McCutcheon had completed most of the landscaping and planting at the schools and that he had requested Mr. Harper to put an account in the amount of $2,500.00.

Moving that a progress payment in the amount of $3,500.00 be made to Mr. G.M. McCutcheon. Carried

The Superintendent referred to the Committee the approval need for more teacherages. He stated that Peter Kuhn, E. Kostyshen, and R. Bubbie had approached him in this matter Mr Paul Voeglin, who had been appointed to the staff at Ryley would also need accomodation. It seems that no accomodation was available at Ryley by the only house available in Ryley at the present time appeared to be the one owned by Mr H. Parsons who wished to sell it and certainly is not interested in leasing. Housing was also required at Viking for a married teacher with three children. The Committee felt that no action in regards to the housing problem at Ryley at this time, but that something would have to be done in Viking. It was mentioned that one house was for sale at this point. This was a new house large enough to accommodate a family with three children. The price asked for this house was $14,000.00.

Moved, that Crs. Starkey and Bodtker be appointed a committee

### DEARER HOUSES?

Watch out for price hikes in homes this year, warns Forbes Silverman in The Financial Post.

Cost of construction will go up, but it's too early to tell just how much or how soon prices will be affected

It will be another month before the picture begins to shape up for 1960 and builders have a better idea of how the new program is being absorbed.

It could be two months or more before any price changes begin to show.

What will help to keep any increases lower than might be expected is the low first quarter housing market.

Increased generally are on the way across the country, but they will vary considerably from area to area and, in metro areas, from suburb to suburb, depending on how sales are going.

### How To Make A Fortune

The four "fastest - growing consumer products" of the last 12 years have been: air conditioners, TV sets, clothes dryers and boats.

Now, to make a fortune in the next 10 years, all you have to do is select early one of the nonrunning products, which is going to catch the public fancy, get on the market with it at a price that leaves you a fair profit, and then let your competitors worry about catching up.

## Billy Graham Film "Africa On The Bridge" to show at Tofield United Church

Billy Graham's historic 17,000 mile "Safari for Souls" across Africa, is the theme of a new 52 reel, 16 mm feature length motion picture "Africa on the Bridge," which has its Tofield premiere at the United Church on August 12 at 8:00 p.m.

Photographed in authentic color and scenic color in seventeen principal cities across Africa from Monrovia, Liberia to Cairo, Egypt, the document captures the spirit of Africa during these current crucial years. Frequently called "The Awakening Giant," Africa is depicted to be in a transition period — as a bridge — between ancient tribalism and the shining goal of independence from colonial rule. During this significant period, American Evangelist Billy Graham was according an unprecedented welcome by Africans ranging from Chiefs of State down to the general population of bush dessert & jungle. A total of 500,000 persons attended crusade meetings with nearly 35,000 inquirers remaining for further help and instruction.

"AFRICA ON THE BRIDGE" has been pictorial scope, ranging from sequences depicting primitive village life in scenes of modern city and industrial activity. Exciting and colorful pagan rites and ceremonies are featuring together with scenes of the most remarkable big-game footage ever filmed.

Climaxing the story of the spiritual thrust of the Billy Graham Team is a tribute to the missionaries, whose years of faithful labors were in a large measure responsible for the spiritual harvest experienced by the Evangelist. Missionary leaders and ministers joined with State and Civic officials in extending the invitation to Mr Graham to visit the Continent.

AFRICA ON THE BRIDGE was directed by Dick Ross and produced by World Wide Pictures, the organization responsible for such well-known films as "The Heart is a Rebel," "Going to Conflict," "Citizen, USA," "Mr. Texas," and many others, with newest dramatic color feature scheduled for October release, "Shadow of the Boomerang," starring Georgia Lee and Dick Jones.

## Pioneer of Amisk Creek district dies

Elias Sand was born at Lenger, Norway October 3, 1866. She was United in Holy Wedlock to Herman Sand December 1st, 1886. In this union two children were born.

In 1912 the family immigrated to Canada and came to the Amisk Creek District where a sister of Herman Sand, Mrs. Pinnin lived in 1.14 the family moved to 12th Point where they settled on a homestead, and lived there till 1955. Then they moved back to the Amisk Creek District and made their home with their son Erling for the next three years. In 1958 they bought a fine little home located on their son's property, where they spent some happy years together.

In May 1958, Mrs. Sand's health began to fail. Much of this time she has been under doctor's care. She passed away peacefully July 22 at 7 a.m. at the Tofield Union Hospital at the age of 73 years, 9 months and 19 days.

She is survived by her loving husband Herman Sand, and one son Erling, at home and one daughter Anna (Mrs. Carl Hansen) of Victoria B.C., eleven grandchildren and four great-grandchildren and one brother Anton, in Norway.

The loss of a loving and unselfish mother will be keenly felt deeply in her home, but she will also be sorely missed by the little group of friends in the Amisk Creek Congregation and Ladies Aid, of which she was a faithful member and a cheerful worker. Blessed be her memory!

Funeral Servic for the late Mrs. Elias Sand was held at the Amisk Creek Lutheran Church on Tuesday July 26, 1960 at 2 p.m., Rev. M.A. Steiseth officiating. Scripture Text (Gen. 46:21) "In Safer Hands." Hymns sung by congregation "Nearer My God," and "What A Friend We Have In Jesus." A duet was rendered by the Soetgens, and another by Mrs. Schultz and Mrs. Posbang. Mrs. Andreas Hatberg presided at the organ.

Interment took place in the Amisk Creek Cemetery with Hovland Funeral Home in charge.

Pallbearers were: Glen Hillerud; Marvin Moen, Sigurd Soetebian; Conrad Pederson; Norman Patterson and Raymond Patterson.

## Lion members turn farmers for afternoon

Last Thursday afternoon members of the Tofield Lions Club hosted by Gordon Garfield descended on the H. Bruce farm at Lindbrook and put up 500 bales of hay. In action for the afternoon were two balers, two rakes three wagons and eight men.

Mr. Bruce had fallen from the hay loft, landing on a barn door below and was unable to do any work and his wife and children had been attempting to get the hay up.

The workers started at noon and had all the hay in a stack by 6:30. With everyone having a hand at building the stack, it was not the most professional — looking job, but Mrs. Bruce, who had been faced with the prospect of doing it, thought it was beautiful.

## Harry Wilkie joins staff of Watson (Tofield) Limited

The Board of Directors of Watson (Tofield) Limited announced that Mr. Harry Wilkie has joined the office staff of their contract division. He will be located in the new building. The Board of Directors consists of Howard Watson, Ed Watson, and Hans Christensen with Ed Watson heading the contract division.

Mr. Wilkie is no stranger to the people of Tofield, having operated a grocery store in town for a number of years prior to the fall of 1956. Since that time he has been busy constructing a new home for his wife and one son on Fourth Avenue East.

The spokesman for the Board of Directors stated that Mr. Wilkie will fill a need created by the start of a long range expansion program.

## Rainfall same as last year

## Curling Club to start construction of new rink

The executive of the Tofield Curling Club has been burning the lights late this past week discussing plans for the proposed new curling rink. Present plans call for a new arch rib building with four sheets of ice. Using as much voluntary labor as possible the total cost, including an artificial ice plant is estimated at $35,000.

The final plans are in the process of being drawn up and the arch ribs have been ordered. Construction is expected to start as soon as possible.

The program of selling shares is also being stepped up with the hope that enough shares will be sold so that the ice plant can be installed immediately when the rest of the building is finished.

In the meantime, crews at the well site have installed piping and casing to cut off the gas flow.

### Gas was found in Tofield

From the Files of the Journal

Workmen drilling a water well in Tofield are being plagued by natural gas. They struck gas at the 286-foot mark, sufficient "to raise the hair on the head" and more twenty-first ft lower They are prepared to drill for 800 feet in the search for water.

"We are now looking for gas, a spokesman for the drilling outfit said. "We are not prepared for it and we are not equipped for it. There is a big difference between drilling for gas and drilling for water, and the latter, of course, is our consideration. The tapping of a gas flow means nothing to us in a business way, although we fully recognize its possible value to the town and community.

"However, we cannot afford to abandon our attempt to find water." A

Edmonton meanwhile, Charles Taylor, in charge of demolishing the Crafts, Lee and Gallagher coal fields at Tofield, says: "My prediction is that at least two of the towns near the Grand Trunk Pacific will be lighted with the gas from the strike"

In the meantime, crews at the well site have installed piping and casing to cut off the gas flow.

SWALLOWS SET FOR CAPISTRANO

It may be summer for cottagers at Keewatin Ont. but for thousands of swallows it's time to congregate on telephone and hydro wires there and start thinking about heading for the warmer climate of Central and South America. They'll congregate for the next 10 days, then take off for a southern vacation.

# County of Beaver holds regular session

Present: The Chairman, C. H. V. Mazierock and Crs. Gibson, Johnston, Roddick, Bemkraken, Starkey and Woodcroft.

Moved that the minutes of the Council meetings, June 8th, 16th and 17th be approved as written. Carried.

Moved that action taken and decisions made at the School Committee meeting July 13th be approved and concurred in. Carried

Moved that the financial statement for the period ending June 30th, 1960, referred to the Council at this time, be accepted.

Moved that accounts and pay sheets referred to the Council at this time be approved and passed for payment. Carried.

Moved that the Public Health Inspectorate Statement for the period ending June 30th be accepted. Carried

Mr. Frank Zeitsaki, Mr. A.I. Culbertson and Mrs. Helen Taylor interviewed the Council in regards to certain road improvements and requested that the road along Rge. 19-20-E-4 be gravelled. It was mentioned that there were three families living on Sec. 18-54-21, with one boy of school age and that it would be necessary that the bus route be changed to accommodate this pupil. Mr. Zeitsaki mentioned that the re-routing of the bus route in this area two years ago had increased the miles traveled by this bus by some 1760 miles per year, that the road had previously been used for the bus route had been so used for years, and that Mr. Zeitsaki himself had driven a bus for two years on this road without any difficulty. The Chairman stated that the Council would consider the request and the delegation retired. After some discussion it was moved that due to the necessity of re-routing the bus routes for the 1960-61 school year it was considered that the request for gravel on the road in question is not necessary at this time except for some gravel on some of the hills and that Mr. Zeitsaki and Mrs. Taylor be advised. Carried

Mr. and Mrs. Forna interviewed the Council at this time and Mrs. Forna thanked the Council for the flowers that had been sent to her while she was in the University Hospital. She mentioned that she and her husband had found it too much work to continue to publish the Holden Herald and that the paper had been leased to Mr. W.T. Poe of the Sun Publishing Company. They hoped that the arrangement would prove satisfactory Mrs. Forna mentioned that they had already received some very complimentary remarks from people that were now getting the Holden Herald, as published by the Sun Publishing Company. Mr. Forna in his remarks mentioned that it had been necessary for them to cease off on the work and that, therefore, the paper had been leased to Mr. Poe. Mr. Forna mentioned that they had started to publish the paper in 1944 and had appreciating the dealings with the Council during all these years. The Chairman, Cr. Mazierock on behalf of the Council, thanked Mr. and Mrs. Forna for the interest they had shown in the Municipality's affairs and for the publicity given municipal matters during the years that they had published the Holden Herald.

The Secretary reported to the Council a letter from the District Engineer advising that the Department of Highways was willing to have municipalities do the work on Contingency Grant Roads. It had been found that where this work has been done with municipal equipment, this has often resulted in a certain amount of neglect in the municipalities' own road program or vice versa. The Council was not entirely satisfied with the letter but realized that they could do nothing about the situation at the present time and it was moved that the letter be received and filed. Carried.

A letter from Peter Klimiski of Lavoy stating that he has gravelled approximately 50 yards of road from the north-west corner of sec. 19-50-19 to his gate and requesting a refund in the amount of $1.450 for his work was referred to the Council at this time and Mrs. Forna moved, seconded by Mrs. Starkey and carried unanimously, that the Council do not grant the request as the work was done without authority from the Council.

POLLUTION ANSWER SOUGHT

Members of the Great Lakes Institute are currently examining samples of the thick carpet of sediment covering the floor of Lake Ontario. It is the first large scale survey of the muds of the world's largest fresh water body—the Great Lakes. Prof. Roger Deane, a University of Toronto geologist, heads the project which is seeking answers to such problems as pollution and fish mortality. Above instruments on the side of the ship bring up samples of sediment which in some places is up to 100 feet thick.

Moved that as this work had been authorized by the councillor concerned, the request be granted. Carried.

In connection with the Council's endeavour to obtain lands throughout the County for park purposes, the Secretary reported that the Black Nugget Coal Company was now under new ownership and that one of the partners, Mr. Lee Larson, had called at the office stating that they were prepared to sell the necessary land to the County for $20.00 per acre. Mr. Larson was supposed to attend the Council meeting in this connection, but did not appear.

The Secretary advised that he had contacted Carl and Victor Nasland in regards to the land requiring in S.W. 4-49-12-W-4th and had offered $60.00 per acre for this land.

The Nasland had refused this offer and had made a counter offer of $65.00 per acre. No action was taken in this regard. In connection with the proposed camp ground at Sandy Lake, Cr. Johnston and Cr. Roddick and the Municipality's affairs and for the publicity given municipal matters during the years that they had published the Holden Herald.

The Secretary reported to the Council a letter from the District Engineer advising that the Department of Highways was willing to have municipalities do the work on Contingency Grant Roads. It had been found that where this work has been done with municipal equipment, this has often resulted in a certain amount of neglect in the municipalities' own road program or vice versa. The Council was not entirely satisfied with the letter but realized that they could do nothing about the situation at the present time and it was moved that the letter be received and filed. Carried.

A letter from Peter Klimiski of Lavoy stating that he has gravelled approximately 50 yards of road from the north-west corner of sec. 19-50-19 to his gate and requesting a refund in the amount of $1.450 for his work was referred to the Council at this time and Mrs. Forna moved, seconded by Mrs. Starkey and carried unanimously, that the Council do not grant the request as the work was done without authority from the Council.

Mrs. Forna asked if she would be reimbursed for the amount that she had expended

Moved, that Cr Starkey investigate this complaint. Carried

A letter from Mrs. Anna Mc. Lean of the hamlet of Brae complaining of a grainage problem on the road by her property was referred to the Council

Moved that Cr Starkey investigate this complaint and see what can be done to remedy the situation. Carried

The Secretary advised the Council that Mr. H.P. Wiebe had called at the office on July 2nd, complaining of the road along the west side of Wly. 22-50-20. Mr. Wiebe stated that at times the school bus cannot travel over this road and also that very little maintaining is done on this road. The Secretary also advised that Mr. Charles F. Kallal had called at the office July 5th, requesting that the road in Charles Kallal's farm north of Ponds be maintained and a couple of bad holes filled. This was the same road as complained of by Mr. Wiebe and Cr. Magnuson stated that he was unable to do anything to this road this year. He hoped to be able to construct a good road on this location in 1961.

A letter from C.W. Sears, Secretary of Barnes Mutual Telephone Company, requesting a payment of $250.00 being half the cost of moving the poles of telephone line along the 1925 Continental Grant Road, was referred to the Council.

Moved, that the account be paid. Carried

Moved that information from the P.A.I. in regards to township dealt with by the Board of Review at meeting No. 15, on June 21st, 1960, be received and filed. Carried

Moved that the Director of Town and Rural Planning be advised that this Council had no objections to the proposed sub-division of Block A, Plan 3743 W. Kinsella, providing the County will not be called upon for any road or other improvements within or to the sub-division. Carried.

(To be continued next week)

## OF MANY THINGS

(By Ambrose Hillo)

**NO POKER GAME**

I think it is time that business in Canada got a better break.

This suggestion will bring me a host of letters from crackpots, and some blasts from the socialists who have a compulsive hatred for private enterprise.

But the tendency to achieve popularity by disparaging big business it altogether too widespread. Let some outstanding character in a pool hall suggest, with a wink, that such-and-such a company really owns some other company and all their products are made in the same vats, and most of the other folk present find it easier to nod their heads than to argue. And there is always the smug implication that we could be rich and successful if we, too, would stoop to the methods of big business.

Among newspapermen, too, there is the feeling that it is rather easy to be popular if you are willing to become a sort of poor man's champion —by knocking successful men. Some writers know that the majority of readers are not successful people, so they might welcome the suggestion that it is not because they lack drive and initiative, but that they are honest.

The kind of writing was very evident when Davie Fulton, Minister of Justice, proposed to amend The Combines Investigation Act. Some of these writers suggested that the Act ought to be left very vague, and the Director given tremendous power, because it enabling the Department of Justice to keep business in line through a sort of poker game. "Keep business off balance." was one suggestion, sure to ring bells in the hearts of readers who are poor.

They'll be a dare sight poorer and no will all of us if the Act continues to remain so vague a manager doesn't know where he stands! Industrial giants in other countries, with far more certainty of action, will be able to wipe our industrialists (and their employees) right out of the marketplace. And since we now depend more than any other major industrial nation on our foreign trade, may the Lord help us if that does happen.

Sure there ought to be laws to keep industry in line (but the law, should be clear. It is no poker game to be played by the Department of Justice. It is the livelihood of millions of Canadians that is to be considered. Let's not have our hatred of business built up to such a pitch that we send our traders out into world markets in strait jackets.

### Ottawa Pastor Fired

Dr. A. Ian Burnett has been dismissed as pastor of St. Andrew's Presbyterian church in Ottawa, Ont. Dr. Burnett, pastor of the church for 17 years, is a former moderator of the Ottawa presbytery and was a candidate for moderator of the Church of Canada. An official release said only that "in the law of the Church, Dr. Burnett's ministry at St. Andrew's church was incapacitated, making necessary the severance of the pastoral tie."

*From an early sketch of Ontario families aboard the colonist car of a westbound excursion train . . . about 1892*

A Salute to Alberta's Settlers from Ontario...

For nearly 25 years — beginning in the early 1890's and ending only with the start of the First World War — the colonist train was one of the West's most familiar sights. Its string of boxcar-like coloured box cars following in dozens engine and six mountains of steam, colonist cars hustled across the land, and set down in the cities and towns and whistle stop sidings the Ontario settlers — whole families men and women to farm the broad prairie and to make it prosper.

They came, these Ontario settlers, from the green and picturesque Ottawa Valley, the farming counties of Glengarry and Grey and Bruce and Perth and Huron. They lived and slept and cooked and ate aboard the colonist cars as the trains moved west, and the freight cars were jammed from floor to roof with their "settlers' effects" — furniture and linen and silver, wagons and plows and work horses, lumber to build their new homes, and seeds to sow their new homesteads.

Gifted and fourth generation Canadians whose ancestors had come from the British Isles or who had been joined United Empire Loyalists, these skilled and experienced farmers from Ontario were highly adaptable to their new life. Their contribution to the province's development is gratefully acknowledged by every Alberta pioneer.

Have you got a problem in the home? I suppose you have been wondering what to do with all the fish. When planning fish to use here are some ideas for you to think it should have a fresh pleasant odor or none at all.
2. the flesh should be firm elastic and should not show signs of separation from the bone.
3. the eyes should be clear and bright, pink red and free from slime.

STORAGE
From the time the fish is caught until it is used, should be kept on ice or in a very cold place. It should be wiped with a clean damp cloth and then wrapped in wax paper. If you freeze the fish, keep it frozen until it is ready for use, but if it must be thawed, thaw it at refrigerator temperature. Once it is thawed use it at once. Never refreeze fish once it has been thawed.

PREPARATION
The fish should be scaled, drained, washed and have the head removed. If the fish is small trim fins and tail. If it is large cut into steaks or fillets. Wrap the fish in moisture vapor-proof paper or Separate pieces with two layers of freezer paper. The fish should be frozen promptly after preparation.

WOULD CHANGE FAITH FOR BOY

A five-year-old Roman Catholic boy is to be taken from his Protestant foster parents, even though they are willing to become Roman Catholics to adopt him. Mr. and Mrs. Ken Hallas of Winnipeg, above, have had Bobby with them since he was nine months old, and since 1956 they have been trying to adopt him legally, but under Manitoba law a Roman Catholic child can be adopted only by a Roman Catholic family.

## Minnitik News Items

MINNITIK — The grade tens of our district can relax now and make preparations for Grade eleven. Lawrence Bealey, Marley Rowland, Peter Ann Pearce and Margaret Roddick all passed and no more wondering for another year

Gary Ferguson was a guest of an Edmonton chum for a week both in Edmonton and at Pigeon Lake.

Vacation School was held for a week at South Cooking Lake & some lovely things were made by the pupils attending. They culminated the week by having a little concert and display of articles made.

Mrs. Irene Williams spent a few days at the home of Betty and Keith Williams.

Mr. and Mrs Bill Georgs and Georgina were Saturday visitors with their mom and dad, Mr. and Mrs. Stanley Georgs.

Mr and Mrs. Alex Pearice were entertained last Sunday when cousin Mr. and Mrs. Ernest Grierson and David of Ottawa Ontario called them a visit. Mr. Mrs. Ed Kirk of Blackfalds Alberta were also callers that day.

A family reunion of the Ferguson and Morrow families was held at Devilla on Saturday. Due regrets just how large a family in this they all get together Mr. and Mrs. Andrew Ferguson and boys attended from our district.

Last week Mrs. Howard Munro continued her husband's series of sermons on "the Sermon on the Mount," the theme being "Judge not lest ye be judged." Mr. Howard Munro continued this week with "Seek and ye shall find —."

News that residents of Ministik have waited for so long is finally out and the result is very gratifying. About two months ago we learned that our little old school house was up for tender and in order to retain it, something had to be done. A committee was chosen to canvas the districts of Hastings Lake and Ministik, funds collected to be used by the United Church On July 26th the tenders were opened and we were glad to know our school will remain, only in the future it will be used as the Ministik United Church instead of the "old Ministik School" This, many of us were glad to hear as when a building has stood for 53 years, there is a great deal of sentiment attached to it. The Ladies Club have held their meetings, three since 1947 and will still continue to do so

## GIRLS PLAY SOLDIER

Two hundred and sixty girls from Ontario are attending the annual summer training camp of the Canadian Women's Army Corps at Camp Borden, Ont. Many girls use their summer vacation to attend the camp which this year is occenting the army's role in event of an attack on Canada's cities. Getting some pointers on map reading the girls above listen intently to Sgt. Doreen Cooley of Kingston. They can also take officer and NCO training and recruit qualifying courses in clerical work, trades, drill and other such things.

## Northern Trans - Canada Route Association plans to hold meeting in Edmonton

A meeting of the Northern Trans-Canada route Association is planned for the Macdonald Hotel, Edmonton for Friday, September 2, 1960. The association which was formed in March 1959 has the purpose of promoting the construction of a second Trans-Canada Highway across the populated areas of the four western provinces. It represents the rural municipalities, villages, town and cities along the routes as well as Chambers of Commerces, Boards of Trade and individual citizens interested in adequate highways to serve the expanding travel and development needs of the northern areas of the western provinces.

The promised route branches off the Southern Trans-Canada Highway near Brandon, Man., and goes north to Mafeking, Man. passes through Saskatchewan and Alberta in a line parallelling the southern route but approximately 200 miles north Passing through the Yellowknee Pass. It is intended it should go in a northwesterly direction serving the area through McBride, and Prince George to Prince Rupert. The B.C. route of the Highway passes through one of Canada's richest resource areas and one that within the past decade has probably experienced a period of growth unequalled in any area of Canada.

With December, 1960 as the target date for completion of the southern Trans-Canada Highway, Manitoba is rapidly nearing the completion of its section. Saskatchewan went all out to construct its portion and officially opened its section in 1957. Alberta will finish this year and B.C. has hopes of completing by the target date. An early start on the Northern Trans-Canada Highway in the four western provinces is strongly advocated by the Associates which is the September 2nd meeting, hopes to see representation from groups all along the route.

IN MEMORIAM

VERGETTE — In loving memory of Herbert Vergette who passed away August 6th, 1958.
Gone is the face we loved so dear
Silent is the voice we loved to hear,
Too far away for sight or speech,
But not too far for thoughts to reach.
Sweet to remember him, who once was born.
And who, though absent, is just as dear.
Longingly remembered by his wife Mildred and children.

CANADIAN INHERITS TITLE AND FORTUNE

Bob Williams, 33, a railway brakeman from Kamsack, Sask., inherited the title Sir along with a rolling, palatial estate when his second cousin Sir William Law Williams, English barrister, died July 2. The whole estate is worth upwards of $500,000. Mrs. Ruth Williams is pictured as she arrived in England to see their 12 farms, three manger homes and half a village. At right is the 30-roomed Georgian home, Upcott House on the outskirts of Barnstaple, Devon which is the present seat of the Williams family.

Throw away shirts coming, asks The Financial Post. In response to [illegible] dew way to [illegible] industry on development of non-wrinkle cotton shirts and undershirts. They would be cheap enough to throw away after a few washes

## Tofield Girl Killed By Truck In Edmonton

[illegible] north on [illegible] Tofield, at about 4 o'clock on Saturday afternoon, August 6 when she was fatally killed Pauline Pelensky, 17, of Tofield as she crossed the street at 109A Ave., Edmonton.

The driver, Laurier Jean [illegible] was charged with having committed a [illegible] on the vehicle and failing to yield the right-of-way to a pedestrian. He was given a summons to appear in court on Aug 25. The truck was owned by police and taken to the police garage for examination and mechanical tests.

Police said the accident occurred at 1 P.M. as the girl walked west across 97 St. The impact dented the hood and grill of the truck. Police said Miss Pelensky apparently was lower, and then crushed by the rear wheels of the truck as it continued south for several feet before stopping.

Both father and daughter were in a entirely confounded native costume and provide a talk on these various items they put on a concert of folk tales and instrumental Ukrainian music. The third member of their trio had to be left behind, in an Edmonton hospital. Nevertheless they didn't skimp on any of the numbers. The instrument played was the bandura an ancient musical instrument and while you look and they are both experts on it.

Those of the audience who do not understand Ukrainian enjoyed the music very much and it must have been a rare treat to Ukrainians, Polish and others who have been away from their homeland for years.

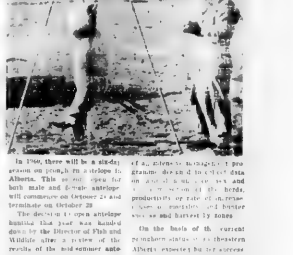
Although well advertised in Tofield the crowd was disappointingly small for a display and concert of this caliber. Many of the items displayed were very old and had an interesting history. A elegant cane made of wood and intricately carved was made by an elderly Ukrainian who was an amputee and was completely illiterate. A similar cane was made & presented to one Queen Elizabeth II as a wedding gift. The value of the one in Professor Borkowsk's collection amounts to $5,000.

### Gun Club to hold shoot Sunday

The Tofield Gun Club is holding a competitive shoot on Sunday August 14th. All local shooters, especially novices at trap shooting are inviting to attend There will be a special competition for beginners at the game and the club would like to have as many as possible come out.

Competitors are expected from Wainwright, Leduc, Viking and Chipman. Spectators are welcome so if you'd like to spend a Sunday afternoon outdoors drive out to the Club Range ¼ mile west and ½ mile south of Tofield any time after 1 p.m. All shooters are asked to be present by 1:30 p.m. sharp.

Refreshments will be available at the range.



In 1960, there will be a single open season on pronghorn in Alberta. This season open for both male and female antelope will commence on October 24 and terminate on October 29.

The decision to open antelope hunting that year was based mainly by the Director of Fish and Wildlife after a review of the results of the mid-summer antelope aerial survey. These surveys, conducted each year, allow the assessment of pronghorn density by areas which is just one phase of a [illegible] to manage [illegible] pronghorn. Also [illegible] productivity or rate of increase is [illegible] and hunter success is [illegible] harvest.

On the basis of the current pronghorn status in southeastern Alberta [illegible] a limited season and [illegible] hunting pressure in this region, it has been determined that a total of 1,860 antelope permits can be issued this year.

### Tofield Mercury took the long way around

The Tofield Mercury really gets around. Mrs. E.H. Chappell of RR. 1 Vinu, Alberta this week sent us her July 7th issue of the Tofield Mercury. She has just received it in the mail and it was still in the wrapper we mailed it in. On it were two Post Office data stamps, both dated July 27th at London, England.

"There was a small mistake as well which said, "Not England" in Mrs. Chappell's words. "It went as far into Wales as it went a month for the round trip

### Bible School at Baptist Church

The Baptist Church will be having a Vacation Bible School August 15 - 26 inclusive. The school will be from 9 a.m. to 12 noon with a closing program for parents and interested public. Friday night at 8 p.m. Classes are being prepared for ages 3 to 12. Mr. Duane Norton will be back to direct the school and Miss Mona Sperling, Chilly Evangelism Fellowship, will assist. We hope to see a good number of children attending.

WHAT IS MILDEW?

Mildew is a mold or fungus which shows itself as spot, green or black furry blotches It causes clothes to rot so badly that it cannot be repaired So therefore, practice prevention Here are some suggestions

1. Keep all storage places dry by burning a small bulb in your clothes closets. Louie drawers and doors open occasionally
2. Keep garments and storage places clean Store only clean clothes and polished shoes

3. Use moth crystals in tightly closed containers
4. Brush sun and air garments especially during damp weather
5. Do not put damp clothes in chests, containers. If dampened clothes must be stored place in a plastic bag in the refrigerator

REMOVING MILDEW STAINS FROM FABRICS

1. Brush off surface growths on fabrics or leather
2. If the mildew stains are still evident wash fabric thoroughly
3. If still prevalent use a chlorine bleach on COTTONS or LINENS Soak 15 minutes and rinse thoroughly. For SILKS, WOOLENS or ACETATES use 2 tablespoons of hydrogen peroxide to one gallon of warm water Soak for 30 minutes and rinse

SHOES.

1. Wash with thick suds or saddle soap Wipe with a damp cloth Dry in an airy place, then polish.

Alberta Provincial Government erects 50 Homes for Senior Citizens

Constructed and operated in a manner that encourages maintenance of personal dignity and independence, Alberta's homes for Senior Citizens in 50 provincial communities are rapidly opening for residents.

The one storey, U-shaped buildings are designed along contemporary lines. The base of the "U" houses a well equipped kitchen adjoining a bright modern dining room. The dining room is furnished with tables and chairs seating four The persons service glass along the wall provides a bright and cheery atmosphere. Extending from the dining room is a large sitting room tastefully furnished and decorated by a large stone fireplace bordered with shelves Sitting rooms are located throughout the building. Each arm of the "U" contains eight single bedroom accommodating 25 persons Each well furnished room is equipped with a washbasin and toilet and each wing is equipped with a bath A patio and lawn are enclosed within the three sides of the building.

To date 31 contracts have been let for construction of the homes Of these 15 have been completed and it is expected the balance will be in operation this summer. A staff of five is required to operate a unit. Cost to resident is $65.00 per month for a single room. Each house will accommodate 50 residents.

The cost per home to the Provinces averages $150,000.00, according to location. Approximate additional cost for furnishing and fixtures is $20,000.00

Formal opening ceremonies are planned for early October

HEARTBREAK FOR A B.C. BEAUTY

The strain of competition in the preliminaries of the Miss Canada contest at Burlington, Ont., proved too much for shapely Margarite Maves, Miss British Columbia. At left she gasps as she learns she has not won. At right, Margarite breaks down and cries and had to be led off the stage by the emcee.

## Mental hospitals adopt new open door policy

An "open door" policy to rehabilitate Canada's 73,000 mental hospital patients, is being adopted on a small scale throughout Canada. Patients in four wards at the Ontario Hospital, Toronto, are allowed to come and go as they please. Liberty magazine reported in the August issue.

Despite advances made through mental research, one in 12 Canadians will be hospitalized because of mental illness. The Federal government spends only $5.60 a day to treat mental patients, as compared with $6.46 a day to maintain a prisoner in a penitentiary.

Canadians no longer regard mentally ill people as lepers, who should be shut up in a "nuthouse" dungeon, the Liberty article said. Last year, 50 Toronto patients were allowed to stage a musical review outside the hospital. Patients at Halifax were recently trusted to an hour-long show by CBC's Don Messer and his islanders. In Edmonton, members of teen-age car clubs provide transportation for patients, and student nurses baby sit while out-patients visit the city's submarine White Cross Centre.

Service Clubs and White Cross workers are chiefly responsible for therapeutic activities at hospitals. Volunteers arrange teas, sports and games, dances, sing-songs and discussion programs, give cold turns and teach English to new-Canadian inmates. Patients learn to hook rugs, make ceramics and operate wood-working machines.

Therapy often produces amazing results, the Liberty article noted. While attending weaving classes at the Toronto Hospital, a patient, who had been a dentist for years, started speaking again. He became a highly professional weaver, and soon left the hospital, well once more.

"Every case is an interesting one." Mrs. Mae Wong, an occupational therapist at the Toronto Hospital told Liberty. "Perhaps that's why I find the work so much more rewarding than in a general hospital."

FREEZING VEGETABLES

Why do you have to blanch vegetables before freezing them? The reasons are:

1. Blanching, which is a form of partial cooking at high heat, stops enzymic action, which if allowed to continue will surely change the color, flavor, texture and nutritional value of vegetables.

2. Blanching destroys bacteria which may be present and makes

PREPARATION FOR FREEZING

1. When blanching your vegetables, you start finding the process after the water has returned to a boil.

2. In order to cook your vegetables quickly, dip them in a pot of water filled with ice cubes.

3. In order to exclude some air while packaging for freezing, place your plastic bag in a pail of water and then fill it with vegetables.

4. Be sure you quick-freeze your vegetables before packing them into your freezer.

HOUSEHOLD HINT

Are you making lots of lemonade these days? Well, try heating your lemons before squeezing them, they will yield more juice.

## OF MANY THINGS

(by Ambrose Mills)

"DON'T ARGUE WITH COPS"

The fellow was talking to his pantyhose pals. Said he, "I have given my daughter three dicta only. They are very simple.

I. Remind, Have, I thought will be the distilled wisdom of a father advising someone about whom he cares a great deal. Usually, the advice parents give to children is pretty sound.

The fellow enumerated his points by stabbing a finger into his palm. "First I told her not to argue with her teacher. She did —and got tossed out of her biology class for insubordination," he said "Second," he said, "I told her never to argue back to her Ma. I have tried it myself and I know it doesn't work."

It was the third "don't" that amused the spectators most and brought a good many emphatic nods of agreement. "Don't argue with traffic cops", he had advised his daughter. "Even when you are right, you're stuck."

I think it is probably wise not to argue with policemen, especially very young policemen. We as a nation with tremendous respect for the law, and we ought to be. There was a time when the uniform of the Mounties was about the only law in the wild and wicked west. A good deal of that glamour clothes the young [illegible]. There is no doubt a lot of them about the country. They grow cocky. They make mistakes. Some of them love to drive their motorcycles far [illegible] (off and) the admitted necessity, before a man strips that [illegible] driven his car at 60 miles per hour through a school zone in pursuit of an automobile which, at that time, he was not certain was speeding. It was altogether likely that he was acting more dangerously in his zeal than was the motorist he chased—for the motorist had slowed down to chirp to go by the school.

Nevertheless, a magistrate feels impelled to take the word of a constable over that of a citizen, or indeed, over that of two citizens, however reputable they may be. Unfortunately, this sometimes leads to situations where people have more respect (or fear) for the courts, themselves, and their legal guilty even when convicted of their own innocence.

So I say, "If you are right, argue with the cops. It won't do you any good, probably, but it will do this country good. Unhealthy fear of a uniform, especially by an innocent person, is a bad omen for a nation. We don't want any of it here in Canada where a man should be presumed innocent until he is proven guilty!

-- German Immigrant Settler Turning First Sod of His Alberta Homestead with Wooden-Beam Plow.

A Salute to Alberta's German Pioneers

The promise of free farm land in the Canadian West in the early years of the 20th century was like a giant magnet drawing to the prairies farmer-settlers from half around the world. Its pull reached to Russia and to the old Austro-Hungarian Empire, bringing to Alberta thousands of German speaking families. At the same time it drew second generation Germans from the northwestern states — Minnesota, the Dakotas, Wisconsin and Kansas — and this migration was supplemented again by government and railway colonization schemes particularly attractive to German-speaking settlers.

Hard-working, self-reliant, willing to endure the hardships of pioneering and to contribute earnest and enthusiastic effort to the building of the West, they make up one of Alberta's largest pioneer groups both in actual number and in value of their contribution to the agricultural advancement of the province. Another pioneer in the West — the Calgary Brewing and Malting Company Limited — is proud to salute them!

A WEEKLY PAPER SERVING TOFIELD, RYLEY, LINDBROOK, CHIPMAN, COOKING LAKE, KINGMAN
Vol. 8 — No. 45 TOFIELD MERCURY, TOFIELD, ALBERTA Thursday, August 25, 1960

THIS CAT BROUGHT GOOD LUCK . . .

A sea-sick cat saved the life of a Toronto man when his cabin cruiser exploded at Prinyer's Cove near Picton, Ont., recently. Bill Hamilton ashore searching for the cat when the boat blew up. His son-in-law, John Beebe, was blown six feet through the air on to a dock, escaping with a back injury. The explosion was touched off when Mr. Beebe turned on the ignition switch. Neither man knew the cause of the blast. Mr. Bruce valued his bridgedeck cruiser at $15,000.

## Weekly Editors to meet in Vancouver ....

More than 400 representatives of weekly newspapers from across Canada are expected to attend the 41st annual convention of the Canadian Weekly Newspapers Association in Vancouver, September 12, 13 and 14.

Theme of the conference is "Tackle 60" and delegates will examine the importance of trade with Pacific countries.

Among convention highlights will be a report on Russia by Dr. A. E. Dell Greaser, B.C. Electric president and former president of British Columbia chamber[illegible].

Presentation will be made during the convention of the 1960 Better Newspapers Awards, given annually by the CWNA in recognition of outstanding achievement. Included are awards for the best all-round paper, best editorial page and best front page in the various circulation groups.

Chairman of the sessions will be CWNA President Leslie R. Barber of the Chilliwack (B.C.) Progress. Convention program chairman is Cecil Hacker, of the Abbotsford (B C ) News.

## Work progresses on Curling Rink site

In between the rain storms of the last two weeks the ground has been leveling for the new curling rink and skating rink.

The curling rink will be located on the north side of the road leading into the fair grounds and the skating rink on the south side. The curling club is building the curling rink while the town crews are in charge of the erection of the skating rink although most of the money will come from the provincial government's recreation grant

The seven foot holes for the lights have been dug and weather permitting a volunteer working bee on the skating rink will be held on Saturday.

It is hoped that a number of rinks will be able to give a few hours of their time so that the skating rink will be ready for use this winter.

Cast in Near Tears Over Death of Producer

Ted Pope's sports car, which was to have figured prominently in the CBC show he was preparing when he was killed recently, was hurriedly withdrawn from the show a few days ago. The CBC said it "suddenly" realized the identity of the car. A spoof on TV Westerns, the show planned to use the car as a major prop. His car was pushed around Studio 7 but actors shied away from working in it following Producer Pope's fatal accident while racing in an identical car. Here we see stagehand with sports car which replaced Ted Pope's.

## Lions Club to hold Silver Dollar Bingo

At the regular meeting of the Tofield Lions Club held Tuesday evening it was agreed that a Bingo should be staged on the 14th of September. Proceeds will go to the skating rink and the grand prize will be 50 brand spankin' new silver dollars. Advance tickets will be sold and a prize of $5.00 will be given to some lucky holder of an advance ticket

A letter from Lions International stated that the Lions Clubs across the country were again gathering old eye glasses. It was felt that it would be useless to continue for others and in this year but if anyone had a pair around they would like put to good use they could be turned in to J.E. Stinson, Tofield Creamery. Premier Messrs. Garford's Ladies Wear, Charlie's Place or the Tofield Mercury

Following the success of the Friendship Club last year it was agreed that another should be staged this year with the proceeds going for the operation of the Skating Rink. This was to be discussed further at the next meeting.

## Two men become lost in reserve

While visiting at the home of Jos and Tillie Turkowski on Sunday, Harry Kosak and Stanley Ruzycki of Mundare took Joe's tractor and went into the reserve looking for berries but failed to return that evening. A search for them was started and the tractor was found but no trace of the two men. They had become lost and spent the night in the reserve. Joe Turkowski and son Joey found them on Monday morning about ten o'clock about three miles from where they had left the tractor Their families who were at the Turkowski home came from the provincial government's recreation grant

## Decoration Day held at Tofield Cemetery

Last Sunday the Tofield Branch of the Canadian Legion held Decoration Day. Members of the Legion paraded into the cemetery and laid wreaths on the graves of all ex-servicemen Members of the community took part in the services by placing wreaths on graves of their friends and relatives

The ceremony of Remembrance was handled by the Rev. Bruce McNeil, United Church minister.

Decoration Day has become very popular in the United States and other parts of Canada and the local branch of the Canadian Legion hopes that another year a large part of the community will take part. It is hoped that it will become a community decoration day with the Legion being out

## Mystery person pays debt to C.N.R.

The letter was signed, "X."

## School Zone Traffic Laws In Urban And Rural Areas

The laws of traffic in school zones vary slightly in the major cities of Alberta where they are generally different from those that apply to school zones outside the city limits.

The following will be found the exact wording of provincial highway traffic laws with reference to school zones, together with the local laws as supplied by city authorities in answer to a request from the AMA

SECTION 80 OF THE VEHICLES AND HIGHWAY TRAFFIC ACT:

(1) In this section "marked school zone" means a zone identified by signs posted along the highway, or by markings on the pavement or by signs or lights or both posted or suspended over the highway as an area wherein school children may be expected to be on the highway or are permitted to cross the highway at a designated point along the highway

(2) On any day upon which school is held no person driving a vehicle on any highway on such a city, town or village shall within a marked school zone on the highway, drive a vehicle at a speed greater than twenty-five miles an hour at any time between the hours of 8:30 a.m. and 4:30 p.m. inclusive, or drive any vehicle in any marked school zone at a speed in excess of twenty (20) miles per hour.

(3) No person shall between the hours of 8:30 a.m. and 4:30 p.m. inclusive, on any day, drive any vehicle in a marked playground zone at a speed in excess of twenty (20) miles per hour

"Faith Comes by Hearing," a slide-sound production illustrating the radio outreach of Mennonite Broadcasts, Inc., will be shown Sunday September 4 beginning at 3:00 p.m. at the Tofield Community Center in Tofield

Norman Derstine, Associate Pastor of The Mennonite Hour and vice - pres. of the Mennonite Board of Missions, will be present to give this illustrated program and to answer questions on broadcasting which the audience may have following the showing.

"Faith Comes by Hearing" is based on a true account of a Mennonite Hour listener who came to faith in Christ by means of radio Later this same listener visits the radio center in Harrisonburg, Virginia, where he learns more about the broadcasts which encircle the globe in a total of eight languages with over 240 weekly releases.

The public is cordially invited to this program.

In this area The Mennonite Hour can be heard each Sunday at 2 p.m. over station CFVW Camrose

## Diane Foshaug attends convention in Milwaukee

Miss Diane Foshaug is serving as a delegate to the Constituting Convention of the Lasher League of The American Lutheran Church in Milwaukee, Wisconsin, from August 16-31 for Bardo Lutheran Church of Bardo Twenty - eight hundred delegates from the entire United States and Canada are meeting to adopt a constitution, elect and install national officers for the youth movement of the ALC. This church body, formed by the merger of three Lutheran Synodical and United Evangelical Lutheran Churches, will begin its operation on Jan. 1, 1961. The total membership of the Lasher League is around 150,000 youth of high school age in approximately 5000 congregations

Diane is the daughter of Mr and Mrs Ivan Foshaug of Tofield

COSTUMERS' HOLIDAY IS A BALL

The first convention outside the U.S. of the National Costumers' association is being held in Toronto and everybody is having a ball. Most fun was had at the masquerade variety. It was as if history had come alive as harem girls, ancient rulers, prophets, fabled dancers and fierce warriors mingled in as colorful an occasion as the fancy dress creators could wish for. It was just one of the spectaculars of a group dedicated to producing eye-catching get-ups and having a lot of fun besides. Grand prize winners for the best costumes were Nancy Malabar and Cliff Allen who appeared as Princess from Thailand and a Mayan ruler.

## OF · MANY · THINGS

(By Ambrose Hill)

LET 'EM LAUGH, DOC.

The archaic penal law banning fun with the doctors in Saskatchewan.

Let them laugh, Doc. There'll come a time when other sectors of the community will wonder why they laughed so hard at you.

Consider the farmers, for example. A vast number of Saskatchewan farmers must have voted for socialism. And I know a few of them laughed very hard at the cartoons which ridiculed the doctors when Tommy Douglas was the day.

Would they have laughed if their farms had been socialized? Would they have chuckled so chickenishly if they had become State managers of their farms, rather than owners? I'm inclined to doubt it.

I think it is true that you muffled your campaign against socialized medicine, doctor. You may be a wizard with the scalpel but you're a washout on the stump. As individuals, you're honoured and respected, but as an organized group you're all thumbs. You sounded as if you were trying to keep the people from getting something for nothing, and that's no way to win friends and influence people in a province that has so many citizens with more faith in the something - for - nothing theory than they have in ample arithmetic.

When the bills start coming in, the citizens of Saskatchewan are going to need pro. And when their slivers start acting up, they'll come running to you as of yore, and there won't be half the raucous laughter. They can bide the cost of just so many "free" services, and then it'll start to show.

In not too many years, they'll be crying for some sort of plan to protect them from disastrous bills, but leave them on their own to pay for the little aches and pains and emergencies most families can well afford to handle on their own. Meanwhile, every time your precious hours are taken up by a hypochondriac with an insurmary pain in his left toe, a people impressed with the thought that the people who are laughing at you now will then be squirming in your waiting room, perhaps reading the humorous sections of Missionary Lessons in Arithmetic you have shamefully neglected.

## DID · YOU · KNOW

* A drinking driver was involved in at least 16 per cent of all fatal accidents in Ontario in 1968.
* 25 per cent of the fatal pedestrians killed in 1968 had been drinking.
* Accident statistics for 1969 show that 2,910 Ontario drivers were impaired and 2,500 had been drinking at the time of the accident.
* Drinking reduces the ability of any driver.
* Small amounts of alcohol reduce self-control and driving ability.
* You do not have to be "under the influence" to be an unsafe driver.
* Coffee doesn't help. Only time will work alcohol out of the blood stream.
* About three hours is needed to eliminate one ounce of pure alcohol (about two cocktails) from the system.
* Two cocktails may reduce the power of sight as much as wearing dark glasses at night.
* Social drinkers are the big menace. Critical judgement is impaired with a fairly low alcohol concentration and although they appear normal, their wits may fail them in an emergency.

## Alberta's naturally clear air is relatively unspoiled despite industry

Alberta's naturally clear air remains relatively unspoiled despite the growth of provincial industrial and oil field development, according to an interim report of the Sanitary Engineering Branch of the Alberta Department of Health. The Branch has been conducting a study of air pollution in the Province for the past two years and recently announced the expansion of the program to ensure that air contamination does not become a problem in the future.

Fifty two air pollution detectors have been in operation in Alberta since 1965, primarily in oil and gas localities. The detectors are sensitive to the presence of hydrogen sulfide and sulfur dioxide.

The report shows the areas of Nevis and Innisfail are subject to appreciable amounts of gases which cause an odor nuisance and metal discoloration. A mobile laboratory fitted into a 37 foot trailer has been sent to areas of highest concentration to provide an hour by hour measurement of the pollution.

The cities of Edmonton and Calgary are relatively free of the gaseous compounds with other major Canadian cities who completed surveys in 1966. The reports show a lower incidence of hydrogen sulfide and sulfur dioxide than Halifax, Montreal, Hamilton and Trail.

A number of detectors in operation near a fertilizer plant at Medicine Hat indicate a high level of air purity in the district.

Included in the study by the Sanitary Engineering Branch has been a detection of smoke pollution in the cities of Edmonton and Calgary.

Equipment has been installed in the city halls of both centres. Readings indicate an equal level of smoke pollution in the two areas. The concentration of dust remains at a low level compared to other Canadian industrial centres. For example, it is about a seventh of the measurement in the Windsor industrial area.

The Alberta Government's expanded program will include a completion of the pollution control automobile exhaust in Edmonton and Calgary. The experiments to measure oxides of nitrogen which are the main component of auto exhaust, have been installed in the downtown areas of the cities. Another mobile laboratory is to be put into service this year to permit a more comprehensive study of the province.

## STRIKEBOUND VOYAGE WAS A BALL

Tradition took an awful beating on the Cunard liner Sylvania's Atlantic crossing but the nearly 1,000 passengers who reached Quebec City recently all claimed they really had a ball. Never in the company's proud 130 years of service was there a trip to match the rollicking crossing which saw passengers pitch in with the crew after 200 members of the ship's 450-man complement walked off at Southampton just before the Sylvania was due to sail for Canada. Capt. Law confessed the first few days were worrisome as he recalled the cascades of broken chinaware and glasses that swamped the 22,000-ton luxury liner, until his landlubber crew got their sea legs. Passengers Tibbie Smithers and Howard Scarrow pitched in to help, too.

ROBIN A GOOD FIT

Mrs. John Nykolyn of Long Branch, Ont., found a robin when it fell from a tree four weeks ago. She keeps the robin in a cage in the house at night and hangs the cage outside in the daytime so the bird can come and go as it pleases. The bird is already trained to come when she calls and lands on her arm to be fed. Its menu included sirloin steak and veal.

PROUDLY WESTERN

Frank Pioneers Seeking Suitable Homestead Land in the Foothills – About 1906.

A Salute to Alberta's Early French Adventurers

The spirit of adventure which early in its history brought French explorers and colonists to the new world had not dulled, even by the late 19th century; there was still Western Canada, unsettled and undeveloped, and there were French men and women ready to cross an ocean and travel more than half the breadth of the continent to answer its challenge.

Some of those who came to Alberta had been farmers in France, but many were drawn from the aristocracy, from professional groups and from officer ranks of the French army. Choosing their homesteads here, they favored particularly the foothills country about Millarville and the parkland areas at Trochu and Sylvan Lake, districts well suited to their interests of farming and ranching and the breeding of fine light horses.

Not all the French settlers remained to live out their days here; for some there were other challenges to settle still newer lands, and for many the outbreak of World War One meant a patriotic retuge to their homeland to fight in the trenches alongside other Allied troops. Today, the number of their descendants in Alberta is comparatively small, but the cultural and economic contribution of these venturesome French pioneers is a proud one!

Mrs. Grace Swabey returned to her home Friday after completing her classes at summer school.

We were very glad to hear that our two grade 9 pupils Gary Ferguson and Grant [illegible] passing to grade ten with very good standings. Now we only have our grade twelve students to report on.

Several from the district attended the wedding dance at South Cooking Lake, of Mr. and Mrs. Mac Neumyer who were married August 13. Our very best wishes to them.

Mrs. Claude Leach visited with her sister Mrs. Florence Swabey in an Edmonton hospital on Monday.

Mr. and Mrs. Bruce George & girls who have just returned from vacation to Prince George B.C. were Sunday guests of Mr. and Mrs. Stanley George.

Several new cars have made their appearance just recently in our district. Russell Rowlands are sporting a Nash Rambler; Glenn Ferguson is driving a 1960 English model and Norman Pearce has a Pontiac. They are all very smart looking members.

Mr. and Mrs. Ronald Guggenman & children from the store went on a motor trip to Chilliwack B.C.

Edna Reddick had a new experience last Wednesday when she helped Miss Evelyn Cook de-beak her 1,000 turkeys.

Frank and Arthur Elliot have spent several days this week preparing things for the fall season.

THIS WEEK

Mr. and Mrs. Gordon Gilbert and son Neil of Mirror, Alberta were week end visitors of Mr. and Mrs. Bye Bowerman. Other guests were their daughter and son-in-law Arleigh and Jack Cardinley and grandson Allan all of Boyle, Alberta. Allan remained to spend a couple of weeks with his grandparents.

Mr. and Mrs. Andrew Ferguson and boys attending a family reunion of Jean's family at Ferguson Lake on Sunday afternoon. Those attending included Mrs. Ferguson's two sisters and several nieces and nephews and their families.

Mrs. Claude Leach visited with her sister Mrs. Florence Swabey in an Edmonton Hospital.

Mrs Helen [illegible] returned to her home on Monday after cooking for the church camp at Sarpsion Lake near Bitten for nearly eight weeks.

Mr. and Mrs. Bob Barker and Sherry of Mr. and Mrs. Gordon Thor all of Edmonton were guests of the Alex Pearce family on Sunday.

We were sorry to hear little Chris Jones has been ill with the flu.

Mr. Stanley George was a supper guest of Mr. and Mrs. Bruce George on Monday evening after which he and son Bruce attended the football game at Clarke Stadium.

### 103,000-FOOT DROP TO A SAFE LANDING

Captain Joseph Kittinger, 31, of Orlando, Florida, lies happily on the ground after jumping from a balloon nearly 103,000 feet above Holloman air force base in New Mexico. Officials say his historic parachute leap set four U.S. records.

### Glue sniffing is dangerous fad

WASHINGTON, D.C. —Watch out for model airplane glue — it can injure the brain. That is the warning given in the current issue of LISTEN Magazine, official voice of the American Temperance Society.

In an article entitled "Glue Sniffing — Dangerous Fad," the journal points out that there is something new, and deadly, being tested by teen-agers desiring of living dangerously. The youngsters cut after "kicks" have taken to inhaling the volatile fumes resident in the plastic cement known as airplane glue.

Immediate results are intoxication, lack of bodily and mental co-ordination, hallucinatory results, [illegible] exhilaration of the [illegible] and damage to the [illegible] destruction of the [illegible] cells and [illegible]

A WEEKLY PAPER SERVING TOFIELD, RYLEY, LINDBROOK, CHIPMAN, COOKING LAKE, KINGMAN

Vol. 8 — No. 46 TOFIELD MERCURY, TOFIELD, ALBERTA Thursday, September 1, 1960

Sixteen Junior Forest Wardens from clubs at Slave Lake, Edson and Hinton recently attended a week long training school at the new Alberta Forest Training School at Hinton. The course conducted by Foresters of the Alberta Department of Lands and Forests, included instruction on Forest Service conservation methods and fire protection demonstrations. The Junior Wardens were taken on tours of the North western Pulp and Power Plant at Hinton, a pulp camp in the area and a sawmill near Obed.

A highlight of the school was an overnight camping trip on which the students were required to maintain themselves under the same conditions a Ranger would on an inspection trip.

Junior Wardens were sent to the course by their home town sponsoring organization and accompanied by the club leader. The school was sponsored by the Alberta Department of Lands and Forests with instructors from the Department's Edmonton Headquarters.

Alberta Forest Service instructor Jack McNabb is shown demonstrating tree calipers to a group of Junior Wardens in the area near the new training school. Left to right are Noel Armstrong, Hinton; Mr. McNabb; Wayne Michener, Edson; Jim Affolter, Edson and Dennis Maine, Hinton.

# County Of Beaver Council Holds Meeting

THE REGULAR MEETING OF THE COUNCIL OF THE COUNTY OF BEAVER NO. 9 WAS HELD ON THURSDAY, AUGUST 11, 1960.

Present: The Chairman, Cr. E. M. Magnuson, and Crs. Gibson Johnston, Rendrick, Demchyshyn, Stasky and Weatherill.

The meeting was called to order at 10 00 A.M. by the Chairman

MOVED that the minutes of the regular meeting, July 11th, be accepted as written

CARRIED

MOVED that motions taken and decisions made by the School Committee at its meeting, August 9th, be approved and executed

CARRIED

MOVED that the minutes from the Farm Purchase Board meeting, August 5th, as read to the Council at this time, be approved and the actions taken at the meeting concurred in

CARRIED

MOVED that the Financial Statement for the period ending July 31st, 1960, be accepted

CARRIED

MOVED that the accounts presented to the Council at this time be approved and passed for payment

CARRIED

MOVED that the Public Works statement for the period ended July 31st, 1960, be accepted.

In connection with the complaints from Mrs. Sofia Franco and Mrs. A. Mokanic, dealt with by resolutions 384 and 387 at the July meeting, Cr. Stasky reported that he had, together with two other councillors, investigated the complaints and that he intended to have the patrol run a small ditch to drain the water complained of. He mentioned that the area of land was very flat, and with poor drainage and that extensive drainage ditches were not of any use

MOVED that the report be accepted and concurred in

CARRIED

In regards to the metered power poles by Calgary Power on the 7½ miles east from Ryley, the Secretary advised that the Calgary Power Limited right-of-way buyer, Mr. G. C. Johnston, had been able to get preliminary agreements from all but three parcels involved.

MOVED that the agreements in this connection be approved.

The by-law 66 to acquire certain lands for road widening purposes was now placed before the Council, and given first reading, second reading, third reading

CARRIED UNANIMOUSLY.

Letter from K. B. Yoder of Tofield in connection with the closing of one mile of road west of 75-24-4-5 referred to the Council. The letter indicated that Cr. Magnuson had promised that the road would be back-sloped providing the fence was removed and the brush cut. This was supposed to have been done, but the road was still not properly back-sloped. T.L. letter requesting the Council to investigate this condition Cr. Magnuson stated that he had promised Mr Yoder that he would back-slope the road if the fence was removed and the brush removed at the time the road was being constructed. Nothing was done until after the road was built and Mr. Magnuson was of the opinion that this work could not now be done, as there would be no place to put the surplus soil. Furthermore, he had no money available at this time for this work.

MOVED that Mr. Yoder be advised that no action can be taken at the present time in regards to his request.

CARRIED.

Abernethy of Tofield claiming damage to his field shelter on the north side of N.E. 23-51-19 through carelessness, indiscriminate and unwarranted spraying of shelter when oil roadside of north side of the above quarter, was referred to the Council. The claim was as follows 156 trees under 2½ feet high at a value of $1.00 each, 240 over 2½ feet high at a value of $2.00 each to a total amount of $396.00. It was Moved that this complaint be tabled until the next meeting of the Council and that Cr. Weatherill and Asst. Supt. the Field Supervisor, investigate the complaint in the meantime

A letter from J.D. Mollard Associates, Consulting Engineers of Regina, Saskatchewan, stating that, through want of available materials, they were able to locate and map the parcels of sand and gravel was referred to the Council. The Council appeared quite interested, and it was moved that the Secretary obtain information as to cost of this type of service

CARRIED

MOVED that letter from Farm Electric Services Limited, in regards to cost of moving power poles along the north of section 11 and 12-49-19 and north of 7 & 6-49-17 for the construction of the National Resources Road, be received, and filed

MOVED that information in regards to land dealt with by the Board of Review and A.A.A. at its meeting on July 4th, 16th and 18th, be received and filed

The Secretary advised that he had, after contacting the councillors concerned, signed a release from the P.F.A. in regards to townships (9-18 W 4th, and 12-19 W.4th), these townships having an estimated average yield in 1959 of over 9 bushels per acre

MOVED that the action of the Secretary be concurred in

The agreement between the Provincial Secretary and the County of Beaver No. 9 in regards to recreational grant for the Hamlet of Bruce was placed before the Council at this time and it was moved that the Chairman of Beaver No. 9, through its signing officers, enter into the agreement referred to above, between Her Majesty the Queen in the right of Alberta, herein represented by the Provincial Secretary and the County of Beaver No. 9.

At this time it was mentioned that Mr Archie Fiesn, former publisher of the Holden Herald, had passed away and that the funeral would in all possibility 13th. It was be held on Saturday, August 13th. It was moved that the Secretary arrange for an appropriate funeral wreath for the late Archie Fiesn, from the County

CARRIED.

## Minisik Residents Honour Former School Teacher

Residents of the Minisik Community gathered on Wednesday evening August 24th at the hall to say farewell to Mrs. Grace Bentley.

After several games of bingo were played, Jimmy Sheldrick, president of the hall board, called on Mr. W. F. Davenport, who on behalf of the Community spoke a few appropriate and witty words. He then presented Mrs. Bentley with a lovely wrist watch for which she graciously thanked all residents.

## STAR TEAM BEATS DR. MOORE IN MONTREAL-TORONTO WALK

The Toronto Star Walking Team composed of reporter Dorothy O'Neil, amateur mountain climber Roslyn Rolph and Helen Griffin, Toronto hospital orderly reaches the CNE in time for the opening ceremonies.

The team left Montreal August 14 and walked about 10 hours a day. The biggest complaint after covering the 302 miles was sore feet. Dr Barbara Moore accused the team of accepting rides and claimed she was the only genuine marathon walker in the world.

## Kallal's win top awards at C. N. Exhibition

Word was received today from Toronto that C. J. Kallal and son will be bringing back new honours to Tofield. The Kallal's are exhibiting in the Hereford Centennial Show at the Canadian National Exhibition in Toronto. They have walked off with two of the highest awards possible by winning the Premier Breeder award and the Premier Exhibitor award with their group of cattle.

Winning awards at the Toronto Royal Winter Fair is the thing now for the Kallals but their win at the C.N.E. is especially significant in that it is the Hereford Centennial Show and the competition the keenest that can be had.

The Mercury joins their friends in congratulating them on this award.

## AROUND THE TOWN

The September meeting of the United Church Woman's Missionary Society will be held on Thursday, September 15 at the home of Mrs. Hart Moore. Subscriptions to the Missionary Monthly for 1961 are due this month.

Mrs. Blanche Hoobie is a patient in the Tofield Hospital.

The induction service for the new minister Rev. Bruce McNeil was held at the United Church last Friday. A reception to welcome Mr. and Mrs. McNeil and family into the congregation took place in the church parlours afterward.

Mr. and Mr. Douglas Dean and two sons, Milton and Brian, also Clitters, Colinid spent the Labour Day week end in Calgary.

A pleasant evening was spent at the home of Mr. and Mrs. Ehrl Mc ore Sunday when they, Mr. and Mrs. John Thomson & Mr and Mrs. Carl Binks visited with an additional friend, Warren Stone and Mrs. Stone who are up from Iowa visiting Tofield relatives of the Ingram family. Warren is Mrs. Ellen Sears' nephew. He, with his brother Lester & two sisters Gladys and Vera and their mother, were residents of the Ketchamont district from about 1909 or 1910, leaving here to go back to Iowa in 1915. .

Mr. and Mrs. Wm. Francis have taken up residence in the newly finished house on Third Avenue owned by Mr Ole Monsand. Mr. and Mrs. C. Noble moved into Mrs. A. Warner's house recently vacated by Myrna and Bill Francis.

Mr. and Mrs. Glenn Dunbar went to Edmonton Saturday. Glenn is working at Leduc at present. The Ron Browns of Viking moved into the Joe Corbin house on Monday Mr Brown is working in Swanson's Meat Market and Mrs. Brown will be working in the Tofield Branch of the Bank of Montreal.

Mrs. Hazzid, Joan and Ken, also Barry and Glenda Mosby returned a week ago Friday from a trip to the Grande Prairie area where there they visited with Mrs. Hazzid's granddaughter Kathleen and Norman McClellan in Beaverlodge.

Mrs. Carl Binks came home Sunday from Edmonton where she had spent a week at the home of her sheet daughter, Mrs. Denis Blakeman.

Mr. and Mrs. Chas. Williams, having sold their farm in the Ketchamont district moved into their newly purchased home on 5th Avenue last Saturday. The former owners, the Ed Bosse's are now living in the Hans Christensen house on 4th Avenue better known to oldtimers as the R. Prescott residence.

Miss Y Binks and Mr. H. Jass of Edmonton visited Binks' parents, the Carl Binkes Sunday afternoon. They also called on Mr and Mrs. Wm. Francis and the Turner family in the evening

Provincial Council, the highest court of the United Church of Canada is meeting in Edmonton in Edmonton in McDougall United Church from Wednesday September 14 to Friday, September 23. A public meeting of special interest to women of both WA and WMS is planned for Metropolitan United Church on Friday, September 23, at 2:30 p.m. As many as possible of the women of both groups are urged to attend.

## Gun club to hold shoot Sunday

The Tofield Gun Club will hold a pre-season Western Special shoot this coming Sunday, Sept. 11th at the club range, one half mile south west of Tofield. All local shotgunners are invited to attend and sharpen up their shooting eye for the waterfowl season, opening September 14th.

The club would like to see lots of non-members present, especially those who are just beginning hunting as the members are eager to help all begin, now. A few shots at clay birds will usually reveal what causes misses, so if you had trouble last season here you can boost your average with a little coaching.

Even the oldtimers at the port will benefit from a few shots to limber up the shooting muscles and blow the cobwebs from the barrel. Incidently, you could pick up a prize if you wish to enter one of the competitions which will be run. All shooters are asked to be present by at least 2 p.m. Shooting will begin at 1:30. Ammunition will be available at the range.

## Beaver School Committee Meets on August 9

Present were: The Chairman, Cr. S. B Burley, and Councillors Johnston Mayer & Riddick, Secretary-Treasurer and Solicitor as well as Mr. A. M. Clark, representing the town of Viking. Mr. George Arnett representing the Town of Tofield. Also present Mr H. A Pike, Superintendent of Schools and Mr. Bell, Village of Holden.

The meeting was called to order at 10:10 A.M. by the Chairman. Cr S. B Burley MOVED that the minutes of the regular meeting of July 13th, be approved as read. CARRIED

In connection with the teaching of Industrial Arts and Home Economics at Holden, Mr. Pike reported, provising bus service could be arranged, pupils from Tofield and Ryley, taking Industrial Arts and Home Economics, would be transported to Holden and that under the new requested time schedule it would require full-time teaching for both the Industrial Arts and the Home Economics teachers.

The secretary-Treasurer advised that the Northwestern Utilities Limited had by telephone advised him that the new ranges for the Home Economics rooms were ready for shipment. He had asked what the County intended to do with the old ranges; whether the gas company should take them as trade-ins as originally suggested, it was decided that two of the ranges could be used in the new technology that the County had purchased at Viking, and it was moved that we keep the two old ranges at Viking, but let the gas company take the other three ranges on the agreed trade-in. CARRIED

In regards to the water soup ages at the bus garage the Committee appointed to look after the matter, reported that sanditching had been done, but that more work would have to be done in order to take care of the situation.

Moved, that the report be accepted and the work done approved. CARRIED

In connection with the proposed purchase of a tenchange at Viking, the committee appointed for this purpose, reported in writing that they had made a deal with the owner of the house, Mr Ronald Otto of Viking, for the house situated on Lot 12, Block 22, Plan 5446 H.W. Viking.

Mr. Otto had agreed to do certain repairs and alterations as we'l as interior painting The price that the Committee had agreed to pay for the building was $12,500.00 plus $500.00 for paint for the interior of the house and they had agreed that $5,500.00 was to be paid on July 22nd and the balance of $8,500.00 less any payments for taxes and mortgage, be paid August 15th, 1960. Mr. Otto was to pay the taxes up to August 15th and the County thereafter It had also been agreed that the County's Secretary was to make out the Transfer of Title and that the expenses in regards to the transfer were to be paid equally by Mr. R. Otto and the County.

The Secretary advised that the $5,500.00 had been paid to Mr. Otto and that he had suggested to the Committee that a solicitor should handle the Transfer of Title and other incidentals in this connection.

It was moved that this Committee approves the action of the committee in connection with the purchase of the tenchange situated on Lot 12, Block 22, Plan 5446 H.W. Viking, and that Mr. S Lefevd, solicitor at Viking be asked to handle the Transfer of Title and other matters in this connection. CARRIED

Cr Seddich stated that Mr. Otto would like to rent the garage connected with the tenchange to January 1st, 1961, at a price of $55.66 per month, as he intended to build a new house and did not expect to have it ready before the first of the year. It was also mentioned that there was only one gas meter for the whole property, so that some arrangements would have to be made for the division of payment for gas between the tenant of the ground floor and the tenant in the basement.

## OLYMPIC BASKETBALL TEAM RETURNS

Gary Vipond doesn't seem too happy as he greets his son Steven on the return of Canada's Olympic basketball team from Italy. Canada was knocked out in the pre-Olympic preliminaries. Players blamed it on their own poor play, different equipment used by Europeans and poor training food such as pizza and La Bagia (a cheese dish).

## Thieves step at Tofield and Ryley early Wednesday

Thieves struck both Tofield and Ryley early Wednesday morning. The stopped at the Red and White store in Ryley where they lifted some of the men's clothing but wanting Tofield, or best pickings they stopped in at their garden. It was a very nice pumpkin and tipped the scales at 32 lbs.

This year, when crops are reporting very good yields it could be that some of the prize thumbs will turn up with some good sized pumpkins.

## Echo gazing becoming popular

Tofieldite have joined fellowers of Canada's newest amateur sport, satellite watching. Echo I, launched by the United States on August 12, has passed over our heads every two hours since then, and is very plainly visible if the sky is clear. It passes from west to east, riding high in the heavens, just a little bit south of straight up. It takes twenty-five minutes to cross the sky each time and is about the brightness of an ordinary star.

Echo I is constructed of aluminum and weighs 70 pounds On its first circle of the earth it was 945 miles away at its nearest point, but the sun reflects a very tiny pressure on it which is enough to push it two miles closer to Earth each day. When the time comes, a few months hence, for its path to enter Earth's atmosphere its terrific speed, combined with the friction in the air, will kindle a flame which will bring a sudden and fiery end to the Satellite's travels.

## 'IS MAY GUARD ALL CANADA

Four years ago, Jack Parah a former Toronto policeman and army intelligence officer decided there was a vacuum in industrial security. He retired from the force and set up his firm Security and Investigation Services Ltd. Today he has a private army of 115 investigators at present operating throughout Southern Ontario, but Parish has plans for expansion across Canada to take over as the nation's number one operator. About seventy per cent of the staff have either police or military provost experience and seventy-five per cent of their work is industrial security, patrolling building sites and guarding existing plants. Pictured above two SIS men compare notes on a security job.

## County of Beaver School Committee holds meeting August 9

(Continued From Page 1)

It was moved that Mr. [illegible] be allowed to [illegible] January 1, 1961, at a salary [illegible] that he would have to arrange with Cedar who were in charge of the [illegible] Further that [illegible] months of the gas account be charged to the tenant of the [illegible] and one-third to the tenant of the basement.

CARRIED

The question of rent was discussed and it was moved that a charge of $75.00 per month be made to the tenant of the [illegible] time this is to include the [illegible] at $40.00 per month for the basement suite. CARRIED

It was [illegible] advised that he had received permission [illegible] for the purpose of obtaining teacher [illegible] for a period of five years, but that he had not yet received [illegible] from the manager of the Treasury Branch that the money was available.

In connection with the [illegible] Mr. Secretary stated that he had no news so far [illegible] to report in that [illegible] Now was not being [illegible] two weeks and [illegible] some of the [illegible] with school bus garage [illegible] it would be advisable [illegible] this bus to have it [illegible] into the truck. After some discussion it was moved that Mr. Magnuson, Mr. Arnett and Mr. Hicks be appointed a committee to interview the bus mechanic in this respect.

CARRIED

The Committee, consisting of Mr. Magnuson, and Messrs. Arnett and Hicks at this time reported on the school buses and their owners of the contracts that it would be too costly to convert bus No. 11 into a bus truck. The school [illegible], Bayman Kinsh had answered, that buses [illegible] and 12 were of no value [illegible] that were [illegible] the [illegible] repairs from these buses would not be worth the [illegible] Further [illegible] Bus No. 1 [illegible] for [illegible] and it was mentioned that [illegible] of the tires on buses [illegible] and 7 were fairly good, but that the motors were not in [illegible] condition.

Moved that the report be accepted and that bonus Nos. 7 and 11 be advertised for sale [illegible] local papers as the Edmonton Journal.

CARRIED

[illegible] with the new [illegible] Technical Institute [illegible] in the September [illegible] suggested [illegible] held on [illegible] March 12th at 2 p.m. at which time the [illegible] committee [illegible] the Superintendent of Schools C. E.M. Magnuson and the Secretary-Treasurer, as well as members from the Labor organizations interested in [illegible] and be present to discuss the type of meal and the arrangements necessary in this respect. The Secretary stated that he had had telephone [illegible] Local No. 26 [illegible] from the Riley Creek [illegible] and from the Canada Wide Mining [illegible] were interested in [illegible] and stated that it was his intention to contact the [illegible] Legion Ladies Auxiliary Canadian Legion at Riley in case they were interested in [illegible] The suggested arrangements were approved by the Committee.

CARRIED

Moved that letter from John Keller expressing his thanks for being selected to attend the Leadership Course for school [illegible] this year, be received and filed.

CARRIED

Letter from Mr. Wilfred Isaak of Viking, advising that he had a number starting school this September and requesting bus service to N.E. 5-49-12 W4th was referred to the Committee.

Moved that Mr. Leidl be advised that his request will be taken care of when the school bus routes are set up.

CARRIED

Thomas Bowerton, driver of Bus No. 3 of Tofield, by letter applied for the transportation of pupils taking Industrial Arts at Holden and Tofield in conjunction with his regular bus route.

Moved that this request be considered at the time when arrangements for Industrial Arts and Home Economics are finalized and that Mr. Bowerton be so advised.

CARRIED

Mr. M.S. Bruce, Supervisor of Instruction, by letter requested one year's leave of absence from the teaching staff of the County of Beaver, as he would be attending the University of Alberta during the 1960-61 term taking the first year of a Masters Program.

Moved the requested leave of absence be granted. CARRIED

Referring to the Pre-School Teachers' Institute on August 31st and September 1st, the Superintendent informed the Committee that he was making arrangements for speakers from the University of Alberta and that it would be necessary to pay mileage at the rate of 15c per mile and an honorarium for the speakers, the honorarium usually being in the amount of $25.00.

Moved that the County accept payment for mileage at 15c per mile and the usual honorarium for speakers for the Institute at the Pre-School Teachers' Institute.

CARRIED

In regards to the teaching staff for the coming year, the Superintendent informed the Committee that, providing the teacher that he had interviewed at Dawson, Arizona, accepted the position offered, the County had a full teaching staff at this time. The Committee was quite pleased with this report.

In reference to the repairs program for the various schools, the Superintendent reported that good progress was being made. In this connection he brought up the matter of the steam boilers at the various schools and the suggestion that history sheets should be available for each boiler.

He mentioned that Watson (Tofield) Limited has indicated that they would be willing to take over the maintenance and inspections of the various boilers or installations in the County on a contract basis. The Committee felt that possibly the electrician and the plumber at Viking would be interested in a similar arrangement and it was moved that Cy Hodgkiss and Mr. Arnett be appointed a committee to interview Watson (Tofield) Limited, Viking Electric and Golka Plumbing and Drilling at Viking in regards to a service contract for the heating units at all schools in the County.

CARRIED

Moved that bursary applications from Elaine Nord, Betty Fraser, Marguerite Jensen, Kathryn L. Garos, Ben Lam, Sarah Elizabeth Crispin and Donald Dean Kauffman referred to the Committee at this time, be approved.

CARRIED

In connection with the salary negotiations, the Committee felt that a further offer should be made to the Teachers' Negotiation Committee

A "sewing apron" is a cinch a for more enjoyable — and to make, and impressive, no any basic apron pattern that you have on hand will do.

As for the ideal "sewing apron" fabric, your local sewing center experts recommended waxed sailcloth, denim. This is a material that keeps its shape, washes easily, and wears like proverbial iron.

Just make sure you fashion your apron with deep patch pockets — pockets that are almost as deep as the hem of the apron. They will prove blessed

## CHARGE HOTEL REJECTED NEGROES

A Toronto negro couple has filed a complaint against a Muskoka resort hotel under the Ontario Fair Accommodation Practices Act. Mr. and Mrs. Clarence Lewsey claim they were denied overnight quarters at Bigwin Inn because of race and color. Two white girls claim they were offered rooms about 15 minutes after the couple left. The Toronto and District Labor Committee for Human Rights had asked the Lewseys to seek a room at the hotel as part of a survey they are conducting.

A crisp new measure makes an appropriate apron-front decoration. Two, it proves handy for measuring short lengths of fabric! Stitch it, as trim, across the top edge of your right pocket, down right apron side across front of apron top left side, and across top edge of left pocket. Tape looks particularly effective when it follows the entire pocket area outline,

as in photo. Stitch up your measuring tape with your machine's zigzag attachment set with a wide hight, or with a double row of stitching.

Hang two little tabs from the waistband ... one for a red felt heart-shaped pin cushion, the other for a pair of scissors.

Make your pin cushion from a 6" by 12" piece of bright red felt. Stuff it with cotton batting, or dried coffee grounds.

The latter according to local sewing center experts will keep pin and needle points sharp.

This "sewing apron" is a wonderful dress-improver gift. Guaranteed to bring you sewing piece of mind, it will make you feel as confident and efficient as a professional seamstress. For church bazaars, make assistant dosen. A "sewing apron" is a sure-fire best seller.

each article the going over. Here are a few questions to ask yourself about your wardrobe.

1. How often will I wear it and to what?
2. If it isn't becoming as it is, is it worth remodelling?
3. Does the basic length need altering to keep up with the present trends?
4. As my best dress worth being raised as the best this year or do I have to replace it?
5. Will my basic dress look new and different if I put some new accessories to wear with it?
6. Should any of the articles be discarded as worn out?

Take stock of your present wardrobe items before you decide on your new articles for this season. A few points to consider about your wardrobe are:

1. What is my basic color?
2. Is my basic color becoming to me?
3. Are my separates interchangeable with each other?
4. Do the colors of my wardrobe go together?
5. When my article will I need?

The new articles that you get this year should (1) be becoming to you, (2) be of proper fit, (3) fit into your wardrobe plan. (4) be versatile, (5) be easy to care for.

**ARE YOUR CLOTHES STYLISH OR FASHIONABLE?**

Style in clothes refers to the characteristic or distinctive form, outline or shape an article possesses. Examples of styles are hoopskirt, princess, or shirtwaist. Silhouettes, shapes and space divisions determine the style. If a style is popular it is said to be "in fashion". Clothes are worn because they are becoming to the wearer.

Clothes are considered to be fashionable when the wearer follows the newest fashions identically regardless of whether they are becoming or not. If her clothes are not only becoming but actually increase her attractiveness and have a distinctive quality, the wearer has style.

Whether your clothes are stylish or fashionable make sure they are becoming to you.

You could say that Industry needs Vitamin "E" to grow — "E" for Electricity. An indication of any country's industrial growth can be measured by the amount of electricity generated and used. Alberta's rapid industrial growth over the last few years has been envied by many, and this growth continues. The Brown family, on a tour of Calgary Power's facilities, are seeing one of the ways that electricity helps the oil industry — working together to provide employment and prosperity for Alberta. They realize now, as never before, that such industrial progress could not have been possible without abundant electricity, planned for and developed in advance by Calgary Power. To-day, Calgary Power's engineers are planning for the demands of Alberta's industries in the future. Helping Industry to grow is part of our picture of service.

NATIVE SONS SIT FOR "THE QUEEN"

Because "O Canada" was not played at the end of the Canadian National Exhibition grandstand show, Union members of the Native Sons of Canada refused to stand during the playing of "God Save the Queen." Members are now making it a practice when attending public functions to remain seated during The Queen as a protest against the use of a foreign anthem.

Presenting furs to the ladies in traditional fashion, Mr. and Mrs. Gaherty meet with officials of the Stoney tribe before the fur-covered table. Left to right are: Nat Hunter, Tom Kaquitts, Johnny Bearpaw, Mr. and Mrs. Gaherty, Mrs. Nat Hunter, and Chief Isaac Two Young Men.

## Alberta man invested as honourary Stoney Chief

In an outside circle among tall pines almost 300 people, Indian and white, gathered to witness the recent acceptance of Mr. C. A. Gaherty as a new chief of Stoney Indians. The unfolding face of Mount Yam Nanka (Wall of Rock) overlooken a performance of the Chinook Dance by the Indian tribesmen. As the intricate steps and drum beats of the dance eased, the elaborate ceremony began.

"The Tribe's recipes will always be open to your wants, bed & food will always be there to satisfy, cold will be protected from you with our robes and furs, horses and bows and arrows will be yours to take if you have none and the enemy pursues you. All is yours in time of stress that you may take as you desire from any brother's teepee."

With these words, former chief Jake Two Young Men, pledging the allegiances of the Stoney Indian Tribe to their new brother and Honorary Chieftain, Chief Powerful Waters The Eagle Bonnet, with its graceful plumes was then placed on the head of Mr. C. A. Gaherty by Chiefs Isaac Two Young Men, Johnny Bearpaw and Dan Wildman.

Replying to the words of the Stoney Chiefs, Chief Powerful Waters pledged in the name of our Queen and the Queen who was the friend of the Indian's forefathers that, "We in peace and harmony join together in the work of progress, to make this land a better place for all".

As was expressed by several of the distinguished members, few were more deserving of this honor in the name of progress and selfless ambition for a better land. Nor could a more fitting name be bestowed on him than the one chosen by the Stoney Indians.

Mr. Gaherty has worked for the cause of planned power development in Alberta since joining Calgary Power Ltd. in 1930. The man behind the sidigs, construction and operation of most of the Company's power plants, Mr. C. A. Gaherty is also a director of the Atomic Energy of Canada Ltd. and Texas Canada Pipelines Ltd. He has been the recipient of several Doctorate of Laws degrees. He has served Calgary Power as Chief Engineer and General Manager, Vice-President, President and Director, and this year became Chairman of the Board of Directors. His vision and engineering skill have been credited with many power facilities in the Province which have strengthened its economy, particularly since the Second World War.

Mrs. Nat Hunter, wife of one of the Indian councillors, bestowed the headress of the tribe on Mrs. C. A. Gaherty. From now on Mrs. Gaherty will be known as Princess Blue Spruce Waters among her Stoney friends.

Following the ceremony, the new Chief extended an invitation to everyone to break bread and smoke the pipe of peace. Among those taking part in the western-style barbecue were the guest speakers who had paid tribute to Mr. Gaherty. Those harbored Superintendent of Indian Affairs Mr. Pugh, Jodie Stanley Edwards, George Goodwhen, Mrs. Gorman, Sergeant J. E. Butler of the R.C.M.P. and Mrs. H. E. Dewe, an honorary Princess of the tribe.

## Garden Graph

By DEAN HALLIDAY

There is no house plant that makes a finer display than gloxinia, yet many gardeners hesitate to grow them. If you can grow African violets, you can certainly grow gloxinias.

They can be grown from seed, tubers, leaf cuttings or one can purchase rooted plants. The rooted, actively growing hybrid plants are about 2½ inches tall. When securing them, they should be planted in fibrous soil in a five-inch flower pot. One part sterilized soil to three parts fibrous loam and plants includes in the order a special sterilized soil to grow them in. The shipping date is September through November and March to May. If you wish more information about this, send a stamped, self-addressed envelope to this department.

As shown in the accompanying Garden Graph, gloxinias can be propagated from leaf cuttings. To start them in a glass of water, cover it with wax paper, slit it and slip the leaf in. Set in light, not sunny, window. Put up when the new bulb is as large as a finger tip.

Do not discard when the old leaf dies; wait, as new sprouts will start.

To grow in sand, press the stem down into moist sand but do not let the leaf touch the sand. Place an inverted glass above it. Transplant into a four-inch pot of soil when a tiny tuber forms at the base.

A WEEKLY PAPER SERVING TOFIELD, RYLEY, LINDBROOK, CHIPMAN, COOKING LAKE, KINGMAN

Vol. 8 — No. 50 TOFIELD MERCURY, TOFIELD, ALBERTA Thursday, September 22, 1960

YES, IT'S A MAP OF CANADA

And so, the print didn't make any mistakes. The map doesn't represent geographical size but instead shows the relative importance of the provinces and territories in terms of gross value of manufactured products. This makes Ontario, Quebec and British Columbia, the nation's three largest provinces (in area) even larger.

## Weekly Newspaper Editors hold Convention at Vancouver

Quality of the weekly newspapers has improved ... in the last decade and will rise to new heights in the next ten years, Weeden Laurence of Vancouver (Ont.) Enterprise, said in opening remarks at the ... president of the ... Convention last week in Vancouver.

... Good newspapers are by the completion of other media. We ... certainly are broader than we are and so much in competition ... television and radio, but ... editors have to turn out better papers."

"Advertising is the life of our industry, and we must constantly study our position in these changing times", Mr. Laurence said.

He referred to a recent survey which showed that 65 per cent of the people polled prefer to read advertising in newspapers, and only 14.5 per cent preferred television as an advertising medium.

In the same survey, 11 per cent preferred television without advertising. 6% per cent preferred newspapers with advertising.

Brantford President Leslie K. Barber of Chilliwack (BC) Progress told editors that putting a dog into orbit might have satisfying consequences, but it was not necessarily the most important thing that happens to a man during the day.

"There is strong emphasis today on newspaper reporting which interprets all that happens in the race for space", Mr. Barber said.

"The average person can absorb only so much about satellites and missiles. When events happen which he only vaguely understands, he turns to those things he does understand.

"He understands his weekly newspaper since he is keenly interested in how much his taxes are going up, who won the hockey and where the Smith's went on their holiday."

This is the need, he said, which Canada's 750 weekly newspapers fill in the form of many Canadi-

## Community League plans Turkey Bingo

Are your plans complete for the Thanksgiving Holiday Dinner you are planning? Remember the Tofield Community League Turkey Bingo is the community centre on October 8th. A wonderful place to enjoy an evening entertainment and probably win the turkey that will be your Thanksgiving Dinner. Twenty five games and twenty five green ready turkeys to be won by those attending this event.

Don't plan too far ahead. Keep Wednesday November 23rd as open date. The Tofield Community League will have big plans to announce very shortly for this ...

Comacher Construction Ltd. of Edmonton was awarded the contract for $2,232.00. Other bids were Nielsen) $4,877.25 but he was unable to put up the necessary bid bond; Watson (Tofield) Limited $3,956.82 and W F. Boydak and sons $4,817.55.

The contract calls for the constructions of a sewer line from Cochson Ave. to 7th Ave. and the water and sewer from along 7th Ave.

## Loans to sponsor Friendship Club Again This Year

The Tofield Lions Friendship club which poured so successful last year is again being sponsored this year. Three categories are open this year and there will be no limit to each event. The club will run for 6 weeks with a 6th evening being a windup in the hall.

Tickets are now on sale and all interested in taking part are asked to pick up their tickets before October 7 and register in person at the Water Works or the Cribbage tournament. Play will start the week of October 17.

Rules of the club will be the same as last year, although more supervision will be given to see that members meet different players each night as far as possible.

Funds will again be used for the operation of the skating rink.

## Ryley Friends Honour Newly-weds

The newly-weds, Mr. and Mrs. Clayton Young were honored at two gatherings recently. On the evening of September 8 a few friends and neighbours gathered at the home of Mr. and Mrs. Vic Romanick and then proceeded to the young home to Charvart them.

On Friday evening, September 16 a large number of folk gathered at the home of Mr. and Mrs. Young with a host of lovely gifts. The evening got under way with some lively games, followed by a hilarious skit portraying just present and future events in the Young's lives.

After the skit Mr. and Mrs. Young, Miss Virlia Roth and Mr. John Dueck were seated at a table. A stretcher laden with gifts was carried in by four assistants and presented to the couple by Peter Mosinchuk. Following the opening of the gifts Mr. and Mrs. Young thanked everyone, then lunch was served.

The evening wound up with an hour or so of dancing.

## Ladies Enjoy Northwestern Utilities Cooking School In Community Hall

The Northwest Utilities Cooking School held at the Community Centre Wednesday evening was a very popular event judging from the audience which represented Tofield and district Ryley and Hoden. Under the sponsorship of the Tofield Holy Trinity Women's auxiliary Evening Branch, the show featured Models and Menus with the modern being 1960 and after.

Mrs George Fasbenar, vice-president of the W.A. introduced the ladies, Miss Gaass and Mrs. Pearson who as regular duties around the use of gas kitchen appliances. As the demonstrators prepared the dishes in the recipe folder, handed to each member of the audience, they gave timely tips valuable to all housekeepers present.

Uniformed members of the Girls' Auxiliary assisted the W.A. in serving coffee and cookies during intermission.

In a short talk Mr. Gibbons, M.C., stated that today there are more gas lights in use in the U.S.A than there were during the gas lamp era. He gave the seven main uses of natural gas in the home — cooking, refrigeration, heating, water heating, clothes drying incineration, and gas lights.

Mr. Gibbons introduced to the audience our new co-ed near Mr. Van Lake, who replaces Jack Storey who was transferred to the Hinshelwood area. The summer

A movie of the RCA Miracle Gas kitchen gave an insight into the amazing dishes. One will be performing for the housewife in the near future

The many foods produced during the evening, with their lovely containers, along with a number of prizes donated by Tofield merchants were given away to holders of lucky tickets. Names of all the winners were not available but among the lucky ones were. Mrs. Barbara Appleby, John Deere (or tractor; Mrs Tonkin, Cushgrave (a mixer) and cradle, Mrs. Mary Mochs, Holden, Change of oil and grease, Mrs. Dorothy Whitlam, Rebecca lamb; Miss Elsie Kenning, Chicken pursuant; Mrs. George Boese, Broiled Shrimp

Special prize of the evening, an indoor barbecue rotisserie, was won by Miss Margaret Crisp.

## Former District man dies in Edmonton

On Thursday, September 15, the death occurred in Edmonton of Mr. Percy McKay (Pete Hadlan) age 73 years, of Edmonton, formerly of Lindbrook.

Mr. Holland was born in London, England and came to Edmonton in 1910. Through the first world war he served as an original member of the 49th Dennis Cooper, formerly of Ryley

For 20 years after the War Mr. Holland farmed and kept bees in partnership with the late Mr. Hooper at Lindbrook. He then spent another 5 years with Clarke Lumber Co. Edmonton returning to Lindbrook as postmaster for 2 years.

Tofield district residents who did not know "Pete" Holland personally may remember his secretion of Lindbrook news to the Tofield Mercury. His items were written in a very entertaining style and were often copied into the Edmonton daily newspapers.

## Mr. and Mrs. George Lee Celebrate Silver Wedding

Friends and relatives gathered at the meeting rooms of IBM Community Hall on September 4 to help Mr and Mrs George Lee celebrate their Silver Wedding Anniversary Mrs Grace Gibson presented the happy couple with a purse of money and on behalf of everyone present, wished them well and hope that they will celebrate their Golden Wedding Anniversary twenty five years from now. Everyone then joined in the singing of Silver Threads Among the Gold. The bride and groom then thanked everyone with a few well chosen words. Mrs. Grace Gibson and Mrs. G. Cookson poured tea and coffee respectively. Mrs Anderson and Simmons graciously helped serve lunch. Guests were from Ponoka, Edmore, Ryley, Edmonton and Kinsman.

Weekly editors gained a further insight into the Orient at their "Pacific 60" conference in Vancouver last week. Vancouver's Chinatown provided an exotic evening with traditional fireworks, lion's dance, a ten course Chinese meal and a fashion show of modern and ancient Chinese costumes.

Hout was George Lawrence of Imperial Oil, and the evening brought the convention's highlight when the Chinese community conferred the rank of "honorary mandarin of the first degree" upon incoming CWNA president Werdelin Louvena (left) of the Bolton (Ont) Enterprise and retiring pres dent. Leslie E. Barber (right) of the Chilliwack (BC) Progress.

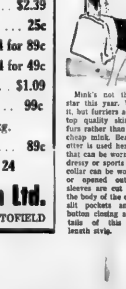
## Fashions



Mink's not the only fur star this year. Women love it, but furriers advise buying top quality skins of other furs rather than to purchase cheap mink. Beautiful beige otter is used here for a coat that can be worn with either dressy or sports clothes. The collar can be worn as shown or opened out flat. The sleeves are cut in one with the body of the coat. Vertical slit pockets and a three-button closing are other details of this five-eighths length style.

## New Curling Rink to Start Taking Shape on Saturday

A general meeting of the Tofield Curling Club was held Wednesday evening in the Meeting Room of the Community Hall with president G. McPadzean in the chair.

Following the approval of the minutes of the annual meeting the president stated that the purpose of the meeting was to bring members up to date as to what the executive has been doing. He stated that plans are in hand for a building and a contract has been let to Watson Prefabs Limited for the construction. The cement is expected to be poured today. Arch Ribs have arrived and it is hoped that a large crew of voluntary workers will be out saturday to erect same.

The treasurers report given by Mr. Stevenson showed that the club has no liabilities except the new building and that to date $1 shares have been sold at $160.00 each.

The ladies curling club reported that they were prepared to make a donation of $2,000.00 to the new rink. They suggested that a stipulation was that each of their fees of $15.00 be given to the club's rink but that no further fee need be contributed to the Ladies Curling Club.

Graham Allen moved that this be accepted with thanks.

The president stated that they hoped to have tenders on Artificial Ice Plants by the first of this week. He stated that the estimated cost would be from $17,000 to $18,000.

In answer to questions as to how much it is going to cost the president stated the ribs were $6,374.50, Purdue $2,775. Fitzrod $2.75 per sheet and the insulation the same which comes to $12,668. This does not include the flooring, wiring and the plumbing or any labor which must be hired.

Finances was discussed at great lengths and it was generally agreed that finances will have to be sold to help finance. It was agreed that as many shares as possible be sold to pay down debenture financing was started. It was generally agreed that the selling of shares be taken out of the monetary aspect and be sold with idea of better curling for the town and district and Bill Finn expressed the opinion that it was possible that the permanent rink floors to not be bolted this time but before those who are maybe not so permanent are asked to support it.

Mr Deller expressed the opinion that shares should be completed before the selling of debentures. He made the observation that people want their things as long as it does not cost them anything. What is needed is an optimistic outlook towards this thing in the selling campaign. Everyone has to be sold on the idea. It was pointed out that the more shares sold the lower the operating costs would be.

In reply to question B, was stated that the shares are $1 denominations and also that a credit has been passed at an executive meeting that it would be possible for a man to work out his fees.

Mrs. Marie Jacobson and Mrs. Isabel Reikert were Thursday afternoon visitors at the home of Mrs. Lillian Fairbrother helping Lillian celebrate her birthday.

## Moose seen south of town near Bardo

Late Monday afternoon as Hastings Nelson was driving in his car [illegible] he noticed a young bull moose just south of the Bardo elevator. He got out of the tractor and [illegible] Lief Foshaug who runs the elevator. It happened that Albert Hrabchetzki was there so the three of them got in Lief's car to see how close they could get to it. They got within sixty yards of it as it went north on the railroad and then disappeared down the ditch and into the bush. It's horns were between 12 - 18 ins. in length.

Harold has lived on the same farm for 45 years and has seen lots of deer, but never a moose before.

## Four Edmonton Youths Killed On Lindbrook Corner

Four young Edmontonians were instantly killed and a fifth seriously injured in an automobile accident at the Lindbrook corner, 8 miles west of Tofield on highway 14 The fatality occurred at approximately 1:45 am Monday morning.

The four dead are. James R. Todd, 21; Marie Smyth, 21, Blairs Heather, 19, and Hans Kolshig, 17, Heather Sorenson, 18, also of Edmonton, is seriously injured and rushed to the Tofield hospital for emergency treatment after her condition is considered stable she was removed from the hospital to Lindbrook and transferred to an Edmonton hospital.

The car, an older, 2 door sedan model, left the highway and then rolled, bounced and flipped for more than 200 feet before coming to a standstill on the north side of the Lindbrook Corner. Only Hall the R's wild ride through the gravel ditch, over a culvert and through two guard rail posts, hit a power pole ten feet from the ground, scattered pieces of hood, trunk, and other parts and rolled to a fourth resting place. The four occupants were thrown out. Two of bodies were found within ten feet from the south side of the road of the hall and some of them, strangely enough have that the victim was thrown from the car at one spot some of the bodies were broken More

### Construction started this week on Furniture Manufacturing Plant

Construction started this week on the furniture manufacturing plant in Tofield. Jenson and Jenson began construction of a building to house their woodworking machines The building is located on the west of the lot where the old shop is located on 3rd Avenue east The building will be of metal construction and they expect to have it finished by the end of October. Future plans for next spring call for the removal of the old buildings and the construction of offices and additional warehouse space. Also talked over the future is a garage loading dock and inclosure for at the back of the building Mr. Jenson stated that the plant will be fully modern with a number of the latest machines installed for the manufacture of their Church Furniture. A blower system will remove the shavings and sawdust from each machine and carry them back to the incinerator at the back.

Mr. Jenson was non-committal as to what help they will require but felt that in all probability they would need at least two additional men to start with.

## Receive Certificate

The second annual presentation of certificates to students who have successfully completed a 9-week training course certifying them as Nurses Aides was held recently at the Northern Alberta Jubilee Auditorium in Edmonton. More than 100 students of the 200 eligible members of ten Edmonton School for Nurses' Aides Classes were able to be present for the

impressive ceremony. Mrs. M. E. Shaw of Calgary, director of Nursing Aide Education for the Alberta Department of Public Health, presented certificates to the successful candidates: Among those who took part in the ceremony, were left to right: Mrs. Shaw; Mrs. Ann Koffman, Tofield; Miss Jennie Drnavk, Two Hills; Miss Darlene Taylor, Vermilion; Miss Veronica Supernault, Viking, and Miss Mary Johnston, Grande Centre.

## Grows Raspberries and Green Peas in October north of Tofield

On Friday of last week, just before the wet and cool weather arrived Mr. A. R. Wickenburg who farms 5 miles north of Tofield brought in some lusty raspberries and peas. The raspberries were perfect and evidently tasted very good, but along with [illegible] ones that gave every indication of ripening themselves soon enough time. He picked there were none on the vines and that he went out almost every day and picked enough to eat. The peas were juicy and sweet and here again he said that he could have picked a whole mess of the fresh peas that day He said that not only were there young pods still on the vines, but blossoms as well.

Mr Wickenburg is in the habit of coming into the Mercury office this time of year but it is generally with an oversize potato. He hadn't dug his potatoes when he was in but he said he had a large turnip he was watching just to see how big it would

## Election day held at school

On September 29th, the Big Three held their first meeting in the 6641 school term. The campaign speeches were presented on the following Friday Monday, October 3rd, was spent all day with the following people voted into office: Pres. Margaret Watson; Vice-Pres. Ken Widynowski; Sec. Betsy-Ann Schultz; Treasurer, Jack Moore. Editor Phyllis Anderson; Asst's Editor Keith Watson. social convener Susan Pitter; Girls Sports Rep. Sharon Gibertse; Servant-at-arms Rene Taylor; Asst's Boy-rental-arms Terry Walker

## Building Boom in Tofield continues

Construction in Tofield continues this year to be a major industry as the town continues to grow. Building Permits issued this year for houses alone total over, $97,00. Other permits which include private Garages Commercial expansion and new construction came to just under the $50,000 figure. These figures do not include the town's new water treatment plant at a cost of around $70 000 and the extension of the water and sewer system to serve the new homes being built on 7th Avenue.

Indications are that the trend that started two years ago and has accelerated last year will continue for at least another with the new Federal building planned for construction this winter and the strong rumor that a new addition to the hospital is not far away

## Invitation party held at High School

An invitation party was held by the [illegible] on Friday, October 7th for the new teachers & the new students in grades eight and nine.

The party began at 8:30, when the social convener, Miss Judy Urbach, welcomed all the new pupils. Games were played and refreshments served. Everyone enjoyed themselves and all the new teachers contributed greatly to the party as the crowned much fun and laughter. After lunch was served and a few games were played the invitation party of 1960 came to a close.

## The Hon. Mr. L. C. Halmrast to open County Seed Cleaning Plant

[illegible] Hon. Mr. L. C. Halmrast, Minister of Agriculture, will officially open the new Seed Cleaning Plant at Tofield on Thursday, October 20th.

The official opening will mark several years of work and organization by the farmers of the County of Beaver, who for [illegible] have pressed for such a plant.

In keeping with the importance of the occasion and in recognition of the effort put forth by the farmers of the district, the Board of Directors have arranged a very interesting programme which will be highlighted by an address from the Hon. Mr. L. C. Halmrast, Alberta Minister of Agriculture. Civic and Government officials will also attend and address the meeting.

The programme will begin at 1:00 p.m. with a conducted tour of the plant, when the Plant Manager Leroy Meyers and Mr. Spence Goddard, Superior of Seed Plants for the Department of Agriculture will explain the workings of the plant and will point out the many features which make the Alberta Seed Plants the most effective and efficient on the North American [illegible]

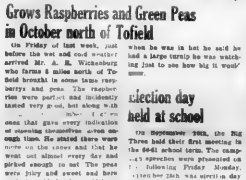
## Tofield's New Curling Rink

PRAISE FOR THE HERO HORSE



The present (soon to be the past) curling rink is located 1 block East of Main Street, facing east. The back of the [illegible] of the building is exposed to the ravages of the elements and the consequent [illegible] has played [illegible] with the natural [illegible] the earlier days of February. There is one week in February [illegible] when a chinook [illegible] the snowdrifts [illegible] of it brings damage to the [illegible] of the members of Tofield Curling Club [illegible] for the present [illegible] and [illegible] the curling [illegible] way. The men's banquet is usually [illegible] but it, too, has suffered from a sudden [illegible]

The new curling rink is located on the Exhibition Grounds where parking room will no longer be a problem. It has room and thus only the waiting room will feel the effects of the rush. Even when the new rink will be instituted, it is hoped that banquets will proceed without interruption. The proposed artificial ice will also help to avoid the damage done by a [illegible]

The present rink is 62 feet by 132 feet and is of frame construction [illegible] Associated Engineers [illegible] Tofield [illegible] [illegible] [illegible] [illegible] temporarily [illegible] [illegible] overwhelmed by a [illegible] is [illegible] concrete, shaved down the length of the rink.

The new rink will be 64 ft. by 176 ft., housing four sheets of artificial ice, six changing rooms and a large waiting room. The concrete floor will be [illegible] [illegible] [illegible] [illegible] [illegible] contracts is for the cement work.

The first plans for the new rink called for cement block construction. Later it was felt that the arch-rib construction was preferable both because it could be accomplished largely by volunteer labor. Many hours of volunteer work will be required to meet the deadline for completion of the rink and President George McFadzean is busy organizing work parties with that end in view. Incidentally, financial credit towards a hundred dollar share in the new rink may be obtained in this way

Tofield has, in the past, set a shining example of what can be accomplished by organized volunteer labor. The Memorial Hall the Community Centre, the Baptist Church, the United Church [illegible] [illegible] [illegible] [illegible] [illegible]

Jean and Florence Malcolm and children were supper guests with Bob and Jean Fryer of Sherwood Park last Thursday.

Lester and Wilma Osborne and children John and Phelma Jackson were dinner guests at the Alex Ford home last Sunday.

A number of coupons from Ross Creek attended the Sherwood wedding in Edmonton last Saturday.

Several ladies attended the shoot wedding in Edmonton last Friday in the Chipman district in being kept open.

Miss Francis Dolver is attending Technical School at Calgary taking an Art course. We wish you all the best with it Francis.

We were sorry to hear little Sandy McLachlan is having his share of sickness, being hospitalized again at the Archer Memorial last week.

Rev. Elson brought out the student minister the evening of the W.A meeting to arrange services at the Ross Creek United Church. It was decided that services will be held every Sunday. Mr. Jardine has a service near Vegreville and the only available hour would be 2:00 p.m. A chicken supper will be held on Saturday, October 22nd. Please hope this date in mind folks. Hope to see you all out.

George McLachlan had bloodpoisoning in his hand and was held up last week but is back to work once again.

Kenneth Pedersen rather ended up the harvesting on the lucky side as he could easily have been minus a right hand when he pushed back a belt that had slipped while the combine was running. He will need attention to his hand. Hope this will be a lesson for all folks running machinery.

Mary Perrel enjoyed having tea with Gerrie last week.

Iris Dilzen also enjoyed tea with Mary Perrel last week.

We were happy to hear Ruth Perrel will soon be released from the Aberhart Sanitorium. Ruth and Doug visited with the Ernie Perrels on Sunday.

Visitors over the weekend at the Pedersen home were Grant and Jewell Decker, Carl and John Dankshit, Joe Koshka and Andy Klassen. All the family was home for Thanksgiving Sunday supper. Ross and Doris and Andy stayed over for the Monday holiday, the boys getting in on some goose hunting.

The student minister had a crowded Thanksgiving service. We will be out at Ross Creek every Sunday at 2:30 p.m. Come out folks and encourage this young person who is tackling a hard task. You are all invited to come out for the October 16th service and bring the children for Sunday School.

Do you folks listen in "Topics for today" following the 9:15 news in the morning and at 6:45 in the evening? It is worth hearing. We were pleased to hear Mr. Eddy Haszard giving her views on accidents, and having to stay so long in the hospital before receiving medical attention.

new assistants to Mr. H. B. Tuer as manager, Alta., as he is uncertain of what he may do for [illegible] during a dwelling a letter had [illegible] he did not wish to prevent anyone also from buying the property and Council felt it best to refund the above monies.

Letters had been sent to two local people who were allowing water to be used by neighbors, with information now to hand that the practice had been stopped. Licenses have been collected for trailers not located on the Trailer Camp Grounds. Re mention was made of trying to improve the muddy conditions which exist on the grounds as complaints about this condition have been made on occasion.

The Council went on record as having no objection to the sale and removal of the old Curling Rink Building on the Curling Club could get whatever salvage possible therefrom.

By-laws Nos. 617 and 618 being by-laws for the collection of frontage tax for water and sewer installation were passed but did not get to the necessary reading stage.

As no applications have been received for addition or alteration of the Voter's List, same was approved.

## Nurses graduate at Jubilee Auditorium

On Sunday evening, October 2, in the Jubilee Auditorium, 75 graduates of the University Hospital school of nursing received their pins and diplomas. The guest speakers included Dr. W. C. MacKenzie, dean of the faculty of medicine, Miss Ruth Thompson, Dr. Cameron-Ritz, deputy minister of health, Dr. W. Johns and Mr. L. A. Adshead, administrator of the University hospital. Dr. A. C. McGugan and the director of nursing, Miss Jessie E. Clark presented the prizes. A reception followed the ceremony.

Miss Thelmore of Tofield. Her parents and several relatives attended the graduation ceremonies.

## Lions to canvass for C.N.I.B.

The Canadian National Institute for the Blind is currently supporting for funds with which to carry on its programme in Alberta in Tofield this campaign is being conducted by the Lions club.

The Canadian National Institute for the Blind offers a multi-active programme to assist blind persons in overcoming the disabilities which confront them as a result of their loss of sight. This programme includes counselling, home teaching and adjustment training, employment prevention, family assistance as well as many conversion services. C.N.I.B. also carries on active prevention of blindness through assisting in the provision of necessary eye treatment and through a programme of public education.

We wish to bring the C.N.I.B.'s current appeal for funds to your attention and to recommend that you support it generously.

## High School News Notes

At the last County meeting held at Ryley in September it was decided that none of the schools in the County of Beaverhill would be permitted to hold graduations in June. The feeling was that too much time was taken by the grade twelves on this project. It was also felt that graduation should be held in the fall for only the students who have received matriculation or a high school diploma. Students wishing to achieve this goal must settle down and work for the remainder of the year. A little encouragement from the parents we would help their children tremendously.

This year your Tofield high school has undertaken the project of selling magazines, for the purpose of raising money. The money is to be used in setting up new and better sports clubs. Please get behind this worthy project. Check your magazine subscriptions and if they are in danger of running out renew them from one of your high school students. Remember a wide variety of good reading develops sharp minds.

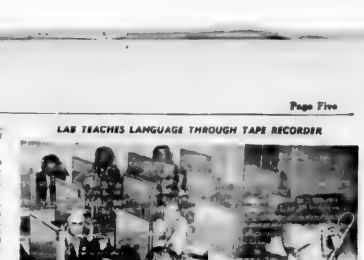
## LAB TEACHES LANGUAGE THROUGH TAPE RECORDER



A new electronic language laboratory in operation at Northern secondary school in Toronto, Ontario, gives each language student his own individual tutor. The class room is divided into 34 glass booths, each with its own tape recorder. It is the first in any Ontario high school although some universities and the armed services have them. Here we see teachers and trustees trying the laboratory for the first time.

We must confess that the new fabrics on our market today require different methods of care than what was used yesterday. If we want the new fabrics to last the length of the natural fabrics we should review the care needed, not only in laundering but in selvige these fabrics.

First of all to review some of the characteristics of man-made fibres which are not desirable, many fabrics tend to pill which is abrasion causing small balls of lint to form on the surface of the fabric. Orlon, nylon, dynel, and terylene have this tendency to pill. To overcome this try to wash your garments inside out with little in using or washing, just roll between terry towels to absorb the moisture or just let drip dry.

Electrostatic is another undesirable characteristic which builds up electricity that causes garments to cling to each other and to your body. You will find orlon, nylon, and terylene or dacron have this characteristic. To control this static electricity add a little detergent to your rinse water or use a rinse conditioner. A rinse conditioner has a carry-over of one or two washings but use about every third washing.

Material that can be pressed under heat into a definite size or shape that is permanent is called thermoplastic fabric. Care must be taken with this fabric in order for it to retain its original shape. In other words the cooler the water the better the results will be for washing this type of fabric Try not to wring this material if you want the shape retained. Dynel, orlon, acrilan, nylon, orlon, terylene have the tendency towards thermoplastic character also which needs that little extra care to retain its size and also to be settled on the iron for pressing.

Many synthetics have drip-dry characteristics such as rayon, nylon, dynel, terylene and acrilan in other words they require little ironing. The same holds true of even treated cottons [illegible] [illegible] [illegible]

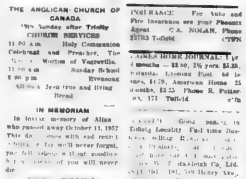
## Garden Graph

By DEAN HALLIDAY



### BRING HOUSE PLANTS BACK INDOORS

House plants which have been vacationing outdoors for the summer should be brought indoors now before there is even a bit of frost.

When the plants are brought in, remove any faded leaves or flowers and especially any diseased leaves. Never bring diseased plants indoors for fear of spreading the disease among all your house plants, as, of necessity, plants indoors usually are set close to one another. Isolate any diseased plant until it is cured, or throw it away rather than take the chance of spreading the disease.

Plants growing outdoors are apt to have spiders, snails or other insects on their foliage; these definitely should be eliminated before placing the plants on a table or windowsill.

As shown in the accompanying Garden-Graph, lay the plant on its side on the kitchen sink and wash off the insects with a strong spray of water. If this is not convenient, use the shower in the bathroom or wash off the insects outdoors with the garden hose.

Plants having large leaves should have them washed off with a sponge or soft cloth. These large leaves are heavy and could snap off easily if washed carelessly. A good precaution is to support the leaf with one hand, as shown, washing with the other hand.

If the leaves are very dusty, use tepid water with a little soap added, then rinse with clear water.

## Application For Adult Education Must Be In This Weekend

Some time ago, letters were sent out around the town and district advising of the planned Adult Educational Classes to be held this fall and winter. The letter stated that since considerable interest was shown in the community, the a meet was will long to assist in every possible way to make Adult Education a reality

Among the possibilities for night classes were Art, typing, shorthand, bookkeeping, any other commercial subject, oral French, leather work, or any academic subject at high school level.

There would, of necessity, have to be a minimum of [illegible] night classes and a maximum of any one of these courses [illegible] applicant is asked to state what evening of the week would best suit himself.

As in the past, the fee for [illegible] which by the way would be taught by an instructor from the Department of Education, is $15. Anyone who can get [illegible] to enroll in the number of people attending the class. This means that a class of 15 would each have to pay one dollar per month. If the class was smaller of course the fee would be higher. It would seem that a class of from 12 to 15 would be best. This would be for instructions in oil painting, and the instructor is a noted artist himself. Such classes are already held along the highway and the Art displayed in the school from Xmas last spring was from one of those classes.

Judging from the enthusiasm with which these letters were received, if discussed, the results [illegible] would indicate a very successful [illegible] this winter. However, it seems that to have [illegible] to send in the application form so that to date only 19 forms have been received by High School Principal, Mr. Harris. Of these, nine were in favor of Art and 9 wanted typing.

It would seem that here is a golden opportunity to do something about all those "wish I could" that so often crop up in our conversation. Since the members of the school are willing to give their assistance in the matter of Adult Education, our interest and appreciation can best be shown by taking part in the suggested classes.

Mr. Harris has asked that readers take note that applications should be in to him no later than this weekend. If you have misplaced your form, or didn't receive one, phone Mr. Harris, or any of the teachers and enroll this week.

## Grand Worthy Matron Visits Ionic Lodge

Early in October, Ionic Chapter O.E.S. was hostess to Mrs. Laura Bird, W.M. of the Grand Chapt. of Alberta. At the banquet in the United Church Social rooms, Mrs. Mabel Barlow W.M. and Mr. Neil Phillips W.P. of Ionic were met Mr. Bird, her husband, other distinguished guests and many members of neighboring chapters. More than sixty guests enjoyed the sumptuous banquet served by the Y.W.A. of the United Church under the direction of Mrs. Jean Bix. The table setting featured star-colored tapers, flower arrangements, and cards bearing Mrs. Bird's chosen flower, the white rose.

Toastmaster was Mr. Neil Phillips who called on Mr. Paul Thomas for the toast to the queen. Mr. Clive Cavanaugh proposed the toast to the Grand Chapter, which was accepted by Mrs. Bird. Mrs. Grace Phillips proposed the toast to the many visitors and Mrs. Brown of Joan of Arc responded.

The official visit of W.G.M. Bird to Ionic Followed. During the evening Mrs. Barnaby Maxwell received the degrees of the Order in honor of Mrs. Bird. Mrs. Faye Biddle, Mrs. Elizabeth Thomson and Mrs. Daisy Young, acting as trio and Mrs. Dawson presented Mrs. Bird with a gift of money for her chosen charity. After the meeting closed a lovely lunch was served under the direction of Mrs. Patricia Glover

## Community League to hold Fall Binge

On Hallowe'en night there will be a free show for the children, popcorn, candies, and all the rest of the goodies that go with an evening of this sort. There will also be prizes for the best costumes. To wind up the evening there will be a dance for students and teachers only.

Last year this type of program proved most successful and the co-operation of the parents of the town and district was almost 100 percent. The same amount of co-operation will again be needed this year to make it successful evening.

A fairly large crowd attended, many of them from Tofield.

### Fall Thankoffering Meeting held in United Church

The W.M.S. of the United Church held their Fall Thankoffering meeting on the two children of the town was district on October 31st. A cartoon for funds to supply the town will be held soon thus best week. If you live out of town are missed by the canvasser for one reason or another, you may leave your donation at the bank, egg grading station or the Post Office. Any amount collected over and above the expenses of the evening will go towards the operation of the coming rink this winter.

The Village of Ryley is also planning a similar program this year.

### Hallowe'en Party at Community Hall

The Tofield Community League is again planning a Hallowe'en party for the children of the town and district on October 31st. A cartoon for funds to supply the town will be held soon thus best week. If you live out of town are missed by the canvasser for one reason or another, you may leave your donation at the bank, egg grading station or the Post Office. Any amount collected over and above the expenses of the evening will go towards the operation of the coming rink this winter.

The Village of Ryley is also planning a similar program this year.

## New Curling Rink Shell Almost Completed On Fair Grounds

With the Lions skating rink & the new curling rink well on the way to completion, Tofielders can look forward to a winter of healthful recreation in attractive surroundings.

Curling is one of the most interest of winter sports in Canada. Since it takes place in a non-cost rink one has the advantage of being in the fresh air, yet is protected from the wintry blast. It is one of the less strenuous sports and thus allows people of a wide age range to participate. Once considered as 'old man's game', the last two decades have seen tremendous growth in the number of teams-and-two-men curlers.

Curling is a relatively inexpensive sport. Other than the usual winter clothing to repel Alberta's wintery blasts, only a broom is standard equipment. The Curling Club owns 32 sets of matched rocks which all the players use. The ownership of the rocks eliminates the necessity of each member investing a small sum on a set of rocks and brooms and even a brush for each player also eliminates skilful.

The colorful sweaters worn by the curlers are an eloquent tribute to the skill of the knitters in our community.

All of the [illegible] to the old timers [illegible] of the rink and share the [illegible] of sport. All are [illegible] and [illegible] first [illegible] of curling and [illegible] [illegible] to be [illegible] Tofield [illegible] to try.

### Girls 4 - H Club to be formed

Miss Ludwig, District Home Economist will hold an organization meeting, Tuesday, October 25 to form a girl's 4-H club. The meeting will be held at 7:30 p.m. at the home of the Stanley Browns. Any girl between the ages of 12 and 21, who is interested in joining a club is urged to attend.

on the same team on the ice as in the town at large. They often make formidable opposition, indeed.

People who in the course of the daily round would seldom see each other, meet at the rink and enjoy each other's company. Non-curlers may share the fun, too. Many pleasantries are exchanged between the active curlers and the behind-the-glass variety. The coffee served by the Tofield Ladies Curling Club is an aid to sociability, both to those behind the serving counter and those served.

Not only is the rink a social centre but draws from other towns gravitate to the rink. Out-of-town guests are escorted there by their hosts and there's the place to see people. During bonspiel weeks this is especially true; the rink is packed from 8 a.m. till long after dark. High School bonspiels, ratepayers' bonspiels, farmers' bonspiels, Legion bonspiels are only a few of the many events which provide the all-round haunt for a wide circle of people.

The new rink is an asset to the town and district. Any new building adds to the appearance of the town and this one will be no exception. Coupled with the new shelter rink being built by the individual public Lions Club, it will be as a gleaming sight in the [illegible] location it is worthy of note that proper recreational facilities are attractive for people to live [illegible] [illegible] [illegible] churches [illegible] themselves to be!

High School students have always been welcome to rent at reduced fees, both with the regular clubs and on Saturdays under the teachers' supervision. This is a community youth service provided by the curling club.

The McDonald Drive in Canada's premier curling event Before an entry can be made in the Brier, a rink must win the zone playdown and go on to the Provincial playoffs. Tofield has had and has won the zone playdowns before and, with the introduction of artificial ice, the chances of having them again are increased. Now, our curlers will have a longer season in which to practise for the zone playdowns. Who knows? Maybe Tofield will produce a Brier winner yet!

The construction of the rink by volunteer labor gives Tofield men a chance to work together, thus demonstrating that the pioneer isn't do it together spirit is a valuable legacy from our pioneers. Those who enjoyed group work when the Community Centre and the churches were built have many warm memories for the companionship evinced on those occasions. Once more, a community can, and is, building a community asset. Come & Join in the fun, both in building the rink now and curling in it later.

MERMAID IN A WINDOW

## Unveil Cairn at Hay Lakes

A cairn marking the site where James McKernan built a telegraph station more than 80 years ago was officially unveiled at a ceremony near Hay Lakes recently by Mrs. R. Turnbull, niece of the original builder. The cairn is located on a farm operated by Raymond Stacey. The site is reached by going east of Highway 2 on Highway 14 to the Junction of Highway 24, turning south to the directional sign a half mile south of the village of Hay Lakes. The cairn is erected by the Government of Alberta as part of its marking program which includes an eventual 50 cairns. More than 30 to these are already erected. The Telegraph Station earth having was a co-operative effort with the Alberta Government and the Edmonton branch of Historical Society of Alberta. Above, following the unveiling, are Prof. A. R. Pater, Provincial secretary and minister of industry and Development, Mrs. Turnbull and S. T. Gray, of Camrose, who is pictured on the steel formerly occupied by the telegraph station.

## Mrs. Carrie Elizabeth Seller Succumbs To Heart Attack

A well-liked, sincere lady, Mrs. Carrie Elizabeth Seller of Tofield passed quietly to rest at her home on Tuesday evening, at the age of 78 years.

Mrs. Seller was born in Somerside, Prince Edward Island, in 1883 and was married in the Rev. John A. Seller in 1905. From 1907 to 1913, she and her husband worked at the Saddle Lake Indian Reserve as missionaries. Her husband died at Whitemud in 1922. After her husbands death she started school in Edmonton where she taught until 1947 when she moved to Lethbridge. Mrs. Seller came to Tofield in the spring of 1955 and promptly became endeared to the hearts of the new friends she made here. Besides he no an active member of the United Church W.M.S. she was choir leader and taught vocal and music.

Justice, her lifetime she made a host of friends and kept in contact with them right up until the last.

Besides her many friends she is survived by one son, Horace of Tofield, two daughters, Mrs. Charles Ritzer Elsinore of Tyndall and Mrs. Alex C. Hill (Pauline) of Winnipeg; one sister Mrs. Will Schurman of Summerside, P.E.I.; also seven grandchildren.

Funeral services will be at 2 o'clock Friday afternoon from the Tofield United Church.

## "HE" FROM PIZZLE - SPARTA SAYS NOTHING

Canadian soccer's first "fix" probe fell flat at the board of directors meeting of the National Soccer league this week. Main reason was the sudden disappearance of Ukaba Gianpale, president of the Sparta club. Gianpale, who requested the meeting and he would present evidence that an official of another team in the league attempted to influence some Sparta players prior to a 2-0 defeat by Montreal Hungaria on September 18 failed to present any evidence. Three members of N.L. probe committee talk it over. Left to right they are Walter Freer, Aldo Cecchi, Charles Jamieson.

HE'S ... TING ON TOP OF THE WORLD

For Nicholas Langford-Holt of Shrewsbury, Shropshire, the world is not only his oyster, but his plaything. The triple Rhodesian project took six months of labor, carving and shaping the pieces by daddy, John A. Langford-Holt, an M.P. and do-it-yourselfer.

## Beaver Foundation Director hold regular meeting

A meeting of the Board of Directors of the Beaver Foundation was held in the library of Viaita Lodge Viking, on the evening of Wednesday, October 12th, at 8:00 p.m.

Those present were as follows Chairman, S. A. Hales: First Vice-Chairman, J. F. Reddick; Second vice-chairman, Tom Annebo; Matron, Mrs. Grace Laing; and the Sec.-Treas., F. G. Nordstrom.

The minutes of the last meeting were read by the sec.-treas., and adopted as read on a motion by J. H. Reddick, seconded by Tom Annebo.

The Sec-treasurer presented a financial statement to Sept.30, 1960 showing a net balance of $1341.14. This statement was approved on a motion by Tom Annebo, seconded by J. H. Reddick.

Bills amounting to $276.84 were presented, and payment of the bills was approved on a motion by J.H.Reddick, seconded by Tom Annebo.

Applications for residence at Viaita Lodge were received from Mr. George Peterson; Mrs. Mary Brown; and Mrs. Mary Reiches. All applications, being accompanied by satisfactory medical reports were accepted on a motion by Tom Annebo seconded by J.H.Reddick.

The question of Boiler inspection was tabled for future discussion.

The matter of staff wages was discussed and it was moved by Tom Annebo, seconded by J.H. Reddick that the wages of Miss Kathleen Berdahick be raised to $130.00 per month as from October 1st, 1960.

The Sec.-treas. was asked to contact the Viking News; Holden Herald and the Tofield Mercury to invite them to forward complimentary copies of their respective papers to Viaita Lodge each week.

The Sec.-treas. was asked to obtain a supply of letterheads, envelopes and postage for the use of the nurses.

Mr. J.H. Reddick reported that the Viaita's ETV Lodge and — or the Royal Purple Lodge, Viking are looking into the possibility of a T.V. Set, to supply Viaita Lodge with a T.V. set.

The Sec.-treas. was asked to write to the directors of Homes for elderly persons regarding official opening and open house. The Board felt that they would like to have Open House some Sunday in October if it did not conflict with official opening ceremonies.

The meeting was adjourned at 5:15 p.m. on a motion by J.H. Reddick, seconded by Tom Annebo

**PLYMOUTH FEATURES ALL-NEW DESIGN FOR '61**

Its new design featuring a low, streamlined rear-quarter contour, and its over-all modern change accentuated by a completely different grille and front motif, the Plymouth for 1961 epitomizes the ultimate in modern passenger car styling and function. The result of this major remodelling achievement is the creation of a slim, uncluttered and eye-catching silhouette.

While design is the major change in the 1961 Plymouth, the interior qualities of the upholstery and appointments have been improved. More economical operation is promised from Plymouth's "slant-six" and V-8 engines. All of these improvements give this Chrysler of Canada product the mark of "top quality" for 1961. Pictured is a Fury two-door hardtop.

## Full line of 1961 Plymouths Available at Premier Motors

Offering entirely new styling and passenger engineering improvements, the 1961 Plymouth is described by its makers as one of the ultimate in new car design, geared to our times with an eye to the future.

The 1961 Plymouth has a totally new identity

striking appearance changes, new colors and attractive new interiors are the features highlights this year.

A different and exclusive front wing design, starting from its bold and powerful grille and sweeping in fast-flowing kinds to its beautiful, new rear-quarter, sets out the 1961 Plymouth as a passenger car unique in its price class.

Its silhouette suggests functions with beauty, strength with and power with economy of operation.

From the front to the rear bumper, from the roof to roof, the 1961 Plymouth according to Chrysler of Canada engineers, is a totally different design in automobiles, sculptured to satisfy the most exacting demands of a buying public.

In addition to styling which is the main focal point this year, the 1961 Plymouth also offers Chrysler of Canada's traditional and unexcelled riding comfort in both front and back seats, and a power-packing economic operation from its improved "slant six" and V-8 engines.

Plymouth's interiors, also, have been given a major renovation treatment for 1961. They have restyled instrument panels, interlocking door panel designs based on a Plymouth "family" styling theme, and new fabrics and designs in related color combinations with strong emphasis on stripes.

The 1961 Plymouth also features improvements in hood silencing and corrosion protection treatments, an entirely new one-dimensional driver mechanism, and new instrument panel air conditioning controls.

Vehicles equipped with factory air-conditioning have a new mechanically retained undercoat system that effectively deadens sound noise which appreciably cuts down motor noise in the body of the car.

The paint finishing of Plymouth cars has been improved in 1961 with the introduction of a special primer on the inside of the door sills and a following coating of vinyl was compound. The new process provides the vehicle with an excellent drier set to metal deterioration through water and chemicals over the years.

One of the major engineering advancements introduced exclusively by Chrysler of Canada is the new, magnetic right angle drive for its speedometer. This replaces the gear system used previously. The unique drive assures quiet, vibration-free operation, more calibration and accurate speed readings.

All 1961 Plymouths are available with such optional equipment as push-button automatic transmission, push-button radio, power steering and power brakes, vacuum door locks and remote control rear-view mirror.

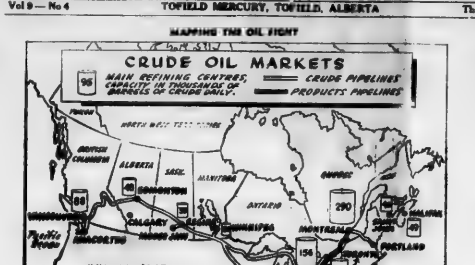
### MAPPING THE OIL FIGHT



The greatest rallying capacity is in Eastern Canada, next door to the big markets, while almost all oil production is in the west. This makes eastern centres, particularly Montreal, prime targets for imported crude. That, in a nutshell, is the reason for the battle now going on between the independent western oil producers and the internationally controlled companies importing foreign crude into Montreal, largely via the Portland pipeline. The Independents want some or all of the Montreal market.

## County Of Beaver School Committee Holds Regular Meeting

The County of Beaver No. 9 School Committee met on Monday, October 17th.

Present were the Chairman, Cr. B.H. Storey, Crs. Johnston, Roddick, Semchyshen, Gibson, Magnuson, Weasheed and Mr. A. M. Golka, representing the town of Viking; Mr. G.H. Arnett, representing the town of Tofield, as well as the Superintendent of Schools, Mr. H.A. Pike.

The Secretary noticed that the Safety Division of the County Traffic Board would conduct a bus driver school at the County on October 24. Low the bus arranged for the use of the Ryley school auditorium. The course would start at 9:30 a.m. and continue through until 5:00 o'clock in the afternoon. He requested advice from the Committee as to payment to the bus drivers who attended the course, and other matters in connection with the course. It was MOVED that each driver, whether driving a County bus or a private bus, be paid $6.00 for the day and that arrangement be made for one bus from Kinsella and one from Tofield to take them into Ryley, and that the County provide the lunch for the drivers. CARRIED.

In connection with the lunch, arrangements were made with the Lathorna Ladies' Aid to do the catering.

The School Committee was informed that Watson (Tofield) Limited had completed the inspection on all electrical fire heating installations at the schools in Tofield, Ryley and Holden. Golka Plumbing and Drilling and Viking Electric had completed their inspections of the Kinsella, Viking & Bruce schools. The report from Watson (Tofield) Limited was very comprehensive, outlining in detail all items that needed attention. An inventory sheet had been set up by them, listing every item in each school that they had given their attention to. The same work on a somewhat smaller scale, had been done by Viking Electric & Golka Plumbing and Drilling.

Watson (Tofield) Limited suggested a maintenance retainer of $50.00 per month for looking after the three schools in the west end of the County, plus cost of necessary replacement parts. Golka Plumbing and Drilling offered to do the work at the three schools west of Holden for $45.00 per month plus parts and Viking Electric submitted the cost at $45. per month plus parts.

The Superintendent pointed out that the inspection, as carried out, had revealed a great many minor faults with both electrical and heating apparatus at the various schools. He was that, possibly the Inspectors should have been making after. However, it was pointed that without some supervision, it would not be feasible to expect the janitors to do very much as regards to it critical and heating installations after some discussion it was moved that we accept the proposed agreements of (Watson (Tofield) Limited, of Golka Plumbing and Drilling, and of Viking Electric on a one-year rental basis and that all payments be made as from September 1st, 1960.

In connection with the proposed purchase of power lawn mowers, as per resolution 236, Mr. Pike reported that there were evidently no lawn mowers available at this time of year. It would have been possible to pick up a couple of mowers at one place and a couple of mowers in another, but the price under those circumstances would, of course, not be as favorable as if all the mowers were purchased from the same source. Mr. Pike suggested that it was too late to use the mowers this year and the matter should be left in abeyance until spring.

Moved that the report be accepted and concurred in.

It was stated that at practically all the schools, the lawns had been taken care of prior to the cold weather and that they were now in good enough shape until next spring.

In connection with the request of J. Mahowich, of Holden, for some improvement on the road at his place, and referred to Cr. Magnuson by resolution 272, Cr. Magnuson reported that nothing had been done, as he had no tools available for further road work, and that in his opinion the situation should not be too serious for the balance of the year. He also stated that he would take another look at the situation.

Moved that the report be accepted.

In reference to the proposed annexation of part of S.W. 29-49-16-W, 4th into the village of Holden and dealt with by resolution 275, the secretary placed before the committee a resolution that would have to be passed to complete the annexation of the area concerned. This resolution, according to the County's solicitor, should be passed by the council, and it was.

Moved that we request the County Council to pass the necessary resolution at their next meeting.

The secretary further advised that the county's solicitor had informed him, that they had substantially finished the documentation in connection with the re-subdivision at Holden, and that they, for record, should have a form of consent from the School Trustees. The Secretary stated that he had signed this consent and returned it to the solicitor.

Moved that the information be received and the secretary's action approved.

The Superintendent advised that Mary Lane Watson had been declared the winner of the Governor General's medal in the County for the school year 1959-60. Due to the fact that a new Governor General of Canada had been appointed, it was necessary to strike new medals and we could not expect to receive the medal until the spring of 1961. Them

### New Box of Books received at Tofield Library

A box of new books received by the Tofield Library last week contains a variety of readable material to suit any taste. A quick glance at the shelf shows romance, mystery, westerns, travelogues and non-fiction. Included in this selection are: Mystery and Suspense novels, "11th Series" E. Q. chooses his favorite mysteries. "The Whitesville Murders," by E. Queen, "Ghost of Margret's Business" by Simenon. Westerns fiction: Twain, "Mission River Justice"; Zane Grey "The Light of Western Stars", and "Sunset Pass", "The Long Rifle", by White. Romantic Novels: "Hosting" by Thom and "Family Affair" by Eddy.

### Art and Typing to be taught at evening classes

An Art Club whose members will be attending classes at the school this winter was formed Wednesday afternoon at a meeting of the high school. There was a good turnout of persons interested in the proposed night classes for adults.

An informal air was given the gathering by the serving of coffee and cookies by several of the active members before the group organized according to their previous Art or Typing.

Those interested in Art were told to refer to the subject by actual notes from Mr H.A. Pike. Both forms are date an instructor from the University is available, materials, type of study, and the forming of a local Art Club were discussed. Mrs. Torrie was elected chairman of the club with Mrs. Pike as Secretary Treasurer.

Registration periods will be once monthly but members plan to get together in between times to discuss the subject. Although this year studies will be for beginners, the lessons will be valuable for experienced artists as well.

Membership is still open and any others wishing to join should contact Mrs. Torrie or Mrs. Pike.

The typing class is scheduled to get underway next Wednesday evening at the school This class will be held weekly and the fall fee charge for the thirty week course is $18.00.

Those 2 subjects were the only ones requested following the questionnaire sent out by the school last months. In the early spring, classes in bookkeeping & shorthand will be discussed and should there be suitable responses these will probably be added to the adult education schedule.

For those who prefer armchair travels here are non-fiction books on India, Russia, Ireland, Arabia, Vietnam, the Arctic, Nova Scotia and one with the intriguing title "The Mrs Who Discovered America".

"The Golden Years" by Collins, is one on the non-fiction shelf, for the reader for his coming retirement. There is also the history of Canadian Air Force under the title "They Shall Have Wings" and for those who enjoy reading about with the family there's the "Family Reading Festival," a superb collection of stories and poems to be read together.

These books are rented from the Extension Library and will be here for a limited time. The Library is open every Friday afternoon at the Community Centre and memberships are available there.

### Lions club to canvass for the C.N.I.B.

During the coming week members of the Tofield Lions Club will conduct their annual canvass for the Canadian National Institute for the Blind. The C.N.I.B. needs your support in order to carry on its prevention-of-blindness work in Alberta.

Persons living outside of the town, and any who may be missed by the canvassers may leave their donations with Mr Stinson.

models must be surveyed, after they are received by the Department of Education. Therefore, it would be late spring before they would be distributed. When the model is received arrangements for appropriate presentation will be made.

A letter from Mr. D. A. Bell, being his official resignation as the Village of Holden representative on the School Committee, was referred to the committee at this time.

A letter from T.Boreton, driver of school bus No. 5, requesting an increase of the payment for the transportation of pupils from Tofield to Holden Industrial Arts Classes, was referred to the committee. Mr. Boreton requested an additional $1.00 a day. The committee felt that the pay, at the rate $4 00 plus one meal, if necessary, was sufficient, and it was moved that no increase in pay be given Mr. Boreton.

A letter from F. M. Nordstrom Agencies in regards to the student Accident Policy, stated that the 1959-60 claims under the policy had been completed. There had been sixty-seven (67) claims with a total of $1,061.80 being paid out by the insurance Co. the claims ranging from $3.00 to $167 00

Moved that the letter be received and filed.

A letter from the town of Viking advised that Mr Alvin H Oelke had been elected, Sept 26,1960, by acclamation, to be the representative of the Town of Viking to the County of Beaver for a term of two years. Secretary was understood that Viking would not have representation in this as that Mr Oelkes would be active on the Committee for the [illegible] term.

### CARD OF THANKS

We would like to take this opportunity of expressing our sincere thanks to all the many people who have been so kind and helpful to us in our past and also for the very recent bereavement. To the doctor, the nurses and the entire hospital staff, and to the many neighbors and friends who have been kind, thoughtful and helpful in our hour of need to ourselves, we thank you very much.

Herman Seller and Pauline

In Memory of Mrs. Seller

A gentle soul was called away To be at home with God, But oh, how empty is her place Beside us on life's road.

We miss her smile, her cheerful...
Her faith inspiring word,
Her understanding friendliness,
Her Christian, loving heart.

We think of all the songs she
Oh how she missed her choir!
Dear Lord, we ask, Please let her
Some singing over there.

A violent explosion ripped apart the Metropolitan Stores Ltd. building in Windsor, Ont., killing ten people and injuring 40 others. The blast blew out the back wall of the store dropping a lunch counter into the basement and collapsing the roof on about 100 shoppers and 80 staff personnel.

Scores of volunteers joined police and firemen who worked all night, moving the debris in a search for victims. Above they lift a woman's body from the rubble and prepare to carry it up ladders. The explosion was triggered when escaping natural gas hit a heater. An old coal furnace was being converted to a natural gas furnace.

## Community League Plans Pot Luck Dinner

The regular monthly meeting of the Tofield Community League was held on Tuesday, November 1st at 8:15 p.m. Two members of the Ladies Auxiliary were present to help plan for the Pot Luck dinner for new residents of Tofield to be held November 21.

The Pot Luck Dinner for the purpose of welcoming the newcomers to the town and district was started last year and has become an annual affair. All residents of the town and district are urged to attend. Special letters of invitation will be sent out shortly to the new families Please watch for further details in the press during the next two weeks.

A committee will meet within a few days to investigate the possibility of having a hot pigs' head supper similar to the one last year in the Community Centre.

It was agreed that the Friday night show of November 11th should start a little earlier in order the hall by 10 p.m. for the Legion's Armistice dance.

Both the children's treat party and the Plotter Party held on Hallowe'en night were proclaiming a huge success. The League went on record as favouring a repeat of the Plotter Party before long Another committee was appointed to arrange for an outdoor rink for a better than ever New Year's Eve dance this year It is hinted that a popular prize will be chosen for the draw on that night

Community League meetings are held on the first Tuesday of each month at 8:15 p.m. For the good of the community A large turnout each meeting is important

## Frame of New Curling Rink nearing completion

Construction on the Tofield Curling rink is progressing at a steady pace with the shell expected to be completed this week. A large army of volunteers are needed every day to get the rink ready for use by the projected target date of December 1.

President George McFadzean announced that the ice plant has been ordered and is expected to be delivered the end of November. The cost of the plant will be $15,000.00. He stated that the plastic pipe would come from Edmonton just as soon as the rink was far enough along for it.

Share sales are progressing all the time, but the executive hope that a number of persons that have been putting it off until after harvest will now buy their share.

Lots of work is needed still on many day that you can spare even a few hours just report down to the curling rink.

## Annual Christmas Carol Festival set for December 15

The date was decided on for the Christmas Carol Festival sponsored by the Tofield Community League on Thursday, December 15th. A special feature this year will be the three mass choir numbers arranged by Mrs. George McFadzean, Mr. G. K. Greene of the Department of Extension, University of Alberta, has kindly consented to direct rehearsals of these three numbers at the Community Centre at 8 p.m. on Monday nights, November 7th and December 5th. Extra copies of the music have been ordered and an invitation is extended to any other persons who wish to take part in these mass choir numbers to attend the rehearsals

## Baptismal Service at United Church

A baptismal service was held at the United Church last Sunday morning when five infants received the sacrament of baptism These were the infant daughter of Mr and Mrs. Alan Warner, the infant sons of Mr. and Mrs. Keith Appleby and the Rev. Bruce McNeill, also the twin son and daughter of Mr. and Mrs. Graham Allan. Rev. B. McNeill baptized the four infants, and his uncle, the Rev. J. E McNeill of Central United Church in Edmonton performed the service for little Danny McNeill and preached the sermon.

## Town of Tofield has steady growth

J. E Stinson, secretary treasurer of the Town of Tofield has just announced that the present population of the town as of census on his rolls now stand at 871 This represents an increase of 24 over one year ago when the population was 847 This increase represents a healthy and steady growth of the town.

## Youngsters crowd Community Hall for Hallowe'en party

An estimated crowd of 250 costumed youngsters, from elementary school down to pre-school, were attended the Hallowe'en party at the Community Center on Monday evening. Prizes of Hallowe'en costumes, according to age groups was done by Mr. and Mrs. Pike, and Mr. Merkel. Practically all the youngsters were in masquerade dress, some in sheets, but mostly full length costumes.

Winners in the pre-school contest were 1. Cavalier, 2. Rogers, 3. Oldtimer. Ages 6 to 8, 1. Gypsy, 2. Spaceman, 3. Indian. Over 9 years, 1. Hobo, 2. Japanese, 3. Lady in furs.

Members of the Women's Auxiliary to the Community League met the youngsters at the door and handed each a bag of popcorn. Following the one and a half hour of fun they distributed bags of candy, nuts and apples to be taken home. Those treats were supplied by donations received during the... canvass carried out early and... may left at various business places, for this purpose, around town. Any funds left after expenses are deducted will be donated to the skating rink fund

As soon as the hall was cleaned up after the party and vendor was ex members of the Junior High and High School and their treasurers had a platter party. Again the attendance was almost 100 per cent as the youngsters, enjoyed a Hallowe'en Ball.

The Hallowe'en party was the second one held in Tofield and has been completely successful in its aim to get up and to shell outs, at the door. The youngsters enjoyed a well planned evening at the hall and had the fun of masquerading as well.

The usual number of pranks were pulled. Outhouses were tipped over, downspouts, windows were soaped, tires etc. were pulled onto the street, and quite a number of signs were removed It is noteworthy that all these pranks were accomplished between 9 and 7 p. m. when all the youngsters under Junior High School letsel were at the hall

## Farmers' Union Plans Round-up Turkey Supper

At the first meeting of the season on November 1st of the local Farmers' Union arrangements were made for the annual round-up day on November 11.

It is the tradition in some of the old countries for the large estates and farms to have a supper for all the employees and families in the old farm houses. A sort of a Thanksgiving for the coming of the crops after a season of toil The local F.U.A. plan to try something like that on Monday, November 14th. There will be a pot luck supper with the local possibly supplying the turkeys. An invitation is being extended to President Ed Nelson to attend There will be more news on this subject next week

DR. TOM DOOLEY

DR. Tom Dooley, the United States' famous "medical ambassador," in Toronto recently told a press conference that he worked with witch doctors in far away Laos. The whole approach is typical of Dr. Dooley's philosophy: Treat the sick in under-developed countries without aligning himself with a religion or country. Dr. Dooley and his Project Commandoes formed MEDICO (Medical International Cooperation Organization) in 1958. Starting with this small medical station on Laos near the Red China border, MEDICO now employs 250 persons in 19 programs in 13 countries. A Canadian who joined his staff this spring is Dr. Ben Wolfish, a University of Toronto graduate.

## RYLEY LOCAL NEWS

Ryley — The Lutheran ladies wish to report a very successful turkey supper and serving sale and to thank all those who came and They report that they cleared $245.75.

On October 19th, the Executive Convention of American Lutheran Church Women was held in Camrose, for the Camrose and Edmonton Conferences. Those attending from Ryley, were Pastor and Mrs. Steistol and the newly elected officers of the W. M. F., Mrs. Pearl Kushner, Mrs. Margaret Boggs, Mrs. Martel Dewes, and Mrs. Signe Norassen.

Mr and Mrs Boettcher of Ryley, are building a new residence in the north end of Ryley.

The members of the Beaver Pathfinder Club and guests took part in a Hallowe'en party at the home of Mr and Mrs. Gunnar on Saturday night, October 29. After a few hours of hilarious games and contests Mr Cliff Paterson with pictures of the who's guess and those in costume. Following this treat the members filled themselves with goodies provided and went home tired, happy and slightly sicky.

The Ryley Dairy Club held the election of officers meeting on Wed. Oct 26th. The prize money was handed out and officers elected as follows: Re-Treas Jim Hobson, President, Gordon Hitchland; Vice-Pres Charles Mathers Club Representative Gail Richland. Club Reporter Lorne Hoath Junior Leader, Harold Johnson The members of the adult committee, are: Mr. Westmoreland, Mr. Moen, Mr. Swenheim, Mr. Richland, and Mrs. Winrose.

How many of you will express your opinion and thoughts when you are asked Why keep them to yourselves? You are no help that way!

When you attend a meeting, all three all evening and never say a word you needn't bother to go. There is nothing more frustrating than to be a chairman of a meeting at which nobody has a thing to say Don't be afraid to express yourself Now is anyone else to know what you think?

Manners at Meetings

1. Take an interest in what is being said Don't just sit there like a bump on a log.
2. Express your opinion at the meeting not after the meeting has been adjourned.
3. Don't talk when someone else has the floor During the meeting is not the time to catch up on the latest gossip Besides this is very bad manners
4. Say all you have to say pertaining to the subject at once, don't jump up and down with little pieces It is very confusing to everyone concerned
5. Check rules of parliamentary procedure - even if you go to an average of one meeting a week.

Homebuild Hint

Keep a strong screwdriver in the kitchen drawer with other utensils It is excellent to use for prying off tin lids A knife is not strong enough for this purpose and it is also dangerous.

## TORONTO MAN TO HANG FOR MURDER

Louis Baldwin Fisher, 24, Toronto, Ont., car wash employee was sentenced to be hanged Feb. 17, 1961, after an assize jury found him guilty of the murder of Mrs. Margaret Bennett, 36. Mrs. Bennett's partly clad, mutilated body was found on a service station lot June 16. Fisher's wife, Jean, who recently gave birth to her sixth child described him as a model husband and father.

Paying The Piper

In our mail the other day arrived a small, inexpensive, simply printed pamphlet. It was published by the Manitoba Hospital Service Plan, and turned out to be, just as it claimed, a "brief and simple story of how the plan assumes responsibility for the cost of hospital care."

What had happened, of course, was that the Plan, after increasing its rates, had been subject to an attack and put on the defensive. It makes a very good defense, indeed - but that's not the point of this column.

What struck me at once was the advantage of the increased rates being paid for knowingly by the public. Had the Manitoba government, like some of the others, been able to hide the real costs of the plan from subscribers, there would have been an outcry. The poor taxpayer could not have milked without knowing it Explanations would not have been necessary.

But here in Manitoba, we pay premiums and we know what the deal is costing us. We are able to demand explanations - and they have been forthcoming, not in fussy, expensive form, but in simple terms anybody can understand. Furthermore, similar explanations are being publish-

CARD OF THANKS

I wish to thank my dearest friends for the celebration of my birthday on October 29. Many thanks for the lovely presents that were given me by all of you. And thanks from the depths of my heart to Mr. and Mrs. Campbell of Camrose for the beautiful bouquet of Chrysanth lissume and Carnations, also for the nice corsages. Thanks to Mr. and Mrs. Otto from Dodds who played the accordian and guitar, to which we danced all night. Thanks a million to Mr and Mrs. George Foshang for organizing the party which was a wonderful surprise to me. I did not know I had so many wonderful friends. Thanks to all of you from the depths of my heart. It was an occasion which I shall never forget. I wish also to thank Mrs. Fedmar for the wonderful birthday cake she baked for me. And a million thanks to all who came and helped make the occasion so wonderful.

HINTS ON STORING VEGETABLES

Vegetables which are to be a wrong way to remove the stored, even if only temporarily, should be of prime quality. Select those free from bruises or disease spots. Do not attempt to store vegetables injured by insects.

Remove the foliage of root crops but leave about 2 inches of stem such as beets, carrots turnips and turnips to store storing.

As soon as the crop is ripe, carefully dig the Garden Graph carefully which have been cut by the spade. Dig ... should not be stored ... can be kept fresh all ... the table.

Best temperature for storage of root crops, such as those ... carrots is about 38 degrees ... Never let the temperature ... drop below 32 degrees and away in storage ... always allow for sufficient ventilation.

Fashions

Fine tweed in a lavender and blue mixture is used for this trim suit done on softened but classic lines.

The notched collar takes on new dimensions that are flatteringly curved. The skirt is box-pleated all around.

This type of suit can travel or take its place in the town picture and makes a graceful background for accessories.

County of Beaver Holds Meeting

(Continued From Page 1)

ons at 40.86, Co. October 9th they investigated damages claimed by Mr. Solomon against Mr. Miller's fence and cows. The damage estimated in connection with the impounding of the horse, was considered $25.00 and the damage caused by the cow, was estimated at $20.00. It was moved that the report be accepted as concerned in and that Mr. J. Miller be assessed the investigation fee in all three cases.

Moved that the report be accepted and concurred with, and that Mr. J. Miller be assessed the investigation fee in all three cases.

Moved that the Director of Town and rural planning be advised that the Council has no objections to the proposed subdivision in S. E. 13-51-20-W. 4th, reference No. 60-D-1941, providing the County will not be called upon for any road or other improvements in or to the subdivided area; that the Council does not approve of the proposed transfer in N. W. 8-50-19-W. 4th, reference No. 60-D-97; that the Council has no objections to the proposed subdivision in N. E. 12-51-20-W. 4th, reference No. 60-D-1179, providing the County will not be called upon for any road or other improvements; that there is no possible road into this proposed subdivision at Isles Lake, and that the Council cannot see a possibility of road construction at this point for several years.

A considerable amount of time was spent discussing Public Works and Public Works Finance, but no resolution or any decisions were made in this matter. As there was no further business, it was moved that the meeting now adjourns to the call of the Chair.

Agricultural Service Board Notes

Vaccinating and testing for Brucellosis in the County of Beaver is under way at present and it is hoped that both programs will be completed at the earliest possible date.

In order to avoid unnecessary delay the co-operation of cattlemen is requested when notified to have their heifer calves separated and confined for vaccination or cows ready for testing. Cattle owners are advised to avail themselves of proper equipment in order to safely handle their cattle. To collect blood samples, the animals must be well restrained, and equipment should be built that the animals head and neck may be extended through the front of the chute. The technicians that are doing the testing may not have a chute available at all times in certain areas. For this reason farmers are requested to build their own equipment.

The vaccination program will be carried on the same as in the past and the County Council have no intention of dropping the program after the test. Cattle owners are requested to have all heifer calves separated from others or cattle and properly confined when notified by the township clerk so that vaccination may be completed without a second call. The fees are the same as last year, namely, 50 cents per head up to 18 and 20 cents per head on all over 18 head. The veterinarian may make an extra charge if a second call is necessary.

Buy Meat Wisely
To make the most of your meat dollar, you should buy the best all-round cut for the purpose for your family. Cuts that are tender, of rich flavor and not necessarily good buys for a family on a budget.
Price is not an indication of food value. Cuts that cost less are just as nourishing as those that cost more.
The red and blue ribbon like marks on government grading beef denote high quality. Red brand beef is the choicest obtainable. Blue brand is also high quality but contains less fat.
Judge Meat By Appearance
1 Beef — lean meat, is a uniform bright red color, moist but firm to the touch, marbled with fat — the fat is firm cream colored & flakey or crumbly
2 Veal — the lean is a pink firm and fine grained There is a small amount of white fat.
3 Lamb — the meat is moist, firm and fine grained The best lamb comes from well rounded carcasses. Full, a thin, paper like covering should be left on roasts but removed from chops The fat is firm and creamy with slight pink tinge.
4 Pork — is fine grained and a light greyish pink. The fat is clear and white.
How Much to Buy
Here are some approximate pounds of meat to buy for an average family

Home to roast, 5, to 7
Home to Broil 2 1/2 to 3
Steak 1 1/2 to 3/4
Liver 3/4 to 1 1/2
Chops 1 1/2 to 2
Ground meats 1/2 to 1 1/2
Add for 1/2
The number of servings which can be obtained from a single cut of meat will be in the ratio to the weight of the cut, the number of bones and the amount of fat and gristle. Right may allow for 1/2 to 1 pound per person when cooking time for roasts and 1/2 to 3/4 pound extra for steak and chops

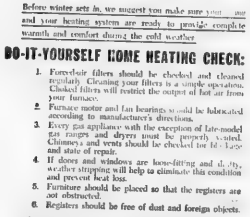
a timely reminder from your GAS COMPANY
IT'S FURNACE CHECK-UP TIME



Before winter sets in, we suggest you make sure your and your heating system are ready to provide complete warmth and comfort during the cold weather.
DO-IT-YOURSELF HOME HEATING CHECK:
1. Forced-air filters should be checked and cleaned regularly. Cleaning your filters is a simple operation. Choked filters will restrict the output of hot air from your furnace.
2. Furnace motor and fan bearings should be lubricated according to manufacturer's directions.
3. Every gas appliance with the exception of late-model gas ranges and dryers must be properly vented. Chimneys and vents should be checked for defects and state of repair.
4. If doors and windows are loose-fitting and of poor weather stripping will help to eliminate this condition and prevent heat loss.
5. Furniture should be placed so that the registers are not obstructed.
6. Registers should be free of dust and foreign objects.
A do-it-yourself home heating check-up NOW will pay off in comfort and lower heating bills THROUGHOUT THE SEASON.
The gas company service department is ready at all times to assist you and adjust your heating equipment. If alterations are required, call your local plumber or heating contractor.

# Civil Defence holds Meeting

[illegible] 18 making a total of 44 candidates. Mr Stewart was well pleased with the report and stated that it would be necessary to have at least three Control Rooms set up. It was mentioned that due to the late harvest, it could be that all five candidates would not be able to be present for the whole course. It was suggested that arrangements be made to have a second day-and-a-half of five additional hours, also to obtain [illegible] attendance of the candidates.

[illegible] with the Control Room [illegible] school at Viking [illegible] with Mr Stewart [illegible] arrangements were [illegible] Mr Stewart and Mr [illegible] Town of Viking stated [illegible] that some 20 candidates from Viking would attend the course. It was mentioned that Mr. [illegible] Homes Viking had, at the Hospital Disaster Plan Study [illegible] Viking, expressed a great interest in the Civil Defence work and that she should be contacted for some candidates for [illegible] course. Dr Johnson stated that in all likelihood, some candidates from Kinsella would attend.

Mr Stewart mentioned that Mr J Henderson of the Headquarter staff, would look after this course. He was away on a canoe trip to Cross Borden at the present time but as soon as he gets back, he and Mr. Stewart would get on to Viking and see that all the arrangements were made. It was suggested that senior application forms should been mailed to Mrs Hotson.

Mr Stewart stated that the Disaster Exercise at Viking went off very well. He was more than satisfied with the co-ordination between the Hospital Organization and the Auxiliary Police, ambulance drivers, etc. Mr William Taylor stated that he had received good co-operation from all the people at Viking, and that it appeared to have created a fair amount of interest in Civil Defence Work.

The Secretary placed before the Committee, correspondence from the Alberta Emergency measures Organization dated on October 2nd, 1960, requesting information concerning the appointment and training of the chiefs and supervisors of the five municipal Welfare services for the Unit Control Committee and also one for each town or village the Director for the Control Committee, also serving as Director for the County. It was mentioned that the Dominion Government was of the opinion that University graduates are required for these posts. Mr. Stewart stated that he felt this was not required, that any local person with administrative experience and who is willing to do so make this a success would be quite acceptable.

It was suggested that Welfare officer should be appointed for the Unit Control Committee, and that this person should be asked to set up an organization and report to the Unit Control Committee after they had the organization set up, for each town and village.

Moved that Mr. Westmancott endeavor to obtain someone who would be willing to undertake this initial work.

Advice from the Alberta Emergency Measures Organization in regards to Federal Civil Defence Course No. 454-457, Radiation Monitory Instructor, 14th to 25th of November, 1960, was referred to the committee. The course is for two weeks duration, two working days, Monday through Friday, each week. There are 12 periods of 60 duration each. All candidates must complete the two week course.

Moved that the Field Supervisor, Ron Burns, be asked to attend this course, if he has time to do so.

The following information from Alberta Emergency Measures Organization was referred to the Committee: Orientation course No. 157, January 23rd to 27th, 1961 has been reserved for the Indian affairs Branch, Department of Citizenship and Immigration and community to not open it, candidates from Alberta Municipalities. Welfare Course No. 147 16th to 18th of October, 1960 - postponed due to lack of applications. Th next welfare course, No. 151 - sch eduled to be conducted during the week of the 9th to the 13th of January, 1961. In regards to this course Mr Westmancott stated that he might be able to obtain a couple of candidates for this course.

Moved that this information be received and filed.

Moved that the next meeting of the Unit Control Committee be held on Monday, December 5th, at 8:00 p.m.

Moved that this meeting now adjourns.

Every minute of every day for the past 12 months someone, somewhere, has bought a new Ford Falcon

61 Falcon at your Ford dealer's today

FALCON FORDOR SEDAN—one of Ford of Canada's fine cars . . . built in Canada

Remarkable record for a new car, isn't it? But then, the Falcon is a rather remarkable car.

It has honest room for six, combined with handy size and dimensions that make it terrific for driving in traffic, a pleasure to park. It delivers up to 35 miles to a gallon, with 85 lively horsepower designed for Canadian roads and loads. (There's an optional 101 horsepower engine available in the '61 Falcon if you want even snappier performance.) The Falcon runs so smoothly and quietly you sometimes forget the engine is on. Trunk room is generous, visibility practically unlimited. And as for style, in all modesty, it really is a beauty!

433,440 Falcon owners (one for every minute of every working day) live all around the world. One of them lives in your neighbourhood. Why not have a chat with him yourself?

# Ryley Hallowe'en Party Rated A Huge Success

The Ryley Hallowe'en party proved to be a huge success. Approximately three hundred and twenty children attended. The citizens of Ryley and district are to be commended for their generosity and co-operation in the enterprise.

With the approach of dusk, children garbed in costumes, both weird and wonderful began to converge on the community hall. Even the committee members arrived in costume. The judges faced with so many original costumes, awarded many extra prizes to the children.

Prize winners were as follows:
Group One — Denise Tiedeman, Brian Lyons, Audrey Lyons, Janice Hombs and Elaine Meshenahl.
Group Two — Marsiya Price, Patricia Tiedeman, Marlene Eck, Rodney Meshenahl, Garth Jensen and Gladys Wertz.
Group Three — Barry Semple, Glen Magnuson, Eldon Hammer, and Valerie Dueck.
Group Four — Ian Boorthuis, Kay Fish, Shirley Kandt, Dale Tkach and Mary Ann Gaede.

Four hundred bags of popcorn and treats purchased from the local stores were filled by the committee of those three hundred and twenty were distributed at the show. The remainder were taken to the school and given to all children up to grade seven who were unable to attend the party. A balance of $25.18 left after all expenses were paid, was donated to the Recreational Fund for children.

The proprietor of the Chinese Cafe filled four hundred small bags and sent these to the hall as a special treat from him.

Taking particular note of the comments after the show the committee found that most of the children preferred the Hallowe'en party to the parade from door to door for treats. We are also pleased to note that tricks were few in number and actual damage nil.

A record of proceedings with recommendations for improvement has been left in the town office by Mrs. T. Arnason, secretary of the committee. The following is the report of the treasurer Mrs. D. Fish.

| | |
|---|---|
| Donations | $222.75 |
| Films and Cartoons | $ 58.00 |
| Prizes | 7.84 |
| Treats & Popcorn | 129.74 |

The committee members, Mrs. Semple, Mrs Arnason, Mrs. Fish, Mrs. Wiens, Mrs. Lemke, Mrs. Bray Mrs. Albrecht, Mrs. Upton, Mrs. Hollesen, Mrs. McDonald and Mrs. Haddy convened by Mrs. T. Harris and acting for the people of Ryley and district hope that what they have done has met with your approval.

# District Couple Exchange Vows At Mundare

St Mary's Church in Mundare was the scene of a pretty Autumn wedding on October 15 when Ted Jr. in marriage were Sonja Hryszyk, daughter of Mr and Mrs. Harry Hryszyk of Royal Park and Allan Krupicielski, son of Mr. and Mrs. Frank Krupicielski of Ryley. Fr. Kulisny of Mundare officiated. Organist and choir leader was Mrs. Florko.

The church was decorated with Autumn flowers to form a pretty background for the ceremony.

The bride, escorted up the aisle on the arm of her father was dressed in white silk organza, sequin trimmed, with a full skirt and low neckline and lace collar. She wore a chapel veil with a coronet of pearls and sequins. She carried a bouquet of Red Roses.

Matron of honour was Mrs Doris Hryszyk and the bridesmaids were Lorraine Chyzyk, Shirley Dworaska and Lorraine Krupicielski. They were identical dresses of coral silk organza, [illegible] length with a full skirt and portrait collars. They had headdress of white carnations & carried colonial bouquets of white [illegible]

The flower girl was Dawnica Hryszyk, niece of the bride and the ring bearer Jerry Kolasa, a nephew of the groom.

Best man was Raymond Krupicielski, brother of the groom. Other attendants were Eddie Hryszyk, Ronnie Krupicielski and Nick Pitrich. Altar Boy was Barry Krupicielski.

A reception was held at Bohemian Hall and Mrs. Hryszyk received in a West suit of plum shade with floor accessories. Mrs Krupicielski wore a pale blue lace dress with tonal accessories. Both ladies wore corsages of Red Roses.

The bride's table was centred with a 3-tiered wedding cake and lights on each side. Master of ceremonies for the occasion was Joe Tarnawski. Fr Kulisny proposed the toast to the bride. Lorraine Krupicielski was in charge of the guest book.

Out of town guests were from Vancouver, Medicine Hat, Camrose, Edmonton and Crooker Lake.

The young couple are making their home in Tofield.

The Browns meet a new hired hand

Back in 1945, just 15 years ago, there were less than 1,000 farms throughout Alberta using Calgary Power service. Today, *over 30,000 farms* are connected to our facilities, either directly or through Rural Electrification Associations. Farmers are using a significant amount of our total electrical production.

The Browns, spending a day on the farm, have discovered that electricity does everything for farm wives that it does for city wives — and that it does much more besides. It milks cows, pumps water, chops feed, heats brooder houses, powers all kinds of motors — in short, electricity has become the modern farmer's new hired hand. Providing electrical service to more and more Alberta farmers is part of our picture of service.

## "The Land of the Black Bear" to show in Tofield November 30

Shown above is Al Oeming and his Cheeta. Both will be appearing in Tofield on November 30 when the film "In the Land of The Black Bear" shows here. The Cheeta appears live on the stage with Al.

Al Oeming will present in person his two hour all colour and sound wildlife film, "In The Land Of The Black Bear" in Tofield on November 30. The film, taken on a 35 horse pack train trip from Dawson Creek to Banff Alberta has won acclaim wherever it has been shown. This film is acknowledged by experts everywhere as being the best ever taken of Canadian Wildlife. The musical background music is superb and the many voices of the wild creatures are also recorded.

Scenes never before filmed are captured in this picture. A huge black bear killing an elk is recorded and wildlife carnivire from massive grizzlies to mountain caribou and mighty mountain lions are recorded.

No one will want to miss this tremendous production narrated in person by Canada's top naturalist, Al Oeming of Edmonton.

This wonderful film has been shown in the larger centres of the province and it is through the work of the Tofield Lions club that it is coming to Tofield. The admission price around the province has been $1.50 per head. However the Lions club wanted all children to have an opertunity of seeing the film so they made a deal with Al whereby a special matinee will be held in the afternoon when the prices for children will be 50c. Adults will be charged the regular rate of $1.50.

Due to the cost of production of a film of this type it normally only goes to the larger centres, but Al having a special interest in Tofield has agreed to bring the film to Tofield.

As an added attraction Al will bring his pet Cheeta along and it will appear on the stage of the Community Centre with him.

## Calgary Power completes large new substation at Bardo

To meet the increasing loads south-west of Edmonton, Calgary Power Ltd. has recently completed a large new substation at Bardo and an extention to the existing substation at Holden.

These additions became necessary with the conversi n of west to new Lamoa as 174 Line over to 138,000 v lts. This transmission line runs along Highway 13 from be Company's main substation at Edmonton and was previously energized at 25,000 volts.

The increased voltage lowered the complete rebuilding of over fifty miles of line. Cost of work on the transmission line alone runs to one half million dollars.

In addition to the installation of equipment at Bardo and Holden, a new 138,000 K. V. A. oil circuit breaker and control wiring were added at the main substation. At Bardo an 18,000 K. V. A. transformer has been installed to step down the voltage to 25,000 volts. This will strengthen the alternative power avail ble for the City of Camrose and district.

Added to the already attractive substation at Tofield was a new 25,000 K. V. A. transformer together with 25 oil circuit breaker, a sectional equipment and switchboard wiring. The 138,000 volt two section is again stepped down at Holden to 69,000 volts which will improve voltage and load conditions in the Holden area. It is estimated that the two substations represent a cost of almost $250,000 including the new transformers.

Scheduled power interruptions, although a meeting are very necessary during the construction and installation of improved power facilities in the case of the improvements at Bardo and Holden, power consumers affected have been most patient and cooperative. The resultant increases in capacity of the two substations are expected to provide adequate power to fulfill the growing needs of these areas.

COOK MEAT CAREFULLY Good meat can be spoiled by improper cooking. A pointer on meat cooking you might be in order now that you know what to look for when you are buying meat.

1. HOW TO ROAST: Roasting is a dry heat method of cooking and therefore the most tender roasts should be done in a moderately slow oven (325 dabree F). (b) Place roast on rack in roasting pan. (c) Do not cover. (d) Do not add water (f) Insert meat thermometer, if available, in centre of meatiest part of roast so that the tip is not touching bone or fat. (g) Place roast in oven so that centre of roast is in the centre of the oven. (h) Roast occasionally during roasting (i) Roast meat to the desired stage of doneness or until the meat thermometer registers the proper internal temperature. (k) Let roast stand for at last 10 minutes to make carving easier.

NOTE: Some cuts of meat when roasted in the oven are referred to as "baked."

2. HOW TO PANFRY: Panfrying is a dry heat method of cooking thin, tender cuts. (a) Use a heavy frying pan. (b) Add a small amount of fat or fat cut from the meat. (c) Snip fat edge of meat to prevent curling. (d) Brown meat on both sides (e) Avoid prickng meat to prevent the juices from escaping — use tongs to turn the meat. (f) Cook to the desired state of doneness.

When cooking fat meat do not add fat. Cook in an ungreased pan uncovered and pour off excess fat. This is sometimes called "pan broiling."

HOUSEHOLD HINT — Always cook pork to the well-done stage because pork may carry a tapeworm, which when ingested may cause bodily damage and a great deal of pain. Keep pork at least thirty days this same temperature.

Move about cooking meat next week.

## District Was Once The Home Of Indians And Buffalo

Standing with Mr Harold Schultz on a height of land on his farm south of Tofield, we saw, stretching before us in the east, a vast panorama, of cultivated, productive farmland. Northeast lay Tofield and Beaver Hill Lake; to the north-west were the Beaver Hills. The vast, saucer shaped depression extended for many miles in all directions before a gentle rise in the land met the sky. From the height of land on which we stood could be seen the elevators of seven villages or hamlets — Bardo, Round Hill, Dodds, Kingman, Shonts, Ryley, Hairht. A hundred years ago, of course the elevators were not either-existed, but the setting was instead, the pointed tepees of a peerless Indian camp were the only indication of man's habitation.

The present owner of much of this former Indian campsite, Mr. Harold Schultz has become an enthusiastic collector of Indian artifacts. His collection is very large, for having been obtained from the relatively small area of one farm. For him it forms a sort of second trip from the land, rich in interest, if not in monetary value.

Mr. Schultz's farm is in the Ketchamont district which perpetuates the memory of Chief Ketchamont. The camp ground, Mr. Schultz believes was in one hundreds of years before Chief Ketchamont arrived to aid the Crees in their recurrent warfare with their hereditary enemies, the Blackfeet.

It was an ideal location for a permanent camp. The wide, shallow depression contained all the necessities of the Indian way of life because the ground rises gently in all directions there was security against raiding war parties. The expanse of skyline, nowhere obscured by trees would ensure that no enemy could take the camp by surprise; any unfriendly visitor would be clearly silhouetted against the skyline, while yet several miles distant.

Amish Creek, with its plentiful supply of fish, ran within a mile of the campsite. It emptied into the south end of Beaver Lake, which itself provided good fishing and around whose shores thousands of waterfowl nested.

Water, the prime necessity of any campsite, was provided by an overflowing spring. Long ago the spring bubbled out at the ground the year round; in the winter ice ice builds up a height of 12 feet. This perpetual spring attracted the buffalo and was thus instrumental in leaving the Crees of a supply of meat and hides. Mr. Schultz pinted out a buffalo wallow which had been a gauged out by the hoofs beside near the source of the spring. Nearby incongruously near the present railway right of way) are several pits made by the p ioneers, buffalo paving the dirt over them.

The native cree, Cree-ee or Cri grew here abundantly and the miles of lush pasture provided feed for both the migratory buffalo herds and the Indian's horses. Enough trees of the balm, willow, and ojbow varieties to supply shelter and fuel grew within easy distance of the spot. It is in this ideal campsite area that the artifacts have been most heavily concentrated.

The campsite runs from north-east to south west and is approximately a mile by a mile and a quarter inside. In the comparatively small area of 36 acres, Mr. Schultz has found literally dozens of stone hide scrapers. The frequency with which this particular tool occurs would seem definitely indicate a camp location where the squaws had scraped the buffalo hides before proceeding to tan them. No doubt each square and her favorite tool but as no edge became blunted, exchanged it for a newer model.

Since no flower thus resits of these scrapers have been found in one small alkali pot-hole, one of the few definite finds under very of some special value in the processing of the hides.

All over the valley, also, tomahawks and other stone have been recovered. On point, the workmanship is quite on about there is evidence of fine craftmanship. One particularity fine stone axe and arrowhead intrigued Mr. Schultz. They were lying side by side, Did some civilized Indian bury his axe as the arrowhead hit a vital spot in his body? Whatever the explanation, the axe and arrowhead had been lying side by side for centuries before Mr Schultz found them.

Most of the artifacts are of native stone but some have obviously been imported. Dr Forbes, archeologist with the Glenbow Foundation in Calgary visited Mr. Schultz's farm in 1954 and, after obtaining permission, did some preliminary excavating around the Indian campsite. He felt that the prospects warranted further investigation. It was his opinion that some of the sand stone used in the construction of the weapons was native to Montana One particularly fine knife made from chalcedony is bleached white on the side which has been long at in contact with the sun One arrow head is chipped from a hard, light-colored stone, this too Dr Forbes felt was not made from native material

As well as the weapons, there have been many varieties of tools recovered. Scrapers of all kinds, including those obviously made for "off hand" Indian hand hammers, pemican pounders, axes, awls, still needle sharp, spoke shaves for smoothing the wooden handles became any for some tools, large rocks used for balances, even crude bone, are all evidence of the work done by the squaws. The arrowheads and tomahawks were no doubt the valued possessions of the brave of the tribe.

The Ketchamont district remained vivid prairie until the arrival of the pioneers who' descendents are still owners of the and Mr. Schultz's present farm was the J. L. ingram homestead. The wealth of Indian relics there was not even guessed; until 1927 when Harold Schultz made his first discovery. In 1933, he visited the museum at the University of Alberta and there became keenly interested in the artifacts displayed there. On his return home, he began scrutinizing cultivated fields with a view to finding Indian relics. His efforts have been rewarded by the discovery of some 800 artifacts Many of these are on loan to the Lions' Club in Tofield, but the larger number remain at home. He is keenly interested in comparing them with the collections in his books on Indian lore. By so doing, he hopes to increase his knowledge and sharpen his ability to recognize other weapons or tools that may be discovered from the earth as it is cultivated. His hopes for the future also include the formation of a historical society in Tofield. with some experts in archaeology being guest speakers. The formation of such a society would be something a bit different. It might that her husband's keen interest in the past had overpowered him. Coming to the door of the cbadavy porch one evening she was alarmed to see her husband's arm moving rhythmically up and down while he talked steadily. Apparently to himself, before she saw the children sitting in the shadows, and noticed that her husband's arm motions were directed at what he was holding a tomahawk hand to a handle for Brian. Mrs. Schultz gasped and muttered, "Heavens! Ills got him for sure!"

As was ridiculously easy to duplicate the specimens from the collection and glued with the Schultz family looking out over the former Indian campsite. It was not difficult to see the growing crops replaced by waving prairie grass over which the Indian braves rode at full speed, returning at night to the security of their well situated camp. We could almost smell the bubbling "rabbit stew over the campfires!

## Winter Work program planned for Elk Island

Six projects are planned for Elk Island Park as part of the federal government's extensive winter works program. Reserves Minister Walter Dinsdale announced.

Total cost of these projects will be $167,450 and it is expected they will provide employment for about 107 men who reside in the vicinity of the park. All projects are scheduled for completion by March 31, 1961.

Included are plans for improvements to park buildings, roads, and campgrounds. Of the total, the major part has been allotted to repair the cost of widening the right-of-way along main roads in the park as well as clearing an access trail in the game isolation area.

## IN MEMORY

BODNAR — In loving memory of our dearest father and husband, who passed away November 27, 1958.

The golden years sadly spend,
Five years ago today,
With goodbyes left unspoken,
You quietly passed away,
We watched you suffer, we heard you sigh,
And all we could do, was just standby.
When the time came, we endured you,
For you never deserved, what you went through.
Your heart was the truest in all the world,
Your love the best to recall for no one on earth can take your place.
You're still the dearest of all.
Always loved and remembered by Wife Clara, Son Thomas, and daughters, Sylvia, Edna, Susan

Last week I discussed two types of meat cookery - roasting and pan frying. This week I would like to consider some moist methods of meat cookery.

1. How to Broil: Broiling is a dry heat method of cooking thin tender cuts. The directions vary slightly with the type of broiler, unit used, thickness and king of meat and degrees of doneness desired. (a) Preheat broiler. Leave the door ajar. (b) Only the edge of meat to prevent curling. (c) Place meat on cold rack of broiler pan at recommended distance from heat. (d) Broil meat on both sides to desired stage of doneness. (e) Season meat as each side is browned.

2. How to Pot Roast: Pot roasting is a moist heat method of cooking large, less tender cuts. (a) Use a heavy kettle or Dutch oven. (b) Brown meat well on all sides in hot fat. (c) Season the meat well. (d) Cook the kettle slightly before adding the liquid. (e) Add a small amount of liquid about 2 to 4 tablespoons. Cover the kettle closely as keep in the steam. (f) Cook meat slowly over low heat on top of the stove or in a moderately slow oven (325 degrees F.) (g) Cook until tender and well done.

Household Hint: Here's a mixture to sprinkle on hot buttered toast. One half cup sugar, one tablespoon Cocoa and one teaspoon cinnamon.

## District Youth Killed in Train-Bus Accident

Sixteen year old Darlene Bankheardt and 18 year old Kathleen Malkevich of Ross Creek were among members high school students doing who lost their lives in a school bus-train collision at Lamont Tuesday morning. Twenty five more students from the Ross Creek, Tofield and Chipman areas are in hospital at Lamont, seven still in serious conditions. Only 1 passenger John Wiesick of Lamont escaped without injury. Driver of the bus, Frank Bodnay of Lamont, is in critical condition in Lamont Hospital.

The collision occurred at the C.N.R. crossing east of Lamont, where an Edmonton bound fast freight hit the bus broadside, pushing wreckage one-quarter of a mile into the village. The bus, a big grade 10, 11, and 12 students from the Ross Creek, Chipman and Lamont districts was bound for a central school in the eastern outskirts of the town.

Victims of the crash included Chipman students, Jonnale Kozlowski, 18, -Chipman; Genevieve Ludwig, 16, Chipman; Jennie Cotobe, 16, Chipman; Marie Parish, 16, Lamont; Barbara Fewarchuk, 15, Lamont; Rosella Pylypchuk, 15, Chipman, Sylvia Swystun, 15, Lamont; Vivian Sharon, 17; Chipman; Geraldine Kwong, Chipman; Shirley Dashnell, 18, Chipman; Margaret Wisnieki 15, Chipman; Terry Wuetherick, 17, Chipman, and Wayne Kopetchney, 16, Chipman.

Prayer service for the victims will be held Friday at 8 p.m. in the Lamont School auditorium. Mass funeral services will be held Saturday at the Roman Catholic Church, Greek Catholic Church and St. John the Baptist Ukrainian Orthodox Church at Lamont.

Injured in the accident were Eleanor Purcell, 17; Joan Fewarchuk, 16; Terry Casey 15, Ellen Lauder, 16 of RR4 Tofield; Robert Antonich, 17; Judy Erbasky, 16; David Bronish, 16; Clarence Hitura, 19; Melonie Hitura, 17; Peter Lipkowich, 18; Kenneth Meindl, 18 Andrew Bodnarovich, 18; Sylvia Sharon 17; Cynthia Starko, 16; Alice Weidenhill, 16; Veronica Tuchtan, 16; Joann Starko, 16; Donald Dziobo, 15; Robert Tompkins, 15; Keith Tompkins, 12; Tommy Tompkins, 18; all of the Paulos and Chipman areas.

The entire district was shocked to hear of the accident and sympathy of all go to the bereaved families.

Miss Kathleen Malkevich leaves to mourn three brothers, Donald, Kenneth and Wayne, all at home; her paternal grandmother, Mrs. Rose Malkevich of Edmonton; also her maternal grandparents, Mr. and Mrs. Fred Pressalski of Tofield.

Darlene Reinhardt leaves her parents, two sisters, Sharon and Marilyn and one brother, Barry, all at home; her paternal grandparents, Mr. and Mrs. Adrian Thur of Edmonton. Her funeral arrangements had not been announced at press time.

## Bank of Montreal resources reach an all-time high

New records were set by the Bank of Montreal in practically every phase of its 1960 operations, according to the 0 of M's annual statement for the year ended October 31. The figures were released here this week by Horace Seller, manager of the Tofield branch.

Commenting on the bank's 152nd year of business, he said total resources reached an all-time high of $2,655 million. Deposits were reported at $2,240 million, including Canadians personal savings of some $1,651 million. Loans stood at almost exactly the same level as the all-time high of $1,178 million set in 1959.

STRONG LIQUID POSITION

Traditionally the 0 of M statement shows a strong liquid position, with "quick" assets of $1,771 million representing 81 per cent of total liabilities to the public, the manager said. The figures compares with 81.6 per cent a year ago.

Earnings for operation of more than $40 million at home and abroad added up to $31,576,720. But with an income tax bill of $17,252,000 - or 55 per cent - the year's net profit was $14,326,776. This was $1,868,676 more than in 1959.

Of the net profits, some 21,000 0 of M shareholders are receiving $7.00 per share, or a total of $12,149,167, or $2,240,577 less the tax bill.

$2 MILLION TO "REST"

The 0 of M statement shows a transfer of $2 million to the bank's "rest", or reserve, account, bringing it to a new high of $141,856,000. This, plus paid up capital of $66,756,00 and undivided profits, brought total shareholders' equity to $286,150,859.

A sharp increase of more than 12 per cent in the statement's valuation of B of M premises - from $42 million in 1959 to more than $55 million was shown by the statement. This reflected completion of the bank's new head-office building in Montreal, as well as the continuing rapid pace of branch extension and modernization in this province and across Canada.

## Local man attends . . sale at Calgary

John Moore attended a Purebred Hereford Sale at the Livestock Pavilion, Exhibition Grounds in Calgary on November 22. He came home with a new herd sire, T Bar S Gold Colonel 27, to head his herd of polled Herefords.

While in the south John drove to Midnapore to the Tom Day Polled Hereford Ranch, and saw Silver Willow Roll Domino 82, a bull which Tom Day, bought from Curt Moore and Son in 1956. This herd sire has in four calf crops, sired 100 per cent polled calves.

Earl Moore accompanied his son John to Calgary and attended the livestock sale. They also visited Earl's sister and her husband and small daughter.

AVRO EXPECTS NEW JOBS

A new aircraft contract, "on a bigger scale than we've had," may bring new life to Malton's sleeping industrial giant, Avro Aircraft Ltd. No agreement has been signed, but Sir Roy Dobson, chairman of the parent company, hints that Ron's active efforts to rustle up business may soon mean new employment probably on Canada's Mentreuil-built freight carrier, the CL-44, above.

## Cold Weather needed to start Curling Season

Work on the Tofield Curling Rink is progressing nicely and with a little luck the curlers will be in action very shortly. The pipes for the artificial ice plant were installed this week and if the cold weather holds flooding will start almost immediately. The ice plant itself has not arrived yet but it can be located in and put to work as soon as it arrives.

A general curling meeting was held on Thursday evening of last week and it is hoped that 20 teams can be made up for this years activities. Ice committees and draw committees were appointed at this meeting. The previous Tuesday evening a meeting of the shareholders had been held when yearly dues, ice rental fees and such were set for the year.

## District Pioneer passes away at Tofield Hospital

Tofield and district lost one of its early pioneers in the death of Jeremie Glade, R. 2, Tofield, Alberta, who passed away at the age of 81 years, 9 months, and 22 days, at the local h spital, Tuesday Nov. 29, 1960.

He leaves to mourn his loss, his loving wife Mary, three daughters, (Cortina) Mrs. Arthur Rainland, (Kathleen) Mrs. Lloyd Greenacre, of Tofield, (Bertha) Mrs. Arbie C Lawrence, of Portland, Oregon. One son, Albert L. Glade, of Tofield. Two sisters, Mrs. Margaret Tough, of Edmonton, and Mrs. Clara Close Northridge, California, and one brother, of Trail, B. C. and five grandchildren.

Funeral Service will be held at the St. Francis of Assisi Church, Tofield, Alberta, Sat. December 3, 1960 at 10 a. m. Interment will take place at the Tofield Cemetery.

Prayer service will be held Friday, December 2, 1960, at Andrews, McLaughlin Chapel in Edmonton at 8 p. m.

No flowers by request.

## Alberta's Death Toll Continues to mount

Last M. C. M. P. report at the conclusion and assessment of all citizens during Safe-Driving week — December 1st to Jan. 7th, 1960 inclusive. They appeal to their apathetic motorists and pedestrians who refuse to heed the advice and plans for safe driving and safe walking or to believe that safe's advice is directed towards them. Their persons can and do make mistakes which result in traffic d ths and injuries.

From January 1st to September 30th, 1960 in the Alberta area policed by the R. C. M. P. 147 accidents occurred with 159 persons being killed. Of these accidents 72 or 50 per cent involved only one vehicle and all of these accidents were preventable. There are still far too many single car accidents caused by inattentive driving, poor driving habits and too much speed for road conditions and the curves The number of rear end collisions is growing, which again is caused by inattention on the part of the driver.

Pedestrians were hit and, showing an appreciable increase in this type of death in the first 9 months of 1960 Eighty a ven of the accidents occurred in the dark, it seems with 60 occurring in the dark hours As the dark winter months are now with us it is expected that the percentage of accidents by night will increase. Five persons were killed while operating tractors on the highway. Tractor operators must appreciate that the tractor is a dangerous vehicle to operate on the highways, particularly at night.

All drivers are requested to check their lighting and other equipment regularly Make it a habit

Police enforcement activities will be increased in this Safe-Driving week and all citizens could aid lef by having as vent dent free week.

## School Committee Holds Regular Meeting

The County of Beaver No. 9 School Committee meeting was held on Tuesday, November 15, 1960

Present were the Chairman, Cr. R.D. Starky Cr. Johnson Reddish, Councillors, Magnuson Gilmore, Wasch-ell, Mr. A.M. G. Ian, representing the town of Viking Mr. Cecil Arnett representing the town of Tofield as well as the Superintendent of Schools Mr. H.A. Finn.

The meeting was called to order at 10:10 a.m. by the Chairman, C. R.D. Starky.

MINUTES that the minutes of the Sch ol Committee meeting held December 1st, 1960, be approved as written. CARRIED

The following reported in connection with the Bus Drivers' School, October 14th, that 21 bus drivers had attended the course and that certificates had been issued to them signed by the Director of Safety Education, Highway Traffic Board, & by the Chairman of the County's School Committee. The Committee was advised that a Government grant was not available in this instance, as these machines are only considered for grant if they are actually used in a business course. Under the circumstances it was moved that we will allow the purchase of the two Dixie machines at Holden on a 50-50 basis and that, as mentioned by the Superintendent of Schools, the same offer be made to the Viking School.

## December 1 to 7 is Safe Driving Week

J. C. Jefferson, Pr. sident of the Alberta safety Council asked (today) in opening Safe Driving Week (December 1st to 7th) "Will week as part of our effort to reduce auto accidents, and pedestrian deaths and injuries? Last year 146 persons were killed and 4,000 injured in traffic accidents."

ABOUT NANCY CLEAVER

I know not if she were your
But I know with death you were
To stand watching that young
lady die

Or maybe she might have been
Or to a helpless cripple reduced
By losing your gamble you might
Such a payment as that produced.

I couldn't stop when I saw you
Nor could I swerve off to the
You made it across but you left
With a feeling of sickness in-
My hand on the throttle was
My heart seemed to stop in its
And my flesh seemed suddenly

By a kind of prickly heat

'Twas little you cared for my
With a wave of your hand you
But you left me all teased for
Lest another such fool come

I've seen what has happened to
Who failed and were hit by my
And oft when I'm fitfully sleep-
I'm hitting them over again

Young man let me ask you a
Were you running the engine,
You think it fair were you
To watch someone suffer and

Knowing well someone else had
By trying to race with your train
And losing had ended in wreck-
In crippling, in suffering and pain

YOU SHOULD HAVE SEEN THE ONE THAT GOT AWAY

In the beginning it was a question of who ate whom. For a while it must have been touch and go whether man went fishing or fish went hunting. Looking around we assume man won out.

At first man competed with earth's other creatures—today men compete with other men to develop nature's energy sources. In the process our standard of living has sky-rocketed.

Competition has helped Canadians achieve one of the world's highest living standards. Take the way it works in the oil business—Imperial Oil and hundreds of other companies compete to supply Canadians with oil. As a result, oil is available at reasonable prices wherever it is needed—and Canadians have turned to oil for more than half their energy needs.

ESSO IMPERIAL OIL LIMITED
...for 80 years Canada's leading supplier of energy

## Control of products needed on farms

TORONTO — A spokesman for a national farm organization warned today that a monopolistic farm organization could become as destructive as a private enterprise or "big business" monopoly in the national economy.

Speaking at the annual luncheon meeting of Ontario United Dairy and Poultry Cooperatives, Charles A. Cameron, of Toronto said that a balance between farm organizations and private enterprise will provide the best possible programs for agricultural products.

Mr. Cameron is executive secretary of the 320,000 member Dairy Farmers of Canada.

The speaker said that farmer controlled marketing commissions dealing in agricultural products have as much right as private enterprise to compete in the business world.

"The control of products by producers will often result in price improvements and savings that can be passed on to the consumers," he said. "In some fields the co-operative can do better controlled association continues to provide specific services beneficial to its supporters in the other area, it is a question ... will the farmer controlled association continue to provide these services beneficial to its supporters? In the case of agricultural marketing associations, this will only occur when the organization is able to compete with private enterprise and is able to render specific services to its members," he said

Mr Cameron noted that organizational goals and activities may prompt farm marketing groups to reach into fields in which they cannot compete. In such cases, the organizations "defeat their own purpose," he claimed

"I don't think," he said, "anyone could argue that it is impossible for a farmer controlled marketing association to become so powerful that it could develope a virtual monopoly. And human nature being what it is, there is no reason to suppose that a monopolistic farm organization would be any more desirable than a private enterprise monopoly."

He added that ... because between private enterprise and farm marketing groups he feels there is room to say that the question of expansion of the farm organizations rests on a thin line.

"This line separates two areas," he said. "In one there is the condition ... can the farmer controlled association continue to provide specific services beneficial to its supporters? In the other area, it is a question ... will the farmer controlled association continue, defeat its own purpose by continuing fields that are best tended by private enterprise?"

The speaker suggested that there is a place for farmer-controlled marketing associations in local provincial, national and international business worlds ... so long as they stay on the right side of an imaginary boundary line.

He said the associations should be concerned as an international level because they are closely tied to the monetary paradox of our times ... the fact that unsalable surpluses are piling up in some parts of the world while millions of people are under fed and starving elsewhere

How Much Did Your Petroleum Products Cost You In 1960?

Did you know that U. F. A. Co-op. declared a dividend of 9.6 per cent on purchases of Petroleum Products for the fiscal year ending July 31, 1960? This means that a farmer who purchased $1,000.00 of fuel oil requirements received a dividend of 9.6 per cent or $96.00.

Alberta farmers through their patronage of U. F. A. Co-op. now own an organization with assets of approximately 5 million dollars, and this year they will receive Patronage Dividends of approximately $758,000.00. U. F. A. Co-op. needs the continued support of all its members.

## 1960 Forest Fires cause $9,000,000 loss

The 1960 Forest Fire Season has apparently just missed being the most infamous in Provincial history.

Preliminary [illegible] total damage and costs show a 1960 total figure falling half at $4,134,267, of which $4,700,500 was charged against the Forest Service. In addition, damage to forest cover, capital equipment, and loss of Crown timber amounted to $4,265,414, for an overall total cost of $9,000,305.

In 1959, the Forest Service bill was [illegible] $1,990,00 and industrial costs were $1,067,741, for a total firefighting bill of $3,057,741, plus damage losses of $6,054,879 for an overall total cost of $11,442,220.

The total area burned was in excess of [illegible] 1,539 acres, a far cry from the 3,065,120 acres in 1950. The great difference is due partly to the fact that the bulk of fire area in 1950 was the true, timbered, white northern part of the Prince George District whereas this year it was the more accessible, [illegible] and Helena areas.

In making the current year's estimates available, Harry [illegible], Minister in charge of Forest Protection in Ottawa emphasized that the figures are all subject to later revision as complete [illegible] of detailed data will continue throughout the winter.

Between May 1 and October 31 this year, over 178,287,000 cubic feet of merchantable timber were killed by fire of which 69,010,000 cubic feet are classified as losses. This damage to merchantable stands represents an estimated $3,010,000 loss in net to the owners. In addition, [illegible] stands of immature timber — our forests of tomorrow — were killed by a fire over an area of 48,316 acres.

Logging, railway, and [illegible] equipment was damaged to the extent of $172,975 and [illegible] acres of cut forest products and buildings were also destroyed.

Of the total of 1,113 fires started during this Season, [illegible] (53 in 1959), operating railways accounted for 1,738 (11.0 per cent); recreation and smokers, 698 (18.1 per cent); brush burning 87 (2.3 per cent); range burning 87 (2.1 percent); power, phone and pipeline construction 8.6 (0.3 per cent); industrial operations, 137 (3.3 per cent); incendiarism 54 (1.3 per cent), [illegible] 2.7 per cent); and [illegible] 2.7 per cent).

Forest officers point out that the cost of one run is very misleading. For example, when figures are studied it is expected that firefighting costs and the damage figure related to Hinton-caused fires will be much higher than similar costs for railway fires which are more often [illegible] and extinguished. Lightning on the other hand, especially [illegible] is inaccessible areas where the fire is out [illegible] by the time [illegible] crew can reach it.

The [illegible] of the railway fires [illegible] special railway [illegible] prohibiting the [illegible] with [illegible] at most [illegible] and [illegible] new [illegible] and up-to-[illegible] protection [illegible].

## OF MANY THINGS

(by Ambrose Bilk)

A NATIONAL CRISIS

Mosie-in's Wheat Pool prophet, W. J. Parker, made a very important point in a press statement the other day. He was talking about the proposed railway strike and he said that it would hurt the farmers, because any cessation of the pipeline will [illegible] but is a national crisis, no matter [illegible].

At the same time newspapers were claiming the Japanese coal strike was over in the belief that his country would have to look elsewhere for wheat if it continued to be impossible to get Canadian grain loaded on boats waiting in Vancouver harbour. This reinforced the importance of the Wheat Pool statement.

What many forget is that the goods not consumed today are never consumed. If the Japanese must seek other sources because the wheat cannot be loaded, they will use those other sources and that sale is lost to us forever. What is not eaten today is never eaten.

A druggist told me one time that a rainy day means him a great deal of business. "And I don't make it up on a sunny day, either," he complained. "If you don't get in to buy toothpaste on the rainy day, you are not going to use twice as much of it when you do get stocked up. I keep telling my clients that when is not sold today is never sold — but they can't understand it."

As I write this, a rail strike is threatened. I know quite a few railway workers and I know they are hoping against hope it... the strike will [illegible] place. Quite a number even talked against it on the union vote. Certainly they would like a raise in pay, but they would rather continue at their present pay than see more unemployment around the country. They are aware that Mr. Parker was right when he said that this isn't merely an employer — employee dispute ... an essential service which affects many bystanders is involved. In short, it is a national crisis.

There are those who loudly exclaim, "Christmas is for children." Hogwash, baldercash and double hashcap! Christmas is for everybody. It is not an exclusive club with membership limited to children. Anyone susceptible to that infectious merry madness that marks the holiday season can join in the fun. Have you noticed? The bates I mean. Those wonderful, weighty holiday bales that everyone from paperwt-[illegible] "biz to stats" is wearing these days. Where's yours? If it's slipped, take your cue from the children. Their excitement and capacity to enjoy life in general and Christmas in particular is touching. One young man of three years when asked by his father why he was being so good, came up with this classic reply. "Well Daddy, with you watching me and God watching me and now Santa, watching me, I have to be good". Wise little man he's he?

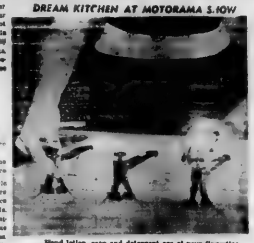
The holiday season inevitably brings flocks of visitors. Friends [illegible] its peak at Spring Graduation time.

The other important trend is to glitter and beading — just [illegible] as a trim set in all over effects. Some of the dresses have sequenced bodices or over blouses. The trend is not confined to high-priced items but is seen at all price ranges.

In informal holiday clothes for lounging and entertaining at home, the favorite combination is an overblouse with slim jims with the accent on velvets, velveteens, brocades, and novel patterns such as leotards.

Have fun dressing up this year.

DREAM KITCHEN AT MOTORAMA S.HOW



Hand lotion, soap and detergent are at your fingertips in kitchen sink dispensers. This is one of the features in a home shown at the General Motors Motorama show being held at the CNE. The last time General Motors featured a kitchen in the show, in 1957, a futuristic ultrasonic dishwasher, and induction heating baffled the woman visitors.

P. S. Have a merry time. I'm going to!

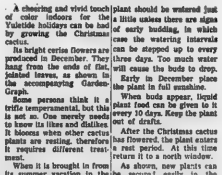
Garden Graph

By DEAN HALLIDAY



CHRISTMAS CACTUS

A cheering and vivid touch of color indoors for the Yuletide holidays can be had by growing the Christmas cactus.

Its bright cerise flowers are produced in December. They hang from the ends of flat, jointed leaves, as shown in the accompanying Garden-Graph.

Some persons think it a trifle temperamental, but this is not so. One merely needs to know its likes and dislikes. It blooms when other cactus plants are resting, therefore it requires different treatment.

When it is brought in from its summer vacation in the garden, set it in a cool window and do not water unless the flashy leaves begin to shrink.

In early November the plant should be watered just a little unless there are signs of early budding, in which case the watering intervals can be stepped up to every three days. Too much water will cause the buds to drop.

Early in December place the plant in full sunshine.

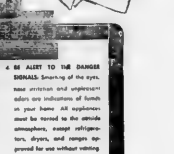
When buds appear, liquid plant food can be given to it every 10 days. Keep the plant out of drafts.

After the Christmas cactus has flowered, the plant enters a rest period. At this time return it to a north window.

As shown, new plants can be secured easily in the spring by cutting off a section having a new lip. These stem cuttings root easily in moist sand, vermiculite or plain water.

OUR HOME IS "WINTER WEATHER" SAFE IS YOURS?

*Make This Six-Point Safety Check and be Sure!*



1 CHECK YOUR CHIMNEY. Loose mortar, soot, and other debris may accumulate in the chimney, thus blocking free passage of the products of combustion. Ice and snow on top of the chimney also should be removed.

2 CHECK ALL VENTING PIPES. Carry out this check at least twice a year. The pipes may have become dislodged from the chimney or they may extend too far into the chimney, thus blocking the end of the vent pipe. They may also have been pulled away from the furnace or other appliances. Badly corroded pipes should be replaced.

3. DON'T SMOKE GAS APPLIANCES. Do not use a gas range to heat a room. Use a proper heater designed for this purpose.

4 BE ALERT TO THE DANGER SIGNALS. Smarting of the eyes, sore throat and unpleasant odors are indications of fumes in your home. All appliances must be tested to the minute atmosphere, except refrigerators, dryers, and ranges approved for use without venting.

5. DON'T TAMPER WITH GAS APPLIANCES. Don't take chances. Don't alter or install gas appliances or piping yourself, call a qualified plumber or heating contractor if you wish your appliances checked, or call your Gas Company serviceman.

6. CHECK AIR SOURCE. Ordinarily, homes have enough fresh air infiltration around windows and doors; avoid drafts but do not plug up these small air holes—making your home too airtight. Your gas appliances, like you, need fresh air.

Do not try to repair any trouble spots yourself... Call your local plumber, installer, or gasfitter—he is qualified to do a proper job.

**WHERE THERE'S A Wish THERE'S A Way**
and the B of M way is sometimes the best way to say "Merry Christmas"

Sometimes money is the only logical gift for three or four of the more "difficult" names on your gift list ... but to some of us cold cash and Christmas giving just don't seem to go together. Well, the B of M has the way to take the chill off cold cash and make your gift of money a warm, personal one, fully in keeping with the spirit of the season.

Look over the B of M's three ways to make your gift of money arrive to the tune of "Jinglebells".

1. STUDENTS' AND BABIES' PASSBOOKS make a delightful gift. Add to savings here on your list. Your gift of money is entered in a special passbook and tucked in a Christmas card guaranteed to satisfy any gift-giver's heart. Your out-of-town gift too.

2. MONEY ORDERS are ideal for Christmas-giving. Come in cash-denominated envelopes or folders that clearly spell out your Yuletide wish. Ideal for those "last-minute" problems. Your out-of-town gift too.

3. SPECIAL CHRISTMAS CHEQUES are available in two colourful holiday designs — one for personal and one for business transactions. They are "gift-wrapped" in a bright cover that glows with the spirit of the season.

See these special Christmas cheques at your neighbourhood branch of the B of M today! Don't forget to bring your Christmas shopper list!

## A Message OF Christmas

Emmanuel, God with us! This is forever the message of Christmas. And how wonderfully he came!

Is anything more wonderful than the gift of a baby? From Mothers and Fathers, from children, from the people of all ages, from all walks of life wells up a veritable fountain of love, as they look at the little one and take him to their hearts. For indeed it is true that "Trailing clouds of glory do they come." How best than could the Father show his love to us, than in His gift of His Son, this babe? How best could our Blessed Lord bring to men and women His own great love, for He was on great that he became so little. That we in our littleness, Might reach Him.

The gift of a baby. In our human experience, do we not understand somewhile of the hopes and fears that are centred in that little one? How more so when "the earnest expectations of the creature (mankind) waiteth for the manifestation of God," when the hopes and the fears of all the years have their consummation, their fulfillment in the birth of a baby in the stable at Bethlehem.

No lovelier Christmas song has been written than Phillip Brooks, "O Little Town of Bethlehem."

Let us take 'time out' in these joyous days, sit down and with the beautiful words before us hear once more, "... the Heavenly Angels, The great glad tidings tell: O come to us, abide with us, Our Lord, Emmanuel."

May God grant you all, the rich and the strong, the old and the young, the bold and the lonely, a Happy Christmas, Joy in the New Year and the certainty that, "The Saviour, the Saviour of the world is born."

Walter L. Hammond, Pastor, Holy Trinity Anglican Church.

## Farmers Union holds regular December meeting

At the regular meeting of the F. U. A. held on December, 13, 1960, Mr. L. Sons, of Kingman, spoke on some of the highlights of the recent Wheat Pool Convention which he attended in Calgary.

He mentioned that the annual local meeting of the Pool will be held early in the New Year. He advised that they will have a greatly improved system for showing the films this year, and appealed to the farmers to give the meeting more support this year.

The poor coverage of the F. U. A. convention by the Edmonton Journal was brought to the meeting's attention. It was felt that an effort should be made for a city the size of Edmonton to have more than one daily paper.

The recent account in the Mercury reporting that the County of Beaver was purchasing a $7,500 accounting machine without any offsetting motion of a reduction in staff was discussed.

We were of the opinion the county had run out of cash as road work was cut-off early this fall for that reason.

If any farmers are interested in curling see in touch with either of the following: C. Sears, Ron Geoghegan or Earl Ross, they are interested in starting an afternoon game a week schedule, which sounds good.

## QUEEN ELIZABETH'S PERSONAL FLAG

Queen Elizabeth has adopted a personal flag in addition to the Royal Standard. The idea for the new flag was the Queen's own. Apparently she felt the need for a more personal identification than the Royal Standard on some occasions. It consists of the letter "E" assigned with the royal crown the whole within a chaplet of roses, all in gold on a blue field.

## Town in Color For Christmas

Christmas is coming! The town of Tofield has again gone [illegible] this year to decorate the town and it is a beautiful sight to see when at night these brightly colored and varied lights [illegible] on strate and places that are dark at night for the rest of the year.

Many private homes trees, fences and shrubs have Christmas lighting on them, and it is indeed, a beautiful sight to behold. Other homes have santa or other Christmas decoration brightly lit up somewhere on the lawn, which really add to the enjoyment of seeing the pretty Christmas lights displayed.

The town business places are all decorated with lights, displays and the many articles that are bought as Christmas gifts. Even the wrapping paper in many stores has changed color for the Christmas season. Instead of the usual brown paper, we now have packages wrapped in various colors, all associated with Christmas.

Another noticable thing, that is brought about by this festive season is that many people in town are extra *friendly* to each other, and we hear "Merry Christmas, and a Happy New Year," ringing out as people greet each other in the street and in stores. Yes, truly, Christmas is right around the corner.

## County of Beaver School Bus Regulations

1. The driver may appoint one of the older pupils monitor or patrol of the bus. Older pupils must take turns in acting as monitor or patrol.

2. THE DRIVER IS IN FULL CHARGE. Pupils must obey the driver promptly and cheerfully. Pupils must obey orders of the monitor or patrol of the bus.

3 The driver will assign a seat for which pupil will be held responsible.

4. THE PUPIL MUST BE ON TIME. The driver will stop but will not wait for a pupil in the morning, unless there is an indication that the pupil is coming. (This will rule out the necessity for "making up time" due to numerous delays at bus stops)

5. Unnecessary conversation with the driver is prohibited

6. Outside of ordinary conversation classroom conduct is observed and the driver may separate pupils or groups of pupils who do not observe this rule.

7 Use of tobacco on the bus is prohibited.

8 Pupils must not throw rubbish on the floor of the bus or out the windows

9 Pupils must not extend arms or heads out of bus [illegible]

10 Pupils must not try to get on or off the bus or move about within the bus while it is in motion

11. When leaving the bus, pupils must observe the directions of the driver.

12 No other than pupils and driver may ride on the bus, unless special permission has been given by the County or School Committee.

13 The duly elected bus [illegible] shall remain in office for the closing of school

Penalty For Breaking any of These Rules

The pupil may be reported to the Principal of the school, or the Committee member concerned, who can debar the pupil temporarily or permanently from riding on the bus

Post in a conspicuous place in the bus. These rules take the place of any issued before December, 1960.

BY ORDER OF THE SCHOOL COMMITTEE.

## Grade Seven Class Visits Tofield Creamery

On Wednesday, November 16, Mrs. Brown's grade seven class toured the Tofield Creamery. Mr Manchak conducted the tour, which proved very interesting and educational. Following is a report on the tour, written by Ruth Ellen Sears.

The Tofield Creamery is where the farmers of the Tofield district take their milk and cream. The cans are taken inside the creamery and weighed. The cream is tested to see if it is sweet or sour. A sample of cream is then sent to the laboratory and tested for butter fat. The rest of the cream in the can is dumped into a vat. The cream is then taken to the cream pasteurizer it is heated to one hundred and fifty degrees Fahrenheit for ten minutes. The cream is then is cooled to forty degrees Farhenheit. After it is cooled it is churned. The milk is put in the churn with the cream. When it is churned to butter a sample is put in a box and sent to the government. The rest of the butter is put in larger boxes. The boxes are lined with waxed, vegetable parchment, just before the butter goes in. The butter is then taken out of the churn and weighed. Each box holds sixty-two and a half pounds of butter. The butter is then put into a cooling room.

The capacity of the churn is one thousand and six hundred pounds. Each time butter is churned a sample is sent to the government. The butter can not be used until the government gets a sample and tests it. On summer days the creamery makes butter three times a day. In the winter the churning is done once a day. The cream of butter are sent to Edmonton and put into pound packages. The surplus butter is shipped to British Columbia.

Four farmers supply the Tofield creamery with milk. The milk is taken in each day. Every morning day the milk is pasteurized and the other days it is homogenized. When the milk arrives at the creamery it is put into a container that here it is one hundred and forty degrees for half an hour. The milk is then cooled. The bottles are washed very thoroughly and sterilized. They are then put on a type of machine and filled with milk. Then machine does caps them. The milk comes through a pipe, into a container that fills the bottles. They are forty to forty-five bottles of milk processed in one day.

Inspectors from Edmonton come and inspect the butter to see if it is exactly one pound. They also check the machinery to see that it is constantly clean. Cleanliness is very important in the creamery. The inspectors are very strict about having the machinery and utensils clean. The creamery is an important industry in the Tofield community.

### GLENN GOULD SUES STEINWAY'S

"No more handshakes" is the vow made by Toronto pianist Glenn Gould. The young piano genius filed a $200,000 damage suit in New York against Steinway and Sons, piano manufacturers, claiming he suffered physical injuries at the hands of one of the firm's executives. The suit says William Hupfer, chief technician for Steinways, was in the habit of using "unduly strong handshakes and other demonstrative physical acts" towards the pianist. Gould said the injuries still cause him pain and have resulted in cancellation of some performances.

## Capacity crowd enjoys "Festival of Carols"

A capacity crowd filled the [illegible] on Friday evening to enjoy the annual Festival of Carols presented by the choirs of the United Church. The program was under the direction of Mrs. Fred Scott and Mrs. Ted Hughes, who welcomed the people and choirs and then called on the congregation to join in singing "The Story of Christmas". Rev. W. L. Hammett, Minister of Evangelism, then read the Christmas story from the Bible.

The first group to sing was the Tofield Choir under the direction of Mrs. Fred Scott and Mrs. Ted Hughes. They sang several choice selections, including "The Story of Christmas", "Hark the Herald Angels Sing", "Away in a Manger", "Hark the Herald Angels Sing" and "Joy to the World". The congregational singing was led by Mr. Paul Vought.

The second group to sing was the junior girls and intermediate girls Choirs, conducted by Mrs. G. McFarlane. They favored the audience with "The Birds Christmas Carol", "The Angels Song", "Away in a Manger", "Hark the Herald Angels Sing" and "Joy to the World". The congregational singing was led by Mr. Paul Vought.

The third group to sing was the Junior Choir [illegible] conducted by Mrs. J. E. Shannon, who also served as accompanist for the evening. They sang the following Christmas Carols: "Christmas Bells" and "O Little Town of Bethlehem". The Christmas Story was then read by Mrs. Fred Scott.

The closing group to sing was the Tofield Choir [illegible] under the direction of Mr. Fred Scott and Mr. Ted Hughes. Besides the Christmas Carols sung by this choir, they also sang the beautiful Negro Spiritual "Were You There". They were very well received and did a very good job of closing the evening.

The program was concluded in the Hall when Santa Claus put in an appearance and gave each of the children present a treat.

## Christmas Every Day

(by Rev Father K. F. Purcell, P. P.)

Jesus Christ was born in Bethlehem on the Blessed Virgin Mary on Christmas Day in Bethlehem [illegible] than two years ago.

The church celebrates the nativity of our Lord on December 25th. This feast is called Christmas on this day every faithful [illegible] is granted the privilege of saying three masses, one in commemoration of Christ's eternal birth from God the Father another in remembrance of the temporal birth of the virgin Mary, and a third to recall his spiritual birth in the hearts of the faithful

The word Christmas comes from Christ and mass, the feast so called because on that day the mass commemorating the birth of Christ is said. Christmas means Christ coming to earth because he wanted to save us, and the mass means Christ coming to earth because he still loves us and still wants to save us.

Every mass is another Christmas. Every mass is as divine as, as thrilling, as Christ's first coming. The fact is it is even more so, for Christmas only meant his coming later — primarily to institute the Christ act on Holy Thursday, and to die on Good Friday. In the mass we have His coming, His Presence, His Love, His Redemption, His salvation, all of it now. What a tremendous event Christ's mass is!

Christmas then is a religious event. It is the anniversary of the birth of the Saviour of mankind, the God man, Jesus Christ. Since it is a religious feast let us bear this in mind on this day and celebrate it religiously. Be sure you attend your church. Read the beautiful story from your Bible to your children.

## Poinsettias can bloom next year

It is possible to keep your Christmas poinsettia and have blooms again next year, says Alvina Mae Alexander, extension home management specialist with the University of Missouri.

Poinsettias will keep for two or three weeks if you give them good care They need good light and should be kept at a temperature between 60 and 65 degrees.

This warm climate plant is extremely sensitive to drafts. It is easily injured by chilling or ever watering. But over-heating is also bad. Keep your Christmas plant away from radiators, TV sets and other sources of heat.

The right kind of watering is important to keep the poinsettia from dropping its leaves. Proper method is to water the plant thoroughly until water drains from the bottom of the pot, then allow it to get rather dry but not wilted, before you water it again.

It is normal for your poinsettia to drop its leaves and go into a dormant or rest period some weeks after Christmas. Don't worry about it Just put it in a cool spot such as a basement and stop watering it. Next spring about May, give it light, a warm temperature and start watering it again.

Early in September you can bring the plant indoors to a sunny window and you are well on the road to a blooming plant for another Christmas season.

## 250 Children Watch Santa Come to Ryley in Horse-Drawn Cutter

Santa, sponsored by the village of Ryley, the businessmen of Ryley and the Ryley Branch of the Canadian Legion, made his annual pre-Christmas visit to Ryley on December 17th About 250 kiddies turned out for the afternoon of fun.

The afternoon began with a free show for the kiddies, in the Ryley Community Hall After the movie, the children were ushered out onto Main Street to see a beautiful Christmas tree out in the middle of the street. All traffic had been cut-off Main Street and that left plenty of room for them. Suddenly when they were all out on the street, they saw a horse and cutter coming into town from the north! Hopefully they watched, and as the unit came closer, the excited children could soon see the bright red suit that Santa always wears, then they saw the round red face, and the white whiskers, and they were convinced this was he. Soon, but hardly soon enough for the children he was among them and with his hearty laugh, dashing out treats for his many small friends.

A very pleasant Afternoon was then topped off, with the group of children singing some of our old but beautiful Christmas carols.

Then 250, tired, but happy children began to head for home.

After half an hour of games mothers of the Ryley Club members served a delicious lunch

## Commercial Hazards At Christmas time

Everywhere there is a hurry of last minute shopping and employers and managerial of retail stores are bustling with the Christmas trade. This added tempo of business may result in lack of care and supervision normally taken to prevent fire. Therefore, there is need for someone to make a quick and skilful survey. The experienced fireman can make an inspection that will prevent fire before they happen and any fire inspection undertaken during the next two or three weeks will pay big dividends in fire prevention. According to the 1959 summary of fire losses for Alberta, there were 3,000 small fire losses with a total loss of more than one million dollars. Combustible roofs are responsible for countless conflagrations, electricity, faulty heating equipment and exposure to other buildings fires

Concerning chop rinse and separating. It is important to remember that most fires occur in retail store premises within one hour after the store closes and practically all fires occur after the store has considered business for the day Some towns and villages in the Province of Alberta have organized a party of vigilantes who by agreement take their turn in courteously nightly patrolling of the town in order to be sure to discover any beginning of fire before it gains too much headway. This plan is to be commended and it will surely do much to prevent any of our less fire losses

## The Lighter Side .

## PORTRAIT OF MAN AT WORK

Many of man's greatest advances came because he took time out to think—to figure out how to get energy sources other than his own muscles to do his work for him.

Whenever man has had time for creative leisure, he has used his intellect to develop energy sources to improve his standard of living.

In Canada we're particularly good at putting our energy sources to work for us. Take oil, for example. Oil provides more than half Canada's energy needs —Canadians use more than 1,000,000 gallons an hour. Every day Imperial Oil refineries alone supply Canadians with energy equivalent to that produced by a dozen Niagara Falls.

## A Christmas Debt Is Paid

Grandfather, isn't that the most beautiful doll you ever saw?" The little hand tugged at the hand of the tall man as he looked down at the childish figure beside him. "I wish I had one like her," the child said in a low tone.

The man mused with a tender smile, "It is very beautiful, dear, — but I thought I heard you say you had all the dolls you could care for."

"Well — I did," came the answer, "but" — as though an explanation had promised itself — "I could give some away I s'pose." The man's clasp tightened on the girl's hand, and then he remarked her gently that they must hurry if they wanted to be home in time for luncheon. Although they were many other toys in the department of the great store, the child bestowed little interest in them and managed to work her way back to the doll and her affection was stood enraptured before it until her grandfather again reminded her that they must be on their way home.

As the child reluctantly followed, the man recalled another dark eyed Marcia standing before such a doll and heard again almost the same words this Marcia had said today. "See," she had said, "that doll in pink just beautiful! I wish I had one like it." And he had the man beside her reply. "You have more dolls now than you know what to do with," and he had added, "That is too expensive anyway."

"Oh is it," the girl had asked in surprise. Yes, everything in the store is." He hadn't known whether it was or not, but he had led the child away Later, he asked himself many times why he hadn't given the doll to the child, and he resolved that never again would he be the cause of a hurt look such as he had seen in the little one's eyes that day. From then on he determined to grant her every wish that he could possibly and so atone for the unnecessary suffering he had caused.

Christmas night John Grant and whose before the fire, his head against the back of the chair, his arm closed and a smile of content upon his face. The door opened and a young woman's voice called softly — "Father."

"Yes, my dear," he answered as he turned toward her.

"Mother wants to know if you aren't coming to bed," the young woman said as she came into the room.

"Tell your mother I'll be there in just a minute," the man replied with a laugh.

"Do you know, father, I think you made Marcia the happiest girl in the world tonight." Marcia Field said as she went and sat on the arm of her father's chair.

Her father put his arm around her, "I'm glad if I did," he told her.

"Do you know that doll reminds me of one I wanted years ago. I thought that I would never be happy if I didn't have that doll," Marcia laughed at the memory.

"And I wouldn't buy it for you," her father frowned.

"Why father do you remember that?" the daughter asked in surprise.

"I have never forgotten it, and I resolved never to be the cause of hurting you or anyone, as I had you that day."

"Say, you old dear" Marcia laughed as she hugged him "I haven't thought of it for years." And then she said suddenly as the light of understanding broke upon her "That is why you have always done so much for me, and why you gave Marcia that doll today, isn't it?" John Grant's smile was the only answer he gave for a moment, and then he said: "If I have succeeded in making you both happy, I shall be happy too, for I feel I have at least in part paid a Christmas debt long overdue."

"Dear, dear father," Marcia tenderly answered him, "you don't know how well you have succeeded."

"Then I am content."

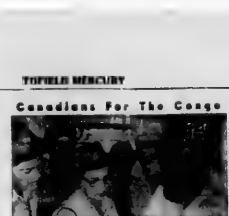
## Picturesque Speech

A father's biggest difficulty at Christmastime is convincing the children that he is Santa Claus, and his wife isn't.

A harried mother says: "At Christmastime the kids hang up their stockings At or that it's a full p ar before anybody hangs up anything again."

Your childhood was quite a few years ago If you think of blackboards as black and Christmas trees as green.

It was a little boy from Texas who marched up to Santa Claus and asked, "What can I do for you?"



## Canadians For The Congo

These Registered Nurses are part of the Canadian Red Cross Team now assisting the Republic of the Congo in establishing emergency health services. They are examining a slide with bacterial culture being shown them by a Congolese lab Technician in Coquilhatville

From left to right the nurses are Mr. Juliet Kirby of Toronto; Miss Dorothy Beaulieu, Ile Lorraine Quebec; Miss Marguerite Tetrault, Ste Anne de Bellevue Quebec; Miss Alice Calderazzo, Montreal, and Miss Jacqueline Michaud, Quebec City.

The work of the various international relief teams now in the Congo is being coordinated by the World Health Organization Some 60 WHO specialists are also on duty throughout the new Republic. Many of them are on loan from their governments and were recruited by service in the Congo by the Pan American Sanitary Bureau, WHO's Regional Office for the Americas Bureau headquarters are in Washington, D.C.

## Rachel's Christmas Light

Wonder If Larrie would co[illegible] Shall I do it, then ask him afterward? Rachel Stanton, the manager of Christmas ave booked selfishly at the beautiful tree in the pleasant living room then hurried to brush the snow from Harris, who, stamping in from the back porch, paid-d

"The clean-d the driveways to the barns and road, but still have to do it again today. What were you saying?" he was interrupted by Rachel

"The radio announces that the snow plow from Warm-n has stuck at the corner and will have to be dynamited out No one can get farther-n outlawed further than the crossroad a corner," Rachael hurried to the telephone-r finished

"It was Martha Aline She and Gene and the child-en started here but are blocked-in at the home of kind strangers I wish we could get food to the Harrison family in the Bottoms They have no telephone, no neighbors and would freeze if they tried to get here through the high drifts Such a blizzard It looks as though our Christmas will be "we two," she sighed at the color lighted tree.

"Well, I see I'll have to shovel out the driveways again" Harris announced, pulling on jackets and gloves.

Later when he went inside to warm his fingers he found Martha humming and was thankful that she was cheerful over the disappointment of Christmas ev, without her relatives. Odors at savory food and the attractive table with Christmas colors, were inviting as he stamped in after the evening chores were finished.

"Tonight will be the worst so far this winter. The wind is rising, and snow blowing. A terrific night Surely no one would venture on highways ... why where is the tree? Did you dump it outside because our company didn't come? he looked to be sure it hadn't been [illegible]

Then at the chosen corner where the tree had stood.

## Protect our Churches From Fire

Perhaps there will be a Christmas tree in your church and in your church school room. Will you insist upon having splendid decorations flame-proofed and will you exercise all the necessary precautions against a Christmas tree fire? Will you keep the Christmas tree green by placing it in water and only use approved strings of Christmas tree lights and take care to prevent any candles or oil lamps and combustables near the tree, and will you remove the tree immediately from the church after the Christmas season.

In a note of good experience there have been [illegible] during the period from 1958 to [illegible] which have been caused by [illegible] when eight fires occurred, totalling a loss of $200 [illegible] for church fires.

If there is any question in your mind about fire safety in your church, why not call upon the fire department to make a free inspection, then you will be sure to get the best advice?

# Licenses for Salesmen

A safeguard to the consumer are the individual licenses now required by Alberta citizens by door to door salesmen in the Province. The licenses which list the salesman's name, company and product, must be produced on request from a prospective customer.

The regulations requiring the licensing of direct salesmen are contained in amendments to the Licensing of Trades and Business Act which came into effect August 1, 1950.

Affected by the regulations are salesmen selling door to door, soliciting orders for goods for future delivery, and solicitor persons to enter into a contract whereby the person has the right to thereafter purchase goods. The mailing from mail and telephone solicitation. The order does not affect farmers selling produce raised in the Province or an employee of a farmer who has written authority to sell goods direct to the consumer.

Any corporation or company desirous to direct selling is required to register their salesmen are properly licensed before they are engaged in business for that company. The Licensing Branch of the Department of Industry and Development Act may require a company statement and in accordance with that administrate the new regulations or individual to post bond in the Province before engaging in business. Further protection is that the salesman to produce for the customer a true copy of all contracts and orders at the time of the transaction.

Fees for the licenses are designed to offset the cost of administering the regulations and are as follows: A commercial agent hiring no salesmen but employed in selling, $25.00; where up to five salesmen are employed, $100.00; over five salesmen, $200.00. The individual fee is $5.00.

A person suffering from a deaf defect, injury or incapacity is eligible to receive a license at no fee upon receipt of a recommendation from the mayor or reeve in the applicant's residence area.

It is expected the regulation will affect more than 1,000 salesmen presently doing business in the province as well as many more interprovincial business men who carry on business in more than one province and visit Alberta only periodically.

## Sunday School Children Hold Christmas Concerts

On Sunday evening December 10, both the Lutheran and Catholic Sunday School children put on their Christmas concerts. The United Sunday School concert will be held on Friday evening, December 29, at 7:00 p.m.

With help from some of the mothers, Mrs. (Danny Manderson directed the program at the Catholic Parish Hall and acted as Mistress of Ceremonies. Before the program, Father Purcell showed a number of slides. The program was made up of many lovely songs, organ solos, recitations a pantomime and a play. After the program Santa arrived to distribute gifts. The most enjoyable evening finished off with lunch served by members of the [illegible].

Mrs. Eras Maaren assisted by Mothers and Sunday School teachers directed the Lutheran Sunday School concert. Mr Ivan Jacobsen, Sunday School Superintendent, acted as Master of Ceremonies.

After an opening prayer by Mr. Jacobsen, each class put on a few numbers consisting of songs, recitations and plays. Following the program each child was given a gift and a bag of treats from the Sunday School. The evening finished up with a nice time of fellowship.

## Mr. and Mrs. Sam Stauffer celebrate Golden Wedding

Mr. and Mrs. Sam Stauffer celebrated their Golden Wedding anniversary during the Christmas holiday. A family dinner was held in honor of the occasion at the home of their son and daughter-in-law, Mr. and Mrs. Boyd Stauffer on Christmas Day.

Mr. Stauffer and the former Elizabeth Rath were married on December 27, 1910 at Shickley, Nebraska. The ceremony was performed by the Rev. Jos Schlaat.

The newlyweds made their home at Shickley until 1916 when they moved to Tofield and began farming east of the town. Mr. and Mrs. Stauffer live on the original farm but on Mr. Stauffers retirement, his son Boyd took over the running of the farm.

Three children were born to Mr. and Mrs. Stauffer, their son Boyd and two daughters, Edith (Mrs. Joe Kaufman) and Dorothy (Mrs. John Maurer).

There are ten grandchildren.

## Tofield Community League to hold Annual meeting

The annual meeting of the Tofield Community League will be held on Monday evening, January 16, 1961 at 8.30 p.m.

A pot luck supper will be held and all members of the community and their wives are invited to attend. The annual reports of the Treasurer, Theatre Committee etc. will be heard and the election of officers for the coming year will take place.

A guest speaker will be in attendance.

NEW TREASURER OF THE UNITED STATES

Mrs. Elizabeth R. Smith, a native Montrealer, who gave up the Canadian half of her dual citizenship at age 21, was picked by President-elect John Kennedy as the new U.S. treasurer. The 69-year-old mother of two is the first woman to be named to a top government post in the new administration Mrs Smith will put her name on every U.S. currency bill for the next four years.

## School Gymnasium filled for annual Christmas concert

The school gymnasium was filled for the annual Christmas cart presented by students of grades two to eight. Junior high girls attended the dress and Junior High boys very capably handled the job of ushering.

Much was added to the Christmas spirit of the program by the selections of a 24-voice High School girls chorus whose numbers were interspersed between the various items presented on the program, pianist was Miss Glenda Patterson.

Master of Ceremonies, Mr. Cal Annis introduced the various numbers which included choruses drills, short plays, square dancing and a tumbling demonstration. Parents who had attended a number of school concerts commented that this production was one of the best. Outstanding numbers included "The Toys March by grade two, and grade eight's rendition of "Drummer Boy".

The final item "Music In Many Lands" by grade five ended with a lovely Indian maidy dance done by students in Indian costume.

## Construction started on display homes

Construction is expected to start today on the first of two N.H.A. display homes to be built in Tofield. A member of Watson (Tofield) Limited stated that the homes are being built to give winter work to their employees.

The homes are the first to be constructed here for resale under the N.H.A. plan. Both homes will be on 7th Avenue and will have 3 bedrooms. The price is said to be in the $12,000 to $13,000 range.

With the construction of these two homes on 7th Avenue it will leave only one building site on this block, which was just opened this year.

With very few good building lots left in either Ryley or Tofield the town council are being forced to again consider the opening of another block of land.

3 teenagers from Tofield attended the Youth for Christ Convention held in Calgary December 28-31. A total of 15 students from 16 Alberta high schools attended the event.

Chartered buses from Edmonton, Wetaskiwin and Vandale, carried members to the convention. Day sessions were conducted at the Bureau Bible College campus, and the evening services were presented in the North Hill Nazarene Church.

Rev Ron Allen, Director of Alberta Youth for Christ, was dean of the convention. Youth leaders from widely scattered areas assisted in the presentation of a program designed to inspire youth to the challenge of the

## Girls and Boys Win at Holden

The Tofield Junior High basketball team defeated the Holden girls 11-6 in Holden Thursday evening. The boys made it a double victory by downing the home team 17-14 in a close game.

Rene Taylor was top scorer for the the Tofield boys. Ted Whyte, captain of the team scored 6 goals to add his teams cause.

Basketball fans are invited to watch the teams home games in the high school gymnasium.

## F.U.A. to hold annual meeting

At the last meeting of the Tofield Farmers Union the matter of one cents a week curling was discussed. This will be discussed further at the next regular meeting on Tuesday, January 10 at 8.30 p.m. in the Tofield Legion Hall. The matter of the annual bonspiel will also be discussed.

The January meeting is the annual meeting, at which time the activities of the past year are reviewed and the financial statement etc. presented

The discussion of the purchase of a $7,000.00 accounting machine by the County at the December meeting has caused concern and it is expected that more members than usual will be in attendance to discuss this further.

The Jack Pot is now up to $14.25 but a person must be in attendance to win. As it is the lady who gets the check if her man wins it is hoped they will encourage the men to attend the meeting.

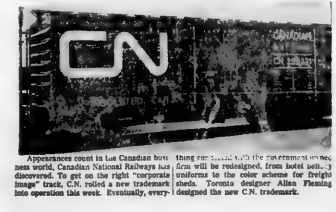
## Cold Weather needed for curling

Taking advantage of the few days of cold weather, ice maker Bill Eastcott had the ice in the curling rink almost ready for use when presto the weather turned warm. Curling will start just as soon as the weather becomes more seasonable. However the forecast at the present time, is continuing mild

The long awaited ice plant which will eliminate the weather hazard has again been delayed and the latest word is that it will be another week to ten days before it arrives

Although the last curling weather everyone but the curlers is enjoying the mild weather

C.N.R. GETS NEW TRADEMARK



Appearances count in the Canadian business world, Canadian National Railways has discovered. To get on the right "corporate image" track, C.N. rolled a new trademark into operation this week. Eventually, everything connected with the government-owned firm will be redesigned, from hotel bellhops' uniforms to the color scheme for freight sheds. Toronto designer Allan Fleming designed the new C.N. trademark.

## 4-H Clothing club holds meeting

Vera Lawson was hostess for the first 4-H Clothing Club meeting in the New Year. The members brought the sewing kits which they had completed, and also their homemade cold cream.

Mrs Scott showed the girls how to assemble the dressing cape which is to be their next project. Charles Jacobson gave a demonstration on "Good Posture." She showed the correct form of walking, sitting and standing

Lunch was served by the hostess assisted by her sister Irene.

The next meeting will be held at the home of Barbara McGinnis on January 16th.

THE CREEKS HAD A WORD FOR THIS TOO

It was Archimedes who said "give me a lever long enough and a fulcrum strong enough and single handed I can move the world." It is a good thing to know in one things ever got that bad!

With devices like the lever, primitive man multiplied his power of his own muscles. Today he puts other energy sources to work.

Only a small fraction of work in Canada is done by man's muscles—the rest is done by machines. Oil to power these machines and to fill other energy needs has been made available by companies like Imperial at reasonable prices wherever it is needed. Because of this, Canadians have turned to oil for more than half their energy requirements—they use it at the rate of more than 1,000,000 gallons an hour.

IMPERIAL OIL LIMITED
...for 50 years Canada's leading supplier of energy

## PLAY MONEY FOR REAL

This may be "play" money, but it's good legal tender in France. The new, issued 500 franc (£100) bank note bearing a likeness of 17th century dramatist Jean Baptiste Moliere shows a theatre audience in the background. As author of "The Miser" Moliere knew something about the subject of money.

## RYLEY LOCAL NEWS

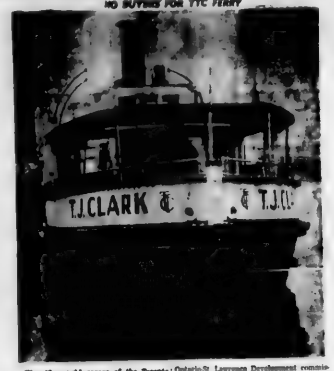
## NO BUYERS FOR TTC FERRY



The 62-year-old career of the Toronto Transportation commission freight ferry, T. J. Clark, came to a humiliating end recently. A total of 18 prospective buyers have returned to buy her at any price. The winter season.

Ontario-St Lawrence Development commission would not take her as a gift for the Morrisburg marine museum. So in a last resort the Toronto Drydock Co. bought the ferry for $1 for demolition during the slack winter season.

## Fashions

Delicate, flosty fabrics are ideal for the dreamy dance dresses beloved by pretty girls. And here is such a delight, a dress of silk organza, set in a soft pastel hue in sophisticated black or medium brown

Draping on the bodice is caught into a soft midriff, and the skirt, gathered all around, is finished with a deep hem.

For the brown dress, the silk rose is in tan shot with brown, and in soft pink for the black version.

## OF MANY THINGS

(By Ambrose Hills)

I suppose the submission of all nations try to sell their country and its good intentions to us; but [illegible] of all is done by the Netherlands Embassy in Ottawa.

About once a month they mail out a mimeographed booklet called "Feminine Vignettes," prepared by Justine Matthes, and it makes wonderful reading. Political thoughts are seldom inserted at all; but one winds up with the idea that Dutch folk are fun-loving, friendly, darn fine cooks, orderly but not too easily pushed around. Since I began reading these releases a few months ago, I've developed a great yen to visit the Netherlands, particularly around this time of year when St. Nicholas comes to Amsterdam, traffic is completely snarled up and the people set about having a thoroughly good time.

I am not likely to get to Amsterdam this Winter, but nevertheless I shall enjoy some Dutch food hereone Justine Matthes thoughtfully included a recipe for Pepernoten. (Pepernoten to you!) If you would care to try them for yourselves, here's a recipe: 1½ cups flour; 1½ cups self rising flour; ½ cup brown sugar, 2 tbsp. water; 1 egg yolk; ¼ tsp. each of cinnamon, nutmeg, powdered clover; some anise seeds; a pinch of salt. Knead all ingredients into a soft ball. Butter two baking sheets. Form about plenty balls the size of marbles. Divide them over the sheets so that they are placed at equal distances from one another. Flatten each ball slightly. Bake about 20 minutes in a moderate oven (350 degrees) or so it does.

Then hide them - or the youngsters will have them eaten up before you've a chance to taste them for yourself.

As I said, this is the best kind of propaganda - friendly and reassuring. One doesn't expect to be made war upon by a nation whose embassy takes time out to tell the people of the host country how to make Pepernoten; and one is bound to feel a friendly glow towards a people whose food - if this recipe is a fair sample - is so downright tasty!

## OUR DOLLAR LOWEST SINCE 1956

The Canadian dollar premium dropped to its lowest level in more than four years. The drop left $1 Canadian worth less than $1 U.S. The premium has dropped almost one and one-half cents since Finance Minister Fleming brought out his baby budget a week ago. Lowering of the premium was one of Mr Fleming's budget aims.

## PROTEST NUCLEAR ARMS RACE

Four hundred and fifty students from Canadian universities marched through Ottawa calling for complete Canadian withdrawal from all nuclear weapons development and testing. They had planned to present their petition to members of the government but there were none on hand to receive it so they presented a sheet of questions to an official of Government House.

## Post Office announces four new Postage Stamps

The subjects of four new postage stamps to be issued during the first six months of 1961 have been announced by the Postmaster General, the Hon. William Hamilton. All will be of the four-cent denomination.

The first issue, a large-size stamp in red and green, to be released on February 9th, will be a tribute to the development of Canada's Northland and the increasing activity there in recent years.

On March 10th, a special five-cent stamp will be issued to commemorate the centennial of the birth of Emily Pauline Johnson, Indian poetess. According to most authorities, Miss Johnson, a Mohawk, was born on March 10th, 1861, at "Chiefswood" on the Six Nations Indian Reservation in Ontario. She died on March 7th, 1913, at Vancouver after having made a unique contribution to Canadian letters.

In keeping with tradition, the late Rt Hon Arthur Meighen, a former Prime Minister of Canada, will be remembered in a special issue which will be released on April 19th Mr Meighen served two terms as Prime Minister from the 10th July, 1920 to the 29th December 1921 and from the 19th June, 1926 to the 25th September, 1926. Mr. Meighen died at Toronto on August 6th, 1960.

The 10th Anniversary of the Colombo Plan will be marked by a special stamp to be issued on June 30th. In time for the official Colombo Plan Anniversary is be celebrated on July 1st. Canada has participated actively and substantially in the fields of both capital and technical assistance to fellow Commonwealth Countries and more recently to other countries, under the terms of the Colombo Plan.

The Post Office Department has plans for other postage stamp issues which will appear in the 1st or part of the year, and these will be announced as soon as the subjects have been confirmed

## Fashions

The prints are starting to tickle in and what pretty prints they are!

This charming little day-into-evening dress is of pure silk in tones of blue or of red in a pretty paisley type pattern. It has an asymmetric half tunic in front and a small self bow at the side seam, and is completely silk-lined.

Looks lovely under fur and perfectly entrancing under moonlit resort skies

## TO THINK IT MIGHT HAVE ENDED LIKE THIS

Primitive man had it touch—most of the other animals were bigger and stronger. Fortunately, man had brains ... and a will ... or he might have ended up on the wrong side of the plow.

In the early days man competed with earth's other carnivores—today arms compete with other men to develop energy sources. In the process our standard of living has sky rocketed.

Competition has helped Canadians achieve one of the world's highest living standards. Take the way it works in the oil business—Imperial Oil and hundreds of other companies compete to supply Canadians with oil. As a result, oil is available at reasonable prices wherever it is needed — and Canadians have turned to oil for more than half their energy needs.

ESSO IMPERIAL OIL LIMITED
... for 85 years Canada's leading supplier of energy

WHAT IS C.A.C.?

C.A.C. is the Canadian Association of Consumers who work and speak for you — the Canadian Consumer.

C.A.C. is not a self appointed voice for the consumer. It is a National Organization created in 1947 by Canada's leading Women's Organizations to represent the Canadian Consumer.

C.A.C. is voluntary, non sectarian, and non-political.

WHAT DOES C.A.C. DO.

C.A.C. unites Canadian Consumers.

C.A.C informs consumers of what it should know for their protection and for wise buying.

C.A.C. discusses with Government Officials what laws are necessary in the interest of the consumer.

C.A.C. advises the manufacturer of the consumers' opinion with regard to his product.

HOW DOES C.A.C. FUNCTION

Through a National Office, National Board and Executive with a growing network of Provincial and Local C. A. C. Branches, through 17 National Women's organizations through Conferences with government trade industry and Agriculture through bulletins and other publications issued regularly to members through speeches by officers of C.A.C., press releases, radio talks, consumer fairs and consumer schools

C. A. C. SPENDS YOUR $1?? POINT — JOIN NOW!

Membership is open to every woman in Canada for an annual fee of $1.00. This gives membership locally, provincially and nationally, brings you several national and provincial C.A.C. Bulletins each year and adds your strength in that of other Canadian Consumers in "C.A.C." work. Send your fee to Mrs. J. O. Joyce, Box 1, 10th Avenue Edmonton, Alberta.

## Partial Minutes of School Committee Meeting

The County of Beaver No. 9 School Committee meeting was held on Tuesday, December 6, 1960.

Present were the Chairman, Cr. S.S. Starky, Cr. Reddick, Secretary-Treasurer, Gilmore, Wasylenko, Mr. A.M. Colin representing the Town of Viking, Mr. G.H. Arnett, representing the Town of Tofield, as well as the Superintendent of Schools, Mr. M.A. Pike.

The meeting was called to order at 10:15 a.m. by the Chairman.

MOVED that the minutes of the meeting, November 8th, be approved as written.

MOVED that the minutes of the meeting of the Rotary Negotiating Committee, November 8, be accepted as read. CARRIED

**Business Arising From The Minutes**

In regards to the drinking fountain at Viking School (resolution 227), Mr. Colin reported that it appeared that the present fountain was not sufficient. The Superintendent, Mr. Pike, stated that the teachers appear to feel that one fountain was sufficient, if it was placed in a different location, however, a double fountain would possibly relieve the situation to some extent and after some discussion it was MOVED that provision be made for the replacing of the single drinking fountain, which is located in the Junior High School section of the school, by a double fountain as quoted by Gotha Plumbing and Drilling. CARRIED

Correspondence from United Grain Growers Insurance Agencies Ltd. in regards to liability insurance on non-owned school buses was referred to the committee. The insurance agencies advised that a liability insurance policy on non-owned school buses covering $250,000.00 for one person settling bodily injury or death; and $50,000.00 for damage to property of others was available. On the estimated cost or hire of school buses of $100,000.00 the cost would be $171.50 a year. The Secretary advised as to the present insurance plan for the non-owned school buses and all the county owned buses the amounts in both cases being the minimum requirements. After some discussion, it was

MOVED that arrangements be made to have the amounts of insurance on both policies increased to the amount referred to in the letter from United Grain Growers Insurance Agencies Ltd. CARRIED

The proposed salary agreement with the County's teachers for the teaching year of 1960-61 as accepted by the teachers was placed before the committee and after the agreement had been discussed it was MOVED that we accept the agreement and authorize the County Chairman to execute the agreement on behalf of the school committee. CARRIED

Copy of letter forwarded to all school bus drivers in the County from the Secretary of Legislation at Lamont, impressing on them the fact that the regulations for all school buses carrying school children, must stop at railway crossings and that the drivers should fully open the door on the bus and listen for approaching trains, was referred to the Committee at this time.

MOVED that the number of the Secretary treasurer and Superintendent of Schools, in forwarding the above letter to the County's bus drivers be approved. CARRIED

The Superintendent of Schools advised that he had an architectural drawing for the school building and Ryley to locate a suitable building spot for the proposed additions for Industrial Arts and Home Economics. It appeared there was no difficulty as far as Viking was concerned but it was somewhat difficult to find a good location at Ryley. The architect was supposed to have plans and specifications 6 months cost ready by December 15th and this information would be forwarded to each member of the School Committee, so that they could look it over and form an opinion in time for the January 1961 meeting when the report to be accepted. CARRIED

The matter of individual differences of students in so far as was considered

## Ross Creek

ROSS CREEK — Our weather is too nice in this sunny Alberta to last for our spring and summer don't suffer for it.

A good representation was out last Monday evening to give a helping hand towards making the circles on the curling rink. Let's hope after all their effort it won't be in vain.

Sorry to hear John Bailey is hospitalized at the University Hospital. We are all sending our best wishes for a speedy recovery John.

Hi to Grant Casey! Do hope your calking at school wasn't too serious last week and you're all set again.

Mr. and Mrs. Bruce Kobzan and Mr. Wyman Osborne were supper guests with the Howard Malcolm family last Thursday. The special occasion was Mall's Dad's birthday - 73 years young. We sincerely hope you have many more happy birthdays, Mr. Kyston.

Mr. and Mrs. Jos Henry and family of Red Deer and Mr and Mrs. Paul Stadnick and family of Mundare were supper guests with the Peter Stadnick's a family gathering at the Howard Malcolm home.

The past Sunday Howard and Mall Malcolm and boys were supper guests at the George McLachlan home.

Sorry to hear Lawrence Kozlan was admitted to hospital for his operation and was in recently for another one. Let's hope this one proves very successful and you're feeling yourself once again, Lawrence.

"When you are younger you live to learn: when older you learn to live."

A little curling bonspiel at Vegreville last week was put on by the Massey-Harris Company, for farmers. The boys had some good curling but lost out in the prizes.

Hi to Isobel McLachlan and Theo Reinhardt. Hope you are lucky to get your quilts all quilted this week.

The Ross Creek United Church W.A. met at the home of Mrs. Ray Reinhardt with a very good representation on January 18th. Fourteen members were present and elected officers to serve on the W.A. this new year. We welcome Mrs. Mabel Hosier, Mrs. Rose Woytowich and Mrs. Clara Yaremkevich and say others Greeting short, pointer. Visitors otherwise were Margaret Bailey, Doris Schreiber, Lilly Vanderhirk, Anne Wells and Joan Sidebottom. It was decided to buy a Communion set with the Memorial funds. Beside Pederson was to send out and take care of this. Winnie McLachlan and Anne Wells were appointed to look after the Christmas Tree next year. Lunch was served by the hostess assisted by Mrs. Ray Reinhardt. Next meeting will be held at the home of Mrs. Bert Sidebottom on February 15th.

Mrs. Jack Johnson was a supper guest at the home of Mel and Ethel Wood Thursday evening last week.

Lenny and Shirley Bates and baby Margaret were Sunday afternoon visitors & supper guests at the home of Leroy's brother-in-law and Evelyn Bates in Tofield.

Mrs. Bateson, mother of Mrs. Ethel Wood, left on Saturday evening for Ottawa where she will visit her son Douglas Bateson and family.

Mrs. Marie Bartholomew accompanied the Charles Roberges to Wainwright on Tuesday to visit Jane and Mart Englesman & family.

Allen and Joan Warner entertained Allen's parents John and Alice Warner of Tofield and his brother John Jr and Irene Warner at a birthday dinner on Tuesday in honor of their father John Warner. A belated happy birthday to you.

John and Irene Warner and Allen and Joan Sunday evening visitors and supper guests at the home of Irene's sister, Alice and Ralph Casey of Ross Creek.

Albert and Doris Jacobsen and little daughter Margaret of Edmonton were Sunday dinner guests at the home of Mel and Ethel Wood.

Mavis and Carl Jacobsen and family and Hevie's father Mr. Julius Jacobsen of Edmonton were Sunday visitors and dinner guests at the home of Mrs. Nettie Moen at Camrose.

Pete and Robert Gosbehlt were Sunday forenoon callers at the home of Mel and Ethel Wood.

Emily and Bruce Roberts of Edmonton were Sunday afternoon coffee guests at the home of Emily's sister Mickey and Charlie Niemann.

Violet and Neil Bailey and family were Monday afternoon visitors and coffee guests at the home of Vernon and Kay Wilson.

Loretta Ferguson was a Tuesday evening visitor at the home of her aunt Mickey and Charlie Niemann.

Lenny and Shirley Bates and baby Margie were Edmonton visitors on Monday and were supper guests at the home of their [illegible] Mr. [illegible] Monday.

Albert and Doris Jacobsen and little daughter Margaret of Edmonton were Sunday supper guests at the home of John and Mary Wood.

Margie and George Abernathy were Sunday evening visitors at the home of Margie's brother John and Mary Wood.

Ronnie and Barbara Goeglein entertained Allie and Verlyn Woodbine and Evelyn Moore and Harold and Irene Stob and children at supper on Tuesday evening and at bridge afterwards. An enjoyable evening was spent by all.

Mel Myers of Black Diamond, formerly of the Lakeshore district of Tofield, passed away on Saturday. The funeral was held on Monday from Tessler Mortuary of all the district goes to all the members of his family.

## Lakeshore - McKenzie News Items

The Beaver Lake Mutual Telephone Company will hold their annual meeting at 2 p.m. on Saturday, January 28th in the meeting room of the Tofield Community Hall. Please try to attend.

Ricky George Bailey, son of Neil and Violet Bailey was taken to the Tofield Hospital on Thursday of last week suffering a severe cold and is at present time still in hospital. We wish him a speedy recovery and hope he can be back home soon.

Penny Nienstedt was a patient in the hospital from Sunday to Tuesday with a foot infection.

Mrs. Ruth Whitehurst spent Monday overnight and Tuesday with Mrs. Kobzan and served a delicious lunch.

The young folk had a good time Friday evening on the curling rink before the ice cut heavy Graham Schneider and Isabel McLachlan were the coaches. They were to play Saturday at Chipman but due to the mild weather had to cancel those plans. Better luck yet!

The past Sunday Joseph and Isabel visited Grandma McLachlan taking in the service of Mr. Manning at the Paramount Theatre.

Grandpa McLachlan is visiting relatives in the city.

The Robert Clesses and Andy were supper guests Sunday with Dennis and Kenneth, visiting Carol McLachlan and the other patients still in hospital. Dennis and Velma drove out on Monday, calling in on their way to visit Carol and take her flowers.

To have a happy life is to do as you like, but as you would like to do.

Hi to Anne and Lloyd Wells. We were sorry to hear that you are soon leaving the district. Other residents join in the Hi's. Hope your new move will be a happy and successful one.

Mrs. Isobel Halliday, Mrs. Isobel McLachlan and Mrs. Bessie Pederson attended a church board meeting at Lamont Sunday evening. After the meeting Mrs. Dobson invited them over for coffee.

A pot luck supper is planned and a Congregational Meeting for Sunday, January 29th, at Lamont. It is hoped many of the Ross Creek folk will come out. The Ross Creek Athletic Club hopes to have an opening night on the 27th, 28th and 29th. We hope it will be a successful one with the weatherman most cooperative.

## PIRATE GOLD IN OUR DOLLAR'S FAMILY TREE

No one knows for sure, but our modern dollar sign, $, is believed to have originated with the figure 8 stamped on "pieces of eight" which Long John Silver and others of his breed coveted as they scourged the seas in bygone days.

Whether this is a tall tale or a true one, we do know that the $ sign was in use in the United States before the introduction of federal currency and before our own decimal monetary system began in 1853.

But more interesting to most of us than the $ sign itself, are the figures that come after it, especially if these figures are in a savings account passbook from the Bank of Montreal. It's quite a thrill to watch them grow and grow as we save regularly, interest payments of two and three-quarters percent also help to swell the amount.

It makes sense to save regularly at the B of M and it makes for success in life, too.

To start your own "success fund," visit the Tofield branch of the Bank of Montreal soon. Bilow Fahlenbrach, the accountant there, will show you how easy it is to open a B of M Savings Account. It takes just three minutes and one dollar to start.

WORLD'S FIRST FUEL DELIVERY
The first man who picks up a burning faggot and carried it to his own fireplace was the delivery of fuel. A bit unreliable, perhaps, but it was a step in the right direction.
Man has taken many steps forward since then. One of the greatest was when he learned to use oil.
Because oil products have been made available at reasonable prices even where in Canada oil heats more than half our homes. And speaking of reasonable prices—over the past 10 years the price Imperial receives for home heating oil has risen far less than the cost of other things —only one-third as much as the general cost of living.

## Local F. W.U.A. group has good year in 1960

(Submitted by the Farm Women's Union of Alberta, Tofield Sub-Local)

From time to time the members of the FWUA are asked questions concerning the ways in which their money is spent. While the group is not primarily a money making organization, there is money raised in various ways.

The Coop Store's annual meeting serving for the Farmers Banquet, and sometimes catering to weddings or dinners within the association.

In this money was spent in the following ways Since we had sent the Community Hall and noticed a shortage of dishes, serving bowls and spoons were bought. A donation, ($4.20) One hundred dollars was donated to the Community League in March.

A timely donation of ten dollars is given yearly to the Cancer Society in addition to canvassing dons and donations made by individual members.

Twenty-five dollars was used to buy a chair and other items for a refugee family in Tofield. Twenty dollars was donated to the Tofield Library Smaller donations had been made in the past

It was voted to use twenty dollars to help with a covered skating rink for the children, but was turned in to help operate the open air rink

Ten dollars was sent to the Mental Health Association for the Christmas Seamar Fund for patients at Oliver Mental Institute.

Besides these donations there are gifts, flowers, and fruit etc. gifts to the CNIB, T.B. Fund, for our members in hospital, collection of articles for the Salvation Army and knitted bedsocks donating to the local hospital

Quoting Franklin D Roosevelt, "If civilization is to survive, we must cultivate the science of human relationships - the ability of all peoples, of all kinds, to live together, in the same world, at peace."

## Viking Wins Legion Zone Curling Playdowns

The Legion zone playdowns were held in Tofield's new Curling rink on Sunday afternoon. Four teams were competing for the right to represent this zone in the competition in the first stage Viking took out Edgerton while Wainwright edged past Tofield in the second draw Viking stopped Wainwright and Edgerton downed the local team. In the final Viking made it 3 in a row by stopping Tofield, thereby winning the right to represent this zone in the Alberta playoffs Meanwhile Edgerton stopped Wainwright. The Viking team was a powerhouse and exhibiting good shots and a very good brand of curling With one change it is the same team that won the Canadian championship a few years ago. All curlers from out of town expressed satisfaction with Tofield's new curling rink and the facilities provided.

## Former Local Girl Married in U.S.

Mr. and Mrs. J. Yakabuski and son David have returned home after attending the wedding of their daughter, Betty Yakabuski and Robert Lee Conner, of Denver, Colorado, on January 14th in San Francisco. Miss Lin Severson, a classmate of Betty, while in training at Mac Eitn General Hospital, graciously loaned the Yakabuski's on their trip and was one of the attendants at the wedding.

Robert and Betty will make their home in Denver, Colorado where the groom is employed by an Insurance Company.

While away, Mr. and Mrs. Yakabuski David and Liz, visited Cleveland and Las Vegas

## Hereford Club to Meet in Camrose

The Northern Alberta Hereford Club will hold its annual dinner meeting at the Moose Hall in Camrose on February 1, 1961. Hosts at this time will be the Camrose Chamber of Commerce.

The showing of a special film which was produced at the Canadian Breeding Centennial Show during the Canadian National Exhibition will be of interest to all. Club President Jack Cross of Vermilion will be in the chair when the past year's activities are reviewed and plans made for 1961.

## Curling Meeting on Tuesday

There will be an open meeting at the Curling Rink on Tuesday, January 31, 1961 at 7:30 p.m. All curlers are urged to attend and all members of the Community are inviting to the meeting If you have not been down to the new curling rink yet, this would be a good time to do so, and at the same time, find out what the club is doing now the new rink, and enjoy a good game of curling.

## To Show Films Here Sunday

Everett Earl Duncan, lecturer on Wonders of the Bible and Astronomy, will present a free, illustrated sermon lecture on the stars titled, "TODAY'S AMAZING UNIVERSE," this Sunday afternoon, January 29, at 3 p.m., at the Tofield Community Centre

A keen student of astronomy, Mr Duncan has written extensively on the stars, and has visited many of the major observatories in Canada, and the United States Lecturing on and down the Pacific Coast and to Western Canada, he has possibly one of the finest collections of astronomical pictures anywhere in the world which were photographed through the famous Mount Wilson 100-inch Hooker, and Mount Palomar 200-inch, telescope. The Palomar mirror is the world's largest optical "eye."

In his opening lecture, Mr. Duncan will present a panoramic sweep of our own solar system: beauty spots in our Milky Way, and picked photos of true outer space. The question "Are Other Worlds Inhabited?" will be answered in a later lecture.

Tuesday Sunday afternoon's star-sermon, Mr Duncan will show the popular Moody Institute of Science full-color film "Hidden Treasures." The program is free and starts promptly at 3 p.m

## Report Seeing Bright Object in the Sky

Two eye-witness reports of the object which was seen over Alberta Sunday evening have been reported to the Mercury

Mr Tom Yakubeski reported to the Mercury that he and Archie Dunsberry saw a very bright object coming down from the sky on Sunday evening last at about 8:30. It had what appeared to them to be a polished coneshe nose, and an overall length of about twenty feet. The center of the object bulged to more than three or four feet. Its tail, estimated at about sixty ft. in length, emitted showers of sparks which looked as large as big bees eyes As near as they could tell the object fell to earth somewhere west of Mundare Alberta.

Mr Dave Heidebrecht was driving about four miles south of Lindbrook Hall when he sighted a flaming object crash to earth at a terrific speed and estimated approximately the same description as Mr Yakubeski Mr. Heidebrecht estimated it landed about three miles further south-west

The following report was received from the Journal [illegible] Observatory in Edmonton

"On Saturday evening [illegible] Alberta since one fell near Fredericks [illegible] Mr. [illegible] sighted in the [illegible] on Sunday night.

"It is the only fireball that we may have struck the earth in southern Alberta for [illegible] which time it would appear to be fairly large as fireballs go."

Mr. McLennan, director of the Edmonton planetarium said the meteor appeared [illegible] at this time as bright as Venus, the brightest of the planets now visible."

He said reports from Calgary where the meteor was also seen, should be heard Monday for information from persons who saw it further south is still sought Reports may be telephoned to planetarium officials at GI 54119.

The object appeared here travelling from the east to the southwest and was seen by observers in Lethbridge, Pincher Creek and Great Falls, Montana.

Further radio and press reports long us to believe the object sighted was part of the American satellite explorer, which is believed to have disintegrated and burned in the atmosphere.

## Ryley I.O.O.F. Lodge celebrates 50th anniversary

On Tuesday evening, January 24, the Ryley I.O.O.F. Lodge No. 75 held its 50th anniversary celebration with a turkey supper. Lodge members with their wives, members of Cavell Rebecca Lodge No. 56, and several members of the Rebecca and Oddfellow Lodges from Camrose as well as the Grand Master, the Past Grand Master, the District Deputy and Past District Deputy attended.

After supper Howard Pratt, Noble Grand Master of Ryley Lodge, spoke a few words of welcome, followed by Mrs. Conrad Patterson who brought congratulations from the Rebecca Lodge and presented a bouquet of cut flowers for the head table. Mr. Pratt then introduced Grand Master Hillier who congratulated the Ryley Lodge and then called on Mr. Hans Hillerud to whom he presented a 50-year Jewel. He asked Mrs. Hillerud to pin the jewel on her husband.

Following a few words by District Deputy Roy Cameron, Mr. J.L. Hay explained that he had turned the task of Historian over to Mr. Henry Hill who gave the following history of the Ryley Lodge:

On January 20, 1911 the Ryley I.O.O.F. Lodge was formed. The old "Secrets" Hall owned by R.A. Peterson was used as a meeting place. Jim Tulley was the provincial organizer at the time, and installation of officers and initiation of members were carried out by Grand Master W.G. Sheen, Grand Secretary, J.E. Tisdale and Members from Holden who were already Oddfellows. Dr. J.L. McPherson was the first Noble Grand followed with a term by Mr. J.L. Hay was the first Vice-Grand.

Charter members were: Sam Lane Sr., Hugh Burger, J.L. Hay, Wm. Bolton, Mr. Shupe Sr., and Rev. W.F. Gould who were already Oddfellows; and W.G. Pepper, M. Solberg, Earl Ferguson, V.F. Anderson, A.J. Thorsley, H.J. Hill, C.L. Adams, J.H. Lane, W. Eastman, H.B. Hillerud, P.P. Kjosness, W. McGrath, Hjelmer Kjosness, J.S. Kavanaugh, C.M. Nelson, B.F. Johnson, H.O. Busby, J. Ormanson, P.N. Kjosness, T. Umphrey, R.W. Vergette, L.H. Archer and A.E. Kjosness, who were initiated on that night

After Mr. Hill finished giving the Lodge history the tables were cleared and a projector set up to show slides of the Junior Lodge Camp at Jasper.

An album containing pictures and a short write-up on each Noble Grand of the Ryley Lodge since 1911, was passed around

It was a most enjoyable evening for the approximately one hundred persons present.

## U.S. PRAISES BRUCE KIDD VICTORY

Bruce Kidd, 17-year-old Toronto schoolboy, has been praised by U.S. track coaches and officials. Bruce astounded the experts by winning the two-mile event at the Knights of Columbus indoor meet at Boston in 8:49.2. Kidd is expected to be flooded with offers to compete in top track events. His time is a Boston Garden record and was only 3.2 seconds shy of the U.S. indoor mark of 8:46.

CALGARY POWER LTD.
SERVING THE PROVINCE OF ALBERTA

When the first settlers came to Alberta, they had no idea that electricity would someday be carried for hundreds of miles. The first hydro developments were small water-wheel plants to serve individual operations. One of these was the old Calgary Water Power Plant on the Bow River just west of Calgary's Centre Street bridge.

Over the years Calgary Power has grown with Alberta, developing power to serve Alberta towns, farms and industries. The Bow River hydro power system in southwestern Alberta, strengthened by storage developments, permits the careful use and re-use of all available water and is assisting in meeting the future power needs of Alberta — Canada's "Province of Opportunity!"

## Alberta Receives Largest Share Of Winter Works

Alberta will receive the largest share — $1,634,350 — of the winter work program announced for national parks and national historic parks by Resources Minister Walter Dinsdale. These projects will provide winter employment for an estimated 787 men. Of this, $1,627,000 will be used mainly for road construction in Jasper National Park, Banff National Park received $250,000; Elk Island, $187,650; Waterton Lakes, $147,400. The money will be used for various construction and general maintenance projects during the winter with all work ending March 31, 1961

## It Pays To Be Critical

There's nothing wrong with taking a critical view of such things as habit, custom and even tradition when such a critical viewpoint stands to help mankind. Frequently, too, departure from long standing deep rooted practice or custom can benefit the people whom it is intended to benefit.

That is the principle, and it's a thoroughly good and sound principle, behind the "Do It Now" campaign under way across Canada.

It was not so long ago that spring and summer were considered to be the only times for building, renovation and decoration in business premises and homes. And there are all sorts of other jobs which used to be put off till spring such as dry cleaning and the maintenance and repair of equipment like power mowers, outboard motors or automobiles.

The winter employment campaign committee has taken a critical view of old time tradition and habit which dictated putting off such things to the spring and summer, and is appealing to all citizens to do likewise.

And this appeal is beginning to bring results.

It is becoming apparent that the number of projects being tackled in spite of cold weather is increasing every winter. More and more houses are being built in the winter months and it is no longer an odd sight to see carpenters, bricklayers and roofers working in sub-zero weather behind protective plastic film and canvas structures. At present there are eight new homes under construction in Tofield.

Large scale construction projects such as our new post office are continuing without letup even in the type of weather that would send an Eskimo scurrying for shelter.

Local merchants are doing the proper thing in inviting the citizens of the area to also be critical of outmoded habit, custom and tradition and to carry out this winter all of those projects usually held over to the spring and summer. More winter employment means more pay cheques - and a more prosperous community.

## A Little Encouragement

Members of the Tofield Community League received a bit of encouragement recently when it was announced that a Drama Festival would be held in Tofield the latter part of March. Tofield was chosen as the site for the Festival because it is the only town hereabouts with a hall that can accommodate such an affair. This alone should be proof to the members of the League that their efforts in providing the town and district with such a fine hall have been worth while.

The League has been criticized at times for some of its policies, but that is as it should be in a democratic community. Constructive criticism is good and not only strengthens but improves. However, if at times the members of the League have felt that they were going it alone, this one announcement should help them realize that their efforts have played a valuable part in the recognition of the town. It is evident that Tofield is being recognized as a progressive town; that it is going ahead, and is both able and willing to support a Drama Festival.

This is the first time that the town has been chosen as the centre for an activity that will bring people from a large area and it is only reasonable to expect that as more and more people come to Tofield they will realize that it is a progressive town and word will spread thereby causing more and more activities to be staged here.

## Holy Trinity Parish Holds Annual Meeting

The annual parish meeting of Holy Trinity Anglican Church was held in the Community Hall commencing with a pot luck supper. Following the supper, which was well attended, a skit, "The Vicar's First Visit," was ably and humorously presented by Mrs. Prosbury, Mrs. McKay and Mrs. Thaxill.

Annual reports showed parish obligations met in full, with substantial balances remaining in organization funds. The budget presented by the People's Warden, Mr. John Thomson, provides for twenty-five percent increase over 1960, was accepted. This included a 40 percent increase in Diocesan Apportionment.

The Minister's report, illustrating by fifty charts, gave a graphic picture of all Departments of the parish life.

The meeting heard with regret, the resignation of Mrs. J.W. Robinson, for many years Sunday School Superintendent and appreciation was voiced for her great contribution to the life of the parish.

Officers for the coming year are: Rectors' Warden, Mr. Wm. Lancaster; People's Warden, Mr. John Thomson; Vestry, Mesdames Flavin, Perram, Bailey, Noland, Messrs. Robinson, Kyle, Tearoff, Echols. Delegates to Synod, Messrs. Lancaster and [illegible]. Alternate delegate O. T. Kyle.

PROCLAMATION

## Town of Tofield

By VIRTUE of the authority vested in me, I earnestly request the wholehearted co-operation of all citizens of our community in the Winter Employment Campaign to eliminate seasonal unemployment.

There are many jobs which you, as a householder or business man, can have done this winter which will provide employment for many hundreds of our citizens.

I hereby proclaim the period from 4 of January to 31 March as the Winter Employment Campaign "DO IT NOW" period during which renovation, decoration, construction, and major purchases should be carried out.

DON'T WAIT TILL SPRING, DO IT NOW.

Signed
DR. W. H. FREEBURY
Mayor, Town of Tofield

## Major Expenses Can Be Reduced If Repairs are Done During Winter

Why do Canadians traditionally put off until spring many operations that could as well be completed during the winter months?

There are a number of reasons.

The man who intends to repair or improve his home, for example, waits until spring because he does not believe it is possible to do the job in the winter; or because he thinks it will be too cold for men to work.

But perhaps the most common reason is "force habit." Every homeowner who operates in this fashion is doing an injustice to himself and his investment.

Like everything else a house has a normal rate of deterioration which can be retarded only if proper maintenance is carried out. The homeowner who develops the habit of watching the points where trouble is most likely to occur protects his investment by checking the normal rate of deterioration.

By having repairs done in the winter he reserves himself the highest possible return should he wish to sell his home in the spring.

By having minor repairs completed when they appear he prevents them developing into major repairs requiring the outlay of an increased amount of money.

Small repairs can certainly be done more quickly in the winter when there is a surplus of tradesmen seeking employment.

Another reason which should appeal to all good citizens is that he provides employment for skilled craftsmen when it is needed most and in so doing decreases community welfare costs.

No matter how carefully a contractor builds a house certain minor defects can be expected to appear while the house is comparatively new. Normal settling can cause plaster hairline cracks and sticking doors and windows. Damp basements can be caused by foundation cracks. Minimal drain tiles or condensation caused by moisture entering and condensing on cold wall surfaces or water [illegible].

But whether the defect is a minor one or has developed into a major repair job the homeowner should call upon skilled tradesmen to carry out repairs as soon as possible.

And the best time to have these repairs attended to is during the winter. Skilled tradesmen are available, material is in plentiful supply and the providing of winter work reduces community welfare costs. Which come out of the pockets of the homeowners in this community.

There is yet another winter employment which is often forgotten and that is repairs to farm equipment. This is an item which should never be put off till spring when delays cost real money.

Don't Wait For Spring. DO IT NOW!

## Construction Industry Enjoys Boom in Tofield

Tofield currently has a building construction industry, and that is supplying work for quite a number of workmen. At the present time an estimated amount of new [illegible] worth of construction is being carried on in the town itself. This is new construction and does not include renovations to existing property. This amount of new construction in a healthy increase for the town, when you stop and consider that it is in the winter that this work is being done.

Under the Federal Government winter works programs a new post office is under construction on Main Street, Watson (Tofield) Limited have two N. H. A. display homes under construction as well as three other homes in various stages or completion.

### More Work Being Done in The Winter

WINTER WORK RATE DOUBLES ... Canadian communities are going for the federal winter works programs at more than twice last season's rate, reports Don Peacock in the Financial Post. With Quebec municipalities far in the forefront, the total number participating as of December 16 was 1,875 - more than double last season's 781. Spending on the program has doubled, to $100.9 million so far this season.

Labor Department officials say applications have swelled the amount of projects now being [illegible]. If the figure rises to 6,000 as expected, total spending could top $200 million - involving the number of men hired to 100,000.

This will be brought about to a large degree because of the new small b[illegible] loans which are currently available for the expansion of small businesses.

The Do it Now Campaign recently sponsored by the Federal Government to aid winter employment can be applied not only to the construction industry but to the repairing of tractors and farm machinery etc. Too often these items are neglected until they are needed and then costly delays result as well as a large degree hardship. It is up to every individual to see that he does not become [illegible] the winter months.

There are many methods open to suitable there are so many things that can be done in the winter that previously were only thought of as summer jobs.

If you are planning some renovations around your place this summer, WHY NOT DO IT NOW?

You'll save important dollars if you have your work done now. It stands to reason that prices are lower during the winter months. When the spring rush comes the demand for men and material rises sharply and costs do also.

## Agricultural Service Board Notes

Regarding our demonstration plots of Avadex, Carbyne and 2nd Fertilizer we have received yield results from the Department of Agriculture which indicate the following figures:

Avadex at 2 lb. rate, the yield was, wild oats 2.7. Barley 31.5 bu. per acre. Avadex at 4 lbs. to the acre yielded 1.5 wild oats and 32.7 bu. barley. With no treatment the yield was 9.4 wild oats and 19 bu. per acre barley. Carbyne at 4 lbs. per acre yielded 1.3 wild oats and 34.3 bu. of barley per acre. Carbyne at 1 lb. yielded 1.1 wild oat and 32.1 bu. of barley per acre.

Fertilizer 11-48-0, at 120 lb. rate on summerfallow, the yield was 32.3 bu. of wheat per acre. Fertilizer 27-14-0, at 100 lb. rate yielded 33.7 bu. of wheat per acre. Check plots beside 11-48-0 plot with no fertilizer yielded 15.4 bu. of wheat per acre, and another comparative plot with the 27-14-0 fertilizer with no fertilizer yielded 26.6 bu. of wheat per acre.

The above figures are factual and represent demonstrations in our own district during the past year. It should be understood that the high rate of 4 lb. of Carbyne was used for demonstration purposes only and is not a recommended rate.

Both wild oat control chemicals gave good results and we hope to make further trials this year with Avadex and Carbyne. Farmers who are interested in using these chemicals this year are requested to see Evelyn Smith for details regarding rates, proper timing, growth stages and application techniques.

Twelve fertilizer plots were put out last year, including 8 trials of nitrogen on hay land, 1 plot of heavy application on pasture that was sprayed for weeds the previous year and 2 plots of different fertilizers were used where heavy stubble was plowed or tilled under.

Field Supervisor

NO FAIRY GODMOTHERS NEED APPLY FOR JOB

Everyone has his own special dream - a place in the country, a trip back home, college for the boy. But, for many people it's just plain hopeless.

But there's no magic involved to make your particular dream come true. You don't need a fairy godmother to do it - just a little determination.

Simply plan to set aside part of your income in a Bank of Montreal Savings account. Do it regularly, and watch the balance grow. Watch the B of M's two and three-quarters percent interest help swell the amount too.

Regularity is the secret, as hundreds of thousands of the B of M's more than two million customers know. They save as much as they can spare each pay-day, and their dreams are turning into reality.

Ask Horace Sefler, Manager of the Tofield Branch of the Bank of Montreal about it. He'll show you how easy it is - and how profitable - to open a savings account. See him soon!

## Winter Work In Tofield

Above picture shows the new Federal Post Office which is under construction in Tofield under the Winter Works Program. It is expected the building will be completed by the end of March.

Below shows a row of new homes currently under construction on Seventh Avenue. The house in the foreground is one of the two N.H.A. display homes being built by Watson (Tofield) Limited. Next is the new home of Mr. and Mrs. George Heidebrecht, occupied since mid-December, and background shows is the home of Mrs. Marie Worton.

*Editors Notes We had planned to include these pictures in last week's Do-It-Now edition but the pictures did not arrive from the engravers in time.*

## Dr. Hen Chai Starts practice in Tofield

We are pleased to extend the hand of welcome to Dr. and Mrs. Ken Chai who arrived in Tofield from Calgary Tuesday evening. They have taken up residence in the suite in the home of Mr. Marvin Worton on Seventh Avenue.

Dr. Chai came to Canada from Korea five years ago and during that time has practised medicine in Alberta. He is an interpreter for McMahon Alberta Hospital and a graduate of Edmonton's University. Hospital officials where Dr. Chai came from since, Ontario.

The following item was clipped from a recent issue of the Calgary Herald but being a story given by Dr. Chai to the young peoples' organization of the church.

Dr. Chai, 31, who recently became the second Korean-born doctor in Canada to receive his license to practise remembers his homeland as a battleground for all of the 28 years he spent there.

He was born in a small town 70 miles south of Seoul, the city that later became the centre of a world conflict.

Korea was at peace in the years following the Second World war. But to the north, Koreans were learning a doctrine called communism.

The republic's proximity to the Soviet promised many Koreans to attend school in the South. One of these students became the leader of the north-Korean China.

The Chais, raising the South Korean flag, moved to Seoul on the mainland. In June 25, 1950 and occupied the capital. Dr. Chai was a student at the time, a year from graduation.

"The students and professors at the medical school were ordered to come to the assembly square and were told the would be shot and as this helped the would-be soldiers of the northern army."

And so began almost a year of travel for the young medical student. They were ordered in North Korean uniform and given medical kits but none were allowed to carry guns. They were called the "medical army."

The sad events moved up to the battle line at Taejon near the southern tip of Korea, to work as medics in the field hospitals and tend the wounded.

The North Koreans had pushed down to within a few miles of the port city of Pusan, where they took up position in the hills. It was here that Chai had his chance to escape.

He left the hills of Pusan and made his way to his home, where he found his mother with one of his brothers. Another brother had been taken away to prison where he later was shot along with thousands of his countrymen.

Medical student Chai then joined the southern army in Pusan as a medic. The conflict settled. He resumed his studies at the medical school in Seoul, until he was able to come to Canada in 1955 to intern at the Alberta Provincial Hospital in Lamont and the Colonel Belcher Hospital in Calgary.

Dr. Chai then commenced Chinese and his wife Sh-hee have much to look forward to in 1961. There are expected to be the first child and for Chai has difficulties in his future in Tofield. He plans to open the Medical Clinic and will work in association with Dr. Prebury and Dr. Price.

## United Church Members Hold Annual Meeting

There was a good turnout at the United Church annual meeting held in the church on Wednesday evening of last week. The minister, Mr. Bruce McNeill was chairman. Mr. Charlie Seary recorded the minutes and Mr. H. Ridley read the treasurer's report. The annual reports of all organizations were before the members in printed form which facilitated the business greatly. A potluck supper preceded the meeting.

# Civil Defence Planning Committee set up in Tofield

(Continued from page 1)

well as were personnel to head these departments.

Tofield must be prepared for two types of emergencies. In the event that Edmonton is the target, as it could be, Tofield and the area must be prepared to take in and care for many evacuees, to the extent of doubling our population. Emergency hospitals must be set up and care for radiation casualties.

Should the authorities decide that Tofield must be evacuated, we must be so organized that the evacuation would proceed in a swift, orderly, efficient manner.

There is a third type of emergency for which any town should be prepared. In case of a serious accident involving many as the Lac-mi-train-bac collision the town should be so organized and so equipped that efficient rescue action could take place at once. It is to Lamont's everlasting credit that it was so organized and so equipped that in a matter of minutes the injured were being cared for.

The town of Tofield has made plans for the accident type of emergency. Mrs. Forbes has secured the services of eight members of station wagons. For these stretchers have been built. Various organizations are being asked for donations of blankets to equip the stretchers. The Tofield hospital has a plan for surplus with a sudden influx of patients. In the event of the hospital's emergency capacity being overtaxed hospitals can be set up.

When the Tofield disaster plan has been approved by Civil Defence Headquarters, it will be published in The Mercury. In the meantime Mr. Boyles who has taken the radiation monitoring instructor's course at Ardrossan instructs tools that the residents of the Tofield area should know the following facts about radiation.

When an atomic bomb explodes in the air particles of the bomb remains of the fissionable material are carried into the atmosphere in the column of smoke and gas and cloud, which is gradually thinned out and carried away in the direction of the prevailing wind. From an airburst explosion, the hazard to humans is never very likely to be harmful because the particles are so widely dispersed and because enough material is so long delayed that it has largely lost its power.

In a surface burst, a fallout problem is created. Many tons of earth will be sucked up into the atmosphere. This material is to be highly radioactive. The heavier particles will fall out quickly while particles will be carried in the direction of the prevailing wind and will be deposited over a fairly wide area. The amount of the deposit depends on the amount of fallout deposited over a given area and this is much more dependent on the closeness of the burst in relation to the ground, than on the power of the bomb.

The cloud reaches a height of some ten miles in something like twelve minutes. The upper air winds take the mushroom shaped cloud and distort it downwind. The earth particles which are now radioactive tend to fall out from behind the cloud while it moves in a downwind direction. It is estimated that 50 percent of the radioactive debris or dirt will be deposited on the earth again inside of 24 hours. The result with the maximum radio activity will probably be deposited in the first three hours.

Fallout contaminates ground, persons and equipment on which it settles, by continuing to emit harmful gamma and beta rays until its activity decays in the natural course of time. This danger is not restricted to the area of blast and fire damage alone, but is harmful to unprotected people, at very great distances from the area of explosion. Fallout radiation has been penetrating effect than immediate radiation.

Because the risk is mainly from radiation emmitted from fallout lying on the ground and on the roofs of buildings, a considerable degree of protection can be obtained if people remain indoors under cover until the activity has decayed to a safe level. The larger the building and the thicker its walls, the greater is the degree of protection.

Radiation exposure may be controlled by:

(a) detection and measurement of radioactivity to enable safe working times to be estimated.

(b) avoidance of heavily contaminated areas until the activity has decayed

(c) checking on personal doses accumulated.

(d) use of suitable clothing & equipment.

(e) personal clean-ing and decontamination of essential clothing and equipment.

It is proposed to conduct a course on radiation monitoring in Tofield later this winter. Interested persons would have great responsibility in case of an atomic bomb burst. They would:

1. Take radiation intensity readings at strategic points within the county and report these readings to CD headquarters.

2. Be able to read and understand Radiac Calculators and report rate of radiation decay.

3. Detect and know the radiation tolerances of food and water supplies; those tolerances apply to livestock feeding as well.

4. Know the meaning of CD headquarters' fallout message figures, which indicate direction and distance of expected fallout.

5. Plot fallout areas in the county from radiation intensities taken from survey instruments.

With the increasing prosperity consumption of meats and dairy products, including eggs, has risen in Canada. This circumstance is now believed to be a contributing cause for the increase in heart disease in Canada.

Alexis Shevchenko, Toronto, lends two lives. In one he is the Very Rev. Alexis Shevchenko, priest of St. Sava's church, in the Serbian Eastern Orthodox Diocese of the USA and Canada. In the other, he is simply Alex Shevchenko, $1.50-an-hour laborer on a 9-5, TV assembly line. The devout priest has refused a salary from his parishioners since they brought him from Lethbridge, Alta., in 1953. "Most of my people are poor people," he says, and not until the last nickel is paid off the church will he allow his flock to support him. Father Shevchenko is pictured at left at his factory job and at right at his church.

## PRIEST LEADS TWO LIVES

## OF · MANY · THINGS

(By Ambrose Hilbert)

There is no general understanding of how unemployment hurts the economy. Too many people believe that the only ones hurt are those who are out of a job.

Recently the owner of a furniture store pointed out how unemployment affects the buying of many others. "It's not the ones get laid off that affect me most. He said, "it's the three or four neighbors who quit buying when one guy gets dropped.

Another said, 'With the politicos shopping a business crash and that Russian hammering on the table with his shoe, how can anyone think of farmers?"

Unemployment in Canada's most serious problem for the very reasons outlined by those worried furniture dealers. Aside from the suffering of the individual laid off, there is the lack of confidence terms lay-offs prompt.

The solution to unemployment is not nearly as complicated as is generally thought.

Get business booming again and unemployment will disappear. Business cannot boom when products must be priced too high and prices cannot come down while wages and taxes go up.

Some political courage is going to be required. Wage rates must be held in check. Tax rates must not go up — indeed, there ought to be massive reductions. Social services should be reduced or held at their present level. Business should be encouraged to further automation and streamlining. Whatever is required to make Canadian products competitive in world markets must be done - and soon.

If action is taken promptly, all will be well. The Canadian economy is relatively sound. The storm warnings are clear, and there is time to batten down the hatches and trim the sails.

Some action has already been taken by the government at Ottawa. Not enough, and not explained to the people with the clarity required. Nevertheless, enough was done to illustrate that the government knows what is needed. They may go further in the next budget.

# Last Minute Advice Nets Author Fortune

Most of us will dispense a "bit of advice" at the drop of a tam-o shanter but few of us ever follow it as eagerly. Yet a few chance words can prove very fortunate sometimes.

Years ago an unknown young author had his book accepted, and the publisher asked which he preferred, a hundred pounds for the copyright or a royalty arrangement.

The young man chose the hundred pounds, but while the publisher went out to prepare the contract, someone whispered, "I'd take the royalty if I were you."

Swinging around, the author observed an elderly clerk, already back at his work. The author didn't take long to decide. He went back into the publishers office and settled for royalties.

The book, "King Solomon's Mines" by Henry Rider Haggard became an all-time bestseller, and what that advice cost the company no one has dared to compute.

Now here's a "bit of advice" you'll find worth heeding. The easiest, safest and surest way to avoid financial stress and strain is to make regular deposits in a Bank of Montreal savings account. Then when unexpected need or opportunity arises, you have the ready cash waiting for you. You'll be amazed at how handy it can prove. To start your account, visit the Tofield branch of the B of M soon. Steve Falebrenna, the accountant there, will show you how easy it is, and how profitable in the years to come.

## St. Gregory's Catholic Church Plans Mission

St. Gregory's Catholic Church, Holden, Alberta, will hold a mission for the entire week of March 5th, which is the 3rd week of Lent. This mission will be preached by the Rev Father D. Edward, C.Ss.R., Edmonton, Alberta. An invitation is extended to the general public to attend this mission. Protestants are welcome. They will hear nothing to offend them. Morning and evening talks will be given.

Everyone has heard the advice "see your doctor once a year' A doctor may do good more. He may order his patient to visit a medical clinic, in a clinic one is thoroughly & scientifically x-rayed, examined and re-examined by a staff of medical experts. Finally, the doctors give their verdict. Either the patient is assured that all is well or the doctors may advise treatment or an operation.

A mission is a spiritual clinic where the soul is examined thoroughly and expertly in the revealing light of the eternal truths. The divine Physician, our most holy Redeemer, asks: "What doth it profit a man, if he gain the whole world, and suffers the loss of his soul." (Matt. 9 :26) A mission not only encourages the good, but also applies a healing remedy to others with serious defects of the soul. In the confessional, the missionary pours into the souls of all, the oil and wine of God's love and mercy. The mission over the soul leaves the spiritual clinic invigorated and strength ened in grace

The last mission for St. Gregory's Church was preached by Rev Father J Rekowski. C.Ss R. in 1956.

BOGGING IT ON THE BOARDWALK

Bobby and Pamela Murdoch, Toronto, got the Easter spirit a little early this year as their German shepherd takes them for a spin on the boardwalk at Kew Beach. The lakefront air is a little nippy for such canine capers but the dog enjoys doing it, until he sees a cat. Then things warm up.

### HITCH-HIKES FROM B.C. TO OTTAWA WITH WOLF AND DOG

John McGovern left Ottawa last September and hitch-hiked with his dog to Western Canada to seek employment. The pair travelled to Dawson Creek, B.C. and he found work but did find Cyndie, a female wolf in an alley. The wolf was sick and hungry so McGovern took her back to Ottawa and is hitch-hiking his way back with his two companions. He is pictured above in Winnipeg with his German shepherd and the wolf.

## Jurors chosen from Audience For Drama production

Mr Calvin Ahnis has released the following information about his forthcoming stage Night of January. At the time of the suicide of Ivar Kreuger, the Swedish match King and financial wizard who revealed the failure of his complicated financial interests. It was rumored that he had only faced his death and really had departed for South Americas. Here he planned to live Incognito and in luxury on a fortune he had [illegible] steal there.

This story is the basis of the "Night of January 16 th" which which he is to be presented by 18. Tofield Drama Club under the direction of Mr. Ahnis on March 14 and 15, 1961.

The subject of the [illegible] a murder trial, and an unusual feature of it is the recruiting of members of the audience to serve as the jury. These members will not be "planted, but will be chosen by lot. Jurors selected will be on a professional basis for they will be paid a refund [illegible] for their ticket to the show. —

"Night of January 16th had a long run on Broadway in New York, and has toured the United States. The late Percy Hammond, dramatic critic on the New York Herald Tribune, wrote of it, "I have the word of no less an expert actor and showman than George M. Cohan that "Night of January 16th" almost nately chilled and fired his blood with the drama's nerves and fevers more than any other masterpiece that has come within his experience."

Tofieldites are assured, then, of an exciting experience when they see Night of January 16th on March 14 and 15 on the Tofield Community Centre Announcement of the cast will be made next week.

## Tofield Team Wins Ross Creek Grand Challenge Trophy

The beautiful curling trophy in Premier Motors is eloquent testimony of the curling ability of four Tofield men. A rink skipped by Ed Rageth, with John Wall, Ken Carr and Dan Dodds brought home the trophy from the Ross Creek spiel.

The annual Challenge Trophy was donated last year by Mr. Jos McLuhan. To win it Ed's team had to best out last year's trophy winners, the E. Rocque team of Fort Saskatchewan. Earlier they beat out another Tofield team, Charlie Kallal, Heron Maghan, Johnny Widgerowski and Bill Francis who took third in the Fire.

The four day spiel wound up on Sunday. Twenty-four teams from Bruderheim, Holden, Lamont, Andrarnaa, Manitou and Chipman took part.

## Good Market For Forbesiders, or What have you?

There is a real market in the Tofield area for used Forbesiders, especially if they come equipped with built in Hummingo way, if all the people who inquired about it want to buy. The ad read "Must sell second new Forbesider, with built-in Hummingway. Can be used right or left handed. Cost over $200. Need money so badly will sell for $75."

Phone calls started coming in Friday morning and all week people have been phoning or dropping into the shop to inquire. But we suspect most of them were more interested in learning what it was, than in buying.

Truth to tell, we don't know what a Forbesider is either. The ad was run as a survey to find out if folks really do read the classifieds. Well, we proved our point, everyone reads them! And our thanks go out to all our readers who took time out to help us prove it.

If you could make use of an extra helping of cash this month, take a check to your attic and around your home. You may end up with one Forbesiders, but there's likely to be some items you no longer need that could be turned into ready cash through a classified in the Mercury.

## Lively Garter Snake Found in Cellar

It's not often in this country and at this time of the year, that one sees a live and lively snake. But that's what turned up in the cellar at Herman Tiedemann's home Monday afternoon.

The snake, with colorful orange and green stripes, on gray, measured 22 inches long and 1 and a quarter inches around.

## Ken Oliver Buys Dodds General Store

Dodds General Store and Post Office changed ownership last week when it was sold to Ken Oliver of the Lindbrook district. For the past six and a half yrs. the store has been owned and managed by Graham Turner of Tofield who bought it in May of 1954 from Mr. Hiram now of Edmonton.

The store has changed hands a number of times in its 60-odd years. While owned by Mr Turner, the assistant operator was Mrs Hanka and later Mrs Norman Wiseman.

The new owner, Ken and his wife Ann and family at present live on their farm south of Lindbrook. They will be taking over the store the 1st of April

## Vialta Lodge Board of Directors meet

A regular meeting of the Board of Directors of the Bunker Foundation was held in the library room of Vialta Lodge, Viking, Alberta, on the evening of Thursday, February 2nd, 1961, beginning at 7:15 P. M.

Those present were as follows: Chairman - R. A. Harlow Vice chairman J. H. Roddick and Tom Annebo the Matron, Mrs. Grace Laing and the Secretary-treasurer, P. O. Nordstrom.

The minutes of the last meeting were read by the Secretary-treasurer and adopted as read on a motion by Tom Annebo and seconded by J. H. Roddick.

The Financial Statement for the month of January was presented by the Secretaresurer, showing an overdraft as at January 31, 1961 of $1,881.97. The cost per guest per day for January was $2.35 as compared with $1.84 for December. The report was adopted on a motion by J. H. Roddick, and seconded by Tom Annebo

It was moved by Tom Annebo, seconded by J. H. Roddick that we request to have the February loan payment of $200.00 deferred.

Mrs. Laing advised the Board that she had received correspondence from the Dept. of Public Works to the effect that plastic racks for dishwashing were being purchased by the government, and that delivery of these racks should be made to the various Homes towards the end of February.

The question of setting up Asset Accounts in the General Ledger was raised, and other some discussion it was noted by J. H. Roddick, seconded by Tom Annebo that the following fixed asset figures be used to get up the required accounts: Land $2,500.00 (this figure being the actual 1961 land assessment); Building $142,369.49 (actual construction price as supplied by the Department of Public Welfare by Bulletin No. 61; Furnishings and Equipment $35,500.00 (estimated cost figure suggested by the Dept of Public Welfare by Bulletin No. 21)

An audited financial statement is required to be filed with the Dept of Public Welfare by March 31, 1961. The Secretaresurer advised that a profit and loss statement and a balance sheet would be drawn up by him, ready for audit. It was moved by Tom Annebo, seconded by J. H. Roddick that Mr. H. W. K. Hillsher be appointed auditor, should he agree to such an appointment, and that the audit be carried out as soon as possible.

The following cuts to the Index are gratefully acknowledged: Mr. and Mrs. J. P. Cotter, orange; Mrs. G. Pickering, orange; W. P. Brown, wood; Mrs. E. Gates, radio; P. O. Nordstrom, potatoes.

Correspondence from the Viking Film Council was received, advising that membership in the council had been granted in return for the use of Vialta Lodge as the distribution centre for the films. The question of appointing a representative to the Film Council was left to the attention of the Entertainment committee, as was the matter of a projectionist.

Mrs. Laing's correspondence was received and filed on a motion by J. H. Roddick, seconded by Tom Annebo.

The meeting was adjourned at 8:36 p. m. on a motion by Tom Annebo, seconded by J. H. Roddick.

## Day of Prayer at United Church Next Friday

The World Day of Prayer service, held each year on the first Friday in Lent will, this year, take place in the United Church, Tofield on Friday, Feb. 17 at 2:00 o'clock. Women of all the churches are invited to attend and take part. We are in this way joining with women all over the World who hold prayer services on the same day. Please note the time.

## Ina Mary Hardy Weds Howard Claude Reil

Saturday, January 28, last Mary, eldest daughter of Mr. and Mrs. Earl Hardy was given in marriage by her father to Mr Howard Claude Reil, only son of Mr. and Mrs Ken Reil of Tofield.

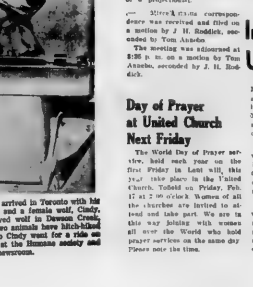
The double ring ceremony was performed by Rev. J. D. Faris in the Holden United Church. Mrs. Otting Good was organist while Mrs. Helen Tiedmann was soloist.

The bride wearing a short white dress of brocaded satin and a small chapel veil carried a bouquet of red sweetheart roses on a white bible. Her jewelry was a small cultured pearl necklace and pearl ear rings.

The bridesmaid, Sharon Hardy, sister of the bride wore a dress of blue taffeta with white accessories. The best man was Gwen Reil cousin of the groom Mrs Hardy, mother of the bride, wore a brown dress with a corsage of pink roses. A reception for about ninety relatives and friends was held in the church parlor with Mr. L. Sawyer as Master of ceremonies. Mr H Tiedemann gave the toast to the bride to which the groom responded.

The couple are to reside in the Ryley district.

## CINDY THE SCRIB



John McGovern of Ottawa arrived in Toronto with his German shepherd dog, Lucky, and a female wolf, Cindy, he found the half-starved wolf in Dawson Creek, B.C. Since then he and the two animals have hitch-hiked 2,700 miles. While in Toronto Cindy went for a ride on the subway, stayed overnight at the Humane society and is pictured above in The Star newsroom.

## Artificial Ice Plant Now Installed in Rink

The arrival of the long awaited artificial ice plant for Tofield's new Curling Rink is a high-light in the curling history of our town. It has already been installed and Wednesday local curlers were out in full force for the thrill that has been anticipated for some 10 or 50 years —curling on artificial ice. Its arrival was just in time to avert the threat of our recent unseasonably warm weather to the most popular sport of the year.

Members of the Farmers' teams had the pleasure of inaugurating the ice Wednesday afternoon, followed immediately by the waiting High School rinks at 4:00. A double draw of the regular teams kept the ice well swept till late in the evening. Well over 200 men, women, boys and girls are curling on local teams this winter, and this doesn't include occasional curlers or various local bonspiels. Add to this number all the fans who prefer to curl in the warm comfort of the waiting room, and we have a very high representation of the area making use of the new rink.

The ice plant has been on order from Winnipeg since December 28. In the early stages of the construction of the lovely new four-sheet rink situated just inside the entrance to the Sports Grounds. Various delays in the delivery of the plant have meant disappointment to all curlers, both on the ice and behind the glass, but the announcement of its arrival and installation is plenty of cause for celebration.

At the time of construction of the Rink, all pipes were installed preparatory to the arrival of the plant. In all, five miles of tubing was laid along the four ice sheets, spaced four inches apart.

To complete financial arrangements for the Rink the Curling Club has announced the issuance and sale of demand notes which will yield interest at the rate of 5 percent. $30,000. is to be raised in this manner to complete the rink & retire short term temporary financing. Loan pledges are found elsewhere in the Mercury and investors may sign and send them to the Club President, Mr. George McFadzean, or any member of the Club will be happy to receive it.

A cheque may be sent with the pledge but for those who prefer more time to make financial arrangements before investing, a 60-day period is allowed before actual payment of the pledge.

Plans are now being made by the Curling Club to put on an Opening Drive to get the sale of notes away to a flying start.

## Annual Meetings

With the advent of another year, we have approached the time when annual meetings are the order of the day. This applies to a great many organizations but we refer in particular to the semi-governmental institutions which are common to every community — councils, school boards, hospital boards, etc. These annual meetings of ratepayers are among the most valuable institutions in our democratic form of government but all too often ratepayers show a conspicuous lack of interest unless they have some private grievance to air some private interest to advance. It seems to us that there is a certain amount of misunderstanding of the function and purpose of such meetings. They are called solely for the purpose of hearing reports of the past year's work and advancing suggestions for future policy. They do not constitute an outlet for abuse of councillors & board members, either singly or collectively, nor are any resolutions passed by such meetings binding on the elected body. In theory, ratepayers gather to hear the reports and have the privilege of expressing their approval or disapproval at the next following election. Such meetings constitute a valuable opportunity for ratepayers to present their views to council members on future policies. Particularly in rural municipalities the individual councillor is responsible for a large area. With all the sincerity and good will in the world, it is almost impossible for a councillor to devote sufficient time and effort to know all the problems in all parts of his district. Ratepayers who are more familiar with councillors (and themselves) by attending the annual meetings and making known their ideas on problems and remedies. The same thing applies, in lesser degree, to town and village councils and school boards.

In the majority of cases these annual meetings constitute almost the only contact between elected representatives and substantial groups of ratepayers. They already serve a valuable purpose but we have long held the opinion that their value could be greatly augmented if proper use were made of the opportunities presented. The value to ratepayers lies in the opportunity to make known their views on various subjects to members of councils or boards; the value to the councillors or board members lies in the opportunity to obtain a cross-section of public opinion in regard to matters which are being considered or likely to be considered. It is, in brief, a public forum which should be more highly valued than it is at present. —Leduc Rep.

The annual meeting of the electors of the Town of Tofield will be held in the Council Room this coming Monday, February 13, 1961. Reports of the Mayor, Secretary Treasurer, Auditor and Chairman of the various committees of the Council will be heard.

## Remote Control Banking Aid To Modern Living

Getting to the bank to make a deposit or transfer other financial business can sometimes present quite a problem - - - especially for older people and people who live some distance from the nearest bank. That's why, today, so many Bank of Montreal customers find it convenient and simple to conduct their banking by mail with their local branch.

Banking by mail is designed to give you prompt service in all kinds of transactions. As soon as the mail arrives the staff at your B of M branch handle the deposits and other matters that have come in from out-of-town customers. You avoid waiting, avoid transportation costs and save time that can be profitably spent doing something else.

If you would like more information about this special B of M Banking-by-Mail service write to Horace Seller, manager of the Tofield branch of the Bank of Montreal. He'll be glad to send you the B of M's Banking-by-Mail folder which tells you how the B of M and the post office can get together to help fill your special banking needs. —Advt.—

## 1960 RESULTS OF COMINCO DEMONSTRATION FARMS ARE ANNOUNCED

During the past season, five Alberta farmers worked closely with Cominco District Supervisors in carrying out field scale demonstration work with Elephant Brand fertilizers. The results of this demonstration work using recommended application rates on cereals, grassland and flax crops are summarized on this page.

### CLYDE
DEMONSTRATION FARM No. 1
Single Iron.

OH! Barley on stubble land was fertilized with 50 lbs. of Elephant Brand 18-20-0 per acre. This application gave an increased yield of 18 bushels per acre over the unfertilized check strip, resulting in a net profit of $8.11 more per acre after paying the cost of the fertilizer.

On this same farm a long established brome-alfalfa field was fertilized with 100 lbs. per acre of Elephant Brand 27-14-0. An increased yield of 1.8 tons of hay per acre resulted from this fertilizer application. Valued at $20.00 per ton, less the cost of fertilizer returned a net additional $12.80 per acre — a net profit after deducting the cost of the fertilizer of $24.91 per acre.

### VERMILION
DEMONSTRATION FARM No. 2
H. Bower

An acre of brome was fertilized with Elephant Brand Binoxplus at 200 lbs. per acre. The fertilizer application increased the hay yield 1 ton per acre, resulting in an increased profit of $18.45 after deducting the cost of the fertilizer. Also on this farm a fertilizer treatment of 125 lbs. of Elephant Brand 27-14-0 on a grass legume mixture increased the yield by 1 ton per acre. This gave an extra net return of $12.27 per acre.

Oats seeded on second crop stubble gave an increased return of $6.12 per acre after paying for a fertilizer application of 125 lbs. of Elephant Brand 27-14-0 per acre. In this demonstration the yield was raised from 37.1 bushels to 53.4 bushels per acre, an increase of 16.3 bushels.

### FORESTBURG
DEMONSTRATION FARM No. 3
Rod Tait

At this demonstration farm barley grown on stubble land fertilized Prior to application of 50 lbs. of Elephant Brand 18-20-0. The $5.07 per acre spent on fertilizer returned gross profit $16.05, a higher profit of $10.98 per acre.

Also on this farm the yield from a fertilizer application of 100 lbs. per acre of Elephant Brand 27-14-0 was increased by 1.1 tons per acre. The fertilizer cost $10.14 per acre and returned a net profit of $12.86 per acre after deducting the cost of the fertilizer.

Oats seeded on stubble land used to 37 tons per acre with the application of 150 lbs. per acre of Elephant Brand 27-14-0. Extra profit after deducting the cost of the fertilizer was $1.80 per acre.

Yield was raised from 46 to 61 bushels per acre when wheat grown on summerfallow was fertilized with 50 lbs. per acre of Elephant Brand 11-48-0. The $2.61 per acre spent on fertilizer returned extra grain valued at $10.80 giving an extra profit of $8.19 per acre.

### CONRICH
DEMONSTRATION FARM No. 4
E. W. Johnson

On this farm the fertilizing of barley grown on stubble land gave an increased return of $18.20 per acre. The treatment consisted of 150 lbs. of Elephant Brand Nitrophos prior to seeding and 50 lbs. of Elephant Brand 11-48-0 at seeding time. Yield was increased from 28.5 to 44 bushels per acre. The value of the extra 15.5 bushels was calculated at $38.65. The cost of the fertilizer was $7.45.

An application of 150 lbs of Elephant Brand 27-14-0 per acre to an alfalfa-brome mixture increased the yield 0.7 ton. Valuing the increase as $20.00, the extra profit after deducting the fertilizer cost was $13.55.

Yield of a brome hay field fertilized with 150 lbs. of Elephant Brand 27-14-0 per acre was increased by 2 tons per acre giving an extra return of $71.52 after accounting for the $9.47 cost of the fertilizer.

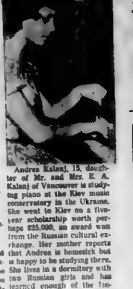
## CANADIAN GIRL STUDIES IN KIEV



Andrea Kalasi, 19, daughter of Mr. and Mrs. E. A. Kalasi of Vancouver is studying piano at the Kiev music conservatory in the Ukraine. She went to Kiev on a five-year scholarship worth perhaps $25,000, an award won from the Russian cultural exchange. Her mother reports that Andrea is homesick but is happy to be studying there. She lives in a dormitory with two Russian girls and has learned enough of the language to get by with her friends.

## Fashions

Here's quite a novelty — a resort wear dress that goes in for a United Nations theme via a parade of flags appliqued down the opening at one side. The teaming conceals the fastening.

The dress is of natural color Irish linen and has a red leather belt buckled in silver. Teh short sleeves are cut in one with the square-necked bodice.

PANCAKES for SHROVE TUE.

With the Lenten Season coming now is the time for pancakes, especially on Shrove Tuesday. It is an age old custom and followed by many. I'd like to give you some ideas to help make your pancakes more interesting.

A good griddle Cake mix is a handy mix to have in your pantry and is easy to prepare and store. Store it in a covered container when it comes to making pancakes for breakfast.

GRIDDLE CAKE MIX

Sift flour, measure 4 cups and sift again with 5 tbsp. baking powder and 1 tablespoon salt. Mix thoroughly by sifting three more. This amount makes 6 batches. Cover and store. When ready to make, measure 1½ of mixture (about 2 cups). Melt fat and add 1 cups to 1¾ cups sweet milk and 2 eggs. Beat wet ingredients before combining with dry mixture. Pour the batter onto a moderately hot griddle or frying pan. Cook on one side until batter bubbles on top and the cakes are cooked around the edges. Turn and cook on the other side.

NEW APPLE PANCAKES

1 cup flour
1½ tsp. baking powder ..... ½ tsp. salt
1 tbsp. sugar
1 egg
1½ cups milk
1 cup cooked sweetapples
2 tbsp. melted fat
½ cup diced apple

Sift flour and then measure and sift again with baking powder, salt and sugar. Beat the egg well and combine with milk. Add this to the dry mixture, stirring only until the mixture is smooth. Cook cornflakes only slightly, then measure required amount and add to the above batter with the melted fat and the grated apple. Stir until blended.

Maple syrup is usually the first choice to serve with pancakes but here is a second choice that leaves my first.

APPLESAUCE SYRUP

1 cups diced apples
2 cups corn or cane syrup
Juice lemon juice
¼ tsp salt
½ tsp. cinnamon
¼ tsp. nutmeg

METHOD Pare, core and dice apples. Place in a saucepan with the syrup, lemon juice, salt and spices. Cook slowly, stirring often, until the apples are tender. This will take about 10 minutes. Serve this syrup hot over pancakes.

## Farmers Union Holds Annual Meeting

There was a good crowd out to the annual meeting of the Farmers Union at which Mr. Hallows was guest speaker.

J. W. Scarr was re-elected as President for the 24th year. Other officers are: Vice-president and Stanley Brown, Elmer Goodwin and Neil Mc.ster directors.

The main topic was discussion on the $7500.00 accounting machine purchased by the County Councillor Weatherill explained the reasons for purchasing this.

Among those were, that he did not expect the machine would allow any reduction in staff, as for quite a while they had been under staffed, that the machine would not be brought into full use for maybe two years when it would probably be out dated.

Asked if it would not have been better, seeing there were so many unemployed to get extra help and why was it necessary to hire a married person whose husband had a good job. Answer, there was no surplus of trained help "Would it take an extra to run the machine" To this, the councillor said no, a few days are to be spent at a location where one of three machines was operating, that was all that would be required, so we should not be burdened with expert salaries.

Mr. Weatherill was thanked for his explanations.

Our next meeting Tuesday February 14 at 8:30 p. m. Mr. Powers, our district agriculturist has been invited to attend. The Jam Party is now nearing the $15.00 mark you must be present to win

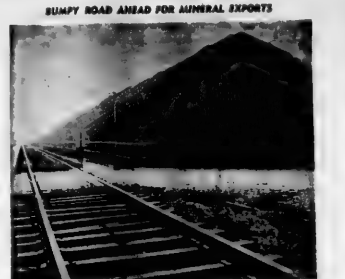
## BUMPY ROAD AHEAD FOR MINERAL EXPORTS



Canada's export-conscious mining industry will have to provide its own answers to many problems if the smooth road it has travelled in the past is to be a bumpy road for future demand. Demand developed in world markets has been a major problem in 1960, and appears likely to be one of some duration, says the Mineral production accounts for 40 per cent of all exports and employs one person in every 70 gainfully employed in Ontario iron. —

# County Seed Cleaning now in full operation

The County Seed Plant at Holden has shifted into high gear and is expected to operate at full capacity for the remainder of the cleaning season. The Plant Board Directors recently hired three operators to assist the Manager and the plant will now operate around the clock. If necessary, to take care of cleaning requirements of all the farmers in the County. It is estimated that the Plant is capable of cleaning and treating 200,000 bushels of seed from now until the end of the cleaning season. This capacity is more than ample to take care of all seed requirements in this District. This, however, can only be accomplished if farmers make their cleaning as soon as possible.

The Plant Manager advises that all a farmer need do is advise him of the kind and amount of grain he has to clean and the approximate time he chooses to have it done and every effort will be made to accommodate him at that time.

The Plant is equipped with the most modern seed treating equipment available and all seed can be treated with Panogen for disease control and with Orthocide for wireworm control. As the Plant is able to purchase its chemicals in large quantities with substantial discounts from the suppliers treatment can be done at the plant for less than it can be done on the farm.

To prevent any possibility of mixing grain or the passing of weed seeds from one lot to the next the plant machinery is thoroughly cleaned between every lot. For added assurance that Tartarian Buckwheat is not spread, grain containing the seed will be cleaned during vacation periods only.

When calling at the plant to make arrangements for cleaning farmers are required to bring a sample of grain to be cleaned so the operators can allot cleaning time during the proper period.

## INSECTS INFESTING FOOD IN THE HOME

Although insects infest a great variety of foods, much can be done to prevent their occurrence and spread in the home. Infestation may occur during packaging and wash-rate storing of food. The trouble usually arises when a package is forgotten or remains untouched for months in the back of a cupboard. Another place to watch for infestations is in crevices of foods accumulated behind bins or under drawers.

This problem is solved when small moths or beetles are found more often in the kitchen than in other rooms. If you find this thoroughly examine all stored foods including dog foods, spices, mustard, pepper and crops.

Flour, meal, cereals, dried fruits, cured meats and spices should be bought in small lots to avoid having to store them for long periods. Cold storage will hinder the development of the food infesting insects. Glass jars with rubber seal lids are recommended for storing.

If your cupboards have become thoroughly. Then treat the cupboard with a household insecticide such as DDT for most insects and chlordane for cockroaches and Pelicor the directions on the insecticide and observe the cautions. RENGER—insecticides are poisons. Destroy severely infected foods. Lightly infested foods or those suspected of being infected may be heated in the oven for 15 minutes at 140 degrees F. or exposed to below zero temperatures for at least 24 hours.

## Machine Will Not be Obsolete in two Years

It appears that in our report in last week's Mercury that we left the impression that Combine Weatherill is discussing the new grating machine sold it would be out of date or obsolete in two years. This certainly was not the Councillor's statement nor came from the audience.

We regret this misunderstanding and embarrassment to Mr. Weatherill.

## Tickets Now On Sale For Drama Club Play

Something new in the attitude will be the feature of the evening when the Drama Club presents "Night of January 16" in the Community Centre on March 14 and 15 There have been plays before with vague endings, but this is the first one in which the audience takes an integral part in the development and conclusion. With an extensive and talented actress, Joan Deboulle, who portrays the leading part, on trial, the jury selected from the audience is given the problem of deciding her guilt or innocence.

As they cast their seats at the box office, patrons may leave their names as candidates for jury duty. On the evening of the performance, these names are given to the clerk of the court, who places them in a drum and the seven that are drawn by lot are selected to serve. The extra addresses the audience and explains that if of them will be called upon to come to the central standing area and decide the verdict. One by one, they step up to the area set aside as the courtroom and take their places in a regular jury box just as they would in any legitimate court trial, are sworn in, and listen to the testimony. Both men and women are eligible Each juror will be refunding the price of his admission.

Between the acts, the jurors are led off the stage to a small deliberation room. Each act represents one day of the trial. Just before the ending of the third act, the jury votes for the last time to render a verdict. They vote after a short discussion, and although legally, a unanimous decision is required for a verdict, for the sake of dramatic brevity, majority rule is taken as decision in this trial.

When "Night of January 16" was first presented in New York, it was feared that this innovation might not prove popular. Women might not like to have their results leave them to sit in the jury box, and patrons might prefer to watch the play from the auditorium rather than the acting area. But such fears proved groundless. Not only would the public serve on the jury gladly, it was pulitzer prize to get the chance. Each performance attracted a hundred candidates Any at no time was there a clamor in the jury box to spoil the performance. The chief problem was created by the jurors' restlessness. They wanted to stroll about in the lobby between the acts but, of course this could not be permitted since jurors must be strictly removed from the possibility of influence and pressure being brought to bear upon them.

## Moody Film at Community Centre Sunday Afternoon

"Dust or Destiny," another Moody Institute of Science all-color film will be shown this Sunday, February 26, at the Tofield Community Theatre, at 3 p.m.

This film reveals a wide variety of nature's fascinating phenomena. Right from infants for thousands of miles without map or apparent help find fly their total darkness without the slightest chance of collision; fish that lay eggs on dry land. These and many other fascinating revelations depict the infinite wonder and wisdom of God.

"Will Communism Rule the World?" is the title of the illustrated sermon lecture to follow the Moody film Red forces now dominate much of the world. Will Russia succeed where Hitler failed? What about the Biblical "four Certain?" — SEVEN WORDS of Bible Prophecy that revealed the plans of Caesar, Napoleon, Kaiser Wilhelm, Mussolini, Hitler and Hirohito? This illustrated all-color screen lecture is free. All are welcome

## 4-H Clothing Club Meets

The Clothing Club met on Tuesday, February 14, at the home of Judy Mitchell with nine members and one visitor present. The meeting was opened by singing O Can da and repeating the 4-H pledge. Miss Betty Brown gave a talk on Fabric Formation, and showed the girls how to stitch on cloth Betty Ann Schultz and Verna Lawson gave a demonstration on "Stitches in Public Places." Mrs. Arthur Rose, showed the girls how to make a dicker, which will be the club's next project. The club was then shown pictures which Mrs. Mitchell took on her trip to Los Angeles in December.

The next meeting will be held at the home of Yvonne Tiedmann on Tuesday, March 7.

A delicious lunch was then served by the hostess.

## Baldwin And Grey To Play Exhibition Game

The Hon. Mr. Patrick will officiate at the official opening of Tofield's new artificial ice Curling Rink on Monday, February 27th. Opening ceremonies will take place 7 p. m at the rink. Following this, two famous rinks headed by Matt Baldwin & Glen Grey will play an exhibition game. To complete the evening's events, the curling clubs in the neighbouring areas have each been invited to send a rink for an exhibition game.

George McFadzean, president of the Curling Club, said his executive have been busy making sure everything is ready for the opening. Icemaker Bill Davison has been working overtime in an effort to have as near perfect ice as possible for this event.

When finished the replacement value of the rink will be around $40,000. The new rink has been built in almost record time with construction starting the last week in October and the trusses started up on Thanksgiving Day. The rink was ready for use by December 1st, but weather had other ideas. When the weather finally became cold enough, curling started on January 9th. The artificial ice plant arrived the first part of February, but as the warm sun was again going to drive the curlers from the rink. The bulk of the labor for the rink was on a voluntary basis, with less than $2,000 being paid out.

The opening of the new rink complete with artificial ice, Tofield's dream come of the curling club members have counted for a number of years.

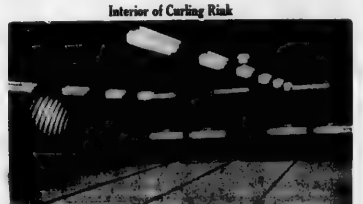
## Artificial Ice Plant is first in Alberta

The artificial ice plant installed in Tofield's new Curling Rink by the Flemingo-Seeller Company is of the latest design. Although there are a number like it in western Canada, it is the first in Alberta. It is designed in one compact unit so as to save space and installation cost. It is entirely factory tested before installation.

The refrigerant used is Freon 22 gas. It is fireproof, non-poisonous, odorless, and is extensively official having a boiling point of 41 degrees below zero.

The four cylinder compressor is run by a 30 h.p. electric motor. 25,000 feet of one inch plastic pipe is laid throughout the building. Calcium chloride, that is specially treated against rust and corrosion is pumped through this pipe under 20 lbs. pressure.



Interior of Curling Rink

Above is the interior of the new 4-sheet The public is cordially invited to attend the artificial ice Curling Rink which will be of- opening. ficially opened on Monday, February 28th.

## Funeral Services held for another district oldtimer

— Funeral services for George Wenlake, 73, who died in Tofield hospital, were held at 2 p.m. Thursday from Tofield Anglican church, with Rev. W. L. Hammett officiating. Burial was in South Cooking Lake cemetery. Hainstock and Son, Edmonton, were in charge of arrangements

Mr Wenlake was born in Exeter, England, and came to Canada in 1907, settling in the Tofield district He returned to England in 1910 and brought back his bride. They resided in the Tofield district for 54 years and celebrated their golden wedding anniversary in March, 1956

From the ladies came the name of the school and the district where he resided. He took an active part in the Social Credit group at Hastings Lake.

Surviving are his widow, Elsie; two sons, Pat and George, at Tofield; two daughters, Mrs. W (Betty) Grismer, Edmonton, and Mrs Herbert (Hazel) Rerner, Leduc; three grandchildren, and a brother, Harry, in England.

## Ionic Chapter to canvass for Red Cross

March is Red Cross month Once again the annual canvass for the Red Cross society is being conducted in Tofield under the sponsorship of the Ionic Chapter No 72, O. E. S. Residents of various country districts will be asking to assist in their own localities The collectors will appreciate your co-operation when they call in the service of this worthy cause If you are inadvertently missed in the canvass, your contribution may be given to Mrs. Elizabeth Nelson, Worthy Matron of Ionic Chapter.

**ANNOUNCEMENT**

Mr and Mrs. Stanley Brown, of Tofield wish to announce the engagement of their daughter, Elizabeth Keltha, to Mr Howard Clive Gudmundson, son of Mr and Mrs. Leo Gudmundson of New Sarepta. Wedding to take place at Tofield United church, March 25th at 4 p. m.

## Lighting In New Rink 3 Times Brighter Than Old

All curlers who have already curled in the new rink have been amazed at how well their eyes can see. This is no accident. The rink is lighted with the latest in fluorescent lighting The lights installed in the rink are new high output, low temperature fixtures which have just come on the market. Previously it was considered impossible to use fluorescent lighting due to the cold temperatures in a curling rink However, these new lights overcame that problem.

The rink is lighting with eighteen fixtures each containing two 96" bulbs. They are located sixteen ft above the ice The lighting is rated at 3 times brighter than was possible in the old rink, and no shadows — or more light for less money.

The trial installation was by Wallrock (Tofield) Limited.

## $800. Worth of Prizes to be given at Men's 'Spiel

Bonspiel time this year should be a grand affair in the new curling rink, with the convenience of artificial ice and fluorescent lighting The men's spiel will start on March 6 and a banquet will be held on March 8th. $200.00 worth of prizes will be won in four competitions. The annual spiel has been lengthening to six days and no limit is being put on the number of rinks.

Those wishing to enter this event should contact Bill Christensen or George McFadzean.

The ladies' spiel will be held on the 13th, 19th and 20th of March. However, if you haven't already entered your team for this spiel you are too late, for the slate is already full

## Ryley Mothers' Bible Study Group Meets

The McGhee Bible Study Group held their annual meeting at the home of Mrs Edna Hammer. Bible Study was led by Mrs Jean Knudsten Study this month was on man's need of salvation Closing prayer was given by Mrs. Beulah Colcord.

## Of Many Things

A lovely young woman called to see me this morning, thin form and eyes sunken.

"I am a delegation of one," she told me "to get you to write something in your column about what the government is doing to widows."

I grinned. It seems that anyone who wants to bleed the government thinks of me as a natural sit. I am not an anti-governmental as some people think but I do try to complain from time to time when I think it will do the most good.

What I asked her, "is the government doing to widows?" She told me her worry. Apparently, if a woman loses her husband, and he has arranged that she will receive her legacy in the form of an annuity or a pension, the government claims down with a death duty tax that really hurts.

The widow is not taxed just on what she and her husband have put into the pension, the tax is based on her entire life interest in it. If she is young, that is likely to work out at a pretty high figure. As a result, the widow might have to use all the payments in the first year or so to pay the government.

"Income tax would be enough," the widow said, "without this ridiculous tax on the whole life interest in the pension. It is a disgrace in a country that calls itself Christian!"

"Look," I said, "it sounds wrong to me, too, but I'm no tax expert. Why don't you write to Mr. Fleming?"

She firmed her chin even more. "Don't worry about that," she said. "I have already written to Mr. Diefenbaker. And you don't have to be a tax expert to know it is silly on the face of it. The trouble is that a woman doesn't know about it until her husband dies and then she finds out that instead of helping her, the government adds another burden. I want all the women to know about this and that's where you come in. All the women I know read your column in our paper every week."

I told him that every woman is a potential widow, and if they all start writing to the Prime Minister, or stopping Mr. Fleming on the street to give him a piece of their mind, something has to give. We'll see.

## Fashions

The cashmere coat with all-weather lining is a fine choice for late winter, early spring or travel. This one comes in cocoa brown or vanilla white, with matching pearlized buttons.

The yoke and dropped sleeve seams form a most interesting line. A few gathers extend from the yoke.

The patch pockets have side openings and the bolero-allow sleeves are smart and new on this casual go-everywhere coat.

## A Letter To The Editor

Calgary, Alberta
Feb. 16th, 1961.

The Editor,
The Tofield Mercury.

Dear Mr. Patterson,

The rural Calgary Power Ltd. is celebrating its 50th Anniversary of service to the province. We have managed to gather a certain number of photographs and newspaper articles dealing with the early story of the Company. In many cases, it is fact that in the records of the weekly newspapers lie a great source of interesting historical material.

It would be greatly appreciated if you would let us have copies of any photographs or stories relevant to the history of power in your community - even before Calgary Power arrived on the scene. It may well be that some of your readers have such pictures or stories, and them too would be most welcome.

Your co-operation will be greatly appreciated.

Yours sincerely,
G. H. Milligan

ELEPHANT BRAND FERTILIZER PAID FOR THIS TRACTOR

This is how we illustrate a basic principle — "It doesn't cost, it pays to use fertilizer." Fertilizer can provide the money for those many things you need to make the job easier or your family living better.
You make more money in two different ways when you fertilize with Elephant Brand. You grow better grade crops which sell for higher prices; you get greater profit from each bushel because it has cost you less to produce each bushel.
GROWING WHEAT?
You can make extra profits of $9.75 per acre and even more by fertilizing your wheat crop.
Here is an example of how fertilizer increases profit from wheat.

| | |
|---|---|
| Increased yield per acre with ELEPHANT BRAND | 10 bus. |
| Value of increase (Wheat valued at $1.25 per bushel) | $12.50 |
| Approximate cost of fertilizer (90 lbs. per acre of 11-48-0 on summerfallow.)* | $ 2.75 |
| EXTRA PROFIT PER ACRE | $ 9.75 |

*Plant at stable, also greatly increased on true equity profitable yields.

## The Homemaker

Jeannette Dilling

Vegreville Alberta

Are you saying to yourself, "How can I make my Lenten meals more interesting?" One problem is you have to serve fish more often. Here are a few pointers.

Now is the time to try some new kinds of fish, e.g. sole, haddock, swordfish, plaice, oyster or lobster. Treat yourself and your family by serving something new and interesting. You don't want to hear your family say, "What fish again".

**MARKET FORM OF FISH:**

Fish may be purchased in any of these forms.

1. Fresh and quick frozen in a variety of cuts. (a) round as taken from the water (b) drawn - intestine removed, (c) dressed - scaled, eviscerated, head, tail and fins removed. (d) fillets - sides of fish cut away from backbone. (e) steaks - cross section slices of large dressed fish.

**SELECTION OF FRESH FISH IN THE MARKET:**

When choosing fresh fish or shellfish here are some points to check: 1. It should have a fresh, pleasant odor or no odor at all - definitely not a strong one. 2. The flesh should be firm and elastic. Impressions from fingers should disappear quickly. The flesh should show no signs of separation from the bone and the eyes should be clear and bright, the gills red and free from slime.

3. If purchasing oysters or clams in the shell, see that the shells are tightly closed. If they are gaping the shellfish may be dead.

**COOKERY OF FISH:**

The flesh of fish is of a tender nature and does not require a long cooking period. Regardless of the method used for cooking it, you will know the fish is cooked when these signs appear

1. The flesh loses its translucent appearance and becomes opaque in the center of the cut.
2. The juices are milky colored.
3. The flesh is easily pierced with a fork and will separate into flakes.

Overcooking fish will toughen the flesh, dry it out and impair the delicious flavor. Cook fish just until the above signs are noted.

**SOMETHING DIFFERENT:**
**Orange Soy Sauce for Fish Fillets**
2 tsps. butter
1 cup orange juice
½ cup white sugar
½ cup vinegar
½ cup sherry or
2 tsps. lemon juice
Slivered orange peel (from medium orange)
2 tbsp cornstarch
2 tbsp soy sauce

Melt butter in a saucepan. Add orange juice, sugar, vinegar, sherry or lemon juice and orange peel. Blend cornstarch and soy sauce together until smooth and add to above mixture. Cook the sauce stirring constantly until it is clear and thickened. This sauce may be poured over cooked fillets. Makes 1½ cups sauce, sufficient for 2 pounds fish fillets.

**PRECISIONAL BOW**—Ina Bauer, figure skating champion of West Germany, goes gracefully through a routine in her professional debut at Madison Square Garden, New York. She is appearing in the eleventh anniversary edition of Shipstads and Johnson Ice Follies.

# NOTICE TO RESIDENTS OF ALBERTA

The Alberta Gas Trunk Line Company Limited has announced plans to raise the sum of $10 million by the sale of 5½%, $100 par value preferred shares of the Company. The sale price of the shares to the public has not been definitely fixed but will be announced when the securities are released for sale on or about March 7, 1961.

There will be no common share warrants attached to these securities and no right will be given to convert them to common shares at any time.

The issue will be underwritten by a group of Canadian investment houses (all of whom have offices in Alberta) under the joint arrangement of Tanner Mackay and Dominion Securities Corpn. Ltd., and the underwriters have agreed to conform with Alberta Gas Trunk Line's policy that every opportunity shall be given to residents of Alberta to purchase these securities. Although the actual public offering will not be made until on or about March 7, 1961, this advance information is being released by the Company in Alberta to give Alberta residents ample opportunity to make inquiries concerning these securities.

Arrangements have been made whereby interested parties may make inquiries to and obtain information from investment and Broker Dealers, Treasury Branches, or Chartered Banks in Alberta. Any person interested in purchasing the securities is requested to get in touch with one of these institutions as soon as possible and not later than Tuesday, March 7, 1961.

## Minutes of the February meeting of the Tofield Council

Minutes of the regular meeting of the Municipal Council of the Town of Tofield, held Monday, February 6, 1961 at 8 p.m.

Members present were: Mayor Dr. W.H. Prosser, Councillors: Patterson, Jefferson, Allan Swift, Kalisz and Herndon.

Alberta Municipal Financing Corporation asking for a five year projection of requirements of capital borrowings and stating the date of the Annual Meeting of shareholders. This projection of capital borrowings was turned over to the finance committee for attention.

Harrisons Crossfield Ltd. arguing that return empty barrels as containers for Silicate Soda will be credited at $7.00 each.

Publics Utilities Board stating one copy of By-law 521 authorizing borrowing from Bank of Montreal in 1961, of $32,000.00.

Civil Defence Circular Letters as to various courses being held in the near future, and turned over to the Committee now handling these for the Town of Tofield.

Assessor Eng. Bert Ltd., enclosing a Plan on which was requested that proposed construction of sidewalks be marked for 1961, referred to the Public Works Committee.

Dept. of Municipal Affairs stating they will make the general assessment of the Town in 1962, for use in 1962.

County of Beaver School minutes of January 10th, perused and filed.

Mr. Edward Bros, Edmonton, asking as to his being able to use the Council Room for practise of his profession as a lawyer for two Saturdays each month. This was left over until Mr. Bros again visits Tofield and for a personal interview.

Business Tax By-law No. 532, being for Taxation of business within the limits of the Town of Tofield, was read and given the necessary reading being: Alta. Assessment Commission advising following appeal of Mrs. H. C. White reassessment of $1080.00 was now confirmed as to improvements for the year 1960 and a rebate to be made.

Northwestern Utilities Ltd. concerning matter of Industrial Taxation for purposes proposed by the Provincial Government, & in reply to our letter of December 15th also saying they are perturbed as to attracting industrial plants to Alberta. As the matter develops further, the Town Council will be advised.

Unemployment Ins. Comm., stating that as they are given the responsibility of staffing Winter Works Projects, they will not approve our registration of persons as employees on our Winter Works project. In view of the fact that we have already gone ahead with the project by way of hiring those not listed by them. The project has already been approved by the Provincial and Federal Governments. The matter is to be referred to the Provincial Dept and if necessary Federal Office.

Dept. of Municipal Affairs stating they will make the general assessment of the Town in 1962, for use in 1962.

Mr. Edward Bros, Edmonton, asking as to his being able to use the Council Room for practise of his profession as a lawyer for two Saturdays each month. This was left over until Mr. Bros again visits Tofield and for a personal interview.

Business Tax By-law No. 532, being for Taxation of business within the limits of the Town of Tofield, was read and given readings as follows:

1. Patterson - Jefferson
2. Allan - Swift
3. Kalisz - Herndon.

February 13th, 1961, is the Statutory meeting date for Ratepayers, and report of Chairman of such Committee.

Police report was perused and filed.

Accounts for payment were perused and initialled for payment.

Owing to requests for sale of water from the Town by various parties, it was agreed and so reported to Woodland Dairy Ltd., to supply water through their facilities at the approved rate, and persons for which a receipt would be given by the Woodland at a 50 percent deduction for their services. This would eliminate much trouble for the Town in the way of opening hydrants and consequent draining of same in cold weather, together with a service to the recipients.

Miss Darlene La Morgia asked approval for opening of a Beauty Salon in Tofield, and to which the Council has no objection.

From the number of offers for the purchase of the old Bank building presently owned by S. E. Rose at $10.00 and permission to remove same at his convenience.

One offer for purchase and removal of the Post Office building was in hand, one for the building and part of the lots, and one for rental on a three year basis with certain additions asked together with decorating. The council decided to not the cost of the additions asked, with a view to renting, before taking any steps.

Mr. and Mrs. Jos. Whitbread were present as to purchase of a site for their new home at the corner of King Street and 7th Avenue, and to which the council agreed service could be extended.

### IN MEMORIAM

In memory of Mother, Mrs. Oscar Johnson, who died October 22, 1953, and Dad, who died February 12, 1961.

Maybe you left us in your 'ill When The Lord called "will you come to me?"
We were all young then, but wondered why
A Mother so young should have to die.
12 children you bore without one tear
But the Lord knew best how you should fear;
You left us Dad to take care of us
And he did so too, without much fuss.
We were so lonely when he left us too
But we know he left to be with you.
And, you never left any further or lame,
But to us you left a very good name.
We were glad you told us you had spoken with the Lord Ang that you were ready to be
Save his Word.
Lord Bless your memo, dear Mother and Dad.
With happy memories we cannot be sad.

Always remembered by Your sons and daughters p

## Lovely Weather Prevails For Curling Rink Opening

Lovely weather added much to the success of the event when the ribbon on the door of Tofield's new Curling Rink was cut by the Hon. Russell Patrick, Monday evening

Ceremonies were opened by George McFadzean, President of the Club who introduced the guests on stage: Mr. Patrick, Mayor Prosbury, Mrs. Mildred Watson, Earl Hardy M.L.A. and Matt Baldwin and Glen Gregg, skips of the two teams who were later to have exhibition games. Also on stage were the curlers making up the two teams: playing for Baldwin were David Yakimchuk, Jackie Parker and Ted Tully.

Mr. Patrick spoke briefly, congratulating the Curling Club on the foresight and planning and community sports shown in the erection of the rink.

In an impromptu speech, Mr. Ed Watson called on those assembled to give a hearty vote of thanks to the person who had worked so hard to make an artificial ice rink in Tofield a reality — George McFadzean.

Mr. Patrick declared the rink officially opened many of the youngsters booked for the first shotes on the new building

## Mr. and Mrs. Murray Celebrate 40th Wedding

Mr. and Mrs. T. R. Murray celebrated their fortieth wedding anniversary the past week end and it was a very happy occasion for them.

A few friends dropped in on Thursday to extend congratulations and good wishes and on Saturday afternoon, Mr. and Mrs. Murray were at home to a number of their friends from the Lakeview district and Tofield.

The family members Margery, Dorrine and Malcolm were all able to set here from their respective homes and a family dinner on Sunday marked the occasion for them and their parents.

Mr. and Mrs. Murray also received many cards and other messages of congratulations from friends unable to call personally. They wish to express their sincere appreciation for all the lovely cards and gifts and who helped in any way to make this such a happy time, one they will long remember.

## Facts of Faith at Community Hall Sunday Afternoon

A million volts of electricity passing through a man's body; mental cases healing in a flash by electromagnetic force; breaking a glass cobalt with sound waves; a piece of metal (steel) not alive by molecular motion . . . these and other fascinating "live" demonstrations will be shown in the Moody Institute of Science film "FACTS OF FAITH," in Tofield, to be presented this Sunday afternoon at the Tofield Community Centre at 3 p. m.

It is especially made for those who say, "I will believe NOTHING that I cannot see, or handle or know with my physical senses. It has a vital message for all . . . young people and adults alike . . . who have a longing to know more about Faith and the Reality of the New Birth from God's Word.

Following the Moody film, Evangelist Duncan will present his illustrated lecture filmed, "FACING JUDGEMENT DAY." In this picture-sermon Mr. Duncan briefly traces the Bible's longest time prophecy, focusing the appeal of the message on the coming Judgement Day.

This service is free, and begins at 3 p. m at the Tofield Community Centre this next Sunday, March 5.

## Did Karen Andre Commit A Murder?

Did Karen Andre commit a murder or not? This is the question that must be answered by the jury at the Community Centre on March 14 and 15. The curtain rises at 8:15 p. m. sharp; about 10:45 the same evening the verdict will be known. No one knows the answer yet Prospects are that the Community Centre will be filled as the ticket sale is brisk.

Busy on the vendor, though never encouraged, have been a feature of "Night of January 16." Doris Nolan, who played the Lana Club, who will supervise the make-up of the actors, Eddie Naqvi who is in charge of advance ticket sales at the Tofield Realty Office; Hans Christensen who is sound effects man; Allan Maxwell who will supervise the lighting; Grace Phillips as policeman assembly; Cliff Patterson who is in charge of set up town publicity, the W. A. T. C. L. who have announced their intention to serve lunch to the cast following the performance and, of course, Cal Annis, who is the director of the Community League production of "Night of January 16th."

## Busy Beavers Challenge ladies to Hockey Game

The Busy Beaver Red Cross Club is in for a busy month as it has challenged the married ladies to a hockey game. It will be held on Tuesday, March 7th, at 7.30. There will be a referee on hand.

With the money raised we will fill health kits for disaster areas and address school supplies who is named efforts was: Allan who to needy children. At present time they are painting a picture for an address to be sent to these areas.

The hockey game will be very amusing, so come one come all! You'll enjoy it!

## Co-op To Investigate Building Program

At the annual meeting of Tofield Co-op held Wednesday at the Tofield Community Hall the Board of Directors was given the go-ahead to explore the possibility of construction of a new retail outlet in Tofield at an estimated cost of $50,000. The estimate would include fixtures & an addition to the vacancy.

Following dinner serving to 100 Co-op members by the PWTA a film was shown giving the pros and cons of vertical integration for the Co-operative movement. Clarence Edmondson, chairman was in the chair. In his report on the activities of the Board in 1960, he mentioned that the Board had held twelve regular monthly meetings as well as four special sessions. Last fall the Board toured the new Co-op Store at Mayerthorpe with a view to the construction of a similar new supermarket in Tofield.

Delegates to the annual meeting of AGWA, Mr. Percy Partridge reported on the various items on the AGWA agenda, which included a Co-op Education College in Saskatchewan to train store managers and other personnel. Possibility of a Co-op owned packing plant, and the hatcheryas farmer-owned farm research station.

A survey of various improvements in purchasing arrangements, merchandising and display equipment was given by local manager John Bourgon. Mush prizes was given John for the candle arrangement he has given, the success of which was shown in the disciplined absence handing to the members earlier in the afternoon.

Much discussion followed the reading of the financial statement and a resulting vote of confidence in the Board resulted in an overwhelming majority voting in its favor.

Mr. Nestor Charuk, District Supervisor of Alberta Co-op Wholesale read the financial statement and spoke briefly to the members.

Two members of the Board had reached the end of their terms, Lars Rude, Arnold Johnson and George Abernathy Elected from five nominees to serve on the Board for the ensuing three years were Arnold Johnson, Charles Nimmoi and George Abernathy who has served as Secretary for some years.

As complete information as to the financial arrangements necessary for building was not yet received, the Board was asking to continue its inquiries and when ready they will call a general meeting to make final plans for erection of a supermarket.

Harold Schultz called on those present for voting a vote of thanks to the Board.

## Mr. Dave Dugmid signed the procession onto the rink where Mr. Patrick threw the opening rock while President of the Alberta Curling Association Art Crossley held the broom. ## Letters to the Editor

Feb. 16, 1961

Mr. Patterson,
Dear Sir,

I thought perhaps the item that had the Hemmingway Purchaser or what have you for sale, might be somewhat interested in this gadget too. On the outside of the window to the left of the entrance of a small tobacco and magazine shop I noticed a curious contraption. It was a glass tube about ten inches long filled with a violet colored liquid. The tube was surrounded, spirally, by wires in which, at intervals of about six inches, were inserted small metal plates. The whole assembly had a very mysterious and scientific aspect.

"By the way," I said to the storekeeper, an elderly man, as I picked up my tobacco, "what is that old-looking apparatus hanging outside your door, there?"

"Ah," said the storekeeper, reaching back and making a mark on a card that hung behind him on the wall "It's nothing. Just a gadget I got together to test how many people have any curiosity and I've had about a hundred people come in."

"But what's the idea?" I persisted

"Well, I sit here all day," said the storekeeper, "thinking about the people who come and go. It has always struck me that most of them aren't very interesting in anything. So I attach that gadget outside the door just to see how many would notice it and ask what it is."

I found it rather amusing. I wonder what would have happened if some party would have insisted on having that shop for cash contraption." And who would have had the last laugh. Sincerely,

Gladys Gill

Dear Editor:

We receive the Tofield Mercury weekly and read it with great interest.

On "Ad" in the February 2, 1961 issue was especially interesting. The one about the "Purchaser" with bulk in Bottom(ing). Since we couldn't figure what it was we looked it up in the dictionary.

We could not find "Purchaser" but Hemingway, Mr. Hemingway, is an American novelist born in 1899. Are you building him in?

A Mercury Reader.

## OF MANY THINGS

Everybody talks about education, but businessmen do something about it. The business community has consistently urged that educational standards be raised. In Winnipeg the other day, Mr. Leonard Hynes, chairman of the executive council of the Canadian Chamber of Commerce put the matter very clearly. We must be prepared, he said, to pay the kind of salaries that attract high-calibre teachers who will have positions of prestige and respect in the community.

Business firms do a great deal without making a big fuss over it. A student from Toronto told me in glowing terms about the aid-to-education program of one well known firm the Pigott Construction Company. That company provides on-the-job work assignments for students during each year of the engineering course and graduate students who have worked in this way with the company are given an opportunity to join Pigott Construction on graduation.

All modern business requires skilled workers. Teenagers who drop out of school before getting a good educational background are not able to fill the types of positions open in this modern age There was a time when a poorly educated boy or girl might succeed through sheer energy and drive. That feat can still be accomplished but only by making use of part-time educational facilities, and by real hard work and application. The best bet for employment today is a well-trained mind.

It is true that paying high salaries does not ensure that the teachers will do a better teaching job. There are many dedicating teachers who would do their best if they lived on bread & water. But both sets are human They want to get ahead in the world. Increased incentives will inspire them to have need effort. If the profession is recognized as it should be, it will attract more capable people.

In the process of raising the rewards, there will be cases where some teachers are paid more than they really deserve Society should take this small risk. Instead of denying the vast majority of dedicated teachers a pay cheque more in keeping with the responsibility they assume in the classroom

School Boards all too often take the attitude that they represent the taxpayer and must therefore be miserly. Their real effort should be to see to it that the children in their schools get the best possible education the district can afford.

## Appointed to Board of Companies

Charles P. Hayes

Ernest C. Warner, Managing Director, announces the appointment of Mr. Charles P. Hayes to the boards of the following companies: Grouse's Wine Co. Ltd. Victoria, Wines, (B.C. Ltd). Cognac Farms Ltd. and Royal Importers Ltd.

Mr Hayes has recently retired after a career seldom equalled in the annals of municipal service. First elected to the Council of the old Municipal District of Sooke in 1937, he served as councillor for that municipality and for Hospital for 14 continuous period of 23 years. He was Reeve of Sterling and Flagstaff for 26 years.

He served as Vice-president and President of the Alberta Association of Municipal Districts from 1943 until his retirement in '58. He served as a member on the Royal Commission on Metropolitan Development of Calgary and Edmonton, and as municipal representative on the Blue Cross branch of the Association Hospitals of Alberta. For the past ten years he has been president of the Alberta Livestock Cooperative and Alberta representative to the Canadian Livestock Cooperative Association. For 20 years he has served as delegate of District 6 of the Alberta Wheat Pool. From 1947 to 1951 he was president of the Federated Co-operative Services.

With spring coming and also several sewing clinics perhaps a few definitions of terms used in the fabric world might help you in selecting materials for your spring sewing.

1 DRIP-DRY — a crease resistant finish that also makes fabrics faster drying and easier to iron.

2 EVERGLAZE — a trademark that identifies cotton fabrics treated for crease, shrink, stretch that identifies cotton fabrics re soil, spot and mildew control They are handwashable in soap

3 Longlinen — a process that impregnates fibres with lanolin giving them softer smoother finish.

4 MERCERIZED — a chemical treatment of cotton which improve strength and dye infinity, luster, lustre.

5. PRESSA - PRESSED — a wrinkle resistant finish. The rubric is also faster drying.

6. SANFORIZED — a trademark appearing on cotton fabrics indicating that they will not shrink more than 1% when washed.

7 VAT DYED — a drying process used on cotton, rayon and linen fabrics indicating they are fast to laundering, sun fading and rubbing off.

8. WRINKL - SHED — a finish which gives permanent crease resistance, shrinkage control, soil and mildew resistance.

If you look for these when you are buying your spring fabrics you will be more satisfied with the finish and wearing qualities of your garments.

If you should have any problems with your sewing please feel free to bring them to me at any time.

## County School Committee Holds Regular Meeting

(Continued from Page 1)

ance issue, had indicated when he toured the province to the various schools, that the system of taxation for school purposes was a liability rather than an asset. When this was first brought to the attention of the committee it had been suggested that the matter be brought up after the first of the year. Mr Edmond stated that he could make some quite attractive arrangements for new pianos to replace the old ones.

Moved that Mr Edmond be contacted for further information and possible prices on new pianos to iron.

The secretary informed the Committee that Western School Bus and Exchange Limited had on hand some 1960 school buses, and that the price on 1961 models would be increased by approximately $300.00. After some discussion it was moved that we order for immediate delivery one 42 passenger and two 48 passenger school buses.

Mr. W. Brackett representing the local A. T. A. attended the meeting at this time, requesting on behalf of the local A. T. A., increase in the grant for high school activities in the County. Last year and the year before, a grant of $50.00 had been given

Sports budget for 1960 - 61 included the total budget to be approximately $250.00 and this request was that 50% of this be paid by the School Division. This was agreed to and it was moved that the amount of $125. be given as a grant to the local A. T. A. for the sports activities in 1960 - 61

The Superintendent was reported on the death of Michael Melnyk, teacher at Tofield school, and that he, on behalf of the County, had ordered a wreath for the funeral, and that Mr. Arnott had attended the funeral. It was moved that the information be received and the action approved in, and that Mrs. Hazel Patterson of Tofield be appointed to the Tofield School, taking the place of Michael Melnyk, deceased and that Mr. Mary Hardy be appointed to the Viking School.

The Secretary advised that it was necessary to advise the A. T. A. of intent to negotiate amendments, or to renew the present salary agreement, not later than February 28th. It was moved that we offer to renew the present salary agreement for the year 1961 - 62 with item 8.2 concerning the $600.00 allocation for sports equipment to be removed.

The question of the old Rutherford school was brought up. This matter has been referred to the County Council at Hardisty and upon which time the Secretary had informed the Council that this school building and land was transferred to the Rutherglen Community club in 1951. It appeared, however, that the transfer had never been registered, still being lodged with A. Letourneau, Secretary of Viking, and that no interest was being taken in the building. With the result that it was deteriorating extensively. Mr. Hodges informed the Committee that members of the Rutherglen Community Club, which he had contacted, wished the County to take the building back. It was moved that the building be repossessed by the County and offered for sale.
